3. DELEGATED AUTHORITY

In terms of delegation
This report is for DECISION BY

☐ **Committee name** :

☐ The Executive Mayor together with the Mayoral Committee (MAYCO)

☑ Council

4. DISCUSSION

Council must annually adopt a budget for operating revenue and expenditure, capital expenditure and cash flow. Council must also set rates and service charges in order to ensure that sufficient revenue is generated to match proposed expenditure.

The format for adopting municipal budgets is prescribed in the Municipal Finance Management Act (MFMA), the Municipal Budget and Reporting regulations (MBRR) and National Treasury circulars, which require the adoption and noting of a range of issues.

The City's annual budget for 2022/23 – 2024/25 must reflect the revised Integrated Development Plan (IDP).

5 RECOMMENDATIONS

Not delegated: for decision by Council

The 2022/23 MTREF budget resolutions recommend:

1. That the City's annual budget for the financial year 2022/23; and projected allocations for the two outer years 2023/24 and 2024/25, and related policies as set out in the following tables and annexures, be adopted.

    a. Operating revenue and expenditure by standard classification reflected in Table 22.

    b. Operating revenue and expenditure by vote reflected in Table 23.

    c. Operating revenue by source and expenditure by type reflected in Table 25.

    d. Multi-year capital appropriations by vote reflected in Annexure 1.

    e. Capital expenditure by standard classification reflected in Table 26.

    f. Capital funding by source reflected in Table 26.

    g. Budgeted cash flow statement as reflected in Table 28.

    h. Salaries and benefits of political office bearers, councillors and senior officials as reflected in Table 52 and Table 53.

    i. Performance indicators and benchmarks for 2022/23 as set out in Table 36.

    j. Consolidated budget tables for the City and municipal entities (CTICC and CTS) as reflected in Table 99 to Table 108.

    k. Property (Tax) rates as set out in Annexure 2.

    l. City Improvement Districts (CIDs) - Additional Rates as set out in Annexure 3.

    m. Revised consumptive tariffs, rates and basic charges for electricity generation and distribution, water and sanitation and solid waste management services as set out in Annexure 4.

    n. Rates policy as set out in Annexure 5.

    o. Tariffs, fees and charges book as set out in Annexure 6.

    p. Tariff policies as set out in Annexure 7.

Digitally signed by Jason Sam Liebenberg
Date: 2022.05.25 08:46:20 +02'00'

q. Credit control and debt collection policy as set out in Annexure 8 (with effect from 01 June 2022).

r. Grants-in-aid policy as set out in Annexure 9.

s. Policy on accounts payable as set out in Annexure 10.

t. Funding and reserves policy as set out in Annexure 11.

u. Virement policy as set out in Annexure 12.

v. Budget management and oversight policy as set out in Annexure 13.

w. Long term financial plan policy as set out in Annexure 14.

x. Policy governing adjustments budgets as set out in Annexure 15.

y. Unforeseen and unavoidable expenditure policy as set out in Annexure 16.

z. Policy governing planning and approval of capital projects as set out in Annexure 17.

aa. Cost containment policy as set out in Annexure 18.

bb. Municipal entities policy as set out in Annexure 19.

cc. Integrated Development Plan Financial Plan as set out in Annexure 20.

dd. Transfers and grants to external organisations as set out in Annexure 21.

ee. Individual projects with a total project cost in excess of R50 million (to give effect to Section 19(1)(b) of the MFMA and Regulation 13(1)(b) of the MBRR) as reflected in Table 86 and as set out in Annexure 22.

ff. Projected cost covering all financial years until capital projects are operational as well as future operational costs and revenue on projects/programmes, to give effect to sections 19(2) and 19(3) of all projects and programmes as listed in Annexure 22 and Annexure 1.

gg. Detailed capital budget (MBRR Table SA36) as set out in Annexure 23.

hh. Details to capital programmes (2022/23 to 2024/25), as set out in Annexure 24.

ii. Detailed operational projects (MBRR Table SA38) as set out in Annexure 25.

Digitally signed by Jason Sam Liebenberg
Date: 2022.05.25 08:46:32 +02'00'

jj. Operating- and capital ward allocation projects supported by Subcouncils as set out in Annexure 26.

kk. External mechanisms (MBRR Table SA32) as set out in Annexure 27.

ll. Schedule of service delivery standards as set out in Annexure 28.

mm. Iconic and other events to be hosted by the City in 2022/23 as set out in Annexure 29.

nn. Cape Town International Convention Centre (CTICC) (Municipal Entity) - Schedule D (annual budget and supporting tables) as set out in Annexure 30.

oo. Cape Town International Convention Centre (CTICC) (Municipal Entity) - Business plan as set out in Annexure 31.

pp. Cape Town International Convention Centre (CTICC) (Municipal Entity) - Tariffs as set out in Annexure 32.

qq. Cape Town Stadium (CTS) (Municipal Entity) - Schedule D (annual budget and supporting tables) as set out in Annexure 33.

rr. Cape Town Stadium (CTS) (Municipal Entity) - Business plan as set out in Annexure 34.

ss. Cape Town Stadium (CTS) (Municipal Entity) - Tariff policy and tariffs as set out in Annexure 35.

2. That Council notes the intent of the administration to follow MFMA Section 33 processes on items marked with an 'X' as reflected in the Demand (Procurement) Plan as set out in Annexure 36 to the report.

3. That Council notes National Treasury MFMA Circulars 112 and 115 (Municipal Budget Circulars for 2022/23) as set out in Annexure 37 to the report.

4. That Council notes Provincial Treasury Municipal Circular 1/2022 as set out in Annexure 38 to the report.

5. That Council approves an amount of up to R22 million, to be funded within the Rates account, in support of the Council approved Mayor's Special Fund as contemplated in Section 12 of the MFMA.

Digitally signed by Jason Sam Liebenberg
Date: 2022.05.25 08:46:43 +02'00'

6. That Council approves the *Capital Replacement Reserve(CRR): Ward Allocations* for the 2022/23 financial year amounting to R66 780 078 funded from savings identified in the 2021/22 financial year.

7. That Council approves R74 565 996 for 2022/23, R105 000 000 for 2023/24, and R518 850 012 for 2024/25 funded from accumulated surpluses and loan funding, if needed, to provisionally (bridge) fund contractually committed IRT Phase 2A projects generally funded from the NT PTNG:BFI grant, until such time that National Government amends gazetted allocations. The City will review its funding approach on an annual basis as part of the budget process.

8. That the high level summary of changes between the tabled and the proposed budget as reported in Annexure B, be adopted. It should be noted that these changes have already been incorporated into Annexure A of this report.

9. That Council approves the commencement of a process, in compliance with Section 46 of the Municipal Finance Management Act (MFMA), to take up funding to an amount of R2 billion depending on the City's cash flow requirements. Should the cash flow position be sufficient to fund the capital programme either partially or fully, the funding will be adjusted accordingly.

AANBEVELINGS

Nie gedelegeer nie: vir besluitneming deur die Raad

Die 2022/23-MTREF-begrotingsresolusies beveel aan:

1. Dat die jaarlikse begroting van die Stad vir die boekjaar 2022/23; rigtinggewende toewysings vir die twee geprojekteerde buitejare, 2023/24 en 2024/25; en verwante beleide, aangeneem word, soos in die volgende tabelle en bylaes uiteengesit.

   a. Bedryfsinkomste en -besteding per standaardklassifikasie, soos in tabel 22 aangetoon.

   b. Bedryfsinkomste en -besteding per begrotingspos, soos in tabel 23 aangetoon.

   c. Bedryfsinkomste per bron en besteding per tipe, soos in tabel 25 aangetoon.

   d. Veeljaarkapitaalbewilligings per begrotingspos, soos in bylae 1 aangetoon.

   e. Kapitaalbesteding per standaardklassifikasie, soos in tabel 26 aangetoon.

   f. Kapitaalfinansiering per bron, soos in tabel 26 aangetoon.

Digitally signed by Jason Sam Liebenberg
Date: 2022.05.25 08:46:55 +02'00'

g. Begrote kontantvloeistaat, soos in tabel 28 aangetoon.

h. Salarisse en voordele van politieke ampsdraers, raadslede en senior amptenare, soos in tabel 52 en 53 aangetoon.

i. Prestasie-aanwysers en norme vir 2022/23, soos in tabel 36 uiteengesit.

j. Gekonsolideerde begrotingstabelle vir die Stad en die munisipale entiteite (KIKS en Kaapstad-stadion) soos in tabel 99 tot 108 weergegee.

k. Eiendomsbelasting soos in bylae 2 uiteengesit.

l. Stadsverbeteringsdistrikte – bykomende tariewe soos in bylae 3 uiteengesit.

m. Hersiene verbruikstariewe, eiendomsbelasting en basiese heffings vir elektrisiteitsopwekking en -verspreiding, water en sanitasie, en vasteafvalbestuursdienste, soos in bylae 4 uiteengesit.

n. Die beleid oor eiendomsbelasting, soos in bylae 5 uiteengesit.

o. Die boek met tariewe, gelde en heffings soos in bylae 6 uiteengesit.

p. Die tariefbeleide, soos in bylae 7 uiteengesit.

q. Die beleid oor kredietbeheer en skuldinvordering, soos in bylae 8 uiteengesit (met ingang van 1 Junie 2022).

r. Die hulptoelaebeleid, soos in bylae 9 uiteengesit.

s. Beleid oor rekeninge betaalbaar, soos in bylae 10 uiteengesit.

t. Beleid oor befondsing en reserwes, soos in bylae 11 uiteengesit.

u. Virementbeleid, soos in bylae 12 uiteengesit.

v. Beleid oor begrotingsbestuur en toesig, soos in bylae 13 uiteengesit.

w. Beleid oor langtermyn- finansiële planne, soos in bylae 14 uiteengesit.

x. Beleid oor aansuiweringsbegrotings, soos in bylae 15 uiteengesit.

y. Beleid oor onvoorsiene en onvermybare besteding, soos in bylae 16 uiteengesit.

z. Beleid oor die beplanning en goedkeuring van kapitaalprojekte, soos in bylae 17 uiteengesit.

aa. Beleid oor koste-inperking soos in bylae 18 uiteengesit.

bb. Beleid oor munisipale entiteite soos in bylae 19 uiteengesit.

2. Dat die Raad kennis neem van die administrasie se voorneme om die prosesse in artikel 33 van die MFMA te volg ten opsigte van items wat met ’n ‘X’ gemerk is soos in die aanvraag(verkrygings)plan weergegee en uiteengesit in bylae 36 by die verslag.

3. Dat die Raad kennis neem van die nasionale tesourie se MFMA-omsendbriewe 112 en 115 (omsendbriewe m.b.t. munisipale begrotings vir 2022/23), soos in bylae 37 by die verslag uiteengesit.

4. Dat die Raad kennis neem van provinsiale tesourie munisipale omsendbrief 1/2022 soos uiteengesit in bylae 38 by die verslag.

5. Dat die Raad ’n bedrag van tot R22 miljoen goedkeur wat binne die eiendomsbelastingsrekening befonds sal word ter ondersteuning van die Raadsgoedgekeurde oogmerk van die burgemeester se spesiale fonds soos beoog in artikel 12 van die MFMA.

6. Dat die Raad die kapitaalvervangingsreserwe (CRR): wykstoewysings vir die 2022/23-boekjaar ten bedrae van R66 780 078 goedkeur wat befonds sal word vanuit besparings geïdentifiseer in die 2021/22-boekjaar.

7. Dat die Raad R74 565 996 vir 2022/23, R105 000 000 vir 2023/24, en R518 850 012 vir 2024/25 goedkeur, befonds uit opgeloopte oorskotte en leningsbefondsing, indien nodig, aan voorlopige (oorbruggings-) fonds kontraktueel toegewese IRT-fase 2A-projekte, algemeen befonds uit die NT PTNG:BFI-toelaag, totdat die nasionale regering die toewysings in die Staatskoerant wysig. Die Stad sy befondsingsbenadering jaarliks sal hersien as deel van die begrotingsproses.

8. Dat die hoëvlakopsomming van veranderinge tussen die begroting wat ter tafel gelê is en die voorgestelde begroting waaroor in bylae B verslag gedoen word, aangeneem word. Daar moet kennis geneem word dat hierdie veranderinge reeds in bylae A van hierdie verslag geïnkorporeer is.

9. Dat die Raad die aanvang van ’n proses ter nakoming van artikel 46 van die Wet op Plaaslike Regering: Munisipale Finansiële Bestuur (MFMA) goedkeur waarvolgens befondsing ten bedrae van tot R2 miljard opgeneem sal word afhangende van die Stad se kontantvloeivereistes. Sou die kontantvloeiposisie egter voldoende wees om die kapitaalprogram gedeeltelik of ten volle te befonds, sal die befondsing dienooreenkomstig aangepas word.

IZINDULULO

Azigunyaziswanga: isiggibo seseBhunga

Izisombululo zohlahlolwabiwo ezingeMTREF zika2022/23, zindulula:

1. Makumiselwe uhlahlolwabiwomali lonyaka leSixeko lomnyakamali ka2022/23; nezabelo ezihlalutyiweyo kulungiselelwa iminyaka engaphandle ekujoliswe kuyo engeyama2023/24 nowama2024/25 kunye nemigaqonkqubo enxulumene noko, njengoko kuqulunqwe kwiitafile nezihlomelo ezilandelayo.

    a. Ingeniso esebenzisekayo nenkcitho ngokohlelo olusemgangathweni njengoko kubonakalisiwe kwiTafile22.

    b. Ingeniso esebenzisekayo nenkcitho ngokwevoti njengoko kubonakalisiwe kwiTafile23.

    c. Ingeniso esebenzisekayo ngokwentsusa nenkcitho ngokohlobo oluthile njengoko kubonakaliswe kwiTafile25.

    d. Iingqikelelo ezingezimali ezinkulu zomnyaka ngokumbaxa ngokwevoti njengoko kubonakalisiwe kwisihlomelo1.

    e. Inkcitho engezimali ezinkulu ngokohlelo olumiselweyo njengoko kubonakalisiwe kwiTafile26.

    f. Inkxasomali engezimali ezinkulu ngokwentsusa njengoko kubonakaliswe kwiTafile26.

    g. Ingxelo engokuhanjswa kwemali eyikheshi ebhajethelweyo njengoko kubonakaliswe kwiTafile28.

    h. Imivuzo neeNkxamlo/iinzuzo zabezoPolitiko abaseofisini, ooCeba namaGosa aphezulu njengoko kubonakaliswe kwiiTafile52 no53.

8. Makumiselwe isishwankathelo esikwinqanaba eliphezulu notshintsho oluphakathslwabiwomali oludandalaziswe kwiitafile noluphakanyisiweyo njengoko kunikezelwe ingxelo kwisihlomeloB. Kufuneka kuqwalaselwe ukuba olu tshintsho sele luqukiwe kwisihlomeloA kule ngxelo.

9. Ukuba iBhunga maliphumeze ukuqaliswa kwenkqubo, kuthotyelwa icandelo46 loMthetho ongoLawulo lweziMali zikaMasipala (iMFMA), ukuba kuthathwe inkxasomali efikelele kwisixamali esisiR2 lezigi ngezigidi, ngokuxhomekeke kwiimfuno zeSixeko zokuhanjiswa kwemali eyikheshi. Ukuba imeko yokuhanjiswa kwekheshi iye yanela ukuba ixhase ngezimali inkqubo engezimali ezinkulu kusenokuba kwicala elinye okanye ngokupheleleyo, inkxasomali iyakuthi ilungelelaniswe ngokufanelekileyo.

ANNEXURES

Annexure A: Annual budget 2022/23 to 2024/25 – 31 May 2022
Annexure B: High level summary of changes between the tabled and proposed 2022/23 budget

GLOSSARY OF TERMS AND ABBREVIATIONS

Adjustments Budgets – Prescribed in section 28 of the Municipal Finance Management Act, this is the formal means by which a municipality may revise its budget during a financial year.

Allocations – Money received from Provincial- and National Treasury.

Budget – The financial plan of a municipality.

Budget-related policy – Policy of a municipality affecting, or affected by, the budget. Examples include tariff policy, rates policy and credit control and debt collection policy.

Budget Steering committee (BSC) – Committee established to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the MFMA.

Capital Expenditure – Spending on municipal assets such as land, buildings and vehicles. Any capital expenditure must be reflected as an asset on a municipality's balance sheet.

Cash Flow Statement – A statement showing when actual cash will be received and spent by the municipality, and the cash and short-term investment balances.

CGD – Capital Grants and Donations

CCT/City – City of Cape Town

CPI – Headline Consumer Price Index

CRR – Capital Replacement Reserve

CTICC – Cape Town International Convention Centre

CTS – Cape Town Stadium

DMTN – Domestic Medium Term Note

DoRA – Division of Revenue Act. Annual legislation, which shows the allocations from national to local government.

DoRb – Division of Revenue Bill. Annual legislation tabled in parliament, but not enacted, which shows the allocations from national to local government.

Executive Management Team (EMT) - A team comprising of the City Manager and the Executive Directors reporting to the City Manager.

Equitable Share – A general grant paid to municipalities. It is predominantly targeted at assisting municipalities with the costs of free basic services.

GDFI - Gross Domestic Fixed Investment

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates comparisons between municipalities.

IDP – Integrated Development Plan. The main strategic planning document of a municipality.

KPI – Key Performance Indicators. Measure of service outputs and/or outcomes.

MayCO – Mayoral Committee

MBRR – Municipal Budget Reporting Regulations

MFMA - Municipal Finance Management Act (No 53 of 2003). The principal piece of legislation relating to municipal financial management.

MPC – Monetary Policy Committee

mSCOA – municipal Standard Chart of Accounts

MTREF – Medium Term Revenue and Expenditure Framework, as prescribed by the MFMA. It sets out indicative revenue and projected expenditure for the budget year, plus two outer financial years.

MYPD – Multi Year Price Determination

NT – National Treasury

Operating Expenditure – The day-to-day expenses of a municipality such as general expenses, salaries & wages and repairs & maintenance.

Portfolio Committee – In line with S.79 of the Structures Act, the City's Portfolio Committees process policies and by-laws relating to the functional areas within their terms of reference, and are responsible for implementation monitoring of these, as well as oversight of the functional areas. Portfolio Committees are also responsible for assessing and monitoring services delivery, ensuring that annual budgets are spent wisely, and that there is no wastage or corruption.

Rates – Local Government tax based on assessed valuation of a property.

TMA – Total Municipal Account

SDBIP – Service Delivery Budget Implementation Plan. A detailed plan comprising of quarterly performance targets and monthly budget estimates.

SFA – Strategic Focus Areas. The main priorities of a municipality as set out in the IDP. Budgeted spending must contribute towards achievement of these Strategic Focus Areas.

Subcouncils - The metropolitan area governed by the City is divided into subcouncils, each of which is made up of a number of wards. Each ward is made up of a number of suburbs and is represented by a councillor.

Vote – One of the main segments into which a budget is divided, usually at directorate level.

Part 1 - Annual Budget

1.1 Mayor's Report

The best way to tell what a government cares about is by looking at its budget.

We care deeply about growing the local economy faster so that we can lift more people out of poverty.

This budget demonstrates practical manifestation of this government's commitment to:

1. End loadshedding in Cape Town over time by investing in new and renewable sources of energy.
2. Making Cape Town the easiest place to do business in Africa.
3. Making Cape Town safer by deploying hundreds more law enforcement officers, with 150 new officers budgeted for in this budget alone.
4. Investing in better public transport, through a multi-billion rand expansion of the MyCiTi network to Khayelitsha and plan for the coming devolution of passenger rail to the metro.
5. Do the basics better so that every person can live in dignity.
6. Release more land for more affordable housing development in Cape Town.
7. Clean up Cape Town's public spaces, streets and waterways.

In each of these priorities, we've made progress in the first six months of this term.

This budget lays the foundation for Cape Town becoming a city of hope for all; a prosperous, inclusive and safer city where people can look to the future with a sense of optimism again.

We also know that cities must constantly be investing in more, better and newer infrastructure to keep up with the pressures of growth, and to improve basic services and dignity for those who still don't have it.

This budget makes substantial commitments to capital investment in infrastructure required for excellent service delivery.

Water and Sanitation's capital budget allocation of R2,3 billion will enable major infrastructure maintenance and upgrades. This allocation includes: R453 million for the City's future-focused New Water Plan, R168 million for the replacement and upgrading of our sewer network, and R141 million for the rehabilitation of infrastructure on the Cape Flats.

R1 billion is budgeted for capital investment for the Energy directorate, which includes R267 million for transmission system development, R139 million for system equipment replacement, R69.5 million for street lighting, R38 million for medium-Voltage switchgear refurbishment and R46 million for new medium-Voltage system infrastructure. As a commitment to addressing energy poverty, R25 million is allocated for the new electrification of dwellings.

Being instrumental in ensuring the health, dignity and comfort of our communities, Urban Waste Management's capital budget amounts to R647 million, which includes allocations for key projects and programmes.

People cannot lift themselves out of poverty if they cannot get to work and school. People cannot live healthy lives if they cannot attend clinics and hospitals. People cannot thrive if they are not free to move around on accessible and affordable public transport. Accordingly, R1,4 billion is allocated for capital expenditure by the Urban Mobility directorate. This includes R667 million for the South-East-Corridor expansion of the MyCiTi bus system, which will link Mitchell's Plain and Khayelitsha with Claremont and Wynberg.

The safety of our residents and infrastructure is essential for reliable and good quality service delivery. When people, businesses and infrastructure are unsafe, economic growth is thwarted, and it is impossible to address poverty. More fundamentally, it is impossible to lead a dignified life when one is constantly in fear of harm from criminals.

To make Capetonians, their homes and their businesses safer, and to protect the City's infrastructure, we are committing R4,1 billion to Safety Programmes. We are also investing in new infrastructure and systems to enhance our response to crime. Allocations to these capital projects and programmes include R52 million for the 24-hour operationalisation of traffic services and law enforcement, R47 million for CCTV/LPR cameras, R15 million for dashboard cameras, and R38 million for our technology-based emergency policing and incident command (EPIC) programme.

In order to support the most vulnerable Capetonians, we will continue to deliver on the need for housing and the free provision of basic services. R876 million has been allocated to the development of formal housing opportunities. Our package of free basic services to indigent residents will include 15kℓ of water per month per household and 60 kWh of electricity if the household buys less than the basic amount of 250kWh in a month. Furthermore, discounted rates and waste services provision will help to ensure residents without means are supported.

The City recognizes that socially responsible spending on infrastructure and services, especially those which involve the subsidisation of residents who are less well off, requires the imposition of a financial burden on wealthier residents. We thank our ratepayers for their continued support of our goal to make Cape Town a flourishing and prosperous City, and recommit ourselves to being clean, honest, and accountable custodians of their rates contributions.

The commitments in this budget are being met by making realistic, inflation-linked asks on rates and tariff increases, which will provide the funding for maintaining and expanding service delivery, while ensuring affordability of services to all.

The City unashamedly wants to do big, brave and excellent things in Cape Town, because South Africa desperately needs one demonstration that we can still move forward towards the society described in our Constitution.

Ours is a vision of prosperity, dignity and flourishing. In line with this vision, our promise is one of hope for Capetonians, that their lives can and will get better in a city that enables each resident to flourish. Our budget is the means by which we will turn this promise into meaningful action.

This budget and 2022/23 MTREF is hereby tabled for adoption and implementation.

1.2 Council Resolutions

The 2022/23 MTREF budget resolutions recommend:

1. That the City's annual budget for the financial year 2022/23; and projected allocations for the two outer years 2023/24 and 2024/25, and related policies as set out in the following tables and annexures, be adopted.

    a. Operating revenue and expenditure by standard classification reflected in Table 22.
    b. Operating revenue and expenditure by vote reflected in Table 23.
    c. Operating revenue by source and expenditure by type reflected in Table 25.
    d. Multi-year capital appropriations by vote reflected in Annexure 1.
    e. Capital expenditure by standard classification reflected in Table 26.
    f. Capital funding by source reflected in Table 26.
    g. Budgeted cash flow statement as reflected in Table 28.
    h. Salaries and benefits of political office bearers, councillors and senior officials as reflected in Table 52 and Table 53.
    i. Performance indicators and benchmarks for 2022/23 as set out in Table 36.
    j. Consolidated budget tables for the City and municipal entities (CTICC and CTS) as reflected in Table 99 to Table 108.
    k. Property (Tax) rates as set out in Annexure 2.
    l. City Improvement Districts (CIDs) - Additional Rates as set out in Annexure 3.
    m. Revised consumptive tariffs, rates and basic charges for electricity generation and distribution, water and sanitation and solid waste management services as set out in Annexure 4.
    n. Rates policy as set out in Annexure 5.
    o. Tariffs, fees and charges book as set out in Annexure 6.
    p. Tariff policies as set out in Annexure 7.
    q. Credit control and debt collection policy as set out in Annexure 8 (with effect from 01 June 2022).
    r. Grants-in-aid policy as set out in Annexure 9.
    s. Policy on accounts payable as set out in Annexure 10.
    t. Funding and reserves policy as set out in Annexure 11.
    u. Virement policy as set out in Annexure 12.
    v. Budget management and oversight policy as set out in Annexure 13.
    w. Long term financial plan policy as set out in Annexure 14.
    x. Policy governing adjustments budgets as set out in Annexure 15.
    y. Unforeseen and unavoidable expenditure policy as set out in Annexure 16.

z. Policy governing planning and approval of capital projects as set out in Annexure 17.
aa. Cost containment policy as set out in Annexure 18.
bb. Municipal entities policy as set out in Annexure 19.
cc. Integrated Development Plan Financial Plan as set out in Annexure 20.
dd. Transfers and grants to external organisations as set out in Annexure 21.
ee. Individual projects with a total project cost in excess of R50 million (to give effect to Section 19(1)(b) of the MFMA and Regulation 13(1)(b) of the MBRR) as reflected in Table 86 and as set out in Annexure 22.
ff. Projected cost covering all financial years until capital projects are operational as well as future operational costs and revenue on projects/programmes, to give effect to sections 19(2) and 19(3) of all projects and programmes as listed in Annexure 22 and Annexure 1.
gg. Detailed capital budget (MBRR Table SA36) as set out in Annexure 23.
hh. Details to capital programmes (2022/23 to 2024/25), as set out in Annexure 24.
ii. Detailed operational projects (MBRR Table SA38) as set out in Annexure 25.
jj. Operating- and capital ward allocation projects supported by Subcouncils as set out in Annexure 26.
kk. External mechanisms (MBRR Table SA32) as set out in Annexure 27.
ll. Schedule of service delivery standards as set out in Annexure 28.
mm. Iconic and other events to be hosted by the City in 2022/23 as set out in Annexure 29.
nn. Cape Town International Convention Centre (CTICC) (Municipal Entity) - Schedule D (annual budget and supporting tables) as set out in Annexure 30.
oo. Cape Town International Convention Centre (CTICC) (Municipal Entity) - Business plan as set out in Annexure 31.
pp. Cape Town International Convention Centre (CTICC) (Municipal Entity) - Tariffs as set out in Annexure 32.
qq. Cape Town Stadium (CTS) (Municipal Entity) - Schedule D (annual budget and supporting tables) as set out in Annexure 33.
rr. Cape Town Stadium (CTS) (Municipal Entity) - Business plan as set out in Annexure 34.
ss. Cape Town Stadium (CTS) (Municipal Entity) - Tariff policy and tariffs as set out in Annexure 35.

2. That Council notes the intent of the administration to follow MFMA Section 33 processes on items marked with an ‘X’ as reflected in the Demand (Procurement) Plan as set out in Annexure 36 to the report.

3. That Council notes National Treasury MFMA Circulars 112 and 115 (Municipal Budget Circulars for 2022/23) as set out in Annexure 37 to the report.

4. That Council notes Provincial Treasury Municipal Circular 1/2022 as set out in Annexure 38 to the report.

5. That Council approves an amount of up to R22 million, to be funded from within the Rates account, will be allocated in support of the Council approved Mayor's Special Fund as contemplated in Section 12 of the MFMA.

6. That Council approves the *Capital Replacement Reserve(CRR): Ward Allocations* for the 2022/23 financial year amounting to R66 780 078 funded from savings identified in the 2021/22 financial year.

7. That Council approves R74 565 996 for 2022/23, R105 000 000 for 2023/24, and R518 850 012 for 2024/25 funded from accumulated surpluses and loan funding, if needed, to provisionally (bridge) fund contractually committed IRT Phase 2A projects generally funded from the NT PTNG:BFI grant, until such time that National Government amends gazetted allocations. The City will review its funding approach on an annual basis as part of the budget process.

8. That the high level summary of changes between the tabled and the proposed budget as reported in Annexure B, be adopted. It should be noted that these changes have already been incorporated into Annexure A of this report.

9. That Council approves the commencement of a process, in compliance with Section 46 of the Municipal Finance Management Act (MFMA), to take up funding to an amount of R2 billion depending on the City's cash flow requirements. Should the cash flow position be sufficient to fund the capital programme either partially or fully, the funding will be adjusted accordingly.

1.3 Executive Summary

a. Past performance

The key focus of the City is to look after the people of Cape Town, especially the vulnerable, ensuring that the City is welcoming to all people, and making residents feel at home. In order to achieve these key focus areas, the mainstreaming of basic service delivery to informal settlements and backyard dwellers remains a key transformational priority for the City.

Some of the key achievements and highlights of the City's basic service delivery excellence and mainstreaming in the 2020/21 financial year are listed below.

- The City continues to supply informal settlements with electricity, and to provide the infrastructure needed to enable the electrification of qualifying sites. The City has set itself a target of installing 1 500 subsidised electrical connections per year until 2022, and has consistently met and exceeded this target throughout the IDP period. In 2020/21, 1 721 new electricity connections were installed, bringing total installations to 23 628 since 2012/13.

- Residents of Cape Town generate an average of 4 400 tons of waste every day, or approximately 1,6 million tons every year. The City's Urban Waste Management directorate is mandated to manage this waste and provides a basic refuse collection service to all formal properties in Cape Town and to 99.79% of known informal settlements.

- The City's human settlements programme is focused on the promotion of transit-oriented development as a means of addressing and reversing apartheid legacy planning. Creating affordable housing on well-located land close to public transport and job opportunities is a cornerstone of the City's efforts to bring redress and greater parity of services and opportunities to all residents in Cape Town. The City's Human Settlements directorate spent 97% of its Urban Settlement Development Grant capital budget in the 2020/21 financial year, despite the impact of COVID-19 and the lockdown. The City created 4 950 (target 4 850) housing opportunities (service sites and top structures) in the 2020/21 financial year, bringing the total to 63 552 since 2012/13.

- Since 2014, the Informal Settlements department has installed 3 402 water and sanitation points in the homes of backyard dwellers on City rental property. This water and sanitation provision project will continue with the roll-out of a further 2 000 of such services to backyard dwellers. The City Installed 799 (target 700) taps and 3 428 (target 2 500) toilets in informal settlements in the 2020/21 financial year, bringing the total to 8 999 and 33 856 respectively since 2012/13.

b. Total Budget

The total budget quantum for the 2022/23 financial year is R61 264 million, of which R53 797 million (87.8%) is allocated to the operating budget and R7 467 million (12.2%) to the capital budget.

c. Operating Budget

Expenditure

Total operating expenditure for the 2022/23 financial year amounts to R53 797 million and is split into the following expenditure component:

Table 1 - Expenditure components of the 2022/23 budget

Category R Thousand	Budget 2021/22 (Original)	Budget 2022/23	Year-on-year
Employee related costs	15 612 505	17 322 936	10.96%
Remuneration of councillors	179 826	176 133	-2.05%
Debt impairment	2 716 859	2 316 909	-14.72%
Depreciation & asset impairment	3 013 855	3 208 222	6.45%
Finance charges	794 747	862 999	8.59%
Bulk purchases - electricity	11 182 400	12 350 900	10.45%
Inventory consumed	3 703 847	5 214 790	40.79%
Contracted services	7 960 362	8 572 922	7.70%
Transfers and subsidies	464 263	391 480	-15.68%
Other expenditure	2 632 042	2 927 064	11.21%
Losses	14 124	452 697	3105.12%
Total Expenditure	48 274 831	53 797 051	11.44%

Major components for 2022/23 include:

- **Employee related costs – R17 323 million**

  Employee related costs amounts to R17 323 million in 2022/23, which equates to 32.2% of the total operating expenditure. The year-on-year increase of 10.96% is as a result of the wage award of 3.5% applied in the January 2022 adjustments budget, the 2022/23 SALGBC guideline for the budget year of 4.9%, and additional allocations for service enhancements.

- **Remuneration of councillors – R176 million**

  The cost associated with the remuneration of councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). No increase was implemented in the 2021/22 financial year. A 4.9% increase was provided for in the 2022/23 budget and was calculated on current scales.

- **Bulk Purchases - Electricity – R12 351 million**

  This provision is for the purchase of electricity from Eskom and is influenced by consumer behaviour. In this regard, annual price increases have been factored into the budget appropriations, which in turn impacts on the tariff requirements for these tariff-based services.

- **Debt Impairment – R2 317 million**
  This allocation is influenced by current projected collection rates and the budgetary treatment of fines as prescribed in the iGRAP1 Accounting Standard, which states that fines should be budgeted for at 100% of fines issued. Prior to iGRAP1 implementation, the City accounted for revenue from fines on the basis of estimated collectable revenue. A provision for the amount deemed uncollectable has been included in the budget, which is based on collection rates achieved to date and projected over the MTREF period, as well as the City's arrears and debt recovery policies. Reduced debt impairment provisions is due to anticipated movement of debtors and write offs that occur during the financial year.

- **Finance charges- R863 million**
  This category consists primarily of the repayment of interest on long-term borrowing (cost of capital) of the 2022/23 operating expenditure (excluding redemption costs). The increase over the 2022/23 MTREF is informed by existing and new loans, which will be taken up to fund the City's capital programme, and the projected interest loan service charges over this period.

- **Contracted services – R8 573 million**
  This category includes repairs and maintenance provisions, service enhancements allocated during the SMF process, and mayoral priority programmes.

- **Other expenditure - R2 927 million - includes provisions for, inter alia:**
  - IDS/CIDS (Special Rating Areas) - R307 million
  - Software Licences - Upgrade/Protection - R265 million
  - Specialised Information Technology Services - R208 million
  - Electricity Costs - R187 million
  - Indigent Relief: Electricity (Eskom) - R149 million
  - Uniform & Protective Clothing - R132 million
  - Levy: Skills Development - R123 million
  - Bulk Water: Levy (Berg Water Project) - R100 million
  - Operating Leases – R102 million

- **Losses – R453 million**
  The increase in losses is primarily as a result of a change methodology in line with mSCOA requirements, which required Bulk Water purchases to be reflected in the City's accounting system as an Inventory item. The change in approach impacted on the "inventory consumed" (water used), "losses" (real and apparent water losses) and "gains" on the revenue side. The net effect of the expenditure increases and the revenue increases will correlate to the previous value of "Bulk Purchases".

Staff cost growth

Employee related costs amounts to R17 323 million in 2022/23, which equates to 32.2% of the total operating expenditure. The 2022/23 cost of living increase, as per the SALGBC wage agreement, is CPI % for 2022 as projected by the January Monetary Policy Committee (MPC) 2022, and amounts to 4.9%, which was used when calculating the 2022/23 staff budget.

The year-on-year increase of 10.96% as reflected in the ensuing table is attributable to the proposed additional posts for service enhancements to drive the priorities and programmes of the new Integrated Development Plan (IDP), 24-hour operationalisation for Traffic & Law Enforcement, allocations to address capacity gaps relating to the Core Application Review (CAR) and the Broadband Implementation Project (BIP), Centralisation of Fleet Tenders & Contract Management and a 2% notch increment for T-grades 13 and lower.

It is important to note that, all City vacancies were reviewed and reprioritised to reduce the wage bill.

Table 2 - Staff cost per vote (directorate)

Vote (Directorate) R Thousand	Budget 2021/22 (Original)	Budget 2022/23	Year-on-year
Vote 1 - Community Services & Health	2 439 202	2 605 336	6.81%
Vote 2 - Corporate Services	1 480 398	1 685 260	13.84%
Vote 3 - Economic Growth	299 752	311 056	3.77%
Vote 4 - Energy	1 407 667	1 528 845	8.61%
Vote 5 - Finance	1 109 542	1 170 602	5.50%
Vote 6 - Future Planning & Resilience	294 283	344 288	16.99%
Vote 7 - Human Settlements	443 735	477 038	7.51%
Vote 8 - Office of the City Manager	254 265	279 147	9.79%
Vote 9 - Safety & Security	2 992 442	3 369 346	12.60%
Vote 10 - Spatial Planning & Environment	615 734	656 433	6.61%
Vote 11 - Urban Mobility	843 169	907 395	7.62%
Vote 12 - Urban Waste Management	1 228 247	1 373 137	11.80%
Vote 13 - Water & Sanitation	2 204 068	2 615 054	18.65%
Total staff costs	15 612 505	17 322 936	10.96%

The following allocations were included in the staff budget:

- R92 million for the 24-hour operationalisation for Metro Police, Law Enforcement, and Traffic departments; and R3.2 million for EPIC capacity (Safety & Security):
- R35 million for contract management (various directorates);
- R18 million for Centralisation of Fleet Tenders and Contract Management to address backlogs, improve turnaround times, quality- and vendor management, and to maximise in-house capacity within the workshops;
- R2.1 million for stormwater supplementary staff (Water & Sanitation); and
- Allocations relating CAR and Broadband projects (Corporate Services).

Revenue

Operating revenue for the 2022/23 financial year amounts to R53 286 million.

Table 3 - Revenue categories of the 2022/23 budget

Category R Thousand	Budget 2021/22 (Original)	Budget 2022/23	Year on year
Revenue By Source			
Property rates	10 984 132	11 519 486	4.87%
Service charges - electricity revenue	15 734 566	17 241 469	9.58%
Service charges - water revenue	3 556 345	3 928 012	10.45%
Service charges - sanitation revenue	1 775 113	2 014 506	13.49%
Service charges - refuse revenue	1 330 442	1 381 241	3.82%
Rental of facilities and equipment	350 647	389 180	10.99%
Interest earned - external investments	855 119	1 118 566	30.81%
Interest earned - outstanding debtors	449 452	367 515	-18.23%
Dividends received	–	–	-
Fines, penalties and forfeits	1 247 015	1 262 193	1.22%
Licences and permits	67 110	73 251	9.15%
Agency services	261 614	271 616	3.82%
Transfers and subsidies	5 650 364	6 260 172	10.79%
Other revenue	3 328 606	3 466 403	4.14%
Gains	2 053 058	3 992 365	94.46%
Total Revenue (excluding capital transfers and contributions)	47 643 584	53 285 975	11.84%

Major components for 2022/23 include:

- **Property rates (R11 519 million)**
  The increase on Property Rates revenue income was kept at 4.87%. This increase translates into a 5.2% increase in the rate-in-the-Rand for residential properties, the provision of minimum level service delivery and increased support to those negatively affected by the pandemic. No organic growth is projected for Property Rates for 2022/23 as a result of numerous factors including the limited ability of the construction industry to respond to development needs after a further 12% contraction in 2021 and a 20% contraction in the 2020 financial year. No growth is projected for 2023/24 while a 0.25% growth is projected for 2024/25.

- **Service charges – electricity revenue (R17 241 million)**
  NERSA approved an average percentage price increase of 9.61% to Eskom for the 2022/23 financial year. This increase translates to a 8.61% increase for municipalities, which in turn translates into a 9.5% average increase for City supplied consumers.

- **Service Charges – Water Revenue (R3 928 million) and Sanitation Revenue (R2 015 million)**
  The 2022/23 revenue projections are based on Level Water Wise (no restriction) tariffs as from 1 July 2022. A growth of 4% is projected for water and 3% for sanitation for the 2022/23 financial year.

- **Transfers and Subsidies (R6 260 million - National and Provincial allocations)**
  For purpose of budget compilation, national allocations are based on the 2022 DoRB (B6-2022), and Government Gazette No. 45903 of 11 February 2022. Provincial allocations are based on Provincial Gazette 8566 dated 14 March 2022.

Individual service tariffs/Rates

The proposed tariff increases in the table below are averages; i.e. some ratepayers and service users may pay more and others less than the average as a result of the impact of rebates, usage/consumption, property value and type of consumer.

Table 4 - Average Tariff increases for the 2022/23 MTREF

Category	Base Year 2021/22	Budget Year 2022/23	Budget Year +1 2023/24	Budget Year +2 2024/25
Electricity	13.48%	9.50%	15.56%	13.37%
Water	5.00%	6.50%	5.00%	8.80%
Sanitation	5.00%	6.50%	5.00%	8.80%
Refuse	3.50%	5.00%	5.00%	5.00%
Disposal	4.41%	5.00%	5.00%	10.45%

Rates

There is an increase of 5.21% in the rate-in-the-rand from 0.006030 to 0.006344 for 2022/23.

The rate-in-the-rand for all categories of Property Rates for the 2022/23 financial year is reflected in the Tariffs, Fees and Charges Book (Annexure 6).

Definitions and listing of categories are reflected in the Rates Policy (Annexure 5).

Electricity

The electricity average revenue increases are 9.50%, 15.56% and 13.37%, respectively over the 2022/23 MTREF.

Details of changes to the Electricity tariffs are reflected in Annexure 4.

Proposed tariffs are reflected in the attached Tariffs, fees and charges book (Annexure 6).

Water & Sanitation

The average increase applied is 6.5% for 2022/23, 5.0% for 2023/24 and 8.8% for 2024/25.

The proposed consumption-based, as well as miscellaneous tariffs, are shown in the attached Tariffs, Fees and Charges Book (Annexure 6).

Solid Waste

An average increase of 5% has been applied on the consumptive tariffs for collections and disposal.

The details of changes to Solid Waste tariffs are reflected in Annexure 4.

Proposed tariffs are reflected in the attached Tariffs, Fees and Charges Book (Annexure 6).

d. Capital Budget

The total capital budget amounts to R7 467 million in the 2022/23 financial year and will be funded as reflected in the ensuing table.

Table 5 - Capital funding sources for 2022/23

Major Capital Funding Sources R Thousand	Budget 2022/23
Capital Grants & Donations (CGD)	2 271 867
Capital Replacement Reserve (CRR)	1 364 428
External Financing Fund (EFF)	3 750 729
Revenue (Internal funding source)	80 369
Total	**7 467 394**

All projects proposed for inclusion in the 2022/23 capital budget were assessed against implementable delivery plans to comply with, inter alia, implementation readiness, tender readiness (must be on the City's Demand Plan), strategic alignment and capacity to implement.

Certain projects were included to assist the Executive Mayor to address specific identified priorities and these projects will have increased visibility on the implementation progress, once approved, during monthly engagements with directorates.

Major capital expenditure is planned in 2022/23 for the following directorates:

- Energy - R1 012 million
- Human Settlements - R884 million
- Urban Mobility - R1 379 million
- Urban Waste Management - R647 million
- Water & Sanitation - R2 344 million

Table 6 - Selection of new sundry projects in the 2022/23 capital budget

Directorate R Thousand	Description	Budget 2022/23
Community Services & Health	Chapman's Peak Park - Upgrade	1 000
	Delft Central Sport field - Fencing	1 000
	Heideveld Old ECD Building - Upgrade	3 800
	Philippi East Community Centre - Security Hardening	1 000
	Strandfontein Clubhouse Development	2 000
	Vygieskraal Sportsgrounds - Floodlight replacement	2 500
Economic Growth	Informal Trading Permitting System Enhancement	11 310
Human Settlements	Hanover Park - High Security Fencing	3 500

Replace & Upgrade Water Network	109 500
Treated Effluent Re-Use	33 500
Water Meter Replacement Programme	153 135

1.4 Operating Revenue Framework

The City's revenue quantum is determined by setting a package of tariffs that is not only considered affordable to its ratepayers and the users of its services, but deemed to be at fair and realistic levels when viewed in context of its programmes to assist those who do not have the means to pay.

The City's revenue strategy is built around the following key components:

- National Treasury's guidelines and macro-economic policy;
- Projected City growth and continued economic development;
- Realistic revenue management, which provides for achieving collection rate targets;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- Setting of trading services' user charges at levels that are reflective of these services' cost-recovery nature;
- The City's Property Rates policy approved in terms of the Municipal Property Rates Act, 2004 (Act6 of 2004) (MPRA); and
- The lingering impact of the COVID-19 pandemic on various revenue sources.

The following table is a summary of the 2022/23 MTREF (classified by main revenue source):

Table 8 - Summary of Revenue classified by main revenue sources

Description	2022/23 Medium Term Revenue & Expenditure Framework		
R thousand	Budget Year 2022/23	Budget Year +1 2023/24	Budget Year +2 2024/25
Revenue By Source

Other revenue	3 466 403	3 472 498	3 579 018
Gains	3 992 365	4 086 014	4 289 972
Total Revenue (excluding capital transfers and contributions)	**53 285 975**	**57 081 926**	**61 290 550**

The following table shows the main revenue sources as a percentage of the total revenue budget:

Table 9 - Revenue by source as a percentage of total budget

Description	2022/23 Medium Term Revenue & Expenditure Framework					
R thousand	Budget Year 2022/23	%	Budget Year +1 2023/24	%	Budget Year +2 2024/25	%
Revenue By Source						
Property rates	11 519 486	21.6%	12 132 471	21.3%	12 858 482	21.0%
Service charges - electricity revenue	17 241 469	32.4%	19 624 539	34.4%	21 913 943	35.8%
Service charges - water revenue	3 928 012	7.4%	4 121 615	7.2%	4 523 452	7.4%
Service charges - sanitation revenue	2 014 506	3.8%	2 155 521	3.8%	2 366 762	3.9%
Service charges - refuse revenue	1 381 241	2.6%	1 501 125	2.6%	1 629 348	2.7%
Rental of facilities and equipment	389 180	0.7%	405 996	0.7%	423 707	0.7%
Interest earned - external investments	1 118 566	2.1%	1 119 454	2.0%	970 357	1.6%
Interest earned - outstanding debtors	367 515	0.7%	383 143	0.7%	399 529	0.7%
Dividends received	–	0.0%	–	0.0%	–	0.0%
Fines, penalties and forfeits	1 262 193	2.4%	1 264 511	2.2%	1 266 932	2.1%
Licences and permits	73 251	0.1%	76 474	0.1%	79 839	0.1%
Agency services	271 616	0.5%	283 567	0.5%	296 044	0.5%
Transfers and subsidies	6 260 172	11.7%	6 454 997	11.3%	6 693 166	10.9%
Other revenue	3 466 403	6.5%	3 472 498	6.1%	3 579 018	5.8%
Gains	3 992 365	7.5%	4 086 014	7.2%	4 289 972	7.0%
Total Revenue (excluding capital transfers and contributions)	53 285 975	100.0%	57 081 926	100.0%	61 290 550	100.0%
Total Revenue from Rates & Service Charges	36 084 714	67.7%	39 535 272	69.3%	43 291 988	70.6%

In line with the formats prescribed by the Municipal Budget and Reporting Regulations (MBRR), capital transfers and contributions are excluded from the statement of financial performance, as inclusion of these revenue sources would distort the calculation of the operating surplus/deficit.

Rates and Service Charges makes up 67.7% of the City's total revenue mix for 2022/23. Services charges – electricity revenue makes up the largest revenue source totaling R17 241 million (32.4% of total revenue). Property rates is the second largest revenue source totaling R11 519 million (21.6% of total revenue).

Transfers and subsidies (operating grants and transfers) total R6 260 million (11.7% of total revenue), and increases to R6 693 million by 2024/25. For purpose of budget compilation, national allocations are based on the 2022 Division of Revenue Bill (B6-2022), and Government Gazette No. 45903 of 11 February 2022. Provincial allocations are based on Provincial Gazette 8566, dated 14 March 2022.

1.4.1 Property (Tax) Rates (refer Annexure 2)

Property rates are levied in accordance with Council policies, the Local Government: Municipal Property Rates Act 2004 (MPRA), the MPRA Regulations, and the Local Government: Municipal Finance Management Act 56 of 2003.

Property rates are based on values indicated in the General Valuation Roll 2018 (GV) with the date of valuation being 2 July 2018.

The rate-in-the-rand for Property Rates for the 2022/23 financial year is set out in Annexure 2.

The definitions and listing of categories are reflected in the Rates Policy attached as Annexure 5.

The proposed rates tariffs are shown in the Tariffs, Fees and Charges Book attached as Annexure 6.

1.4.2 Water and Sanitation and Impact of Tariff Increases (refer Annexure 4)

The Water and Sanitation Consumptive Tariffs are levied to recover the costs of providing the services.

The proposed tariff increases are predominantly due to the water augmentation plan to ensure security of water supply, upgrades and extensions to the wastewater treatment plants, water demand management initiatives, ensuring the management of assets at appropriate levels, sustain and enhance the maintenance programs as well as supplying water and sanitation at appropriate compliance, capacity, skills, service delivery and responsiveness levels. This includes enhanced focus on the ageing sewer network infrastructure as well as upgrading of the sewer pump stations.

The proposed consumption-based, as well as miscellaneous tariffs, are reflected in Tariffs, Fees and Charges Book attached as Annexure 6.

The ensuing tables show the proposed tariffs for water and sanitation for the 2022/23 financial year.

1.4.3 Solid Waste Management and impact of Tariff Increases (refer Annexure 4)

Solid Waste tariffs are levied to recover the cost of services provided directly to customers and include refuse collection fees, disposal fees, compost sales, weighbridge fees and other ad hoc services.

Proposed tariffs are shown in the Tariffs, Fees and Charges Book attached as Annexure 6.

The ensuing table shows the comparison between current and proposed waste removal fees for the 2022/23 financial year.

Table 15 - Comparison between current and proposed waste removal fees

SERVICES RENDERED	UNIT	REMARKS To be read in conjunction with Definitions (refer annexures)	VAT Yes/No	Current 2021/22 R excl. VAT	Proposed 2022/23 R excl. VAT	Increase R excl. VAT	Percentage change
Black lid 240L container service (R/blacklid) - Residential properties							
Basic container service: Residential collection based on a once-per week 240L service per household/service point in suburbs containerised.	Per month	Account to property owner. Basic container service (weekly service is 1x 240L Black lid container per week).	y	142.00	**149.13**	7.13	5.02%
Additional once-per-week 240L service (Black lid 240L)	Per additional 240 L container per month	Enhanced service level. (Additional service of 240L Black lid container(s) serviced on the same day as the normal weekly service. Per fixed agreement - not variable).	y	142.00	**149.13**	7.13	5.02%
Three times per week for cluster	per month	Account to property owner. Basic container service (weekly service is 3x 240L Black lid container per week).	y	426.00	**447.30**	21.30	5.00%
Black lid 240L container service (R/blacklid) - Non-Residential properties							
240L container (1 per week)	Per month	Account to property owner. Container service delivered to non-residential areas (Weekly service is 1x 240L Black lid container per week.).	y	169.65	**178.17**	8.52	5.02%
240L container (3 per week)	Per month	Account to property owner. Container service thrice per week.	y	508.70	**534.17**	25.47	5.01%
240L container (5 per week)	Per month	Account to property owner. Container service five times per week.	y	848.09	**890.52**	42.43	5.00%
Refuse Availability - Vacant land							
Availability charge on vacant land	Per month	All vacant erven subjected to Availability Charge	y	84.17	**88.35**	4.18	4.97%
Disposal Services							
General Waste	Per metric ton or part thereof	Applicable to all disposal sites, transfer stations and compost plants	y	556.61	**584.43**	27.82	5.00%
Special/Hazardous waste	Per metric ton or part thereof	As determined by the site weighbridge. Applicable for disposal at Vissershok landfill only. Subject to prior permitting.	y	737.74	**774.61**	36.87	5.00%
Builders Rubble	Per metric ton or part thereof	Applicable to all Landfill Sites	y	23.04	**24.17**	1.13	4.90%

1.4.4 Sale of Electricity and Impact of Tariff Increases (refer Annexure 4)

The proposed revisions to the tariffs have been formulated in accordance with the City of Cape Town Tariff and Rates Policy and comply with Section 74 of the Municipal Systems Act.

In terms of section 75A of the Local Government Municipal Systems Act, any fees, charges or tariffs which a municipality may wish to levy and recover in respect of any function or service of the municipality, must be approved by a resolution passed by the municipal council with a supporting vote of a majority of its members.

The Electricity Regulation Act requires that proposed revisions to the electricity consumption based tariffs be submitted to the Regulator for approval prior to implementation. Provisional approval will therefore be requested with the express proviso that any alterations required by Council will be submitted to the Regulator as soon as possible.

The Consumptive Tariff Schedule includes a note indicating that the tariffs are applied in accordance with the terms and conditions as contained in the Electricity Tariff Policy.

On 9 March 2022, NERSA approved a tariff increase to direct Eskom customers of 9.61%. This then equates to a 8.61% increase to Municipalities. To date, NERSA have not issued a finalised Guideline increase for regulated tariffs to Municipalities (the draft for consultation contained a Guideline increase of 7.47%, but this calculation contains several errors and does not in any way allow for changes in the amount of electricity sold).

CPI was set by the City at 4.6% for the coming financial year, and, together with the above bulk purchases increase, other required expenditure items and a reduction in sales volumes of 1.5% on a restated sales base for 2021/22 (increased by 0.7%), means that a total tariff increase of 9.5% is required for the coming financial year.

The unregulated portion of the tariff is made up of the Contribution to Rates (R1 783 million, or 24.75c/kWh on relevant energy portions) and the cost of street lighting (R533 million or 6.67c/kWh). Subsidised energy tariffs (Lifeline Block 1 and Investment Incentive tariffs) only attract the street lighting portion, while the remainder attract both the Contribution to Rates amount and the street Lighting portion, for a total of 31.42c/kWh (as per the Consumptive Tariff Schedule in Annexure 6).

These increases are in line with the guidelines established in the Medium Term Revenue and Expenditure Framework.

Present electricity tariffs were approved by Council on 26 May 2021 and by NERSA on 14 July 2021, and were implemented with effect from 1 July 2021.

The proposed tariffs are shown in the Tariffs, Fees and Charges Book (Annexure 6).

The ensuing table shows the comparison between current and proposed electricity charges (domestic consumption) the 2022/23 financial year.

Table 16 - Comparison between current and proposed electricity charges (domestic consumption)

Category	Unit	Steps	VAT yes/no	Current 2021/22 c/kWh (excl VAT)	Proposed 2022/23 c/kWh (excl VAT)	Difference (Increase)	Percentage change
Lifeline INCLUDING the FBE portion	Energy Charge (c/kWh)	0-350kWh	y	142.86	156.43	13.57	9.50%
		350.1+ kWh	y	288.05	315.41	27.36	9.50%

* Middle Income Range: Based on property value of R700 000, 1000 kWh electricity and 30kl water
* Affordable Range: Based on property value between R500 000 and R700 000, 500 kWh electricity and 25kl water
* Indigent' Household receiving free basic services: Based on property value of R300 000, 350kWh electricity (25 kWh electricity free)

1.5 Operating Expenditure Framework

The City's expenditure for the 2022/23 budget and MTREF is informed by the Long Term Financial Plan (LTFP) theme of getting to a realistic, deliverable MTREF within a revenue envelope which is credible and affordable to its ratepayers, consumptive users and stakeholders. This strategy is discussed in detail in the *Overview of budget assumptions applied to the 2022/23 MTREF* section on page 104.

A differentiated budgeting approach, principles of cost containment, elimination of wasteful expenditure and reprioritisation of spending were some of the technical imperatives when preparing the MTREF, in light of the lingering impact of the COVID-19 pandemic.

Based on 2020/21 outcomes/past year's performance the following budget principles were applied:

- A zero % increase was applied to Other Expenditure, Contracted Services and Inventory Consumed (excluding Water Inventory) for all directorates for the 3 years of the MTREF;
- A CPI increase for overtime was only afforded to Safety & Security. No increases were applied to other directorates; and
- Differentiated parameters were applied to repairs and maintenance based on the nature of expenditure, the nature of service department and previous performance.

In response of the SMF Operational Review and subsequent amended Strategic Brief to address the Mayoral priorities towards driving the priorities and programmes in the new IDP, an amount of R110.2 million was allocated to various directorates as reflected in the table below.

Directorate	Nature of Expenditure	Salaries, Wages and Allowances	Contracted Services	Repairs & Maintenance	Material & Other Expenditure	Total
Corporate Services	Contract Management Function for each directorate	24 500 000	-	-	-	24 500 000
Urban Mobility	Continue to Maintain the Road Network	-	-	15 000 000	-	15 000 000
Community Services & Health	Expansion and Maintenance of Cremator Facilities	-	5 000 000	10 000 000	-	15 000 000
Safety & Security	Aerial ISR Technology (Drone)	-	-	-	12 000 000	12 000 000
Urban Mobility	Stormwater Maintenance	-	-	10 000 000	-	10 000 000
Energy	Transactional Advisory Services for the IPP Programme	-	10 000 000	-	-	10 000 000
Corporate Services	Call Centre Integration Project	-	5 000 000	-	-	5 000 000
Safety & Security	CCTV Maintenance	-	-	5 000 000	-	5 000 000
Spatial Planning & Environment	Steenbras Dam pollution prevention	-	-	2 000 000	3 000 000	5 000 000
Safety & Security	Additional HR Capacity for EPIC	3 197 862	-	-	-	3 197 862
Spatial Planning & Environment	Pollution in three recreational vleis (Rietvlei, Zandvlei and Zeekoevlei) – remedial plans		900 000	1 500 000	-	2 400 000
Water & Sanitation	Stormwater Supplementary Staff	2 100 000	-	-		2 100 000
Safety & Security	Neighourhood Watch equipment and tools		-	-	1 000 000	1 000 000
Total		**29 797 862**	**20 900 000**	**43 500 000**	**16 000 000**	**110 197 862**

A further R318 million was included in the 2022/23 operating budget to cater for specific aspects of priorities and programmes in the new IDP, for the public participation outcome and requirements post tabling of the budget. The details of this allocation is indicated in the table below.

Directorate/Department	Priority/Programme	Amount
Rates Funded Services		
Energy: Sustainable Energy Markets	End Loadshedding	48 600 000
Human Settlements	Land release	5 000 000
Community Services & Health	Safe Spaces	11 000 000
Safety & Security	24-hour operationalisation for Traffic, Metropolice and Law Enforcement	91 207 000
Spatial Planning & Environment	Water ways and recreational vleis, Strandfontein pavilion upgrading	8 556 000
Urban Mobility	Road maintenance	25 000 000
Urban Waste Management	Public engagement project: EPWP job creation opportunities	13 249 000
	Waste minimisation: Informal settlements	30 000 000
	Area cleaning on the N2	10 000 000
Corporate Services	Centralisation of fleet tenders and contract management to address backlogs, improve turn-around time, quality- and vendor management, and to maximise in-house capacity within workshops.	18 000 000
Total Rates Funded		**260 612 000**
Tariff Funded Services		
Urban Waste Management	Collections: Backyarder services	30 000 000
Water & Sanitation	Sanitation and environment	27 600 000
Total tariff funded Services		**57 600 000**
TOTAL		**318 212 000**

These additional requirements were funded by a combination of higher than anticipated Fuel Levy and Equitable Share allocations, and reprioritisation of expenditure.

The following table shows operating expenditure, classified by main type, over the 2022/23 MTREF.

Table 18 - Summary of operating expenditure by main type

Description	2018/19	2019/20	2020/21	Current Year 2021/22			2022/23 Medium Term Revenue & Expenditure Framework

Losses	187 081	84 988	97 246	14 124	647 747	647 747	452 697	479 132	502 982
Total Expenditure	36 079 030	39 963 970	43 160 260	48 274 831	51 237 836	51 237 836	53 797 051	57 796 204	62 109 851

Employee related costs amounts to R17 322 million in 2022/23, which equates to 32.2% of the total operating expenditure. The 2022/23 cost of living increase, as per the SALGBC wage agreement, is CPI % for 2022 as projected by the January Monetary Policy Committee (MPC) 2022, and amounts to 4.9%, which was used when calculating the 2022/23 staff budget. The cost associated with the remuneration of councillors is determined by the Minister of Co-Operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). No increase was implemented in the 2021/22 financial year. A 4.9% increase is provided in the City's 2022/23 budget.

Provision for debt impairment equates to R2 317 million in 2022/23 and reduces to R2 244 million in 2024/25 based on projected collection rates as well as the City's Credit Control & Debt Collection policy.

Budgeted appropriations for Depreciation & Asset Impairment, which is linked to the capitalisation rate of assets, total R3 208 million for 2022/23. The calculation of depreciation on new capital expenditure is based on variables such as asset class and the lifespan of the asset depending on its nature. Depreciation of existing assets is calculated based on simulated financial system (SAP) data, which reflects actual values per annum. Assets Under Construction (AUC) are calculated based on asset class lifespan and projected capitalisation dates.

Finance Charges consist primarily of the repayment of interest (cost of capital) on long-term borrowing. It equates to 1.6% (R863 million) of the 2022/23 operating expenditure (excluding redemption costs) and increases to R1 541 million in 2024/25. The increase over the 2022/23 MTREF is informed by existing and new loans that will be taken up to fund the City's capital programme and the projected interest loan service charges over this period.

Budgetary provision for Bulk Purchases - Electricity totals R12 351 million for 2022/23 an is influenced by the purchase of electricity from Eskom, which is informed by consumer behaviour. In this regard, annual price increases have been factored into the budget appropriations, which in turn impacts on the tariff requirements for these tariff-based services.

Inventory Consumed caters for sundry items such as the bulk water, fuel, materials for maintenance, cleaning materials and chemicals. This category is projected at R5 215 million in 2022/23 increasing to R5 845 million by 2024/25.

The Contracted Services expenditure component includes provisions for repairs and maintenance, and additional allocations for service delivery enhancements. Expenditure levels are projected at R8 573 million in 2022/23 escalating to R8 885 million in 2024/25.

Other expenditure of R2 927 million, includes provision for, inter alia:

- MIDS/CIDS (Special Rating Areas) - R306 million
- Software Licences - Upgrade/Protection - R266 million
- Specialised Information Technology Services - R208 million
- Electricity Costs - R186 million
- Indigent Relief: Electricity (Eskom) - R149 million
- Uniform & Protective Clothing - R131 million
- Levy: Skills Development - R123 million
- Bulk Water: Levy (Berg Water Project) - R100 million
- Operating Leases – R340 million

Figure 1 below provides a graphical breakdown of the main expenditure categories for 2022/23.

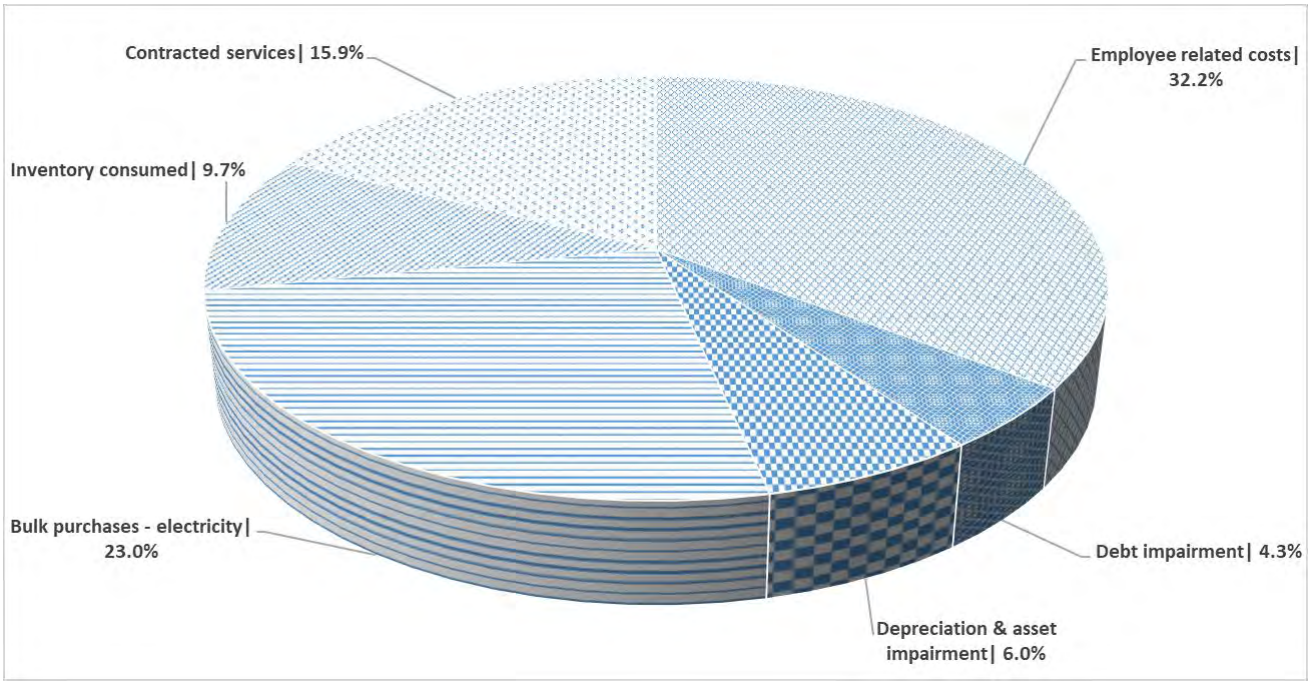

Figure 1 Main operational expenditure categories for the 2022/23 financial year

1.5.1 Priority given to Repairs & Maintenance

The City acknowledges its obligation to optimally preserve its extensive asset base and recognises current inherent backlogs in this regard. Repairs and maintenance growth is based on the previous year's actual expenditure, service delivery needs and efficiencies identified.

A 5% growth was applied to the following directorates: Corporate Services (Fleet Management department); Water & Sanitation; Urban Mobility; Human Settlements; and Community Services & Health.

A CPI growth was applied within the Corporate Services directorate and the Energy directorate.

Zero growth was applied to the rest of the directorates/departments.

In terms of the MBRR, operational repairs and maintenance is not considered a direct expenditure driver but an outcome of other expenditure i.e. remuneration, inventory and contracted services. Considering these cost drivers, the ensuing table is a consolidation of the total expenditure associated with repairs and maintenance.

The repairs and maintenance allocation for 2022/23 is R4 760 million. The nominal allocations reflect the differentiated approach to repairs and maintenance of different line functions.

In addition, these allocations provide for the full cost absorption method applied to calculate labour unit price, and the increases in activity prices based on the total cost of employment (TCOE) of direct labour workers.

The ensuing table provides an overview of repairs and maintenance by expenditure type over the 2022/23 MTREF.

Table 19 - Operational repairs and maintenance

Description	2018/19	2019/20	2020/21	Current Year 2021/22			2022/23 Medium Term Revenue & Expenditure Framework

1.5.2 Free Basic Services: Basic Social Services Package

The City provides free basic services (electricity, refuse removal, water, sanitation and rates) to residential properties via three methods, namely:

a) Blanket approach: Based on the municipal value of the property; or
b) Targeted approach: On application by those with limited income whose property values exceed set valuation levels; or
c) Based on consumer behaviour i.e. usage.

a) Blanket Approach: Municipal value of the property

Utilisation of the blanket approach prevents the need to deal with the almost 200 000 applications that would qualify if all had to apply on a periodic basis.

The challenge with this approach is that it applies to households irrespective of their ability to pay. However, the cost of providing the service using this method outweighs the benefit of not providing the free services. The benefit of the blanket approach is that it provides certainty and reduces the risks of fraud.

Varying percentage rebates for refuse removal based on property values for properties between R1 and R500 000 are applied as follows:

Property Value	*Rebate %*
R1 to R300 000	*100%*
R300 001 – R350 000	*50%*
R350 001 – R500 000	*25%*

b) Targeted Approach: Household income based

This method allows any resident who is required to pay for municipal services and whose gross monthly household income is R4 500 or below to register as indigent in order to receive the same benefits as if their property values were equal to or below R300 000. The number of indigent registered at the end April 2022 was 11 594. This number varies on a monthly basis as registration is valid for 12 months after which re-application is required.

The City also offers varying rebates for residents of household income of up to R7 500. Property rates- and refuse rebates are granted to residents based on their gross monthly household income as follows:

Income bracket	*Rebate %*
R4 501 – R6 000	*95%*
R6 001 – R7 500	*90%*

The number of beneficiaries for the current year rebate at the end of April 2022 was 156.

Senior citizen and disabled persons' rates rebates are granted to qualifying applicants where the gross monthly household income is below R17 500. For household income up to R4 500, the rates rebate is 100%, reducing gradually to 10% for income between R16 501 and R17 500. The number of beneficiaries in this category at the end of February 2022 was 29 406.

c) Electricity – Based on consumer behaviour

Electricity lifeline tariff customers consuming less than 250kWh per month will receive a free basic supply of 60kWh, while those consuming between 250kWh and 450kWh per month will receive a free basic supply of 25kWh per month.

Assistance to the households mentioned is based on modelling the impact of the tariffs and policies on all residential properties and are regulated by Council's budget-related policies, which are reviewed annually. All free basic services are provided for in the City's balanced operating budget.

The costs for the indigent support on charges for refuse removal, water and sanitation, property rates and free electricity are partially financed by national government through the local government Equitable Share received in terms of the annual DoRA. The City, however, supplements this expenditure from property rates and tariffs revenue.

Further detail relating to the number of households receiving free basic services, the cost of free basic services, highest level of free basic services as well as the revenue cost associated with the free basic services is reflected in Table 31 on page 79.

1.6 Capital Expenditure

1.6.1 Capital Funding Sources

The capital budget will be funded from the following major funding sources.

Major Capital Funding Sources **R Thousand**	**Budget 2022/23**
Capital Grants & Donations (CGD)	2 271 867
Capital Replacement Reserve (CRR)	1 364 428
External Financing Fund (EFF)	3 750 729
Revenue (Internal funding source)	80 369
Total	**7 467 394**

Capital Grants and Donations (CGD)

Capital Grants & Donations represent R2 272 million or 30.4% of the 2022/23 capital funding and consists largely of national- and provincial allocations. Of the R2 272 million that the City will receive in grants, R2 166 million or 95.3% will be from national government, while R5.5 million or 0.2% will be from provincial government. It should be noted that projects funded from national- and provincial government grants must conform to specific conditions as per the respective grant frameworks.

The various capital grants and donations expected over the MTREF are shown in the table below.

Capital Grants and Donations **R Thousand**	**2022/23**	**2023/24**	**2024/25**
Energy Efficiency and Demand Side Management Grant	8 100	8 100	8 100
Expanded Public Works Programme	937	–	–
Infrastructure Skills Development Grant	1 000	1 000	1 000
Informal Settlement Upgrading Partnership Grant	458 053	491 041	514 004
Neighbourhood Development Partnership Grant	19 699	24 699	30 000
Public Transport Network Grant	501 555	393 960	411 408
Public Transport Network Grant - Budget Facility for Infrastructure	335 000	769 000	1 574 000
Local Government Restructuring Grant	217	593	155
Urban Settlements Development Grant	840 960	854 009	898 805
Private Sector - Orio	6 712	36 675	43 747
Private Sector	94 141	58 700	64 500
Integrated Housing and Human Settlement Development Grant	–	150	100
Metro Library Grant	5 492	5 573	5 577
Grand Total	**2 271 867**	**2 643 500**	**3 551 397**

The largest grant is the Urban Settlement Development Grant (USDG), which is a cross-cutting grant to supplement the capital revenue of municipalities for the implementation of infrastructure projects that promote equitable, integrated, productive, inclusive and sustainable urban development. The second biggest grant is the Public Transport Network Grant budget Facility for Infrastructure (PTNG-BFI), which is used for the IRT Phase 2A roll-out.

For purposes of the 2022/23 budget compilation, national allocations are based on the 2022 DoRb (B6-2022 issued in February 2022). Provincial allocations are based on Provincial Gazette 8566 dated 14 March 2022.

Some projects that will be implemented through grant funding are listed below per directorate.

- **Economic Growth directorate**
  Philippi Fresh Produce Market Refurbishment (R15 million per annum for each year of the 3-year MTREF - funded from the Neighborhood Development Partnership Grant (NDPG)): Refurbishment, reinstatement and upgrade of existing elements of City-owned property including roof replacement, electrical upgrades, hard surfacing and installation of a solar system in order to accommodate the development of an up-scaled Agri-hub. This Agri-hub will contribute towards economic activity in the area by creating jobs and business opportunities for farms by selling produce at the facility.

- **Human Settlements directorate**
  - Land Acquisition (R82.5 million in 2022/23, R22 million in 2023/24, R26.7 million in 2024/25 - funded from the Urban Settlement Development Grant (USDG)): Acquisition of additional land for future affordable housing developments in Cape Town.

  - Urbanisation: Backyards/Informal Settlements Upgrade, which will focus on amongst other:
    - Village Heights informal settlement upgrade in Retreat (R6.25 million in each year of the MTREF - funded from the Informal Settlements Upgrading Partnership Grant (ISUPG)): Provision of infrastructure to areas with no basic services infrastructure, in a phased implementation process from primary infrastructure to service sites with electricity, access to water and formal sanitation.
    - Informal Settlements upgrade (R77.2 million in 2022/23, R48.4 million in 2023/24 - funded from the ISUPG) and Informal Settlement upgrades on an ad hoc and emergency basis across the City (R40 million in 2022/23 and 2023/24, and R45.8 million in 2024/25 -funded from the ISUPG). These programmes will ensure delivery of serviced sites; access tracks to improve access in current informal settlements for emergency and services vehicles; and graded platforms to facilitate re-blocking of informal structures and avoid flooding.

  - Informal Settlements Upgrade funded from the ISUPG. The projects, as listed below, will provide infrastructure to areas with no basic services infrastructure, in a phased implementation process from primary infrastructure to service sites with electricity, access to water and formal sanitation.
    - Super Blocks programme (R40 million in 2022/23, R50 million in 2023/24, R60 million in 2024/25)
    - Enhanced services programme (R40 million in 2022/23, R50 million in 2023/24, R30 million in 2024/25)
    - Managed settlements programme (R40 million in 2022/23 and 2023/24, R50 million in 2024/25)

  - Backyarder Programme (R10 million in 2022/23 - funded from the USDG):
    - Installation of prefab toilet structures (R1 million) for backyarders at City-rental properties in order to uplift the living conditions for household in the backyards of City Rental Units (CRU).
    - Installation of water dispensing devices (R9 million) for backyarders on City-rental properties.

  - Kanonkop Housing Project Phase 2 (R20 million in 2022/23, R25 million in 2023/24 and R30 million in 2024/25 - funded from USDG): Integrated housing development consisting of 2502 serviced sites in Kanonkop Atlantis for beneficiaries on the waiting list.

  - Bonteheuwel Infill Housing project (R10 million in 2022/23 and 2023/24, R15 million in 2024/25): Provision of 297 serviced sites, civil infrastructure and bulk services for people living in informal housing conditions with the aim of providing formal housing and secure tenure.

  - Penhill Housing Project (WCG) (R25.2 million in 2022/23 - funded from USDG): Provision of additional housing opportunities in the Penhill area. This project is managed by the Western Cape Government (WCG). The City makes a contribution to the project for the construction of services in line with the approved USDG application.

- Highlands Drive Infill Housing project (R10 million per annum in each of the MTREF years - funded from the USDG: Provision of approximately 800 serviced sites along Highlands Drive in Mitchells Plain.

- **Urban Mobility directorate**
  - Smart Technologies at Public Transport Interchanges (R27.2 million in 2022/23, R49.5 million in 2023/24, R20 million in 2024/25 - funded from the Public Transport Network Grant (PTNG)): Installation of digital technology i.e. access control, public Wi-Fi, CCTV and environmental sensing via Internet of Things (IOT) devices with corresponding analytics that will inform public transport operations, regulations and planning. This is an ongoing multi-year project, which is aimed at improving efficiency and safety at all of the City's PTI facilities, and improving the customer experience though the provision of free Wi-Fi.

  - IRT Phase 2A (R592.9 million in 2022/23, R803 million in 2023/24, R1 597 million in 2024/25 - funded from PTNG, PTNG: Budget Facility for Infrastructure (BFI) and Orio). Delivery of two bus depots at Spine Road between Khayelitsha and Mitchell's Plain; construction of a trunk route along Govan Mbeki Road between Jan Smuts and Heinz Road; construction of a pedestrian over-rail bridge in Lentegeur; ongoing property acquisitions along the planned trunk routes; detail design of the remaining work packages; and the relocation of water and electricity services.

Capital Replacement Reserve (CRR)

Funding from the Capital Replacement Reserve represents R1 364 million or 18.3% of the 2022/23 capital funding.

The ramping up of infrastructure construction in response to the IRT Phase 2A will gain significant momentum over the 2022/23 Medium-term Revenue Framework and beyond leading to the end of the programme in 2027. The City submitted a BFI funding application amounting to R7.1 billion to the National Treasury (NT) and National Department of Transport (NDOT) during 2017, which was approved by the Ministers Committee on the Budget (MinComBud).

The BFI was introduced by the NT as a policy instrument in support of delivering mega infrastructure projects from a funding perspective. Notwithstanding the provision of cash flow requirements over the programme lifecycle, currently the gazetted allocation in the 2022 Division of the Revenue Bill (DoRb) does not align with the planned capital expenditure over the 2022/23 MTREF to shortfall values of R74.5 million, R105 million and R518.8 million respectively. In this regard, provision has been made to interim bridge fund the anticipated expenditure shortfalls over the 2022/23 MTREF with the Capital Replacement Reserve: IRT Ph2A funding set aside from accumulated surpluses. In rectifying this impasse, the Urban Mobility directorate has corresponded with NT and NDOT requesting that the October 2022 Medium-term Policy and Budget Statement (National Adjustment Budget) be utilised to align the PTNG BFI cash flow by increasing the BFI allocation by R74.5 million for the 2022/23 financial year.

The intention would be to correct the funding source back to BFI in the City's January 2023 adjustments budget. The outer years of the 2022/23 MTREF will be corrected as part of the next National Budget process. The Urban Mobility directorate will monitor developments leading to the National Adjustment Budget in October 2022, and provide management and Council with updates in order to manage and mitigate the risk. The City will review its funding approach on an annual basis as part of the budget process.

The City will continue to make CRR funding available in 2022/23 in support of, inter alia, the following priorities:

- Traffic congestion relief programme (R192 million) for inter alia:
  - Dualling of Broadway Boulevard from Main Road 27 to Altena Road, Strand (R47.7 million in 2022/23 and R920 000 in 2023/24): Alleviation of bottlenecks in the traffic flow. This project entails widening the existing carriageway (±3759m²) on Broadway Boulevard (R44) from Main Road to Altena Road to a two-lane carriageway cross-section in both directions.
  - Kommetjie Road Dualling (Phase 3) (R17.2 million in 2022/23): Further extension of the dualling of Kommetjie Road from Capri Drive to Houmoed Ave including upgrades to Lekkerwater, Pokela, Wood and Houmoed Ave intersections. This congestion relief project aims to alleviate congestion along Kommetjie Road and will also support the Masipumelele Housing Development project.
  - Dualling of Berkley Road from the M5 to Prestige Drive/Jan Smuts Drive, Ndabeni (R10.4 million in 2022/23): Alleviation of congestion along the Berkley Road corridor and will support the Two Rivers Urban Park development.

- Ward allocations (R79.5 million in 2022/23)

- Fleet replacement in Fleet Management department (R5 million in 2022/23)

- Electricity generation and distribution equipment, electricity generation and distribution facilities, SCADA master station upgrade and systems, vehicles, street lighting, electrification, LED refurbishment, medium voltage infrastructure refurbishment, meter replacement etc. (R406.9 million).

- Cape Flats Aquifer Recharge (R255.1 million in 2022/23, R15 million in 2023/24): Managed injection of treated secondary effluent, into the Cape Flats Aquifer, to artificially recharge the aquifer and enable the City to sustainably abstract water from the aquifer. The abstracted water will be treated, before being injected into the potable water network and will optimise water resources to ensure water security for the future.

- Various water and sanitation projects in specific areas that utilise previously collected development charges and includes amongst others:
  - Zevenwacht Reservoir and Network (R1.6 million in 2023/24, R6.3 million in 2024/25)
  - Peligrini Sewer Upgrade Phase 2 (R1.6 million in 2022/23, R717 420 in 2023/24)

- Woodstock Hospital Precinct Redevelopment (R1.3 million in 2022/23): Establishment of mixed income, mixed-use affordable housing opportunities consisting of (but not limited to) social housing, Community Residential Units (CRU) and/or affordable housing in support of the strategic development objectives of the hospital so that it can be upgraded to provide improved conditions for the current occupants.

External Financing Fund (EFF)

The most significant source of funding of the capital budget is the EFF, which amounts to R3 751 million and represents 50.2% of the total capital funding requirement in 2022/23.

The country and local economy is still in a recovery period as a result of the COVID-19 pandemic. The City will continue to invest substantially in its capital investment programme in order to assist with the recovery of the local economy on a direct and indirect basis. The City reviewed its cash position in relation to its capital investment programme and will take up external loans amounting to R2 000 million, with the balance (R1 751 million) funded from ring-fenced internal resources at an equivalent rate of 6.5% interest for the 2022/23 financial year. Highlights of projects proposed across the various directorates are:

- **Community Services & Health**
  - IT Modernisation (R20.8 million in 2022/23): Improvement of current business processes by utilising technology to enable and enhance service delivery such as:
    - Clinic Appointment System to reduce queueing;
    - Patient Record System to shift from hardcopy to digital clinical records;
    - Integrated Pharmacy System;
    - Integrated X - Ray System;
    - Environmental Health System;
    - Facility Booking System; and
    - Early Childhood Development Registration System.

  - Homeless Accommodation Upgrade & Extensions (R2.2 million in 2022/23, R1 million in 2023/24, R16 million in 2024/25): Extension of existing city assets to shelter the homeless by increasing existing bed space at the Kensington, Retreat and Culemborg shelters, which is currently managed by NGOs and an external service provider that the City contracts with.

- **Corporate Services**
  - Broadband Infrastructure Programme (BIP) (R140.6 million in 2022/23, R119.3 million in 2023/24, R62.5 million in 2024/25): Provision of a reliable and cost effective broadband telephony and DATA infrastructure, and service to all City facilities and staff. This infrastructure and services are core and will serve as the enabler to implement other essential applications and systems required to fulfil service delivery in the City. In addition, the aim is to maximise the value and benefit of the City's existing Broadband Infrastructure investment. The Broadband layers implemented will provide the bandwidth and connectivity needed for the City's business systems and act as an enabler for digital transformation.

- IT: Corporate Application Review Infrastructure (CAR) (R47.1 million in 2023/24, R42.8 million in 2024/25): Upgrade and replacement of all IT infrastructure hardware and systems required to operate the City's core applications. It will support doing the basics better and take service delivery into the digital age. CAR will contribute to the employment value chain over the next 10 years via the provision of implementing systems and processes such as recruitment and talent management systems to better attract and retain talent in the City. Furthermore, the foundational-, core- and edge technologies being implemented will help make engaging with the City easier for citizens and/or service providers/suppliers. (The project will be funded from the CRR : General in the amount of R41 million in 2022/23).

- **Economic Growth**
  - Electronic Workflow - Immovable property (R1.9 million in 2022/23): Conversion of manual/paper based transactions into the digital (SAP) platform. This automation allows for better management of transactions as well as identifying bottlenecks in the process. The end process is the optimisation, improvement, and automation of transactions to increase output, eliminate repetition, and reduce errors and will allow for a more efficient and effective service provided to internal clients as well as citizens.

  - Informal Trading Permitting System Enhancement (R11.3 million in 2022/23): Modernisation of administrative processes supporting the function and in so doing will create well-ordered trading spaces across the City for traders, their customers and the public through more effective monitoring and incident management, and will support decision-making and timely interventions in the management of informal trading.

- **Energy**
  - Ground mounted PV (R7.5 million in 2022/23, R127.2 million in 2023/24, and R19.8 million in 2024/25): Design, build, operate and maintain a 10MW ground-mounted Solar PV facility and connect to the City’s existing electrical grid. The aim is to improve the financial sustainability of the City by reducing electricity purchases from Eskom, thus mitigating Eskom's electricity tariff increases. It will also reduce the impact of load shedding in the City.

  - Outage Management System (OMS) (R3 million in 2022/23 and R1.5 million in 2023/24): Improvement to the directorate’s customer service by refining the time taken to restore electricity outages with the focus on providing the following functions:
    - Become aware of an outage;
    - Diagnose and locate outage;
    - Provide feedback to affected customers;
    - Dispatch trouble/repair crews;
    - Assist with restoration of electricity services; and
    - Maintain historical records of electrical outages.

- **Finance**
  - Upgrading of cash and Motor Vehicle Registration and Licensing Offices (R4.7 million in 2022/23): To meet COVID-19 and future pandemic standards and reduce queuing times at these facilities in order to do the basics better and take service delivery into the digital age so that every Capetonian can live a life of dignity.

- System Enhancement Projects (R5 million in 2022/23): Enhancement and upgrade of the City's Rates Clearance System and processes with the view to reduce the turnaround time of issuing Property Revenue Clearance Certificates to the conveyancing attorneys in order to deliver on the Ease of Doing Business programme.

- **Human Settlements**

  Public Housing Master Data Application Upgrade (R6.9 million in 2022/23, R7.4 million in 2023/24): Effective management of assets through accurate master data by integrating plant maintenance and real estate, which will assist in achieving the directorate's proactive maintenance objectives in the public housing environment and contributing to residents living a life of dignity.

- **Office of the City Manager**

  Construct Municipal Court in Bluedowns (R9.7 million in 2022/23, R9.7 million in 2023/24): Construction of a fully functional stand-alone court facility independently run by the City. The expected increase in arrests and the issuing of fines for by-law and traffic contraventions will in impact operations at municipal courts resulting in more cases that need to be placed on the court roll. The new court will be better equipped to handle such influx and thus provide a better service to the citizens of Cape Town.

- **Safety & Security**
  - Dashboard Cameras (R15 million in 2022/23, R5 million in 2023/24, R26.6 million in 2024/25): Procurement of dashboard cameras that will record video from within vehicles to assist with officer safety and to gather evidence. These cameras will also have automatic number-plate recognition (ANPR) benefits, and will assist officers to identify any vehicle on the watch list at any time.

  - Digital equipment (Body Cameras) (R15 million in 2023/24, R16.5 million in 2024/25): Procurement of bodycams, which will offer the value of traditional body cameras, specifically creating evidence of the action taken by citizens/the officer and is often referred to as the independent witness benefit.

  - Small Arms Training Simulator (R2 million in 2022/23): Interactive training that will improve marksmanship and tactical judgment to deal will a variety of situations and in so doing increase public safety.

  - New Training College for Metro Police (R12.7 million in 2023/24, R4.3 million in 2024/25): Adherence and administration of all regulatory- and legislative requirements for operations in a conducive environment. It will assist in making Cape Town safer by training and deploying hundreds of additional law enforcement officers as well as training existing members, which will result in additional boots on the ground to reduce crime in affected areas.

  - CCTV/LPR Cameras (R47.3 million in 2022/23): Enhancement of the current CCTV footprint across the City and to provide capacity to monitor areas from a central location, detect instances that require attention, assist with traffic management and by-law infringements, fire detection, medical assistance, overall management of the area, enhance service delivery and resolve incidence swiftly. The cameras will be utilised as a force-multiplier and will ensure that safety and security resources are deployed efficiently.

- Maitland Vehicle Impound Parking Facility expansion (R4.5 million in 2022/23): For impoundment of public transport vehicles that do not comply with operating license conditions in an effort to assist in improving road safety and commuter safety in terms of public transport.

- Events Mobile Application (R6 million in 2022/23): Development of a one-stop portal to be used by event organisers and organisations interested in hosting events in the City, tourists and the general public. The application will assist with the ease of doing business in the City for the entire events value chain.

- Drone programme including operating license procurement (R66 664 in 2022/23, R5.2 million in 2023/24, R2.3 million in 2024/25): Two-fold project that includes expert consultants to assist in securing the City's Remote Operating Certificate as well for the purchase of drones and associated equipment. The drone technology will assist in providing critical information to the policing and emergency services allowing them to make the best possible decisions when dealing with incidents and emergencies.

- 24 Hour Operationalisation of Traffic Services, Law Enforcement and Metro Police (R51.5 million in 2022/23, R27.8 million in 2023/24): Procurement of vehicles, firearms, EPIC devices, computers, radios, and laptops, for additional staff being employed (254 officers and command structure over a period of 2 financial years).

- **Spatial Planning & Environment**
  - Asanda Village Wetland Rehabilitation (R16 million in 2022/23): Upgrade of the stormwater system that flows into the wetland, construction of footway and recreational area as well as installation of public lighting. Due to developments in the catchment, the additional stormwater is flooding the downstream community of Asanda Village. The wetland needs to be reshaped and the public open space redesigned and upgraded. This will result in improved stormwater management, and quality open space for the community and protected biodiversity.

  - Zandvlei Visitor Education Centre (R2.4 million in 2022/23, R6 million in 2023/24, R9.7 million in 2024/25). The current facility is inadequate in terms of capacity and does not meet the health and safety standards. The new multipurpose center will support operations of the Zandvlei Estuary Nature Reserve by educating and empowering adjacent communities at the learning facility as well as providing the base of operations for the Expanded Public Works Programme (EPWP) employment.

  - Certain interventions on coastal structures rehabilitation:
    - Fisherman's lane/Strandfontein Boardwalk (R20.9 million in 2022/23, R5.6 million in 2023/24): Creation of more resilient infrastructure that can be used by fishermen and other visitors. Work will include the removal of unsafe infrastructure, improvement to the function of the coastline and upgrading the braai, picnic and play facilities.
    - Seaforth Beach Precinct Upgrade (R8.9 million in 2022/23, R3.5 million in 2023/24, R27 070 in 2024/25): Upgrading of terraced grassed area, pathways and access points to Seaforth Beach to improve the traffic flow and to make it more convenient and safe for pedestrians as well as providing access to the beach for differently-abled persons. This precinct is the gateway to the Boulders Penguin Colony, which is one of Cape Town’s major tourist attractions.

- Milnerton Beachfront Retreat (R10.6 million in 2022/23): Replacement of collapsed revetment with geobag containers. The project also includes the removal of the broken boat ramp in front of the lifesaving club and establishment of a formal access point for service vehicles and emergency vessels on the golf club side of the beach.

- Monwabisi Beach Precinct Upgrade (R3.5 million in 2022/23, R22.6 million in 2023/24, R10 million in 2024/25): Demolition of derelict buildings and construction of high quality amenities for security, and services to accommodate ablutions, lifesaving, law enforcement and first aid. New- and refurbished walkways and other hard surfacing, parking areas, recreational lawns, play areas, interface with the tidal pool, the management of wind-blown sand and upgrade of the tidal pool is also planned. Once completed it will improve recreation and tourism for the residents of Khayelitsha and other neighboring suburbs with a high quality coastal node and destination place.

- Weed Harvester and flatbed truck at Rietvlei (R15 million in 2022/23): For the removal of invasive aquatic weeds that grow as a result of the high nutrient content of the water due to sewerage spills into the waterbody. This will improve the management of existing vleis including improving the water quality and ensuring that the public can enjoy the different recreational water activities e.g. swimming, fishing, boating etc.

- Lowering of the Zeekoei Weir (R1.5 million in 2023/24, R5.5 million in 2024/25): To ensure a healthy urban environment by substantially improving the water quality of the inland water bodies (“ambient water quality”), which will improve the quality of life for the residents of Cape Town.

- E-systems enhancements (R7.3 million in 2022/23): Development Application Management System (DAMS2) functionality of the E-Services Portal and SAP, which will improve customer service, turnaround times of scrutiny and approvals of development applications, which will result in quicker commencement of building work, and faster completion of building work to contribute to the economic growth of Cape Town.

- Strandfontein Pavilion (R2.3 million in 2023/24, R680 000 in 2024/25): Refurbishment and upgrade of the Strandfontein tidal pool, pavilion building (including the mermaid section) and upgrades to the beach access points. The refurbishment and upgrade of the pavilion and coastal public access to the coastline will be designed to align with proposed future development and with the adjacent Fishermans Lane project. This is to ensure an overall integrated coastal nodal development that optimises social and economic opportunity. The proposed amounts will be for the design work followed with the implementation in future years.

- **Urban Mobility**
  - Zevenwacht Link Extension - Buttskop Road Rail LCE (R4.4 million in 2022/23, R26 million in 2023/24, R62 million in 2024/25): Construction of a portion of Zewenwacht Link Road Extension between Van Riebeeck Road and Albert Phielander Road, Blackheath in order to eliminate the Buttskop Road rail level crossing. This is a road safety project to respond to a number of fatalities in the past.

- Construction of a pedestrian bridge across the Vygekraal River, Bridgetown (R5.6 million in 2022/23): Provision of a safe pedestrian crossing across the Vygekraal River on a desire line where there is currently no formal crossing facility. The City will invest in this non-motorised transport option to make it safer for pedestrians and cyclists.

- Green Point Precinct Road Upgrades (R30 million in 2022/23): To host the Formula E motorsport event that has economic benefits for the City as a whole.

- **Urban Waste Management**
  - Replacement Shipping Containers (R2.6 million in 2022/23): Housing of waste removed from dwellings in informal settlements until such time that it can be moved to the landfill. It is crucial that these shipping containers are in good working order to ensure services are not disrupted.

  - De Grendel Drop-off Upgrade Waste Minimisation (R8.9 million in 2022/23, R28.9 million in 2023/24, R4.9 million in 2024/25): Construction of new buildings to house the recyclers in a more structured manner and to make the experience of recycling a more pleasurable experience for the public.

  - Coastal Park: Design and develop a Material Recover Facility (MRF) (R172.9 million in 2022/23, R162.9 million in 2023/24, R500 000 in 2024/25): For a separation at source recycling service from which recyclables will be taken to a material recovery facility for separation by a recycler and processed thereby reducing waste ending up on the landfill sites.

  - Coastal Park: Landfill Gas Infrastructure to Flaring Phase 1 (R5 million per annum in each of the MTREF years): Channeling of methane gas via a pipeline to a central point from which future electricity generating infrastructure can be linked at the next phase of the project.

  - Vissershok South: Landfill Gas Infrastructure to Beneficiation (R8.6 million in 2022/23, R24.9 million in 2023/24, R52.9 million in 2024/25): Channeling of methane gas via a pipeline system to be converted to electricity. This will reduce carbon emissions into the atmosphere in support of reducing the effects of climate change.

- **Water & Sanitation**
  - Additional heavy vehicles (R32.2 million in 2022/23): Procurement of vehicles in order to move away from private hired fleet which is costly: includes vehicles to be used in the sewer spill reduction plan.

  - Replacement heavy vehicles (R25.4 million in 2022/23): Procurement of vehicles to address the backlog of vehicle replacement and in turn reduce downtime of fleet in order to provide much need services to the community.

  - Reactive Incident Management System (R19.3 million in 2022/23, R14.7 million in 2023/24): Enhancement of operational efficiencies, reduction of costs and improvement of the City's response to complaints of non-conforming services. SAP mobile technology could be used to improve the speed of dispatching incidents and receiving updates on the repair status of service/asset breakdowns.

- Sand/Langvlei Canal Wetland Rehabilitation (R164 583 in 2022/23, R418 025 in 2023/24, R2.9 million in 2024/25): To ensure a healthy urban environment by substantially improving the water quality of the inland water bodies ("ambient water quality"), which will improve the quality of life for the residents of Cape Town.

- Bayside Canal Upgrade (R1 million in 2022/23, R21 million in 2023/24, R31 million in 2024/25) where infrastructure upgrade is required along the western boundaries of Bayside Mall and Table View Mall to reduce the risk of flooding and to ensure improved water quality discharging into Rietvlei Estuary.

Revenue

The smallest source of funding of the capital budget is Revenue. It amounts to R80.4 million or 1.1% of the total proposed capital budget for 2022/23 and will fund the following projects/programmes:

- EPIC programme (Safety & Security directorate) for the continued investment in the EPIC system as the primary technology system utilised by the directorate to manage incidents as effectively as possible and to improve the citizens' perception of safety. Projects linked to the EPIC programme are:
  - Citizen Enablement System (R8 million in 2022/23, R10.8 million in 2023/24) to deliver a mobile application for use by citizens to engage meaningfully with the directorate by way of providing information ranging from emergency incident reporting and also anonymous tipoffs. This application will also allow the City to communicate directly with citizens with regards to safety matters such as alerts, messages and requests for crowdsourced information.

  - Computer Aided Dispatch System (R14.3 million in 2022/23 - of which R13.1 million will be funded from Revenue and R1.2 million from EFF, R15.7 million in 2023/24): Management of the entire incident lifecycle of service requests, which are submitted to the various departments within the directorate. The EPIC solution deals with Workforce Planning, Incident Registration, Incident Dispatch, Command and Control, Incident Reporting and Investigative Case Management.

  - Contravention System (R15 million in 2022/23, R16.5 million in 2023/24) to deliver a mobile application that allows officers to generate contravention notices (fines) on the existing EPIC mobile devices and use portable bluetooth printers to print out the notice. The electronic generation of contravention notices will allow officers to be significantly more efficient and more accurate, and the inefficiencies of 'paper' based documents will be eradicated. This should result in an improved recovery rate, but more importantly should result in a stronger driver behaviour adjustment effect.

- Insurance Contingency provisions in each directorate totaling R30.4 million in 2022/23 to effect insurance claim settlements if and when required to be in a position to replace damaged/stolen items.

- Books, Periodicals & Subscriptions for the Library & Information Services department (R10.4 million in 2022/23).

- Aerial Photography for use by the Valuations department (R3.5 million in 2022/23).

1.6.2 Infrastructure investment in the City

It is widely accepted that metropolitan cities are the growth instruments of the national- and local economy by way of providing for asset renewal/upgrade as well as investing in new infrastructure. One of the main tools at cities' disposal is revenue parameters that are set to take into consideration the requirement for appropriate funding of its capital budgets in order to implement infrastructure to support infrastructure-led economic growth.

At a local level, the City remains the driver of the economy in the Western Cape, is home to most people in the Western Cape and is the second largest metro by population numbers in South Africa. It is widely accepted that infrastructure investment is an enabler to stimulate economic growth, hence the City's commitment to invest in infrastructure.

Cape Town has seen steady population growth (albeit at a slowing annual growth rate), with an estimated population of 4 678 900 in 2021. The average annual growth rate has declined from 2.3% over the 2011-2015 period to 2.0% over the 2016-2021 period. The population is expected to grow to around 5 million by 2025 according to Statistics South Africa, equating to an average annual growth rate of 1.7% over the 2022-2025 period. The ensuing graph shows the population and population growth in Cape Town over the 2002-2021 period.

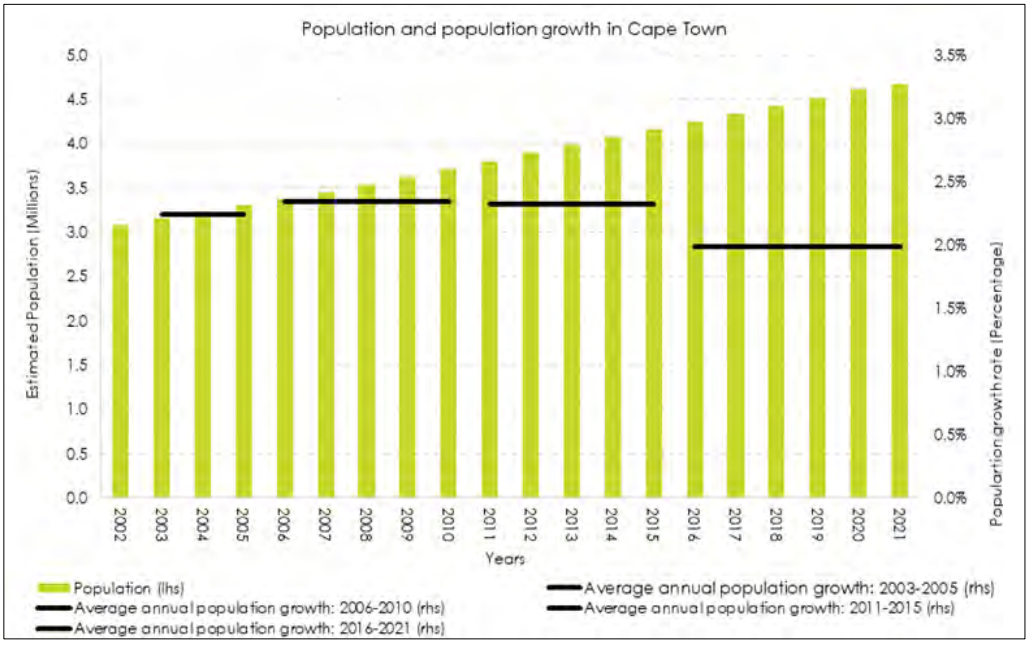

Figure 2 Population and population growth in Cape Town over the 2002-2021 period

Population growth is one of the informants used to assess whether municipalities' capital budgets (instrument used to mainly create infrastructure assets) are adequate to preserve its current asset base and invest in new assets for future generations. It also assesses whether the municipality is sufficiently growing in line with the population.

As evidenced in the ensuing table, when capital growth is adjusted with the effects of inflation (CPI), the real capital growth (nominal capital growth less CPI) for both the total capital budget as well as the infrastructure assets component of the total capital budget are still expected to grow at a faster pace than population growth.

Projected Growth		2022/23	2023/24	2024/25
Total Capital Budget	Capital Budget (Nominal)	22.5%	47.2%	15.5%
	CPI	4.6%	4.4%	4.4%
	Real Capital Budget (CPI Deflated)	*17.9%*	*42.8%*	*11.1%*
Total infrastructure asset component of the Capital Budget	Capital Budget (Nominal)	28.4%	48.1%	26.1%
	CPI	4.6%	4.4%	4.4%
	Real Capital Budget (CPI Deflated)	*23.8%*	*43.7%*	*21.7%*
Other Statistics	Cape Town Population (Growth rate)	1.7%	1.7%	1.7%
	National GDP (calendar yr.)	1.8%	1.6%	1.7%
	Cape Town GDP (calendar yr.)	2.1%	2.0%	1.7%

Furthermore, it is anticipated that the high expected capital growth will have a positive effect on domestic and national growth, which is currently projected at an average of 2.1% and 1.8% respectively for 2022/23.

The City's proposed capital expenditure will result in direct and indirect revenue generating assets.

In a municipal context, a revenue generating asset is an asset that will increase the revenue base of the municipality for example construction of bulk water infrastructure to a new suburb/township where the municipality will be able to bill and collect revenue. Direct revenue generating assets are generally service delivery linked assets within the municipality's trading services.

Indirect revenue generating assets, are the balance of capital expenditure-related assets and are associated with for example roads infrastructure, halls, parks, ERP systems, etc. The below graph indicates that in the 2022/23 financial year, just over R3 486 million or 46.7% of the total proposed capital expenditure will acquire direct revenue generating assets, increasing steadily to R5 520 million or 50.2% in 2023/24. The proposed capital budget for the last year of the 3-year MTREF will see a fairly equal split between direct and indirect revenue generating assets at approximate levels of R6 300 million each.

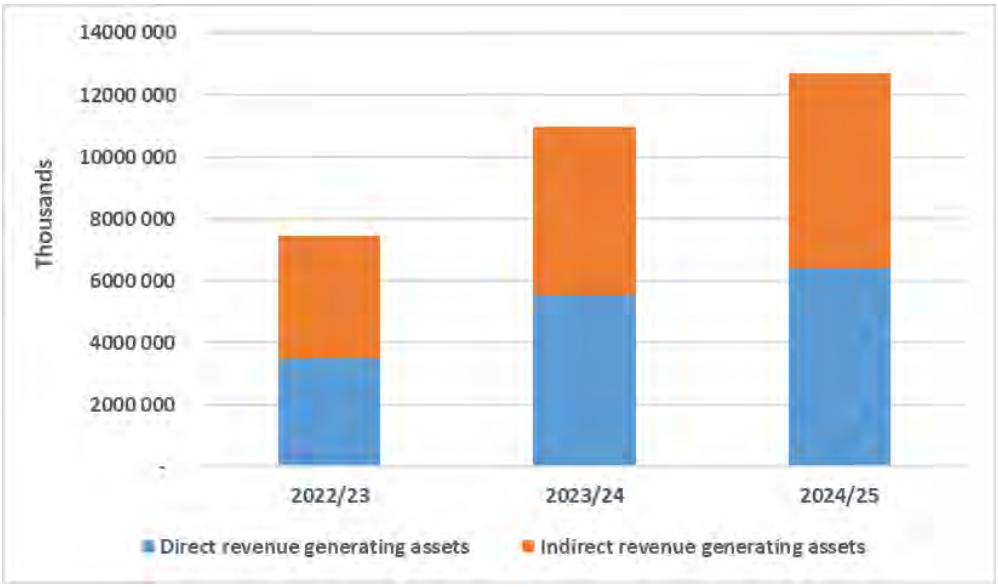

Figure 3 Direct and indirect revenue generating assets over the MTREF

The ensuing table clearly indicates that expenditure emphasis is still on those votes (directorates) responsible for infrastructure development e.g. Water & Sanitation, Urban Mobility, Energy, Human Settlements and Urban Waste Management.

Table 20 - Capital budget per vote over the 2022/23 MTREF

Vote Description	Current Year 2021/22		2022/23 Medium Term Revenue & Expenditure Framework					
R thousand	Adjusted Budget	%	Budget Year 2022/23	%	Budget Year +1 2023/24	%	Budget Year +2 2024/25	%
Vote 1 - Community Services & Health	298 971	4.9%	244 533	3.3%	371 996	3.4%	350 661	2.8%
Vote 2 - Corporate Services	434 277	7.1%	395 619	5.3%	961 376	8.7%	749 408	5.9%
Vote 3 - Economic Growth	51 116	0.8%	48 748	0.7%	30 091	0.3%	50 154	0.4%
Vote 4 - Energy	863 527	14.2%	1 012 134	13.6%	1 255 103	11.4%	1 131 614	8.9%
Vote 5 - Finance	16 542	0.3%	18 129	0.2%	26 237	0.2%	40 296	0.3%
Vote 6 - Future Planning & Resilience	46 623	0.8%	26 415	0.4%	11 840	0.1%	17 230	0.1%
Vote 7 - Human Settlements	928 826	15.2%	884 428	11.8%	900 561	8.2%	1 009 618	8.0%
Vote 8 - Office of the City Manager	7 147	0.1%	13 329	0.2%	24 290	0.2%	1 256	0.0%
Vote 9 - Safety & Security	199 062	3.3%	236 735	3.2%	210 302	1.9%	315 458	2.5%
Vote 10 - Spatial Planning & Environment	112 056	1.8%	217 455	2.9%	338 689	3.1%	311 010	2.4%
Vote 11 - Urban Mobility	722 772	11.9%	1 379 126	18.5%	2 071 856	18.8%	2 973 446	23.4%
Vote 12 - Urban Waste Management	388 298	6.4%	647 002	8.7%	790 916	7.2%	764 880	6.0%
Vote 13 - Water & Sanitation	2 025 899	33.2%	2 343 741	31.4%	4 001 058	36.4%	4 983 466	39.2%
Total Capital Expenditure - Vote	6 095 115	100%	7 467 394	100%	10 994 316	100%	12 698 496	100%

The 2022/23 allocation to these votes represents just over R6 266 million or 83.9% of the total budgetary allocation for 2022/23. Water & Sanitation receives the largest allocation of R2 344 million, which represents 31.4% of the budget, the second highest allocation is made to Urban Mobility and amounts to R1 379 million (18.5%), followed by Energy at R1 012 million (13.6%), Human Settlements at R884 million (11.8%) and Urban Waste Management at R647 million (8.7%).

Major directorates spent on infrastructure assets

The City's investment in infrastructure is central to ensuring sustainable and continuous service delivery to all its residents, while unlocking economic growth through new development proposals thereby also growing the City's revenue base, which in turn will ensure that the City can afford further future investment in infrastructure.

Spending on infrastructure assets is generally focused in those services responsible for the built environment and largely delivering on the provision of basic services, such as electricity distribution, water and sanitation, solid waste management, housing where serviced sites must be provided, as well as roads and transport.

The proposed capital programme of the City reflects that nearly 70% (or just R5.2 billion) of the capital programme will be invested in infrastructure assets in 2022/23, as can be seen from the ensuing graph.

Figure 4 Asset categories 2022/23

The graph shows that for each Rand spent on the City's proposed capital budget in 2022/23, just over 70 cents will be spent on infrastructure assets compared to the almost 6 cents on community assets.

Infrastructure asset investment by the City typically relates to the upgrading, renewal and implementation of new infrastructure such as, electrical infrastructure, roads and transport infrastructure, sanitation infrastructure, stormwater infrastructure, water supply infrastructure, information and communication infrastructure, as well as coastal infrastructure.

The graph below provides an indication on how the capital budget will be spent on infrastructure- related projects over the medium-term.

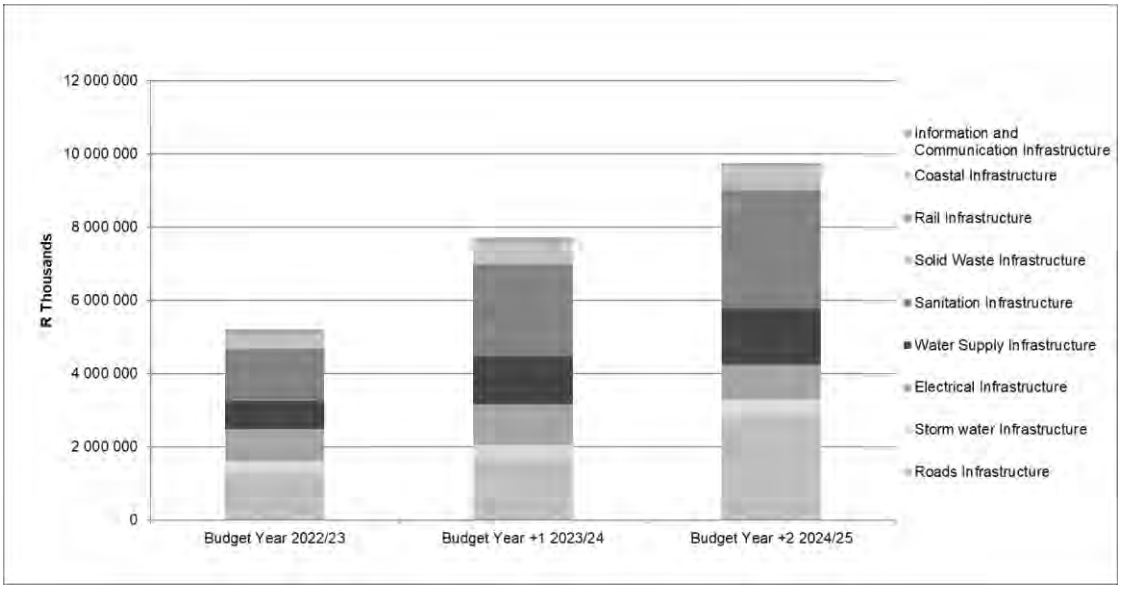

Figure 5 Capital Infrastructure Programme

Of the nearly 70% or just over R5.2 billion, which will be invested in infrastructure assets, the largest contributor to the spending on infrastructure assets will be the Water & Sanitation directorate (R2.2 billion in 2022/23), followed by Urban Mobility directorate (R955 million in 2022/23) and thirdly, the Energy directorate (R875.8 million in 2022/23).

The table below depicts what percentage of the infrastructure asset investment will be going towards the largest three, mainly built environment, directorates.

Directorate	2022/23	2023/24	2024/25
Energy	16.8%	14.3%	9.8%
Urban Mobility	18.3%	17.2%	25.1%
Water & Sanitation	41.8%	49.1%	48.8%

Therefore, low levels of infrastructure asset investment will not give adequate traction to eradicate any backlogs or create an environment where economic growth can be achieved.

Main projects relating to infrastructure asset establishment within the three largest directorates are listed on the ensuing pages.

Energy

Currently there is a great deal of uncertainty associated with energy consumption projections in the energy sector as a result of various factors. The most rigorous approach requires a representation of the stock of demand technologies in the system and an estimate of the rate at which they will be replaced by more efficient technologies. This is an extremely time consuming and data intensive approach. An existing base model on the Low Emissions Analysis Platform (LEAP) is currently being updated to provide another lens on consumption for future sector plans.

Electricity consumption in the City has decreased consistently since 2012. From 2012 to 2021, the number of customers on the Lifeline tariff decreased by about 107 000 due to tighter application of the qualification criteria while customers on the Domestic tariff increased by about 208 000. Energy consumption for customers in the domestic category decreased by about 18% over the same period. To this end, infrastructure asset acquisition and planning over the short-, medium- and long term is key for inclusion into sector/master plans. Examples of infrastructure assets which will be invested in to ensure further economic growth and dignity to City residents are listed below.

- The ensuing projects normally results from large new developments, typically requiring more than 14 MVA, necessitating new HV infrastructure and power transformer capacity to be established. Many projects were postponed in previous financial years due to lower than anticipated load growth, and rescheduled into later years as per the SA Grid Code, but due to network requirements can no longer be delayed.

- Paardevlei Switching station (R750 000 in 2022/23) and 132/66 kV stepdown (R1 million in 2023/24, R84.2 million in 2024/25) and Main Substation 1 and 2, where Helderberg substation is currently supplied from Eskom's Firgrove substation at 132 kV and energy purchased at Eskom's distribution high voltage (HV) tariff. With the recent Mitchell's Plain - Steenbras loop-in project to Eskom's Pinotage main transmission station (MTS), the opportunity exists to supply Helderberg from Pinotage at a transmission tariff, which is more cost effective than the HV tariff. This requires the establishment of a 132 kV switching station in the area. Somerset West- and Strand main substations are currently supplied from Eskom's Lourensrivier substation at 66 kV and this energy is also purchased at Eskom's distribution HV tariff. The opportunity exists to supply these main substations from the new Paardevlei switching station that will enable a transmission tariff if a Paardevlei stepdown substation (132/66 kV) is established. The original load calculations indicated that the proposed Paardevlei development can mature to approximately 80 MVA if deemed developable, necessitating two new main substations in future, Paardevlei MS 1 and 2 (not yet in this MTREF window). The two new main substations are purely development dependent, and will be supplied from the new Paardevlei switching station once implemented.

- Construction of a new 132 kV Morgen Gronde switching station (R129.3 million in 2022/23, R8 million 2023/24) and transfer existing 66kV intake points, Bellville South, Triangle and Oakdale (1 & 2) (completed in previous years), to Morgen Gronde switching station, upgrading nearly half of the 66kV load to 132kV networks due to network capacity constraints. This is a new major intake point from Eskom, which is required to facilitate network upgrades in order to ensure a reliable supply to the Bellville networks. It will also enable electricity supply to three major investors in the City.

- Bellville South Main Substation Upgrade (R22.7 million in 2022/23, R53.8 million in 2023/24) which will entail the replacement of 66 kV overhead lines with 132kV cable as well as replacing old transformers. The current capacity of the network is not sufficient to ensure a firm supply to the Bellville industrial area. This project is required to ensure a reliable supply and enable growth in this area.

- Triangle 132kV Upgrade (R110.3 million in 2022/23, R131.5 million in 2023/24, R41.6 million in 2024/25) for construction of a new switching station and replacement of 66 kV overhead lines with 132kV cable as well as replacement of old transformers. The current network capacity is not sufficient enough to ensure a firm supply to the Bellville industrial area. This project is required to ensure a reliable supply and enable growth in this area.

- Service Connections programme (R96.3 million in 2022/23, R92.7 million in 2023/24, R83 million in 2024/25), which comprises of a myriad of different service connection categories such as free market connections, gap housing, subsidised housing and serviced-site developments, informal settlements, and backyard dwellings. Project implementation only occurs when customers have paid for the new connection. Due to the unpredictable and uncertain nature of these projects, proposed outer year budgets are based on historic spend plus a CPI inflation based increase. These budgets comprise shared network cost (Connection Infrastructure (Quote)) and private sector expenditure (Service Connections (quote and tariff)).

- Medium Voltage System Infrastructure including switchgear refurbishment (R84 million in 2022/23, R211.5 million in 2023/24, R198 million in 2024/25) to accommodate the additional capacity applied for by customers in terms of service connections that require upstream network, which must be reconfigured, improved or expanded. These infrastructure budgets are also used for improvement and expansion projects emanating from the evaluation of feeder group performance indicators.

o Electrification (both informal and formal) and backyarder programmes (R24.8 million in 2022/23, R13.5 million in 2023/24 and 2024/25), which will entail electrification of formal- and informal settlements, and backyard dwellings (restricted to backyard dwellings on City Rental Units) within the City's supply area in order for the City to meet its constitutional and statutory obligations to provide basic municipal services, and to afford occupiers of backyard dwellings direct access to the supply of electricity. "Backyarder" is a term used to describe where the occupier (owner or tenant) of formal housing has allowed others to establish informal dwellings on the property. These dwellings are reliant on the occupier of the formal dwelling for services. Once access to the service has been provided, there is no distinction between the quality of supply and service levels to informal, back-yarder and formal residential areas.

o New Street Lighting Programme (R26.1 million in 2022/23, R24.1 million in 2023/24, R25.3 million in 2024/25) as well as refurbishment of street lighting programme (R40.2 million in 2022/23, R48 million in 2023/24, R48.9 million in 2024/25) to provide public lighting in both the City and Eskom licensed areas of electrical supply within the metro.

Urban Mobility (including road and transport infrastructure)

o IRT Phase 2A (R667 million in 2022/23, R1 074 million in 2023/24, R2.1 billion in 2024/25) to improve the public transport offering between the residential areas of Khayelitsha and Mitchells Plain and the transport hubs of Claremont and Wynberg, linking socio-economic hubs within the Phase 2A corridor and beyond, through reliable, predictable and more affordable public transport services. The objective of investment in this infrastructure is to provide safe, reliable, quality public transport to the high density population in the Metro South-east, and to improve access to economic opportunities for residents living in the Metro South-east. Programme elements include, amongst others, trunk and feeder routes, bus depots and stations, public transport interchange upgrades, new and improved non-motorised transport facilities, bus acquisitions etc.

o Road Upgrade of Amandel Road between Bottelary River and Church Street (R55.5 million in 2022/23, R29.5 million in 2023/24, R150 000 in 2024/25) for dualling the section of Amandel Road, which will provide significant traffic congestion relief in the Kuilsriver area.

o Road Rehabilitation in Bishop Lavis (R40.2 million in 2022/23, R32 million in 2023/24, R80 000 in 2024/25) as well as in Kalksteenfontein (R20.3 million in 2022/23, R7.4 million in 2023/24) as a result of cancellation of the replacement professional services tender that has since been resolved with work to commence early 2022/23. The rehabilitation of various roads in Bishop Lavis and Kalksteenfontein will include the upgrading of concrete roads and related services, which will provide a boundary-to-boundary improvement of the road reserve, including road rehabilitation/upgrading, stormwater improvements and footways.

- General Stormwater – Rehabilitation (R7.8 million in 2022/23), which includes the trenchless rehabilitation of City-wide underground stormwater infrastructure using various rehabilitation methodologies. The annual City-wide budget for general stormwater has been increased from previously charged Development Charges in order to provide for professional services required to initiate a stormwater project in response to the Tygerberg district stormwater master plan, which is aimed at managing stormwater runoff and reduced flooding in that area.

- MyCiTi Ph1 IRT Station Rebuilds (R2 million in 2022/23, R38.2 million in 2023/24) for the redesign and expedited rebuild of three Phase 1 MyCiTi IRT bus stations, which were vandalised and destroyed during protest action in previous years with the aim to improve security and vandal-resistant measures and to bring the three bus stations back into service.

Water & Sanitation

- The capacity at some of the City's wastewater treatment works (WWTW) have been sighted in the past as hampering developments in certain areas of the City. Work planned over the MTREF period and beyond at these WWTW will increase the capacity of the works, allowing the provision of further sanitation services in the catchment area. The upgrades and refurbishments will also increase the plants performance and treatment capacity to ensure compliance with required discharge limits. Once completed, these WWTW will directly unlock economic growth in the catchment areas, which will in turn have an indirect positive impact on the City in the form of a growth in revenue. These WWTW are:

    - Potsdam WWTW – Extension (R200 million in 2022/23, R436 million in 2023/24, R480 million in 2024/25) to achieve a 53 megalitre per day capacity extension and refurbishment of the existing Potsdam Wastewater Treatment Works.

    - Macassar WWTW Extension (R12 million in 2022/23, R215 million in 2023/24, R415 million in 2024/25) to achieve a 32 megalitre per day capacity extension and refurbishment of the existing Macassar Wastewater Treatment Works.

    - Zandvliet WWTW: Prim Treatment & Sludge (R160.8 million in 2022/23, R23.6 million in 2023/24) to achieve an 18 megalitre per day capacity extension and refurbishment of the existing Zandvliet Wastewater Treatment Works.

- Cape Flats WWTW will see the following work being undertaken:
    - Cape Flats WWTW Inlet works & rising mains (R1 million in 2022/23, R49 million in 2023/24, R63.2 million in 2024/25), which will include the construction of a new 200 megalitre per day inlet works including odour and gas control, demolition of the existing inlet, rehabilitation of the existing access road and associated civil services.

- Cape Flats WWTW – Biosolids (R50 million in 2022/23, R375 million in 2023/24, R223 million in 2024/25) to construct the Southern Biosolids Beneficiating Facility at the Cape Flats WWTW, where advanced treatment will be done onsite and imported sludge (biosolids) will be stored to reduce sludge volumes and improve sludge quality. The phased project will rehabilitate existing thickening and digestion infrastructure, construct new dewatering and prescreening infrastructure, and new post digester nutrient removal facility with gas collection amongst others. The project will assist in meeting the City's responsibility to treat and dispose of waste in ways that comply with legislation, protect the environment and improve the City's image especially within environmentally sensitive areas.

o The upgrade and refurbishment of certain wastewater treatment infrastructure will increase the plants' performance and treatment capacity to ensure it complies with the required discharge limits, which will also contribute to ending pollution of our natural waterways and water bodies. The upgrade will improve services to customers and reduce proactive and reactive maintenance costs. Examples are:
  - Athlone WWTW - Capacity Extension - phase 1 (R86 million in 2022/23, R89 million in 2023/24, R32.8 million in 2024/25), which will include the construction of civil infrastructure to accommodate the installation of mechanical blowers. The blowers are required to provide aeration to support the chemical processes within wastewater treatment.

  - Infrastructure Replacements at WWTW (R10 million in 2022/23 and 2023/24, R30 million in 2024/25) for multiple minor replacement of capital infrastructure at the WWTW, which is beyond repair and could not be paid from the operating budget.

o Catchment and Stormwater Management infrastructure is also vital to address public safety and improve water quality in Cape Town's waterways. Infrastructure projects to be undertaken include:
  - Sir Lowry's Pass River Upgrade (R115 million in 2022/23, R91.2 million in 2023/24, R122.6 million in 2024/25), which is required to secure the safe conveyance of up to the 1 in 100-year flood event through the Firlands agricultural area and the 1 in 50-year flood event in the existing development in Gordon's Bay. Once completed it will alleviate flooding and free-up land for development.

  - Stormwater Dams: Safety upgrade (City-wide) (R1.7 million in 2022/23, R8.2 million in 2023/24, R16 million in 2024/25) to Category II stormwater dams. The project will implement the recommendations of the recent dam safety evaluations and the work will rehabilitate various elements of the stormwater dams including spillways, embankments and outlet channels. This project is required to ensure compliance with the Water Act and applicable regulations, which in turn would produce safe and functional stormwater dams as well as reduce risk to human life and infrastructure due to dam failure. In addition, the work will provide some water quality improvement benefits in the City's waterways.

  - Macassar Flood Alleviation (R1.5 million in 2022/23, R4.4 million in 2023/24, R5.3 million in 2024/25) for the upgrade of the Macassar River Corridor, bordered by Baden Powel Drive to the West and the N2 to the North. The project is vital to secure the safe conveyance of up to the 1 in 100-year flood event, to alleviate flooding in the areas of Kramat, Sandvlei and Macassar thereby protecting vulnerable communities from loss of life and property and to free up land for development.

- Investment in sewer reticulation infrastructure will include the following projects:
  - Replacement & Upgrade Sewer Pump Stations (R69.6 million in 2022/23, R59.9 million in 2023/24 and R60 million in 2024/25) includes minor upgrades to and replacement of sewer pump stations across the metropolitan area identified as requiring such interventions to ensure the effective, efficient and continued operation of these infrastructure assets. Good working conditions of sewer pump stations will keep sewerage from streets/waterways and ensure uninterrupted sanitation service delivery.

  - Upgrade Rietvlei Sewer Pump Station (R3 million in 2023/24, R23.3 million in 2023/24, R98 million in 2024/25), which will include the Kuils River sewer outfall feeder pipeline. These assets are approaching their maximum operating capacity due to current and future development in the Bottelary Corridor and must be upgraded to accommodate this development. The unlocking of further development in the Bottelary corridor is in itself a catalyst for job creation in that area.

  - Philippi Collector Sewer (R8.1 million in 2022/23, R95.9 million in 2023/24, R96.3 million in 2024/25) where the infrastructure investment would comprise of approximately 10.6km of new gravity sewer pipeline with associated manholes, grit trap structures etc. In addition to the main collector sewer, a number of existing secondary sewers that currently drain into the existing collector sewer will be diverted and connected to the new/upgraded collector sewer. The existing Philippi Collector Sewer, which was constructed more than 30 years ago has reached the end of its design life. Blockages and failures of the sewer pipes and manholes have become frequent occurrences. The rehabilitation of some of the existing sewer pipes will also accommodate existing and future developments and significantly reduce the breakdowns and blockages currently experienced on the sewer.

  - Replace Sewer Network (Citywide) (R150 million in 2022/23, R300 million in 2023/24, R305 million in 2024/25) for replacement of sewer pipes that have reached the end of its useful life. Allocations, in addition to previous spending trends, are proposed in order to increase the number of kilometres of sewer pipes, which will be replaced per financial year. The estimated increases are:
    - 30km versus the envisaged 50km in 2022/23;
    - 30km versus the envisaged 100km in 2023/24; and
    - 30km versus the envisaged 100km in 2024/25.

  - Bulk Reticulation Sewers in Milnerton Rehabilitation (R43.3 million in 2022/23, R100 million in 2023/24, R90 million in 2024/25), which entails the construction of a new bulk outfall sewer in Montague Gardens, construction of a sand trap and mechanical screening facility at Koeberg Road Pump Station and rehabilitation of the existing bulk sewer in Montague Drive in Montague Gardens. The existing Montague Drive Sewer is currently operating at full capacity and cannot accommodate the planned development within its catchment area. The existing bulk sewer is also heavily deteriorated due to sulfuric acid corrosion and therefore needs rehabilitation/replacement. Sewer collapses on the Montague Drive Bulk Sewer is high risk for the City due to the bulk sewer's location underneath the Montague Drive roadway. Non-sewerage objects and sediment transported to the Koeberg Road Pump Station sump results in pump breakdowns and ultimately pump station failure, which results in sewer spills into the Rietvlei Estuary. A sand trap and screening facility prior to the Koeberg Road Pump Station will reduce the amount of non-sewerage objects and sediment from entering the pump station sump.

- Gordon's Bay Sewer Rising Main (R18.3 million in 2022/23, R37.6 million in 2023/24, R62.7 million in 2024/25), which comprises of the construction of a regional sewer pump station located adjacent to the Gordon's Bay WWTW and a corresponding 8km 700mm diameter rising main. The sewage will be transported from the Gordon's Bay WWTW to the Sir Lowry's Pass Outfall sewer from where it will ultimately be conveyed to the Macassar WWTW for treatment and disposal. With significant growth expected in the Gordon's Bay area, the existing Gordon's Bay WWTW and Trappies gravity sewer, will not have sufficient capacity to accommodate the increased sewage inflows to the works, hence this infrastructure investment. The construction of the pump station and rising main will alleviate the risk of sewer spillages at the Gordon's Bay WWTW and ensure that future development in Gordon's Bay and Firlands can be accommodated.

Distinguishing between new and renewal of city assets

Asset lifecycle management requires the constant review of the condition of all assets. Once general repairs and maintenance (operating budget expense) is no longer feasible, assets should either be renewed/upgraded.

Renewal of assets relates to existing assets that require replacement/rehabilitation/refurbishment and that has reached end of useful life to either reset the asset life or extend the asset life.

Upgrading of assets refers to the upgrade of an existing asset to increase/unlock capacity within an existing asset. The life of the asset may be extended.

In addition to the renewal and upgrading of existing assets, the City must also keep up with new and future developments in a specific geographical area that might require capital investment in new assets, which will then increase the City's asset base.

In short, an adequate balance of capital investment on renewal, upgrading and new assets are vital.

In order to continue growing the local economy and expand provision of municipal services, investment in new assets are needed. On the other end of the spectrum, investment in renewal and upgrading of existing assets will ensure that City assets remain functional and in good working order. In cases where renewal and upgrading of assets is not adequately prioritised, the useful life of the assets will be reduced resulting in failure of infrastructure, which will be costlier to repair over the long-term to get back to acceptable service standards.

The City will be investing fairly equally in both the upgrade/renewal of its existing asset while also expanding its asset base by constructing and implementing new assets as indicated in the table below:

Categorisation **R'Thousands**	**2022/23**	**2023/24**	**2024/25**
New	3 637 355	5 241 961	7 242 804
Renewal	2 047 662	2 791 548	2 487 259
Upgrade	1 782 376	2 960 808	2 968 433
Total Budget	**7 467 394**	**10 994 316**	**12 698 496**

The City will spend, as a percentage of total 2022/23 capital budget, 51.3% on the renewal and upgrading of assets. This slightly increases to 52.3% in 2023/24 and is expected to reduce to 43% by 2024/25.

Financial year	Renewal and Upgrade as % of total capital budget	New as % of total capital budget
2022/23	51.3%	48.7%
2023/24	52.3%	47.7%
2024/25	43.0%	57.0%

Within the main directorates responsible for the built environment, which also contribute largely to the infrastructure asset, spending on renewal and upgrade of infrastructure assets general exceed 60%, which is vital in ensuring continued service delivery and reducing outages.

Directorate	Categorisation	2022/23	2023/24	2024/25
Energy	New Assets % of Total Capital	39.4%	25.7%	43.3%
	Renewal and Upgrade % of Total Capital	**60.6%**	**74.3%**	**56.7%**
Human Settlements	New Assets % of Total Capital	97.2%	95.1%	95.8%
	Renewal and Upgrade % of Total Capital	**2.8%**	**4.9%**	**4.2%**
Urban Mobility	New Assets % of Total Capital	63.6%	63.6%	87.4%
	Renewal and Upgrade % of Total Capital	**36.4%**	**36.4%**	**12.6%**
Urban Waste Management	New Assets % of Total Capital	75.7%	83.3%	89.9%
	Renewal and Upgrade % of Total Capital	**24.3%**	**16.7%**	**10.1%**
Water & Sanitation	New Assets % of Total Capital	33.6%	41.6%	48.5%
	Renewal and Upgrade % of Total Capital	**66.4%**	**58.4%**	**51.5%**

Capital expenditure on renewal/upgrading of infrastructure assets within Human Settlements directorate (housing), Urban Mobility directorate (roads and transport) and Urban Waste Management appear low. It should, however, be noted that in the case of Human Settlements directorate, capital investment relates to new housing opportunities while the repairs and maintenance of the City's vast rental stock is provided for on the City's operating budget and CRUs are viewed as Social Housing within the Other Assets category, which skews the results.

Infrastructure asset investment within the Urban Mobility directorate is substantially affected by the sheer scale of the MyCiTi Phase 2A integrated bus service rollout to the City's metro-south east corridor, which is classified as investment in new infrastructure assets. Infrastructure assets within the Urban Waste Management directorate mainly consist of landfill sites, which does not require significant upgrades/renewal as airspace is the only infrastructure requirement. The new infrastructure planned over the next 5 to 10 years will largely focus on less waste going to landfill sites. The fleet of Urban Waste Management directorate is not seen as infrastructure, but rather Transport Assets, which is continuously renewed within a 7-year replacement plan, resulting in the skewed results for Urban Waste Management.

It is therefore imperative for the City to ensure sufficient investment in its infrastructure by way of asset renewal/upgrade, which is typically executed via the City's capital budget, but to also ensure general repairs and maintenance are adequately implemented over the lifespan of the asset and effected via the City's operating budget.

National norms

Over time the NT has developed various norms to benchmark progress against as published in NT MFMA Budget Circulars. The norms applicable to the capital budget are:

- Asset renewal/rehabilitation expenditure level; and
- Adequate levels of investment in capital infrastructure

- **Asset renewal/rehabilitation expenditure level**

  As indicated above, renewal and upgrade of City assets refer to the costs that will be incurred to refurbish/rehabilitate/reconstruct/upgrade existing assets, which will ultimately ensure effective and efficient service delivery beyond the original/initial useful life of the specific asset. These investment choices must be made over the life of the asset and be implemented before the asset reaches its end of life.

  The National Treasury benchmark for upgrade/renewal of assets is 40%. From the above tables (previous section) it is evident that the City exceeds this 40% requirement, which over time should then reduce the repairs and maintenance requirements on the upgrade/renewed infrastructure and also translate to less breakdown in services.

  The City will spend in the order of R3.8 billion to upgrade/renew its existing assets.

- **Adequate levels of investment in capital infrastructure**

  A further calculation which can be used is to see whether the City is sufficiently investing in capital infrastructure (not just in the infrastructure asset class but the total capital budget) as a percentage of the total City budget, which includes both capital and operating expenditure. NT reports indicates that a municipality is adequately investing in infrastructure when the capital budget is between 10% and 20% of the total budget.

  Capital investment of below 10% of the total budget (capital and operating) could indicate that insufficient investment is made in ensuring adequate levels of service delivery that is impacted on by constant breakdown in infrastructure and therefore could contribute to an unwillingness by consumers of services to pay rates and tariffs.

  Capital investment in excess of 20 percent of the total budget (capital and operating) could put future strain on the financials of the City and pose financial sustainability challenges. NT advised that borrowings should generally be used to fund revenue-generating asset. It is therefore also important that the correct balance is struck to ensure that cash reserves are not eroded/depleted in a short space of time by approving unaffordable capital investment programmes.

  The City strives to maintain a good quality service delivery to ensure sustained future revenue inflows. Capital budget preparation is also informed by line functions' sector/master plans, which looks at medium-to-long term capital investment requirements.

  The City will spend in the order of R7.4 billion on its capital budget which represents 12.2% of the City's total budget.

Additional details regarding asset classes and proposed capital expenditure is contained in Table 30 on page 75.

MBRR Table A9, Table SA34a, Table SA34b and Table SA34e provides the detailed breakdown of the capital budget with regards to new asset construction, capital asset renewal and upgrading.

Major projects/programmes to be implemented over the medium term

- Advanced Metering Infrastructure rollout programme - R765 million
- Aloe Ridge Housing Project - R73.8 million
- Annandale Housing Project - R102.1 million
- Athlone Refuse Transfer Station: Development of a Mechanical Biological Treatment Facility - R129.6 million
- Athlone Waste Water Treatment Works - Capacity Extension Phase 1 - R207.8 million
- Atlantis Aquifer - R273 million
- Atlantis GAP Sites Housing Project - R59.5 million
- Atlantis Kanonkop Housing Project - R75 million
- Bayside Canal Upgrade - R53 million
- Beacon Valley Housing Project - Mitchells Plain - R43.7 million
- Bellville South Main Substation Upgrade - R76.6 million
- Bonteheuwel Infill Housing project construction - R35 million
- Bulk Reticulation Sewers in Milnerton Rehabilitation - R233.3 million
- Cape Flats Aquifer Recharge - R626.4 million
- Cape Flats Aquifer: Hanover Park and Philippi - R198 million
- Cape Flats Waste Water Treatment Works - Refurbishment - R761.2 million
- Cemetery Expansions - R31 million
- Coastal Park Transfer Station: Develop Modern Materials Recovery Facility - R336.3 million
- Contract Management System Integration - R33 million
- Dashboard Cameras - R46.6 million
- Digital Equipment: Additional - R31.5 million
- District 6 Public Realm Upgrade - R21.6 million
- Electricity Substations: Fencing - R48.1 million
- Engineering & Asset Management: Depot Realignment - R168 million
- Farm 920 and Bloubos Road Housing Project - R27.1 million
- Fire Vehicles: Replacement - R27.1 million
- Flood Alleviation - Lourens River - R48.6 million
- Gordon's Bay Sewer Rising Main - R118.6 million
- Green Point Precinct Road Upgrades - R30 million
- Greenville Housing Project - R43.9 million
- Ground Mounted solar photovoltaic installations - R253.4 million
- Highlands Drive Infill Housing project - R30 million
- Informal Settlement Upgrade - Airport Precinct, Gugulethu - R48.9 million
- Informal Settlement Upgrade - Enkanini - R90.7 million
- Informal Settlement Upgrades: Enhanced Basic Services - R120 million
- Informal Settlement Upgrades: Managed Settlements - R130 million
- Informal Settlement Upgrades: Super Blocking Project - R150 million
- Integrated Bus Rapid Transit System - R64.6 million

- IT Modernisation - R20.8 million
- Khaya Integrated Recreation Facility - R8 million
- Killarney Drop-off facility upgrade: Waste Minimisation - R59.6 million
- Kruskal Avenue Upgrade - R23.2 million
- Library Books, Materials, Periodicals & Subscriptions - R33.8 million
- Library Upgrades and Extensions - R7.3 million
- Local Area Priority Initiatives - R58 million
- Local Environment and Heritage Projects - R40.9 million
- Lwandle Community Library Upgrade - R13.6 million
- Macassar BNG Housing Project - R126 million
- Macassar Waste Water Treatment Works Extension - R642 million
- Masiphumelele Housing Project Phase 4 - R48 million
- Monwabisi Beach Precinct Upgrade - R36.1 million
- Morgen Gronde Switching Station - R137.3 million
- Muizenberg Beach Front Upgrade - R38.2 million
- Nature Reserve Visitor Education Centres - R85.1 million
- Nooiensfontein Housing Project - R60 million
- Pelican Park Phase 2 Housing Project - R52.1 million
- Penhill Housing Project - R25.2 million
- Philippi Collector Sewer - R200.4 million
- Philippi Fresh Produce Market Refurbishment - R45 million
- Policing Service Programme - Courts - R34.2 million
- Potsdam Waste Water Treatment Works - Extension - R1.12 billion
- Provision of Equipment for facilities - R17.2 million
- Public Transport System Projects - R182.2 million
- Reconstruction of Delft Main Road - R64 million
- Regional Recreation Hubs - R10.5 million
- Road Construction: Extension of Saxdown Road from Langverwacht to Van Riebeek Road - R84 million
- Road Dualling: Jip De Jager Drive from Kommissaris Street to Van Riebeeckshof Road - R89.9 million
- Road Rehabilitation: Bishop Lavis - R72.3 million
- Road Rehabilitation: Bonteheuwel and Uitsig - R61.4 million
- Road Rehabilitation: Broadlands Road from N2 to 19th Avenue - R84 million
- Road Rehabilitation: Jakes Gerwel Drive between Frans Conradie Road and Viking Road - R64.5 million
- Road Upgrade: Amandel Road, between Bottelary River and Church Street - R85.1 million
- Rusthoff Infill Housing Project - R29.5 million
- Sea Point Promenade Upgrade Phase 2 - R40 million
- Sheffield Road Housing Project - R30.2 million
- Sir Lowry's Pass Clinic Upgrade - R5 million
- Sir Lowry's Pass River Upgrade - R328.8 million
- Sir Lowry's Pass Village Housing Project - R27.1 million
- Small Bay Sea Wall Upgrade - R42.4 million
- Social Housing Protea Village - R35.3 million

- Steenbras Generation facilities & plant refurbishment - R36.7 million
- Strand Sea Wall Upgrade - R66.8 million
- Strandfontein Clubhouse Development - R15 million
- Strandfontein Integrated Housing Project - R40.7 million
- Symphony Housing Project - R88.4 million
- Table Mountain Group Aquifer: Steenbras - R90 million
- Table View Beachfront Upgrade - R108.8 million
- Tafelsig Clinic Extensions and Upgrade - R11 million
- Triangle Main Substation Upgrade - R283.4 million
- Upgrade Maitland Crematorium - R26.1 million
- Upgrade Rietvlei Sewer Pump Station - R124.3 million
- Upgrade to Health facilities - R9.3 million
- Vehicles for Law Enforcement Services - R26.4 million
- Vehicles for Traffic Services - R51.7 million
- Vissershok Landfill Site: Installation of landfill gas driven electricity generators - R86.4 million
- Vissershok North Landfill: Provision of additional waste disposal capacity - R167.2 million
- Vrygrond Housing Project - R48.2 million
- Wesfleur Waste Water Treatment Works - Capacity Extension - R62.4 million
- Zandvliet Plant Re-use (50ML) - R563.3 million
- Zandvliet Waste Water Treatment Works - Extension - R184.4 million
- Congestion Relief - Erica Drive - R52.9 million
- Informal Trading Permitting System Enhancement - R11.3 million
- Refurbishment of MyCiTi Buses - R58 million
- 24 Hour Operationalisation of Safety & Security services - R79.3 million
- Elsies River Integrated Recreational Facility - R20 million
- Mfuleni Integrated Recreation Facility - R13 million
- Swimming Pool Redevelopment - R33 million
- Delft Integrated Recreation Facility - R8.3 million
- Zewenwacht Link Road Extension between Van Riebeeck and Albert Phielander Roads - R92.4 million

1.6.3 Total Project Cost and projected cost covering all financial years until the project is operational

Section 19(1)(b) of the MFMA states that before a municipality may spend money on a capital project, the project, including the total cost, has to be approved by Council.

Furthermore, Section 19(3) of the MFMA states that the municipal council may in terms of subsection 19(1)(b) approve capital projects below the value of R50 million (amount as prescribed in MBRR regulation 13(2)(c)), either individually or as part of a consolidated capital programme.

The total project cost of projects were reviewed by implementing directorates and amended, where required, while the estimated total project cost on any new project/programme proposed for inclusion in the budget, are included in Annexures 1 and/or 22.

Moreover, Section 19(2)(a) states that "before approving a capital project in terms of subsection (1)(b), the council of a municipality must consider the projected cost covering all financial years until the project is operational." This information is also provided in Annexure 22 for those projects being approved individually with a total project cost in excess of R50 million. Outer years' estimates are reviewed annually during the budget process and amended/updated in line with latest project implementation plans.

1.6.4 Future operational cost of new infrastructure

MFMA Section 19 requires a municipal Council to consider future operational costs and revenues on capital budget projects, including the municipal tax and tariff implications, before approving projects individually or as part of a consolidated programme.

To give effect to this requirement, the future operational cost and revenue of projects/programmes are reflected in Annexures 1 and/or Annexure 22 to the budget report.

The estimated future operating impact indicated in these annexures, represents the sum of the operating expenditure of the 3-year MTREF. This includes estimated operating expenditure in respect of salaries, contracted services (including repairs and maintenance), other general expenditure, depreciation and interest cost to be incurred in the running of the asset once operational as well as future operating revenue. The operating impacts excluding depreciation and interest charges were provided by the respective directorates while depreciation and interest charges were calculated by the Finance directorate.

Directorates have confirmed that the future operating impacts (excluding interest charges and depreciation) will be absorbed in their operating budgets over the MTREF through efficiency gains and the prioritisation of existing operational resources, which were considered during the calculation of the revenue increases for the 2022/23 MTREF.

Operating impacts are reviewed annually and amended, where necessary, during the budget process, while taking into consideration the impacts on Rates and Tariffs to ensure future sustainability of the City overall.

The project level detail for those projects with a total project cost in excess of R50 million is available for viewing as part of Annexure 22 at www.capetown.gov.za/budget.

Table SA35, on page 245, represents the future operational costs resulting from the capital investment programme at directorate level. The table shows that the costs estimated over the MTREF are expected to grow from R848 million in 2022/23 to R3 108 million in 2024/25. No additional budgetary provision was made for these costs as it is expected to be absorbed through efficiency gains and the prioritisation of existing operational resources, with the exception of the 24-hour operationalisation of the Metro Police, Law Enforcement and Traffic Services as well as the extension of City infrastructure to be used by NGOs to house the homeless, which is now included in the 2022/23 operating budget.

1.7 Annual Budget Tables

The ten main budget tables, as required in terms of regulation 9 of the MBRR, are presented on page 59 to page 79. These tables reflect the City's 2022/23 budget and MTREF and each table is accompanied by explanatory notes.

Table 21 - MBRR Table A1 - Budget Summary

Explanatory notes to MBRR Table A1 - Budget Summary

1. Table A1 represents a high-level summation of the City's budget, providing a view that includes all major components, i.e. operating, capital, financial position, cash flow and MFMA funding compliance.

2. In essence, it provides a synopsis of financial performance, capital expenditure and funding sources, financial position, cash flows, asset management, and the City's commitment to eliminate basic service delivery backlogs.

3. The importance of ensuring that a municipal budget is fully funded is stressed in the financial management reforms. The MFMA through Section 18 requires that a budget only be funded by realistically anticipated revenue to be collected and cash-backed accumulated funds from previous years, not committed for other purposes.

4. To test whether the City's budget is funded, it is required to collectively assess the financial performance, capital budget, financial position and cash flow budget.

5. The City's key outcomes in this regard are as follows:
   a. The Financial Performance shows a deficit position over the 2022/23 MTREF. This is as a result of transfers recognised- capital (capital grants and donations received) being excluded from the revenue total while included in the expenditure total.
   b. The cash flow budget outcome shows that the budget is funded.
   c. The capital budget is funded from the following sources:
      i. Transfers recognised capital and public contributions & donations;
      ii. Borrowing; and
      iii. Internally generated funds which are financed from previous years' accumulated surpluses, previous years' contributions to CRR and bulk infrastructure levies already collected. The affordability and sustainability of these funds are confirmed by the positive cash flow outcome over the 2022/23 MTREF.

6. The City's persistent strive to eradicate infrastructure backlogs is evident in the annual increase in the Cost of Free Basic Services and the Revenue Cost of Free Basic Services provided. Backlogs still exist for Electricity Services but are projected to reduce.

Table 22 - MBRR Table A2 - Budgeted Financial Performance (revenue and expenditure by standard classification)

Explanatory notes to MBRR Table A2 - Budgeted Financial Performance (revenue and expenditure by standard classification)

1. Table A2 is an overview of the budgeted financial performance in relation to revenue and expenditure per standard classification, which divides the municipal services into 16 functional classifications.

2. Major contributing items to the increased operating revenue are additional grant allocations from National- and Provincial Government, the projected growth and tariff increases on Property Rates Tax and Service Charges (Water, Sanitation, Electricity and Refuse).

3. The surplus of R1 761 million for 2022/23 includes Transfers recognised- capital (Capital Grants and Donations received), while the expenditure category excludes these transfers.

Explanatory notes to MBRR Table A3 - Budgeted Financial Performance (revenue and expenditure by municipal vote)

1. Table A3 shows budgeted financial performance in relation to the revenue and expenditure per municipal vote and the operating surplus inclusive of transfers recognised- capital (Capital Grants and Donations received).

The table below is an analysis of the surplus or deficit for trading services.

Table 24 - Surplus/(Deficit) calculations for the trading services

Description	2022/23 Medium Term Revenue & Expenditure Framework		
R thousand	Budget Year 2022/23	Budget Year +1 2023/24	Budget Year +2 2024/25
Energy			
Total Operating Revenue (including capital transfers and contributions)	17 626 588	19 986 831	22 300 995
Total Operating Expenditure	15 248 998	17 379 324	19 575 910
Operating Surplus/(Deficit) for the year	2 377 590	2 607 507	2 725 085
% Surplus	13.5%	13.0%	12.2%
Water & Sanitation			
Total Operating Revenue including capital transfers and contributions)	11 720 819	12 319 926	13 232 110
Total Operating Expenditure	10 550 026	10 896 499	11 517 006
Operating Surplus/(Deficit) for the year	1 170 793	1 423 427	1 715 104
% Surplus	10.0%	11.6%	13.0%
Urban Waste Management			
Total Operating Revenue including capital transfers and contributions)	1 449 180	1 544 505	1 591 638
Total Operating Expenditure	1 233 293	1 327 542	1 390 555
Operating Surplus/(Deficit) for the year	215 887	216 963	201 083
% Surplus	14.9%	14.0%	12.6%

The calculation of the trading services' surplus/deficit as per the above table is based on primary revenue and expenditure items only.

It does not include contributions from Energy to Rates or internal cost charges/recoveries. These 'secondary elements' are, however, included in the tariff calculations for the various trading services. When taking the secondary budget into account, none of the trading services reflect a deficit/surplus position.

Table 25 - MBRR Table A4 - Budgeted Financial Performance (revenue and expenditure)

Explanatory notes to MBRR Table A4 - Budgeted Financial Performance (revenue and expenditure)

1. Table A4 is a view of the budgeted financial performance in relation to the revenue by source and expenditure by type. Total revenue (excluding appropriations, which are disclosed in the Statement of Financial Position) is R53 286 million in 2022/23 escalating to R61 291 million by 2024/25. Major contributing items to the total revenue are the increased grant operating allocations from National- and Provincial Government, the projected growth, and tariff increases on service charges.

2. Revenue to be generated from Property Rates is R11 519 million (21.6%) in 2022/23 increasing to R12 858 million (21.0%) by 2024/25. This remains a significant funding source for the City.

3. Service charges relating to electricity, water, sanitation and refuse removal constitute the biggest component of the revenue basket of the City totalling R24 565 million in 2022/23 or 46.1% of the revenue base, increasing to R30 434 million in 2024/25.

4. Transfers & Subsidies increases from R6 260 million in 2022/23 to R6 693 million in 2024/25. This includes external allocations received from National- and Provincial Government and private sector funding.

The figure below provides a graphically view of the main sources of revenue over the MTREF.

	Property rates	Service Charges	Investment Revenue	Transfers and subsidies	Other revenue
Budget Year 2022/23	11 519 486	24 565 228	1 118 566	6 260 172	9 822 523
Budget Year +1 2023/24	12 132 471	27 402 801	1 119 454	6 454 997	9 972 203
Budget Year +2 2024/25	12 858 482	30 433 505	970 357	6 693 166	10 335 040

Figure 6 Revenue by source

5. Employee-related costs are the main cost driver within the City's operating expenditure budget increasing from R17 323 million in 2022/23 to R19 285 million in 2024/25.

6. Bulk purchases (electricity) increases significantly over the MTREF, escalating from R12 351 million in 2022/23 to R16 329 million in 2024/25. This increase can be attributed to substantial increases in the cost of bulk electricity.

7. Depreciation & Asset Impairment totals R3 208 million in 2022/23 and is linked to the capitalisation rate of assets. The calculation of depreciation on new capital expenditure is based on variables such as asset class and lifespan depending on the nature of the asset. Depreciation of existing assets is calculated based on simulated financial system data (SAP), which reflects actual values per annum. Assets Under Construction (AUC) are calculated based on asset class lifespan and projected capitalisation dates.

8. Contracted Services increases from R8 573 million in 2022/23 to R8 885 million in 2024/25 and includes budgetary provision for repairs and maintenance.

9. The deficit of R511 million reflected in 2022/23 increases to R819 million in 2024/25 and is mainly due to expenditure, which is funded from surpluses as a result of the City's Depreciation Strategy, and appropriations not reflected in Table A4.

The figure below provides a graphically view of the main sources of expenditure over the MTREF.

	Employee related costs	Debt impairment	Depreciation & asset impairment	Bulk purchases - electricity	Inventory consumed	Contracted services	Other expenditure

Explanatory notes to Table A5 - Budgeted Capital Expenditure by vote, standard classification and funding source

1. Table A5 reflects the City's capital programme in relation to capital expenditure by municipal vote (directorate); capital expenditure by standard classification; funding sources required to fund the capital budget and information on capital transfers from National- and Provincial departments.

2. The MFMA provides that a municipality may approve single- or multi-year capital budget appropriations. The City has allocated multi-year appropriations amounting to R7 467 million for 2022/23, increasing to R10 994 million and R12 698 million in 2023/24 and 2024/25 respectively.

3. The capital budget is funded by allocations made to the City in the form of grants by National- and Provincial government, public contributions and donations, borrowings and internally generated funds.

4. Capital transfers from National- and the Western Cape Government amount to R2 171 million (29.1%) in 2022/23, increasing to R2 548 million in 2023/24 and R3 443 million in 2024/25.

5. Transfers and Subsidies – capital amount to R101 million, R95 million and R108 million respectively over the MTREF.

6. Borrowing of R2 000 million (2022/23), R6 500 million (2023/24) and R7 500 million (2024/25) has been provided for in terms of affordability levels as determined during the MTREF modelling.

7. Internally generated funds amounting to R3 196 million, R1 851 million and R1 647 million have been provided for annually over the MTREF.

Explanatory notes to Table A6 - Budgeted Financial Position

a. The budgeted Statement of Financial Position of the City has been prepared on a basis consistent with GRAP1 and international accounting standards and as such makes it comparable with the present Statement of Financial Position and those of previous years. This will enable all stakeholders to interpret the impact of the budget as such on the Statement of Financial Position.

b. The assets are in the order of relative liquidity and liabilities according to their priority of being met with cash and an extensive table of notes (MBRR Table SA3 on page 253) are provided with details of the major components of items, such as:
   - Call Investment Deposits
   - Consumer Debtors
   - Property, Plant and Equipment
   - Trade and Other Payables
   - Non-Current Provisions
   - Changes in Net Assets
   - Reserves

c. Movements on the Budgeted Statement of Financial Performance will impact on the Budgeted Statement of Financial Position. Assumptions made on the collection rate for instance, will affect the budgeted cash position of the City and the budgeted impairment of debtors. As such the assumptions form a critical link in determining the applicability and relevance of the budget, the determination of financial indicators, the assessment of funding compliance and the general viability of the municipality.

Explanatory notes to Table A7 - Budgeted Cash Flow Statement

1. The table shows the cash and cash equivalents of the City during the 2022/23 MTREF.

2. The budget has been prepared to ensure adequate levels of working capital representing cash and cash equivalents over the medium-term, with projected cash levels of R6 061 million for 2022/23 increasing to R7 119 million by 2024/25.

3. Assumptions used in the preparation of the cash flow budget.
   a. Revised collection rates:
      - Property rates - 97%
      - Electricity - 99.6%
      - Water - 95%
      - Sanitation - 93%
      - Solid waste - 90%
      - Rental income - 80%
      - Fines - 20%
   b. Disposal Coupon Fees are excluded from ‘Solid Waste’ revenue and included under the ‘Other revenue’ category.
   c. The assumptions for expenditure is 100% spend (Capital and operating).

Explanatory notes to Table A8 – Cash Backed Reserves/Accumulated Surplus Reconciliation

1. The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.

2. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.

3. The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".

4. From the table it can be seen that the City remains in a surplus net cash flow position over the 2022/23 MTREF.

5. Considering the requirements of section 18 of the MFMA, it can be concluded that the 2022/23 MTREF is fully funded.

6. As part of the budgeting and planning guidelines that informed the compilation of the 2022/23 MTREF, the end objective of the medium-term framework was to ensure the budget is funded/aligned to section 18 of the MFMA.

7. Table A8 reflects a surplus of R5 867 million in 2022/23 increasing to R8 037 million by 2024/25.

Explanatory notes to Table A9 – Asset Management

1. Table A9 provides an overview of municipal capital allocations to building new assets and renewal of existing assets, as well as spending on repairs and maintenance by asset class.

2. The following chart provides an analysis between depreciation (including capital asset impairment) and operational repairs and maintenance over the MTREF. It highlights the City's strategy to address the maintenance backlog. To ensure compliance the City will embark on an asset creation project which will be finalised over a couple of years.

Explanatory notes to Table A10 – Basic Service Delivery Measurement

1. Table A10 provides an overview of service delivery levels, including backlogs (below minimum service level), for each of the main services.
2. The City is persistently striving to eradicate backlogs. The City's backlog status is as follows:
   a) Water services: Cape Town's population, both formal and informal settlements, receives potable water in accordance with the National minimum standards as required by the Water Services Act 108 (of 1997).
   b) Sanitation services: Cape Town's population, both formal and informal settlements, receives sanitation services in accordance with the National minimum standards. Funding is still provided to further improve the service levels in Informal Settlements in line with the City's strategy.
   c) Electricity services: The electrification strategy is to reduce the backlog by 1 500 annually over the 2022/23 MTREF.
   d) Refuse services: This service does not have any backlogs.
3. The associated cost of providing free basic services is projected to escalate from R2 136 million in 2022/23 to R2 354 million in 2024/25.
   a) The cost of free basic services for water and sanitation reflects a reduction when compared to the 2021/22 financial year. This is predominantly due to a change in the calculating methodology. The amounts calculated for 2022/23 is based on projected actuals for the new financial years as opposed to the 'allocation per property/informal settlement household' approach that was used in prior years.
   b) The cost of providing free basic services as reflected on Table A10 does not reflect the full cost to the City of providing these services. The true cost of providing free basic services is R4.7 billion as reflected in the ensuing table.

Category R Thousand	Table A10 Cost of Free Basic Services	Actual Cost of Free Basic Services	Table A10 Understated
Energy	268 592	995 530	711 321
Water	455 426	639 149	197 650
Sanitation	766 012	940 370	174 358
Refuse	630 370	753 642	123 272
Property Rates	1 456 700	1 456 700	-
Total	**3 577 100**	**4 785 391**	**1 206 602**

4. The following assumptions are applied when determining the number of households per service:
   a) Water & Sanitation: The number of households is based on the StatsSA 2021 Mid-Year Population Estimates.
   b) Energy: The City supplies only part of the Metro and provides electricity connections irrespective of the number of households.
   c) Refuse: Formal household numbers are determined by monthly billing data and informal settlement dwelling numbers are determined through an annual auditable dwelling count process.

Part 2 – Supporting Documentation

2.1 Overview of annual budget process

2.1.1 Mayoral oversight and responsibility

Section 53 of the MFMA requires the mayor of a municipality to provide general political guidance over the budget process and the priorities that guide the preparation of the budget.

In addition, Regulation 4 of the Municipal Budget and Reporting Regulations (MBRR) states that:

1) *The mayor of a municipality must establish a budget steering committee to provide technical assistance to the mayor in discharging the responsibilities set out in section 53 of the Act.*
2) *The steering committee must consist of at least the following persons:*
   a) *the councillor responsible for financial matters;*
   b) *the municipal manager;*
   c) *the chief financial officer;*
   d) *the senior managers responsible for at least the three largest votes in the municipality;*
   e) *the manager responsible for budgeting;*
   f) *the manager responsible for planning; and*
   g) *any technical experts on infrastructure.*

The City has an established Budget Steering Committee (BSC) that embodies all the requirements as set out in the MFMA and MBRR. In addition, the City established a Budget Strategy Committee (BSM) whose purpose is to provide strategic guidance and ensure that the budget is aligned to the City's strategies.

2.1.2 Budget process overview

Section 21 of the MFMA requires the Mayor to table a time schedule, which sets out the process to draft the IDP and prepare the budget, ten months before the start of the new financial year. The IDP- and Budget Time Schedule was adopted by Council on 29 July 2021.

The City's annual Strategic Management Framework's (SMF) process informs planning over the next financial year and helps ensure delivery on the strategic objectives set out in the IDP. The three-pronged approach of the SMF process commenced with the strategic review in July 2021 followed by the Operational- and Item Review. The Strategic Review provided an opportunity to consider critical issues that may affect the organisation over the MTREF, and laid out important priorities, which inform the planning imperatives over the MTREF. Following the Strategic Review engagement, the City Manager, in August 2021, issued the Strategy Brief including the key priorities to be considered in preparation of the MTREF as follows:

- Focus on core mandates;
- Deliver excellent essential services sustainably and resiliently;
- Exercise financial discipline and maintain financial sustainability;
- Facilitate economic growth;
- Improving safety;
- Enable inclusivity and integration;
- Build resilience; and
- Modernise and digitise City government.

A revised Strategy Brief was issued in November 2021 – post the local government elections - to take into account the incoming Executive Mayor's seven priorities, which are:

- End load shedding in Cape Town over time;
- Make Cape Town safer by investing in law enforcement resources;
- Create new jobs by making Cape Town the easiest place to do business in Africa;
- Make public transport work by fighting for control over railways and funding to expand the MyCiTi bus service;
- Do the basics better and take service delivery into the digital age so that every Capetonian can live a life of dignity;
- Release state-owned land so the private sector can deliver more affordable housing for Capetonians; and
- Clean up Cape Town's public spaces, streets and waterways.

The timeline below sets out the processes followed in preparation of the 2022/23 MTREF.

July 2021

- Tabling of 2022/23 IDP and Budget Time Schedule at Council.
- Commencement of financial technical sessions to formulate proposals in achieving a realistic, deliverable and affordable MTREF (June 2021).
- Budget Steering Committee (BSC), and SMF strategic review.

August – October 2021

- Issue of a Strategy Brief by the Executive Mayor and the City Manager to Executive Directors and Mayoral Committee (MayCo) members in preparation of the SMF Operational Review (mid-August 2021).
- Continuation of various finance technical sessions to formulate proposals to achieve a realistic, deliverable and affordable MTREF (included for reviewing the borrowing strategy and initiatives to reduce revenue parameters) (August 2021).
- Presentations to BSC included technical assessment of the outcome of the 2020/21 financial year and its impact on the 2022/23 MTREF, update on latest LTFP outcome and presentations by Trading Services (Water & Sanitation, Energy and Solid Waste) on proposed financial plans and tariffs (September 2021).
- SMF Operational Review where Executive Directors presented their operational budget proposals and alignment to strategy in responding to the Strategy Brief (October 2021).

November - December 2021

- Local government elections took place on 1 November 2021, which required a revised plan for briefing the incoming political structure.
- Various meetings with the Executive Mayor, which included briefings on budget timelines, latest LTFP model positions to inform the 2022/23 MTREF, the 2021/22 mid-year review and performance assessment, and related adjustments budget, and update on the SMF process impacting the MTREF (November and December 2021).
- Refinement of the LTFP model to ensure a credible, affordable and sustainable budget over the medium term and presentation of parameters and assumptions for endorsements budget proposals.
- Conclusion of Project Readiness Assessment on proposed capital budget (SMF Item Review) (December 2021).

January and February 2022

- Presentation of proposed rates and tariffs and the outcome of the Total Municipal Account (TMA) i.e. the impact of the proposed tariffs on the consumer to BSC and BSM.
- Preparation of detailed operating- and capital budget.

March to May 2022

- Draft 2022/23 operating- and capital budget, and new IDP scheduled tabled at Council on 31 March 2022.
- The budget, IDP and tariff proposals was published for comment and consultation as part of the public participation process from 1 April to 3 May 2022.
- Comments received as a result of the public participation process to be submitted to the MayCo for consideration.
- A combined 2022/23 SIME/LGMTEC and the National Treasury 2023 Municipal Benchmark Engagement took place on 3 May 2022.
- 2022/23 MTREF budget and IDP scheduled for consideration and adoption by Council on 31 May 2022.

2.1.3 Integrated Development Plan (IDP)

The IDP is the City's principal strategic planning instrument, which guides and informs on-going strategic planning, management and development actions. The IDP represents the City administration's commitment to exercise its executive authority. The 5-Year (2022 - 2027) Term of Office Plan, is in line with National- and Provincial government legislation and is effectively the local government's blueprint by which it strives to realise its vision for Cape Town in the short-, medium- and long term.

The 5-Year (2022 - 2027) Term of Office IDP was developed in line with the Term of Office IDP Process Plan. The IDP will be tabled at Council in March 2022 under separate cover.

Section 25(1) of the Municipal Systems Act (MSA) - Adoption of Integrated Development Plans

Each municipal council must, within a prescribed period after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the municipality which –

- *links, integrates and co-ordinates plans and takes into account proposals for the development of the municipality;*
- *aligns the resources and capacity of the municipality with the implementation of the plan;*
- *forms the policy framework and general basis on which annual budgets must be based;*
- *complies with the provisions of this Chapter; and*
- *is compatible with national and provincial development plans and planning requirements binding on the municipality in terms of legislation.*

Section 28 of the Municipal Systems Act (MSA) - Adoption of process

- *Each municipal council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting, adoption and review of its integrated development plan.*
- *The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process.*
- *A municipality must give notice to the local community of particulars of the process it intends to follow.*

Section 29(1) of the Municipal Systems Act (MSA) - Process to be followed

- *The process followed by a municipality to draft its integrated development plan, including its consideration and adoption of the draft plan, must –*
  - *be in accordance with a predetermined programme specifying timeframes for the different steps;*
  - *through appropriate mechanisms, processes and procedures established in terms of Chapter 4, allow for –*
    - *the local community to be consulted on its development needs and priorities;*
    - *the local community to participate in the drafting of the integrated development plan; and*
    - *organs of state, including traditional authorities, and other role players to be identified and consulted on the drafting of the integrated development plan;*
  - *provide for the identification of all plans and planning requirements binding on the municipality in terms of national and provincial legislation; and*
  - *be consistent with any other matters that may be prescribed by regulation.*

2.2 Overview of alignment of annual budget with Integrated Development Plan (IDP) and Service Delivery and Budget Implementation Plan (SDBIP)

The City's priority, objectives and programmes are set out in its IDP, which provides the strategic framework that guides the City's planning, budgeting and service delivery implementation through the Corporate Scorecard and SDBIPs over the course of the 5-year political term. These documents are aligned to ensure effective and efficient service delivery.

The IDP's priorities and foundations are translated into 16 objectives, which are broken down into programmes and projects that are underpinned by the budget.

This realistic and sound budget supports the credibility of the process. Resources are allocated firstly through budget prioritisation at a corporate level and pulled through to the directorate/department business plans.

The City's SDBIP has various components i.e Corporate (Five-Year and One-Year) and the Directorate SDBIPs. The Corporate SDBIP contains the Corporate One-Year Scorecard and other budget related information, which is the strategic tool used by the City to ensure service delivery and for the community to monitor the implementation and progress against set targets.

The Five-Year Corporate scorecard contains annual targets for the term of office and forms part of the IDP. National Treasury MFMA Circular 88 requires that outcome indicators must find expression in the IDP and the Circular Outcomes Scorecard contains prescribed outcomes indicators as determined by NT. The outcomes indicators are separately disclosed from the corporate scorecard as it contains external data such as StatsSA household data, which is predominantly not under the City's 'area of control' but forms part of the City's 'area of concern'. The City monitors and tracks a range of trends to understand the environment in which it operates. This is measured on an annual basis. These documents are approved by council as part of the IDP.

The One-Year Corporate Scorecard contains quarterly targets for the 2022/23 financial year and is referred to as the Corporate SDBIP. The Corporate SDBIP contains budget information and sets out how the City intends spending the budget for the financial year.

The figure below provides a graphical display of the link between SDBIP and corporate scorecard.

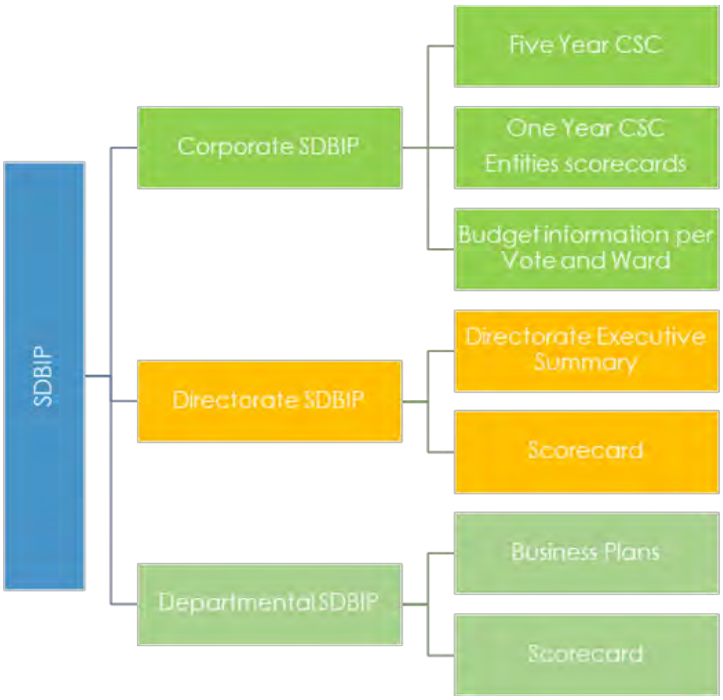

Figure 9 Link between SDBIP and corporate scorecard

2.2.1 Service Delivery and Budget Implementation Plan (SDBIP)

The Corporate SDBIP sets out various components in the format required by NT. It includes the City's One-Year Corporate Scorecard as well as the Municipal Entities' Scorecards.

These scorecards reflect the measurable performance indicators for quarterly- and annual targets.

The corporate SDBIP has several components:

- One-Year Corporate scorecard for the City;
- Circular 88 Scorecard as prescribed by NT;
- Cape Town Stadium (CTS) scorecard; and
- Cape Town International Convention Centre (CTICC) scorecard.

The balance of the components of the City's SDBIP (i.e. revenue to be collected, by source and operating- and capital expenditure by vote) includes projections for each month and are presented in MBRR table SA25 on page 145, table SA26 on page 147 and table SA28 on page 150.

The entities' scorecards are disclosed in terms of section 93B(a) and (b) and 93C (iv) and (v) of the Municipal Systems Act (MSA) and section 87(5)(d) of the MFMA.

Detailed departmental SDBIPs are published on the City's website and may be accessed at www.capetown.gov.za.

The vision of the City

The vision of the City (as set out in the IDP) is to be a City of Hope for all – a prosperous, inclusive and healthy city where people can see their hopes of a better future for themselves, their children and community become a reality.

The budget is allocated against the priorities and foundations at a corporate level. This visionary framework is rolled out into objectives, key performance indicators (KPI) and targets for implementation. These are then broken down into the SDBIP that reflects the detailed projects. Each of these projects is allocated budgetary and other resources.

The figure below visually represents the link between the IDP and budget, and demonstrates how corporate strategy is cascaded through the organisation, and how it influences and shapes the operating- and capital budget of the City's directorates/departments.

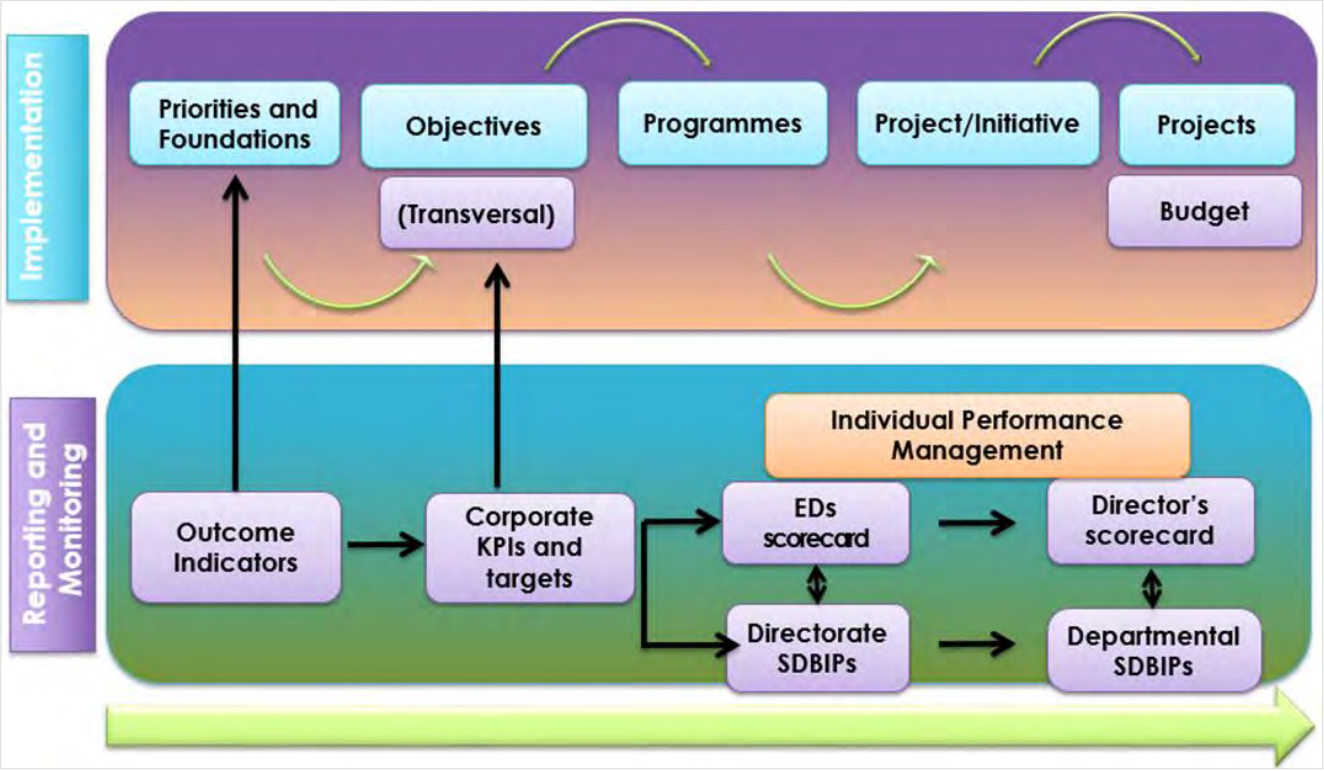

Figure 10 IDP and Budget link

The tables below provide details on the reconciliation between the IDP strategic objectives, the operating revenue and expenditure and the capital expenditure budget.

Table 32 - MBRR Table SA4 - Reconciliation between the IDP strategic objective and budgeted revenue

2.3 Measurable performance objectives and indicators

The Corporate Scorecard is the strategic tool used by the community and the City to monitor progress against delivery.

The City's cycle and process of performance management system can be graphically illustrated below:

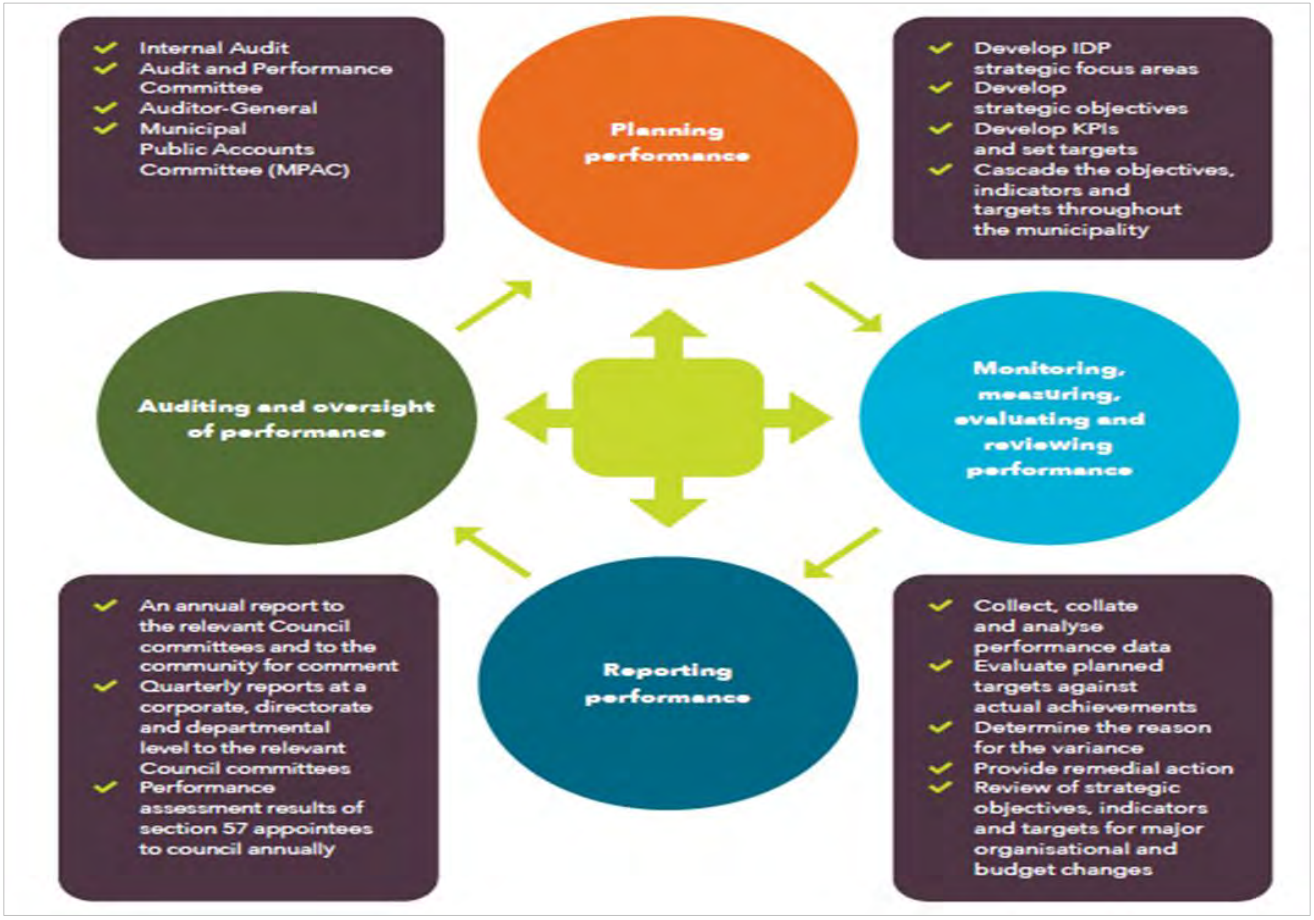

Figure 11 Planning, budgeting and reporting cycle

Planning Performance

The City must involve the community in deciding what priorities and needs it wants to achieve. Community involvement will be in line with relevant legislation and approved policy(s).

Planning ensures that clear strategic direction is set and prioritised. The IDP is developed and is set for the 5-year term of office of the elected council and reviewed annually. This is the stage where priorities and foundations,, objectives, performance indicators, definitions and targets are determined. Indicators measure the extent to which objectives are being achieved, indicating performance in relation to outcomes, outputs, activities and inputs. Targets set the level of performance to be achieved within a defined period of time.

The planning cycle delivers a 5-year and annually reviewed IDP (including a Five-year Corporate Scorecard with definitions and targets), annual one-year corporate (quarterly) targets, directorate and departmental SDBIP, performance indicator measurement sheets and Section 57 performance agreements/plans.

Indicators must be measurable, relevant, objective and precise. It must include outcomes, output and input indicators. General national key performance indicators as per regulation 10 of the Municipal Planning and Performance Management regulation must be included. Proxy indicators will be used until auditable and cost effective systems and processes are in place to measure the national general indicators.

The components will be interlinked to ensure implementation. All the IDP priorities , objectives and key performance indicators will cascade into a directorate and/or a departmental SDBIP and/or the City Manager's and/or Section 57 appointees' scorecards.

Monitoring, Measuring, Evaluating and Reviewing performance

Monitoring and measuring are the processes and procedures to collect, collate, monitor, review and analyse organisational performance data on an on-going basis to determine whether planned performance targets have been met, exceeded or not met. This takes place on a quarterly and annual basis.

The performance evaluation results are determined by regular management meetings to establish, inter alia:

- Year-to-date performance progress and reasons for variances for both under- or over performance;
- Remedial action (effective methods of correction or enhancement), if any, which need to be taken to achieve the agreed performance targets; and
- A date for implementation and responsible official.

A review of indicators and targets can take place to the extent in which changing circumstances so demand and in accordance with a prescribed process. These are limited to major organisational changes and when the annual budget is adjusted.

Reporting

The actual achievements of targets set for the key performance indicators will be reported on a quarterly basis, where appropriate. It will form the platform for the quarterly- and annual performance reports. NT MFMA Circular 88 will only be reported on annually. Reporting performance includes an Annual Report to the relevant Council committees and to the community for comment and quarterly reports at corporate, directorate and department level to the relevant Council committees.

Auditing and Oversight

Internal Audit and the Audit Committee (including the Performance Management Committee) reviews the Organisational Performance Management (OPM) system for functionality, performance information and compliance. The Auditor-General performs an annual audit on the Annual report and expresses an audit opinion on the financial and non-financial information. The Municipal Public Accounts Committee (MPAC) reviews the Annual Report and provide oversight.

The 2022/23 Corporate SDBIP will be approved by the Executive Mayor in June 2022.

Table 35 - MBRR Table SA7 - Measureable performance objectives

Description	Unit of measurement	2018/19	2019/20	2020/21	Current Year 2021/22			2022/23 Medium Term Revenue & Expenditure Framework		
		Audited Outcome	Audited Outcome	Audited Outcome	Original Budget	Adjusted Budget	Full Year Forecast	Budget Year 2022/23	Budget Year +1 2023/24	Budget Year +2 2024/25
Priority: Economic growth										
Objective: 1. Increased Jobs and Investment within the Cape Town economy										
1.A Building plans (<500 m2) approved within 30 days (%)	Percentage	New	New	New	New	New	New	96.00%	96.00%	97.00%
1.B Building plans (>500 m2) approved within 60 days (%)	Percentage	New	New	New	New	New	New	96.00%	96.00%	97.00%
1.C Property revenue clearance certificates issued within 10 workings days (%)	Percentage	94.61%	90.74%	92.63%	90.00%	90.00%	90.00%	93.00%	93.00%	93.00%
1.D Commercial electricity services applications finalised within industry standard timeframes (%)	Percentage	New	New	New	New	New	New	95.00%	95.00%	95.00%
1.E Council approved trading plans developed or revised for informal trading (number)	Number	New	New	New	New	New	New	8	8	8
1.F Regulatory Impact Assessments completed (Number)	Number	New	New	New	New	New	New	4	4	4
1.G Work opportunities created through Public Employment Programmes (Number) (NKPI)	Number	36 910	31 871	34 306	25 000	25 000	25 000	25 000	25 000	25 000
Priority: Basic Services										
Objective 2. Improved access to quality and reliable basic services										
2.A Taps provided in informal settlements (number) (NKPI)	Number	716	1 520	799	700	700	700	700	700	700
2.B Toilets provided in informal settlements (number) (NKPI)	Number	3 687	2 999	3 422	2 500	2 500	2 500	2 500	2 500	2 500
2.C Informal Settlements receiving waste removal and area cleaning services (%)(NKPI)	Percentage	99.74%	99.74%	99.79%	99.00%	99.00%	99.00%	99.00%	99.00%	99.00%
2.D Subsidised electricity connections installed (number) (NKPI)	Number	2 440	1 996	1 721	1 500	1 500	1 500	1 500	1 500	1 500
Objective 3. End load shedding in Cape Town over time										
3.A Capacity of additional approved alternative energy sources (Small Scale Embedded Generation (SSEG)) grid tied installations (MegaVolt Ampere)	Mega-volt ampere	New	New	New	New	New	New	5MVA	5MVA	5MVA
3.B Load shedding level variance (%)	Percentage	New	New	New	New	New	New	40.00%	40.00%	40.00%
Objective 4. Well-managed and modernised infrastructure to support economic growth										
4.A Sewer reticulations pipeline replaced (metres)	Metres	New	New	New	New	New	New	50 000	100 000	100 000
4.B Compliance with drinking water quality standards (%)	Percentage	99.09%	99.19%	99.11%	98.00%	98.00%	98.00%	99.00%	99.00%	99.00%
4.C Total augmented water capacity in megalitres per day (MLD)	Megalitres per day	New	New	New	New	New	New	20	40	80
4.D Valid applications for residential water services closed within the response standard (%) (NKPI)	Percentage	New	New	New	New	New	New	80.00%	80.00%	80.00%
4.E Valid applications for residential sewerage services closed within the response standard (%) (NKPI)	Percentage	New	New	New	New	New	New	80.00%	80.00%	80.00%
4.F Service requests for non-collection of refuse resolved within 3 days (%) (NKPI)	Percentage	New	New	New	New	New	New	96.00%	96.00%	96.00%
4.G Residential electricity services applications finalised within industry standard timeframes (%)(NKPI)	Percentage	New	New	New	New	New	New	95.00%	95.00%	95.00%

2.3.1 Performance indicators and benchmarks

2.3.1.1 Borrowing Management

The City needs a credit rating to demonstrate its ability to meet its short- and long-term financial obligations. Potential lenders also use it to assess the City's credit risk, which in turn affects the pricing of any subsequent loans taken. Factors used to evaluate the creditworthiness of municipalities include the economy, debt, finances, politics, management and institutional framework.

Moody's Investors Service published their latest credit opinion for the City on 14 April 2022. It has reaffirmed the existing long- and short-term national and global scale rating of Aa3.za/P-1.za and Ba3/NP, and changed the outlook from negative to stable. This update follows after the City received its 17th consecutive unqualified audit report and after the change in outlook of the sovereign (the Republic of South Africa) from negative to stable.

The City's rating reflects its moderate financial performance supported by its prudent financial management, large and diversified economic base. The City has consistently generated robust operating surplus with stronger liquidity and lower debt than that of its peers in South Africa also rated by Moody's.

The City's credit profile is constrained by capital spending pressure, related to infrastructure backlogs and population growth. It is also constrained by the structurally weak economic environment, worsened by the ongoing coronavirus restrictions, which is expected to moderate the City's operating performance. The resilience in the City's cash position is expected to remain. The low debt level, together with the City's liquidity reserves places the City in a favourable position to raise funding. In addition, any movement in the South African sovereign rating will impact directly on the City's global scale rating.

The following financial performance indicators have formed part of the compilation of the 2022/23 MTREF:

- *Capital charges to operating expenditure* is the measure of the cost of borrowing in relation to the operating expenditure. This ratio averages 5.5% over the 2022/23 MTREF, which indicates that the City spends an average of 5.5% of its operating expenditure budget annually on finance charges. This is below the national treasury norm of 6 to 8%.
- *Borrowing funding as a ratio of own capital expenditure* reflects the degree to which own capital expenditure (excluding government grants and public contributions) has been funded by way of borrowing. The ratio shows a 65.5% over the MTREF. This ratio outcome is as a result of the City's borrowing strategy and the funding requirements.

2.3.1.2 Safety of Capital

The gearing ratio is a measure of the total short-term and long-term borrowings over total community wealth (equity). The City's outcome over the 2022/23 MTREF averages 21.8%. The gearing ratio shows that the City has a small proportion of debt versus equity.

2.3.1.3 Liquidity

- Current Ratio
  The current ratio is used to assess the City's ability to pay back its Short-term Liabilities (Debt and Payables) with Short-term Assets (Cash, Inventory, Receivables). According to NT MFMA Circular 71 the higher the current ratio, the more capable the municipality will be to pay its current- or short-term obligations and provide for risk cover to enable it to continue operations at desired levels. It is preferable that the ratio is at least above one. The ratio for the City averages 1.4 over the 2022/23 MTREF period.

- Liquidity ratio
  The cash (liquidity) ratio is a measure of the ability of the City to utilise cash and cash equivalents to settle its current liabilities immediately. The norm is between 0.5 and 1. This ratio for the City averages 0.7 over the 2022/23 MTREF period indicating that the City is in a good position to meet the payment of current liabilities should it be due.

2.3.1.4 Revenue Management

Debt Management action, including legal action carried out against those debtors who can afford to pay, but choose not to, with a special focus on:

- Categorisation of accounts into high value accounts - business and residential;
- Top 1000 debtors;
- Government and State-owned Entity accounts; and
- Staff and councillor arrears.

The City will continue to enforce the payment of outstanding debt through effective debt management actions to those residents/businesses who have not come forward to access the City's benefits and COVID-19 relief offered. These actions may include:

- Restriction/disconnection of water/electricity services;
- Collection of all arrear debts through electricity prepaid purchases;
- Listing of property owners for adverse credit listing at relevant credit bureaus; and
- Handing over accounts to appointed attorneys to initiate legal recovery action, which could lead to a sale in execution (SIE) of the property to recover the municipal debts.

Further to the above, the City's strategy for indigent debtors are:

- Deemed indigent properties are allocated 15kl of water and 10.5kl sanitation for free with additional consumption billed in terms of the approved water and sanitation indigent tariffs;
- Prepaid electricity meters are installed free of charge;
- When successfully registered as indigent, a once off write-off is done of all outstanding debt; and
- Council approves the write-off of all interest charges as well as suspension of interest charges on indigent properties until the pre-paid electricity meters have been installed and applicable outstanding debts have been written off.

Debtors experiencing difficulty in paying their accounts may either enter into affordable payment arrangements or apply to be registered as indigent or apply for rates rebates. The City provides the option of an affordable payment plan for debtors to settle their arrears, where compliance with the agreed payment plan leads to the suspension of all debt management action and interest being raised, until the arrears are paid in full.

NOTING: Options are provided to those parts of the residential and commercial sector most affected by COVID-19. This could be extended into the 2022/23 financial year - in accordance with the City's Credit Control and Debt Collection Policy and not in violation of MFMA Section 164 (1)(c)(iii).

2.3.1.5 Creditors Management

In compliance with Section 65 of the MFMA, the City has continuously managed to ensure that all its creditors are settled within 30 days of invoice or statement where goods and services are rendered timeously and in good condition. Under exceptional circumstances where services cannot be rendered on time, existing follow-up procedures and control measures are applied to ascertain reasons, thus facilitating timeous payments. These are built-in within the City's payment processes. The City also ensures that suppliers are familiar with the agreed payment terms and conditions. This remarkable service excellence is attributable to strong business relations that exist between the City and its suppliers.

2.3.1.6 Other Indicators

- Electricity distribution losses
  Performance in the 2020/21 financial year has shown that electricity distribution losses was 12.0%. The City's strategy to continue to address this included the appointment of additional revenue protection teams, which when compared to the 2019/20 financial year where performance was 9.73%. This was understated as the estimations during the pandemic were problematic because of the lockdown. A recovery was already evident in the 2021/22 mid-year where losses are tracked at 9.9%.

- Water distribution losses
  High priority is being given to a comprehensive water loss reduction strategy with detailed action plans to address each of the physical or real losses and apparent losses. The Water & Sanitation Services department is applying the resources required to implement Water Demand Management interventions. These include:
  - Enhancing water loss monitoring via adequate bulk and zonal metering;
  - Education and awareness programmes;
  - Leak detection and repair programme to identify underground leaks by using leak detection technologies and visual inspection and repair;
  - Pressure Management Systems by installing technologies to minimise pipe bursts, leakage in the system and to reduce night flows as well as increasing the area covered by the management system to include previously unmanaged sections;
  - Pipe replacement programme replacing ageing pipelines to reduce water leakage and minimise pipe bursts (priority areas are aligned with the pressure management system);
  - Meter replacement programme to provide bulk water balances to proactively establish accurate assessment of water losses in bulk water supply system;
  - Replace and upgrade of old meters;
  - Ensure adequate working bulk meters at all required supply points; and
  - Monitor top water users.

2.3.2 Free Basic Services: basic social services package for indigent households

The social package for indigent households is based on the blanket- and targeted approach. The blanket approach refers to rebates provided to indigent households based on property value of R0 to R400 000 (R400 001 to R500 000 for refuse removal only).

The rebates reflected in the ensuing table are provided to the indigent-based property value.

Table 37 - Basic social package rebates

Property Value	Refuse Removal Charges	Water	Sanitation	Property Rates	Electricity: Lifeline 1 <250KWH	Electricity: Lifeline 2 >250KWH <450KWH
R1 to R300 000	100%	15kl free	10.5kl free	100%	60kWh free	25kWh free
R300 001 – R350 000	50%	15kl free	10.5kl free	-	60kWh free	25kWh free
R350 001 – R400 000	25%	15kl free	10.5kl free	-	60kWh free	25kWh free
R400 001 – R500 000	25%	-	-	-	-	-

The Free Basic Services to indigent properties has been adjusted upwards from 10.5 kl of free water and 7.35kl of sanitation to a monthly allocation of 15kl of water and 10.5kl of sanitation. This aligns with the *Free Services allowed for the Excessive Use* approach introduced in the 2021/22 financial year.

With this targeted approach any resident who is required to pay for municipal services and whose gross monthly household income is R4 500 or below needs to register as an indigent to receive the same benefits as if their property values were below R300 000.

Households with property values of up to R300 000 are entitled to:

- 100% property rates rebate;
- 100% refuse removal rebate;
- 15kl free water;
- 10.5kl free basic allocation for sanitation services;
- 60kWh free electricity if consumption is less than 250kWh; and
- 25kWh free electricity if consumption is greater than 250kWh but less than 450kWh.

The number of indigents registered at the end of April 2022 was 11 594. This number varies monthly as registration is valid for 12 months after which re-application is required.

The City also offers varying rebates for residents of household income of up to R7 500.

Property rates- and refuse rebates are granted to residents based on their gross monthly household income as follows:

Income bracket	*Rebate %*
R4 501 – R6 000	*95%*
R6 001 – R7 500	*90%*

The number of beneficiaries for the current year rebate at the end of April 2022 was 156.

2.3.3 Providing potable water and managing waste water

In managing the provision of drinking water and the treatment of wastewater, the City performs the dual role of Water Service Authority and Water Service Provider. It also provides bulk drinking water to adjacent local authorities namely Drakenstein Municipality and Stellenbosch Municipality.

Water Quality

As a water service provider, the City constantly strives to improve its performance with respect to water quality management. Water safety planning and risk mitigation methodologies are integrated into its management processes. Although no major corrective interventions are currently required in terms of the water safety plan, the City will constantly evaluate the need for additional risk mitigation barriers. Provision is made in the normal budget allocations to maintain the high standards already achieved, should additional safety barriers be identified, then budgetary allocations will prioritise the associated intervention.

Major water projects included in the future capital programme are:

- Bulk Water Augmentation Scheme, which is required to augment the City's bulk water supply system, to ensure a safe, reliable and sustainable supply of water to Cape Town and its surrounding region and includes new major reservoirs as well as a new water treatment plant and distribution bulk mains.

- Flowing from the drought, the City adopted a Water Strategy, which, inter-alia, seeks to increase water resilience through diversification of water sources. Significant capital investments are being made in Development of the Cape Flats Managed Aquifer Recharge Scheme, upgrading of the Atlantis Managed Aquifer Recharge Scheme, and development of the Table Mountain Group (TMG) Aquifer Scheme. Planning is currently underway to develop an advanced water purification plant (reuse) as well as permanent sea water desalination plants to cater for longer term growth in water demand and climatic uncertainty.

Treatment of wastewater

The City has a risk-based approach in place whereby the strategic risks to the wastewater business have been identified, rated and mitigation measures have been put in place. The plan is being implemented but there is a significant financial requirement for capacity upgrading, maintaining, rehabilitating and replacing the ageing assets to mitigate the critical risks in the Wastewater Risk Abatement Plan (WWRAP). This plan specifically relates to new license conditions imposed by the national Department of Water & Sanitation. This document was reviewed to further refine prioritisation of the risks and resource allocations.

The City has clear objectives based on a sound baseline and knowledge of their processes and technologies. The application of risk management and abatement is an integral part of the wastewater business.

Since the City received 12 Green Drops and an overall score of 89.7% for its 27 wastewater treatment systems during the 2012/13 assessment up from the 11 Green Drops awarded and the 86.8% score achieved in 2011/12, no further national Green Drop assessment has taken place. Nevertheless, in 2017, the Wastewater branch received the first SALGA award as well as one from the Regional office of the Department of Water & Sanitation (DWS)/Water Institute of SA (WISA) for water use compliance. The Branch again received an award from the DWS in 2018.

The City continues to display a strong commitment to improving wastewater treatment and strives for on-going improvement with implementation of the principles of best practice management throughout the entire workforce.

The primary problems experienced are that of ageing infrastructure, which needs to be rehabilitated or replaced, rapid population growth, maintenance of the existing assets, a shortage of relevant skills, as well as more stringent license conditions.

Additional challenges include significant financial investment requirements for:

- New infrastructure to cater for the rapidly developing city; and
- Improving the existing wastewater effluent quality.

These problems are experienced throughout South Africa and the City is addressing such challenges via recruitment of appropriate staff and training existing staff in an effort to minimise the shortage of experienced employees. The City's Water & Sanitation directorate has formulated comprehensive long term master plans (for wastewater, bulk water and the sewer and water reticulation services) and improved business processes. This allows for efficient allocation of financial resources to create new facilities with appropriate technologies and expanding as well as maintaining existing assets.

Some of the major current and future wastewater projects are:

- Zandvliet Extension Wastewater Treatment Works (WWTW) - increase in treatment capacity;
- Bellville WWTW – improvement in treatment processes;
- Potsdam Waste Water Treatment Plant (WWTP) – increase in treatment capacity
- Macassar Extension WWTP - increase in treatment capacity;
- Borchards Quarry WWTW – improvement in treatment processes and
- Athlone WWTP - increase in treatment capacity
- Cape Flats- Bio-solids Beneficiation Facility (BBF) i.e. Sludge to energy; and
- Managed Aquifer recharge – Tertiary reclamation of final effluent.

The capital budget is allocated for increased treatment capacity, process improvements and improved effluent quality. The detailed capital budget and development programme is reflected in Annexure 23 of the budget documentation.

2.4 Overview of budget related-policies

The City's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies.

2.4.1 Approved policies with no amendments in the 2022/23 budget cycle

The following budget-related policies have been approved by Council and are available on the City's website:

- Asset Management Policy (Approved February 2013)
- Borrowing Policy (Approved March 2013)
- Ward Allocation Policy (Approved January 2014)
- Supply Chain Management Policy (Approved June 2019)
- Cash Management and Investment Policy (Approved July 2018)

2.4.2 Policies amended during the 2022/23 budget cycle

The policies listed below were reviewed at the budget-related policy workshops held during the year and is annexed to the document.

- Rates Policy – Annexure 5
- Tariff Policies – Annexure 7
- Credit Control and Debt Collection Policy – Annexure 8
- Grants-in-Aid Policy – Annexure 9
- Policy on Accounts Payable – Annexure 10
- Funding and Reserves Policy – Annexure 11
- Virement Policy – Annexure 12
- Budget Management and Oversight Policy – Annexure 13
- Long Term Financial Plan Policy – Annexure 14
- Policy Governing Adjustments Budgets – Annexure 15
- Unforeseen and Unavoidable Expenditure Policy – Annexure 16
- Policy Governing Planning and Approval of Capital Projects – Annexure 17
- Cost Containment Policy – Annexure 18
- Municipal Entities Policy – Annexure 19

The annexures listed below provide details of changes made to the Rates Policy (Annexure 5) and the Tariff Policies (Annexure 7) respectively.

- Property (Tax) Rates – Annexure 2
- Revised consumptive tariffs, rates and basic charges for electricity generation and distribution, water and sanitation and solid waste management services - Annexure 4
- City Improvement Districts Additional Rates – Annexure 3

2.5 Overview of budget assumptions applied to the 2022/23 MTREF

Introduction

The Local Government Municipal Systems Act, Chapter 5, Section 26, prescribes the core components of the Integrated Development Plan (IDP). Section 26 (h) requires the inclusion of a financial plan, which should include a budget projection for at least the next three years. This financial plan aims to determine the financial affordability and -sustainability levels of the City over the medium term.

Part 2 of the MBRR (Budget-related policies) requires the Accounting Officer to ensure that budget-related policies are prepared and submitted to Council. One of these policies relates to the long-term financial plan, which aims to ensure that all long-term financial planning is based on a structured and consistent methodology, thereby ensuring long-term financial affordability and sustainability.

A municipality's financial plan integrates the financial relationships of various revenue and expenditure streams to give effect to the IDP. It provides guidance for the development of current budgets and assesses financial impacts on outer years' budgets by incorporating capital expenditure outcomes, operating expenditure trends, optimal asset management plans and the consequential impact on rates, tariffs and other service charges. The City's Long Term Financial Plan (LTFP) determines the appropriate mix of financial parameters and assumptions within which the City should operate to facilitate affordable and sustainable budgets for at least 10 years into the future. In addition, it identifies the consequential financial impact of planned capital projects on the City's operating budget.

The LTFP model is reviewed annually to determine the most affordable level at which the City can operate optimally and includes the following:

- Fiscal overview;
- Economic climate;
- Demographic trends;
- National- and Provincial influences;
- IDP and other legislative imperatives; and
- Internal governance, community consultation and service delivery trends.

The key budget assumptions of the 2022/23 MTREF covers sources of information to develop a framework for revenue and expenditure, which drives the 3-year MTREF of the City under the following headings:

- Tail-end of the COVID-19 pandemic;
- Financial Strategic Approach;
- Financial Modelling and Key Planning Drivers;
- Economic outlook/external factors (including demographics);
- National and Provincial influences;
- 2022/23 MTREF Budget Projection;
- Revenue Framework;
- Expenditure Framework;
- Capital; and
- National and Provincial Allocations over the MTREF.

2.5.1 Tail-end of the COVID-19 pandemic?

The 2022/23 MTREF was drafted as the country exited the 4th wave of the COVID-19 pandemic. Although not at the same level of impact as the start of the national lockdown declared on 23 March 2020, the impact of the depressed economy on municipalities' operations and the affordability thereof on its consumers would be with us for some time still.

The previous LTFP/MTREF was framed with the assumption that the pandemic would end by June 2021; however, South Africa was subjected to a 4th wave of the pandemic with further occurrences expected in future months. Fiscal/financial constraints placed on government resulted in lower grants and subsidy allocations to municipalities, thereby shrinking the City's revenue base. In addition, consumers' ability to pay are still largely unknown. The City is experiencing an escalating indigent support requirement. Revenue growth estimations are furthermore clouded by the effect of the lingering pandemic, with fluctuating restriction levels placing constraints on revenue sources dependent on economic activity e.g. property rates, bus fares, rental of facilities, fines income etc.

The City's collection rates have however shown resilience in the current financial year, with the budgeted collection rates for trading services revised upwards in the January 2022 adjustments budget. Collection rates projected for 2022/23 - while not at pre-pandemic levels - are showing improvement.

The provision of water and sanitation to informal settlements on privately owned land, started during the pandemic, will continue. Due to the uncertainty of the end of the COVID-19 pandemic, the City is legally bound by the Constitution and the MFMA to provide basic services to these informal settlements. For this, an amount of R100 million is required for the 2022/23 financial year.

An amount of R175 million, provided for additional health requirements in the 2021/22 financial year, was removed in the 2022/23 MTREF. This additional provision is not required to defray COVID-19 related expenditure in the 2022/23 financial year.

The City's COVID-19 pandemic recovery plan

The City's previous recovery programme phases, which predicted Stabilisation from October 2020 to June 2021, Adaptation from July 2021 to June 2022, and Recovery from July 2022 to June 2027, had to be reviewed. Considering latest available information on the pandemic trajectory and new virus variants, and projections on vaccine provision, it was found to be unrealistic to enter the recovery phase for at least the next two years. It is therefore envisaged that the Stabilisation phase and Adaptation phase will extend until June 2023 with the goal of attaining organisational survival (functional and financial), the least disruption to and uninterrupted service delivery, and focus on efficiency and effectiveness.

The Recovery phase will focus on thriving in line with the intended vision of the IDP in a post-pandemic world and deliver the projects and programmes on which the sustainability of the organisation is assured and the economic recovery of the City-at-large is supported and maximised.

2.5.2 Financial Strategic Approach

The 2022/23 LTFP/MTREF was prepared with the intention of keeping revenue parameters as low as possible to assist already struggling communities and businesses, but also to ensure that service delivery is not compromised and specific priorities addressed.

The key informants over the coming year as provided during the Strategic Review phase of the Strategic Management Framework (SMF) process are:

a. Constrained financial envelope and increase uncertainty;
b. COVID-19 Crisis response;
c. National Government Failure;
d. Infrastructure Investment;
e. Advocacy- intergovernmental collaboration;
f. Response to growing informality;
g. Staff Safety;
h. Asset, land and facility protection;
i. Utility business model reform;
j. Containing costs; and
k. Concerted implementation of transversal strategies/initiatives.

The Strategy Brief required City directorates to focus resources and efforts towards implementing the priorities included in the Strategy Brief.

LTFP rationale and financial strategies implemented

- The depreciation strategy, which provides operating account relief via reduced depreciation costs and which commenced in the 2020/21 financial year, is continued with for this MTREF in an effort to utilise available cash and reduce tariffs.
  - This strategy sees the City using its surplus cash flow via the recovery of a depreciation charge of R500 million per annum over seven years.
- Various cost savings initiatives were also implemented to achieve a budget that is realistic, sustainable and credible - still ensuring the continuation of services and keeping revenue increases at low levels.
- Utilising own funding to reduce borrowing requirements but gearing for debt take up as project preparation improves. The City has a low level of Debt Leverage and has strength to support a stronger debt profile.

2.5.3 Financial Modelling and Key Planning Drivers

The principles applied to the MTREF in determining and maintaining a sustainable financial plan included:

- To cover the cost of living increase as per the SALGBC agreement, the City had to identify permanent reductions across the organisation in the 2021/22 financial year. This amounted to R287 million for Rates-funded services and was incorporated in the January 2022 adjustments budget.
- In an effort to reprioritise budgets within the Rates-funded services environment a base reduction of R40 million was applied in areas such as Cost Containment related expenditure, Contracted Services and other sundry expenditure elements, an amount of R50 million to Debt Impairment and increased Agency Income of R10 million. These amendments were based on previous years' implementation performance.
- Differentiated expenditure parameters providing for no expenditure growth on certain expenditure elements (Other Expenditure, Contracted Services and Inventory Consumed).
- Differentiated parameters applied to Repairs and Maintenance growth was based on the previous year's actual expenditure, service delivery needs and efficiencies identified.

- The following staff and vacancies intervention were included:
  - A differentiated percentage budget approach on vacancies (assumptions on vacancy period for different post levels);
  - Cost of living increase applied as per the SALGBC agreement;
  - Budgeting at 95% of employee costs; and
  - Inflationary increases applied to overtime for the Safety & Security directorate only. No overtime increases for other directorates.
- A 100% capital expenditure implementation rate assumed.
- All expenditure programmes must be delivery ready with focus on project preparation for outer years.
- New IDP is not an "add-on" to the budget. The budget is required to resource an IDP i.e. to detect the priorities and programmes in the IDP to evaluate the budget allocation.
- Credible and realistic collection rates based on current- and projected trends considering past and current trends.
- National- and Provincial allocations as per the 2022 Division of Revenue Bill (DoRb) and the Provincial Gazette Extraordinary 8566, dated 14 March 2022.

The following was included in the MTREF:

- A reduction of R175.2 million - additional expenditure included in the 2020/21 for health related COVID-19 related expenditure – but no longer required in the 2022/23 financial year.
- In response to the SMF Operational Review process and subsequent amended Strategy Brief to address the mayoral priorities towards driving the priorities and programmes in the new IDP an amount of R110 million was included.
- The aforementioned was absorbed by reprioritisation of expenditure of R100 million and R10 million from a higher than anticipated Equitable Share allocation.
- A further provision of R373.6 million was made for Rate-funded services to drive the priorities and programmes set out in the IDP and requirements identified over the past few months. This was funded by a combination of reprioritised budget, improved investment interest estimates, higher than anticipated Fuel Levy, and Equitable Share allocations.
- R125.5 million was allocated as the City's funding portion to the Law Enforcement Advancement Program (LEAP) for the 2022/23 financial year.
- The following main changes were affected post tabling of the budget in March 2022:
    - Update of provincial grant allocations as per Provincial Gazette Extraordinary 8566 dated 14 March 2022;
    - Inclusion of additional expenditure and revenue (fines) within Rates and Insurance Fund;
    - Shifting of R27.26 million Public Transport Network Grant (PTNG) funding from the capital budget to the operating budget for Public Transport Interchange projects within the Urban Mobility directorate.

2.5.4 Economic Outlook / External Factors (including demographics)

Economic context

In 2020 the economy contracted by 6.4 percent with the onset of the pandemic, however, in 2021 the economic activity has recovered more rapidly than expected. According to STATSA GDP expanded by 4.9 percent in 2021. This growth is expected to be subdued in future years due to various structural constraints in the domestic- and global economy such as inadequate electricity supply, pandemic-induced job losses, higher global inflation and changes to monetary policies. Real GDP growth is expected to moderate to 2.1 percent in 2022, averaging 1.8 percent for the period 2023 and 2024.

In recent months, global- and domestic factors contributed to the fluctuation in the Rand exchange rate. The rand/dollar exchange rate is currently hovering between R15 and R16 to the US Dollar. BER projects the Rand to average R15.13 against the US dollar in 2022. The price of crude oil has been rising steadily over recent months and has breached the 90 US Dollar mark for the first time in 7 years. A combination of factors is pushing oil prices higher including imbalances between supply and demand and the escalating Russia-Ukraine conflict. The crude oil price is expected to remain volatile and is estimated to average 100.4 US Dollars per barrel in 2022.

According to Stats SA, headline consumer inflation was at 5.7 for two consecutive months (January and February) at the start of the year but accelerated to 5.9 percent year-on-year in March and remained unchanged in April. Inflation is moving closer to the top of the South African Reserve Bank's (SARB) target range of 3-6 percent due to the current market demand and constraints in supply of goods and services. In the May 2022 MPC statement, the 3rd meeting for the year, the repo rate was increased by 50 basis points to 4.75 percent per year. It is expected that the rise in the repo rate will keep inflation expectations anchored and moderate the future path of interest rates. The SARB's model indicates that the interest rate will gradually normalise through to 2024.

Demographic trends

Cape Town has the second-largest population of all cities in South Africa and is the main urban centre in the Western Cape. The City has seen steady population growth (albeit at a slowing annual growth rate), with an estimated 4 678 900 people in 2021 (Statistics South Africa, 2021). According to current estimates, the total population of Cape Town will reach approximately 5.5 million by 2035 (City of Cape Town, 2018).

While the population continues to increase, the average household size has decreased from 3.5 people per household in 2011 to 3.2 in 2016 (Statistics South Africa, 2011 and 2016). A growing population, together with a decreasing average household size, has resulted in a significant increase in the number of households in Cape Town; growing from approximately 1 million households in 2011 to an estimated 1.46 million households in 2021 (City of Cape Town, 2022, using Mid-year Population Estimates and 2016 Community Survey).

This trend of a steadily increasing population growth (albeit at a declining growth rate) and an increasing number of households form some of the informants to City planning and service delivery for the residents of Cape Town. These trends will continue to be monitored and refined as needed to also inform COVID-19 recovery responses and planning. More information will be available and used from the 2022 Census when the data is released.

Cape Town has seen a steady population growth; the average annual growth rate has declined from 2.3 percent over the 2011-2015 period to 2.0 percent over the 2016-2021 period. The population is expected to grow to around 5 million by 2025 according to Statistics South Africa, equating to an average annual growth rate of 1.7 percent over the 2022-2025 period. The City's capital budget is expected to grow by an average of 28.4% over the next 3 years, showing that infrastructure investment is growing as population is growing.

2.5.5 National and Provincial influences

a) National Treasury MFMA Circular No. 112, issued on 6 December 2021

The purpose of this annual budget circular is to guide municipalities with the compilation of the 2022/23 MTREF.

The objectives of the circular are to, inter alia, demonstrate how municipalities should undertake annual budget preparation in accordance with the budget- and financial reform agenda and associated "game changers".

Key focus areas stemming from this circular included:

- Macro-economic forecasts to be considered when preparing the 2022/23 MTREF municipal budgets.
- Key focus areas for the 2022/23 budget process including local government conditional grant allocations.
- IDP Consultation Process Post 2021 Local Government.
- Version 6.6 of the mSCOA chart released with the circular to be utilised for the preparation of the 2022/23 MTREF.
- Other mSCOA-related requirements and recommendations for municipalities to consider.
- Municipalities to set cost reflective tariffs to ensure that recovery of the full cost of rendering the service.
- The local government equitable share formula has been updated to account for projected household growth, inflation and estimated increases in bulk water and electricity costs over the 2022 MTEF period.
- All municipalities are reminded of section 8 of the Municipal Property Rates Act (MPRA) on the determination of categories of rateable properties that has been revised through the Local Government Municipal Property Rates Amendment Act, 2014.
- Municipalities are encouraged to maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other customers while ensuring the financial sustainability of the municipality.
- Municipalities to justify all tariff increases in excess of the projected inflation target for 2022/23.
- National Treasury supports municipalities to develop and implement long-term financial models and strategies.
- The new leadership is advised to:
    - Decisively address unfunded budgets by reducing non-priority spending and improving revenue management processes to enable collection; and
    - Address service delivery failures by ensuring adequate maintenance, upgrading and renewal of existing assets to enable reliable service delivery.

b) National Treasury MFMA Circular No. 115, issued on 4 March 2022

This budget circular is a follow-up to MFMA Circular No. 112 that was issued on 06 December 2021 and aimed to provide further guidance to municipalities with the preparation of their 2022/23 MTREF. It focusses primarily on the grant allocations as per the 2022 Budget Review and the 2022 Division of Revenue Bill.

The circular also covers the following:

- An update on the economic outlook.
- Local government conditional grants allocation and Equitable Share in terms of the Division of Revenue Bill published on 23 February 2022.
- Release of Version 6.6.1 of the mSCOA chart with the circular to be utilised for the preparation of the 2022/23 MTREF.
- Additional mSCOA related requirements to be considered e.g. how to account for depreciation and change in calculation of consumer deposits and the introduction of an e-learning mSCOA training course.
- An update of the Eskom bulk tariff increase provided, guidance to provide for water and electricity losses and a reminder to municipalities to have a UIFW reduction plan approved by Council.

- Municipalities must be mindful that the Equitable Share is meant to fund basic municipal services to the indigent.
- In addition to the criteria for the release of Equitable share instalments, criteria for the rollover of conditional grants are set out.
- The 2021/22 unspent conditional process will be managed in accordance with section 21 of DoRA, in order to ensure that the unspent conditional grants against the 2021/22 financial year return to the National Revenue Fund (NRF).
- Compliance to section 16 of DoRA in relation to the allocation or transfer of funds by municipalities to other organs of state in order to implement projects on behalf of the municipalities was highlighted.

c) Provincial Treasury Municipal Circular 1/2022 issued 25 January 2022

In addition to reiterating the key aspects included in the MFMA Circular 112, this circular also highlighted:

- Economic and Fiscal environment of the Western Cape;
- A reminder to municipalities to include their compliance with B-BBEE in their AFS and annual reports and included The B-BBEE Commission's Explanatory Notice No.2 of 2021 as an annexure to the circular; and
- Key dates of the 2022/23 Integrated Planning and Budgeting Process.

2.5.6 2022/23 MTREF Budget Projection

2.5.6.1 Revenue analysis – a three-year preview

a) Services Growth

Property Rates

No growth is projected for Property Rates for 2022/23 and 2023/24. A 0.25 percent growth is projected for year 3 of the MTREF. This is due to the unstable/unpredictable property market resulting from the lagging impact of the pandemic. Variable growth rates are applied to the property rates income forgone component due to the increase in applications for rebates.

Electricity

A shrinkage of 3% is projected for 2022/23 with an average shrinkage of 1.5 percent in sales revenue projected over the outer years of the 2022/23 MTREF period. The approach is mainly due to a sustained declining demand on electricity consumption and thereby sales. This shrinkage in sales is however not filtering fully to the electricity bulk purchases expenditure component, due to an increase in theft and vandalism.

Water and Sanitation

A growth of 4 percent is projected for water and 3 percent for sanitation for the 2022/23 financial year. A 2 and a 1 percent growth is projected for both Water and Sanitation respectively over the outer years of the MTREF. The projected growth is evident in the current trends and can mainly be attributed to the expected increase in consumption as the City experiences the "bounce-back" after the drought flowing from the withdrawal of water restrictions and restriction tariffs.

Refuse

Average revenue growth over the last 3 years shows a consistent 2 percent growth for Refuse revenue. Based on this a 2 percent growth factor was applied over the 2022/23 MTREF. Waste Disposal shows a zero increase over the last 3 years, therefore, no growth is projected for Disposal over the MTREF period.

b) Major tariffs and charges: Rates and Trading services

National Treasury, in MFMA Circular 112, continues to encourage municipalities to maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other customers while ensuring the financial sustainability of the municipality. The CPI inflation is forecasted to be within the lower limit of the 3-6 percent target band, therefore, municipalities are required to justify all increases in excess of the projected inflation target for 2022/23 in their budget narrative and pay careful attention to tariff increases across all consumer groups.

	Base Budget 2021/22	Budget Year 2022/23	Budget Year +1 2023/24	Budget Year +2 2024/25
Property Rates	4.50%	5.00%	5.63%	6.03%
Electricity	13.48%	9.50%	15.56%	13.37%
Water	5.00%	6.50%	5.00%	8.80%
Sanitation	5.00%	6.50%	5.00%	8.80%
Refuse	3.50%	5.00%	5.00%	5.00%
Disposal	4.41%	5.00%	5.00%	10.45%
City's CPI projection	3.10%	4.60%	4.40%	4.40%

Figure 12 Revenue parameters for the MTREF period

Property Rates

The revenue parameter for Property Rates for the 2022/23 financial year is within the inflation target range. This increase will allow for the continuation of providing Rates-funded services, investment in infrastructure, servicing of informal settlements and ongoing investment in repairs and maintenance. In addition, it will give effect to the requirements stemming from the new term of office IDP.

Electricity

National Energy Regulator of South Africa (NERSA) at a meeting held on 9 March 2022, made a determination on Eskom's Retail Tariff and Structural Adjustment (ERTSA) application and approved an average tariff increase of 9.61% for Eskom's standard tariff customers and an increase of 8.61% for municipalities. The increase for Eskom's standard tariff customers will be effective from 1 April 2022 and for municipalities from 1 July 2022.

The City applied an 8.61% for bulk purchases as per the approved application and, in the absence of future years', increases applied a 15% bulk purchases increase for the outer years. The nature of business for the Electricity service is the purchasing and redistribution of electricity, where bulk purchases constitute a large portion of the electricity service's budget. Bulk purchases as percent of electricity expenditure averages 67% over the MTREF. The electricity average revenue increases are 9.50%, 15.56% and 13.37%, respectively over the 2022/23 MTREF.

The revenue increase requirement are due to, amongst other, the following:

- Shrinkage in sales growth due to consumers moving towards alternative sources of energy;
- Increase in bulk purchases, due to vandalism and theft, without a concomitant increase in sales income;
- The establishment of a Generation Department to investigate and prepare the directorate for future alternative generation possibilities including the building of ground mounted PV plants;
- Inclusion of mayoral priorities as it relates to initiatives to end load shedding; and
- Additional security in order to help curb the increase in theft and vandalism.

Water and Sanitation

NT MFMA Circular 99 stated that "Municipalities should take strategic action to ensure effective water management and resilience to drought, including the security of water supply, environmental degradation, and pollution of resources to achieve economic growth, development and socio – economic priorities in an equitable and sustainable manner."

The average revenue increase applied is 6.5% for 2022/23, 5.0% for 2023/24 and 8.8% for 2024/25. To ensure the lowest revenue increase, expenditure was reduced while still ensuring that the strategic imperatives of the service could continue. The revenue increase makes provision for, amongst other, the following:

- To ensure sustainable and resilient provision of water, budgetary provision for the New Water Plan was made, which includes initiatives to further invest in the underground extraction of water from aquifers;
- Water demand management to limit the abuse and loss of water;
- Interventions aimed at improving the water quality in the vleis;
- Improving response times for sewerage blockages and to reduce these blockages with preventative maintenance;
- Upgrades and extensions to the wastewater treatment plants;
- Continued investment in asset replacement programs to ensure proper asset management, with a specific focus on sewer network replacement as well as the upgrading of sewer pump stations;
- Ongoing investment in repairs and maintenance programs and maintaining required compliance standards;
- Supplying water and sanitation at appropriate compliance, capacity, skills, service delivery and responsiveness levels; and

- COVID-19 pandemic requirements, which has been incorporated into permanent aspects of the service levels.

Refuse

Guidance on budgeting for solid waste matters was provided in National Treasury MFMA Circular 99, stating that “Investments in waste collections and treatment infrastructure should be made in tandem with industrial and urban developments to minimise pollution to our land and waters”. In this regard, the following revenue increases are projected for Urban Waste Management over the 2022/23 MTREF.

Urban Waste Management consists of 3 services of which two are tariff-funded (the third is funded by Property Rates). The tariff-funded services consists of Refuse and Disposal.

- Refuse revenue is received for the removal of waste from residential and non-residential properties. The Refuse average increase is 5% over the 2022/23 MTREF period. The average increase will fund, amongst other, the upgrading of drop-off facilities to accommodate the expansion in the service, waste minimization programmes for formal & informal settlements, expansion of services to informal settlements and backyarders, continuous implementation of waste minimisation initiatives, upgrading of depots, maintenance programs and the typical day-to-day service operations.
- Disposal is the revenue received for the disposal of waste from residential and non-residential properties. The Disposal average increase for 2022/23 is 5% whereas the increases for the two outer years are 5% and 10.45% respectively. This increase is required for the continued operational requirement of the service, the development of landfill infrastructure, development and upgrading of transfer stations, plant replacement, additional Material Recovery Facilities and Landfill Gas generation to beneficiation at all landfill sites.

Housing rental (Council rental properties)

The monthly rental charge for housing rental properties is based on a rate per square meter applied to the size of the unit being rented, coupled with a set of premiums/deductions based on the location, maintenance level, facilities et al of the specific property for which the rent is charged. In an effort to address the economic challenges faced by many poorer communities residing in the City’s rental stock, the average total monthly rental charge percentage increase associated with the City’s rental properties has been retained at an affordable level and is based on an annual increase of 4.41% (where the unit has a separate water meter) or 4.24% (for those units which include water in the rental charge) for 2022/23. The projected rental charge increase is lower than CPI, due to rental units operating on a City-subsidised basis.

Tenants who are occupying rental properties since 2007 receive a subsidy of 20% of the rental charge, this being the final portion of the phase-out program, which was not fully implemented by the City to facilitate affordability of long standing tenants. This key initiative, reflected within the City’s Credit Control and Debt Collection Policy, supports affordable rentals to many poor communities and the City’s initiatives in terms of its housing debt collection drives whilst supporting the City’s Housing Debtor Book that it does not unduly increase due to, potentially, unreachable charges.

The proposed 2022/23 housing rental charge is in line with previous annual rental increases and is again aimed at ensuring affordability for the City's poorer communities. The rental rate (per square meter per month) is R12.13 (where the unit has a separate water meter) or a rental charge (including water charge where applicable) of R20.54 per square meter per month. The City's housing premiums and deductions charge structure addressing the variations in the City's diverse rental properties remains as follows:

- Discounts on account
- Outside toilet (R20 per month)
- External Water (R30 per month)
- No ceiling (R15 per month)
- Premiums on account
- Saleable unit (R4,50 per month)
- Well maintained (R5 per month)
- Local environment (R3,50 per month)
- Well located (R5 per month)
- Hot water cylinder (R4 per month)

A surcharge for tenants earning a monthly income above the rental income threshold (R3 500) is charged at a stepped rate of 8% for those earning R3 501 – R7 500 and 10% for those earning R7 501 – R10 000. Tenants who earn more than R10 000 per month will pay a surcharge of 25% of the amount above R10 000. A two (2) year lease agreement will be signed, which will not be renewed if the income remains more than R10 000.

c) Interest rates for investment of funds

Investments are made in terms of the City's Cash Management & Investment Policy, which aims to secure sound and sustainable management of the City's surplus cash and investments. The MPC cut the repo rate with the onset of the COVID-19 pandemic to assist with South Africa's recovery. The resultant drop in the repo rate impacted negatively on the City's investment income budget. The MPC has subsequently raised the repo rate, which has a positive impact on the investment income. Further movement in the repo rate is expected as pressure on inflation predictions persists. The investment interest rates have been revised to 5.13% for the 2022/23 budget year and 5.7% for the two outer years.

2.5.6.2 Expenditure Framework

a) General inflation outlook and its impact on municipal activities

The City's CPI projection is within the SARB's inflation target range of between 3% and 6% but slightly deviates from the National Treasury guidance. CPI applied by the City for the 2022/23 MTREF is 4.60%, 4.40% and 4.40% over the respective three years. The City utilised BER's CPI projections at a point in time during the planning process and applies the projections in municipal financial years. NT MFMA latest Circular 115, published in March 2022, provides a CPI projection of 4.8%% for 2022/23, 4.4% for 2023/24 and 4.5% for 2024/25. This represents an upward adjustment of 0.8%, from 4.00% previously published in Circular 112 in December 2021.

The inflation rate had little impact on the City's expenditure budget as the City continued with the differentiated approach to give effect to a zero-based expenditure budget. Inflation was therefore not the primary driver of expenditure. CPI was considered in determining miscellaneous (sundry) tariffs.

b) Contracted Services, Overtime and Operational Cost

The 2022/23 LTFP process commenced with an in depth analysis on previous year's performance outcomes with emphasis on reducing areas of underperformance. In an effort to safeguard the provision of municipal services but still ensure financial sustainability, no expenditure parameter was applied to contracted services and other operational costs. This strategy freed up funds to assist with reprioritisation of needs and balancing the budget at affordable levels. In addition, cost element categories were reprioritised to give effect to the requirements stemming from the new term of office IDP. For example, an overtime parameter increase of CPI was afforded to the Safety & Security directorate only.

In addition, the Municipal Cost Containment Regulations and the City's Cost Containment Policy embedded in the City's operations also continued to assist in driving down costs and ensuring that value for money is achieved and resources of the municipality used effectively, efficiently and economically.

c) Collection rate for Property Rates and Service charges

NT MFMA Circular 112 makes references to previous MFMA Circulars 93 and 98 as it relates to collection rates. It indicates that emphasis is on municipalities to comply with Section 18 of the MFMA and ensure that they fund their 2022/23 MTREF budgets from realistically anticipated revenues to be collected. In addition, municipalities are cautioned against assuming collection rates that are unrealistic and unattainable as this is a fundamental reason for municipalities not attaining their desired collection rates.

The year-to-date collection rate outcome has shown improvements in collection rates across most services. This led to the upward adjustment of collection rates in the 2021/22 adjustments budget. Based on this result and assuming that this trend will continue, the collection rate assumptions as shown in the ensuing table were made for the 2022/23 MTREF.

Table 38 - Collection Rates

Services	Base Budget 2021/22	Budget Year 2022/23	Budget Year +1 2023/24	Budget Year +2 2024/25
Rates	95.14%	95.50%	95.74%	96.19%
Electricity	99.00%	99.00%	99.00%	99.00%
Water	91.00%	91.00%	92.00%	93.00%
Sanitation	93.00%	93.00%	94.00%	95.00%
Refuse	90.00%	90.00%	92.00%	92.00%

The Rates collection rate is projected at 95.5% for 2022/23, which shows an improvement to the previous budgeted collection rate. The higher projected collection rate is a result of the implementation of various strategies such as continued debt management initiatives, system enhancements and resolving valuation objections.

The Electricity collection rate is projected to average 99% over the 2022/23 MTREF period. This high collection rate projection is mainly attributable to the continuous rollout of prepaid meters and revenue protection initiatives.

The collection rate is projected at 91% for Water and at 93% for Sanitation for the 2022/23 financial year, similar to the collection rates budgeted for in the 2021/22 adjustments budget. A collection rate of 92% and 93% for Water, and 94% and 95% for Sanitation is projected, respectively, for the outer years of the MTREF. The expected increase in the collection rate is based on the latest projections, which include increased debt management action as well as systematically moving out of the COVID-19 environment.

The Refuse collection rate is projected at 90% for 2022/23 and expected to increase to 92% over the outer years of the MTREF. The collection rate projection is supported by the current in-year 12 months' average trend, which shows an average collection rate outcome of 90% as at January 2022.

d) Staff cost increases

A new three-year Salary & Wage national collective agreement was entered into at the Bargaining Council in 2021. The terms of this agreement covers the municipal financial years 2021/22 to 2023/24. In the absence of an agreement for the last year of the City's MTREF, the principle applied for 2023/24 was similarly applied for 2024/25.

In terms of the agreement, the salary and wage increases per municipal financial year are to be calculated as follows:

- 2022/23: CPI percentage for 2022 as projected by January 2022 MPC; and
- 2023/24: CPI percentage for 2023 as projected by January 2023 MPC

The CPI projected by the January 2022 MPC Statement was 4.9% for 2022. The salary increases included in the budget are graphically shown below.

	Base Budget 2021/22	Budget Year 2022/23	Budget Year +1 2023/24	Budget Year +2 2024/25
Salary Increases	3.50%	4.90%	4.50%	4.50%
CCT's CPI projection	3.10%	4.60%	4.40%	4.40%

Figure 13 Correlation between the City's CPI and the salary increase over the MTREF

A provision of 2% was made for incremental allowances for T-grade level 13 and below. In addition, the City continued with the method of budgeting for salaries at 95% and partial budgeting for vacancies. This approach was adopted as the turnaround time of vacancies has attributed significantly to the underperformance on the salaries budget.

e) Ensuring maintenance of existing assets

NT MFMA Circular 112 states "municipalities must ensure that they render basic services, maintain their assets and clean environment". It further advises municipalities to refer to annual budget circulars of previous years for guidance on budget preparation not covered in this circular. In this regard, NT MFMA Circular 55 states that municipal councils, mayors and municipal managers are urged to ensure that allocations to repairs and maintenance, and the renewal of existing infrastructure are prioritised.

Investment in infrastructure is a core component of ensuring economic growth. In addition, asset maintenance is pivotal to prevent breakdown of infrastructure assets and to avoid interruption to service delivery. To ensure infrastructure assets are maintained adequately and considering past performance on these costs, the following repairs and maintenance increases were applied:

- Higher than CPI increases were applied to services where the nature of business are primarily to provide repairs and maintenance and where the condition of the assets must be secured;
- CPI increases were applied to services where the main business is not providing repairs and maintenance but the nature of business and facilities requires a proper maintenance provision; and
- No increases provided for support services and underperforming directorates.

NT MFMA Circulars 55 and 70 set the ratio of operational repairs and maintenance to asset value (write down value of the municipality's property, plant and equipment (PPE)) at 8%. The ratio outcome for 2022/23 is 7.9%, which is slightly lower than then the National Treasury norm. This is due to the quantum of new assets budgeted for in 2022/23, which will not require immediate repairs and maintenance. The outcome shows that the City is investing adequately in protecting its asset base by effectively providing for repairs and maintenance.

f) Operational financing for capital depreciation

Calculation of depreciation on new capital expenditure is based on variables such as asset class and lifespan, depending on the nature of the asset. An annual capital expenditure implementation rate of 100% was assumed. Depreciation of existing assets is calculated based on simulated system data which reflect actual values per annum.

2.5.7 Capital Funding

a) Funding of the capital budget

Similar to previous years, the capital budget was assessed considering matters such as procurement, implementation readiness, technical- and financial feasibility, and strategic alignment. This assessment was done utilising the City's Project Readiness Assessment (PRA) tool.

The capital budget was prepared with the aim of preserving the City's current infrastructure and expanding in areas where further capital investments are required to give effect to the City's new term of office IDP. The capital budget is expected to grow by an average of 28.4% over the MTREF period.

The ensuing table shows the capital funding source over the 2022/23 MTREF.

Table 39 - Capital Budget over MTREF

Capital funding R thousands	Budget Year 2022/23	Budget Year+1 2023/24	Budget Year +2 2024/25
Transfers recognised - capital	2 271 867	2 643 500	3 551 397
Borrowing	2 000 000	6 500 000	7 500 000
Internally generated funds	3 195 527	1 850 816	1 647 098
TOTAL	7 467 394	10 994 316	12 698 496

b) Credit rating outlook and borrowing

The City needs a credit rating to demonstrate its ability to meet its short- and long-term financial obligations. Potential lenders also use it to assess the City's credit risk, which in turn affects the pricing of any subsequent loans taken. Factors used to evaluate the creditworthiness of municipalities include the economy, debt, finances, politics, management and institutional framework.

Moody's Investors Service Inc published their latest credit opinion for the City on 14 April 2022. It has reaffirmed the existing long- and short-term national and global scale rating of Aa3.za/P-1.za and Ba3/NP, and changed the outlook from negative to stable. This update follows after the City received its 17th consecutive unqualified audit report and after the change in outlook of the sovereign (the Republic of South Africa) from negative to stable.

The City's rating reflects its moderate financial performance supported by its prudent financial management, and large and diversified economic base. The City has consistently generated robust operating surpluses with stronger liquidity and lower debt than that of its peers in South Africa also rated by Moody's.

The City's credit profile is constrained by capital spending pressure, relating to infrastructure backlogs and population growth. It is further constrained by the structurally weak economic environment, worsened by the ongoing coronavirus restrictions, which is expected to moderate the City's operating performance. The resilience in the City's cash position is expected to remain. The low debt level, together with the City's liquidity reserves places the City in a favourable position to raise funding. In addition, any movement in the South African sovereign rating will impact directly on the City's global scale rating.

The City's known ratings over the last period are:

Table 40 - Credit rating outlook

Category	Currency	Current Rating 14 April 2022 Update following rating action on Sovereign	Previous 29 July 2021 Downgrade after sector review	Previous Rating 10 June 2021 Update following the City's annual review
Outlook	-	Stable	Rating(s) under review	Negative
NSR Issuer Rating	Rand	Aa3.za	Aa3.za	Aaa.za
NSR ST Issuer Rating	Rand	P-1.za	P-1.za	P-1.za
NSR Senior Unsecured	Rand	Aa3.za	Aa3.za	Aaa.za

Credit rating definitions:

- Stable Outlook – reflects that a credit rating assigned to an issuer is unlikely to change.
- Negative Outlook - reflects that a credit rating assigned to an issuer may be lowered.
- Rating under Review - a review indicates that a rating is under consideration for a change in the near term.
- NSR Issuer Rating – Aaa.za - Issuers or issues rated Aaa.za demonstrate the strongest creditworthiness relative to other domestic issuers.
- NSR ST Issuer Rating – P-1.za – Issuers (or supporting institutions) rated Prime-1 have the strongest ability to repay short-term senior unsecured debt obligations relative to other domestic issuers.
- NSR Senior Unsecured – Aaa.za - Issuers or issues rated Aaa.za demonstrate the strongest creditworthiness relative to other domestic issuers.

The City's borrowing is done in terms of Chapter 6 of the MFMA as well as the City's Borrowing Policy, in terms of which a long-term loan will only be entered into if it is affordable and sustainable. The City's loan requirements are determined by the capital investment requirement (excl. Transfers Recognised: Capital) and the projected cash position. The City primarily borrows against future revenue generating assets.

The below table reflects the borrowing and interest rate over the MTREF.

R Thousand	Budget Year 2022/23	Budget Year +1 2023/24	Budget Year +2 2024/25
Borrowing	2 000 000	6 500 000	7 500 000
Borrowing Interest Rate (%)	11%	11%	11%

2.5.8 2022 Division of Revenue Bill (DoRb) and Fuel Levy

Equitable Share

In terms of Section 227 of the Constitution, local government is entitled to an equitable share of nationally raised revenue to enable it to provide basic services and perform its allocated functions. The local government equitable share is an unconditional transfer, which supplements the revenue that municipalities can raise themselves (including revenue raised through property rates and service charges).

NT MFMA Circular 115 indicated that the local government equitable share formula has been updated to account for projected household growth, inflation and estimated increases in bulk water and electricity costs over the MTEF period. Local Government Equitable Share (LGES) grew at an annual average rate of 10.3 per cent over the National MTEF. R28.9 billion is added to the LGES over the MTEF to increase coverage of the provision of free basic services.

The equitable share allocation to the City is therefore higher than anticipated and higher than the indicative allocations reflected in the 2021 DoRA. The DoRb issued in February 2022, via Gazette number 45903, provided for the following allocations, which have been included in the City's MTREF:

- 2022/23 – R3 656 million
- 2023/24 – R3 983 million
- 2024/25 – R4 342 million

Sharing of the Fuel Levy

The general Fuel Levy is legislated by the Taxation Laws Amendment Act (Act 17 of 2009), which provides that each metropolitan's share should be announced in the government gazette.

The General Fuel Levy allocation letter, as received from National Treasury for the 2022/23 MTREF, stated that the 2020 (latest) fuel volume sales were used to determine the 2022/23 sharing of the general fuel levy allocations. In 2021, the local government sphere was subjected to budget reductions for the MTEF period ending 2023/24, due to the COVID-19 pandemic and being in a constrained fiscal environment. These reductions will continue to have an impact on the sharing of the general fuel levy allocations with all the metropolitan municipalities for the period. Metropolitan municipalities are currently advised by the fiscus that the allocations for the two outer years of the 2022 MTEF are provisional and the actual allocations will be based on fuel sales.

The fuel levy allocation was more than anticipated for the 2022/23 financial year as it was based on fuel sales for the 2020 year, which saw the country at pandemic restriction level 5 with minimal travelling allowed. This resulted in a contracted economy affecting all sectors. The first year of the 2022/23 MTREF reflects a higher than anticipated fuel levy, but a decrease in the outer years is still expected.

The following amounts allocated to the City, as per the 2022/23 allocation letter, is included in the City's MTREF:
2022/23 – R2 667 million
2023/24 – R2 637 million
2024/25 – R2 706 million

2.5.9 Major parameters

The following table summarises the major parameters applied to the 2022/23 MTREF operating budget:

Table 41 - Summary of parameters applied to the operating budget

	Budget Year 2022/23	Budget Year +1 2023/24	Budget Year +2 2024/25
CPI	4.60%	4.40%	4.40%
COLLECTION RATES			
Rates	95.50%	95.74%	96.19%
Electricity	99.00%	99.00%	99.00%

Interest Rates			
Interest paid	11.00%	11.00%	11.00%
Interest on investment	5.13%	5.70%	5.70%
OTHER			
Capital Borrowing expenditure	R2.000bn	R6.500bn	R7.500bn
Equitable Share Allocation	R3.656bn	R3.983bn	R4.342bn
Fuel levy	R2.667bn	R2.637bn	R2.706bn

2.6 Overview of budget funding

2.6.1 Medium-term outlook: operating revenue

Tariff setting plays a major role in ensuring desired levels of revenue. To ensure an effective, efficient and well-run City, higher tariff increases are inevitable. Getting tariffs right assists in the compilation of a credible and funded budget.

The City derives most of its operational revenue from its service charges (46.1% of total revenue) i.e. provision of services such as water, electricity, sanitation and solid waste removal. Property Rates (21.6%), Transfers & Subsidies (11.7%), Investment revenue (2.1%) and Other revenue (i.e. alia Fuel Levy, building plan fees, licences, permits, etc.) (18.4%) forms part of the 2022/23 revenue base.

The revenue strategy is a function of a number of key aspects such as:

- National Treasury Guidelines;
- General Economic Climate (Nationally and Local);
- City's Strategic Guidelines and Priorities;
- General Tariff Policy;
- Credit Control and Debt Collection Policy;
- Property Rates Policy;
- Total Municipal Account Modelling Process;
- Achievement of full recovery of cost for specific user charges; and a
- Credible collection ratio.

The principles mentioned above guide and inform the annual increase of tariffs and rates charged to the consumers and ratepayers.

The following table is a breakdown of the operating revenue over the medium-term:

Table 42 - Breakdown of the operating revenue over the medium-term

Description	2022/23 Medium Term Revenue & Expenditure Framework					
R thousand	Budget Year 2022/23	%	Budget Year +1 2023/24	%	Budget Year +2 2024/25	%
Property Rates	11 519 486	21.6%	12 132 471	21.3%	12 858 482	21.0%
Service Charges	24 565 228	46.1%	27 402 801	48.0%	30 433 505	49.7%
Investment Revenue	1 118 566	2.1%	1 119 454	2.0%	970 357	1.6%
Transfers & Subsidies	6 260 172	11.7%	6 454 997	11.3%	6 693 166	10.9%
Other own revenue	9 822 523	18.4%	9 972 203	17.5%	10 335 040	16.9%
Total Revenue (excluding capital transfers and contributions)	53 285 975	100%	57 081 926	100%	61 290 550	100%

The following graph is a breakdown of the operational revenue per main category for 2022/23.

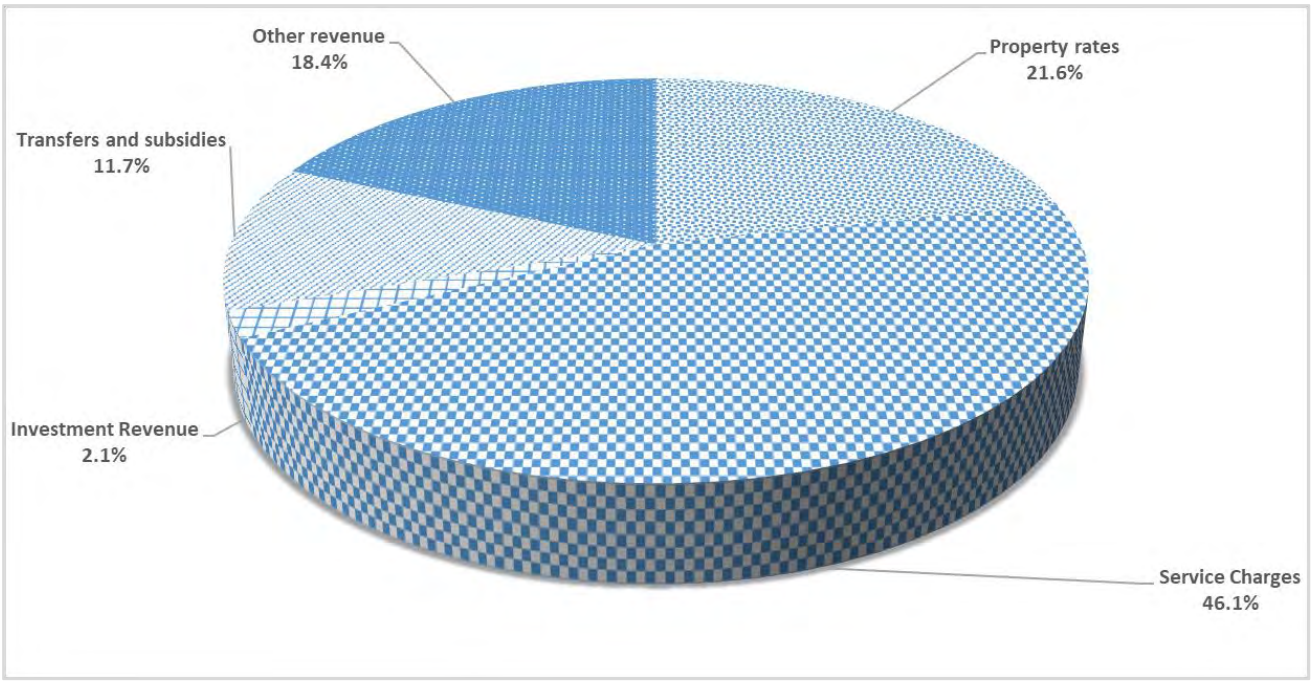

Figure 14 Breakdown of operating revenue over the 2022/23 MTREF

Revenue to be generated from Property Rates in 2022/23 amount to R11 519 million and represents 21.6% of the operating revenue base of the City. It increases to R12 859 million in 2024/25.

Service Charges relating to electricity, water, sanitation and refuse removal constitute the biggest component of the revenue basket of the City totalling R24 565 million or 46.1% of the total revenue base in 2022/23.

Investment revenue is budgeted at R1 119 million for the 2022/23 financial year.

Transfers and Subsidies amount to R6 260 million in 2022/23. This category includes external allocations received from National- and Provincial Government, and private sector funding.

Table 43 provides detailed investment information while Table 44 provides investment particulars by maturity.

It should be noted that the investments included in these tables are compliant with the provisions of S17(1)(f) of the MFMA as well as the City's approved Cash management and Investment Policy.

Sources of capital revenue for the 2022/23 financial year are graphically represented below.

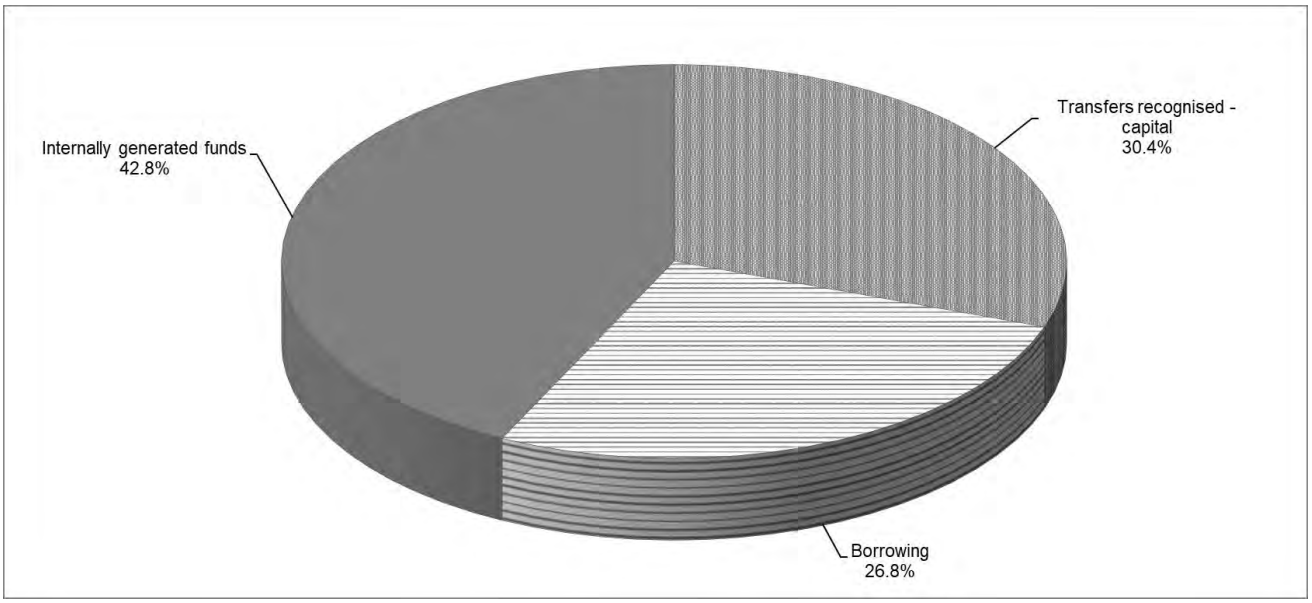

Figure 15 Sources of capital revenue for the 2022/23 financial year

Grants from national- and provincial government as well as other external sources still remain a significant funding source for the 2022/23 – 2024/25 capital budget.

The three sources of capital revenue are detailed below.

- **Transfers recognised – capital**

Transfers recognised – capital amounts to R2 272 million in 2022/23, R2 644 million in 2023/24 and R3 551 million in 2024/25, decreasing slightly from 30.4% to 28.% as a percentage of the total capital budget over the MTREF.

Capital transfers and grants from national- and provincial government and other grant providers for the 2022/23 MTREF are reflected in the ensuing table.

Table 46 - MBRR Table SA18 - Capital transfers and grants receipts

Borrowing

Borrowing continues to be one of the major sources of funding of the 2022/23 – 2024/25 capital budget.

The borrowing amount for the 2022/23 financial year, as reflected in Table 45, includes certain rollovers where directorates have already indicated that they will not be able to spend the full 2021/22 budgetary allocation by year-end.

An analysis of the City's borrowing liability is contained in the ensuing table.

Table 47 - MBRR Table SA17 - Detail of borrowing

Borrowing - Categorised by type	2018/19	2019/20	2020/21	Current Year 2021/22			2022/23 Medium Term Revenue & Expenditure Framework

The following graph illustrates the growth in outstanding borrowing for the 2022/23 to 2024/25 period.

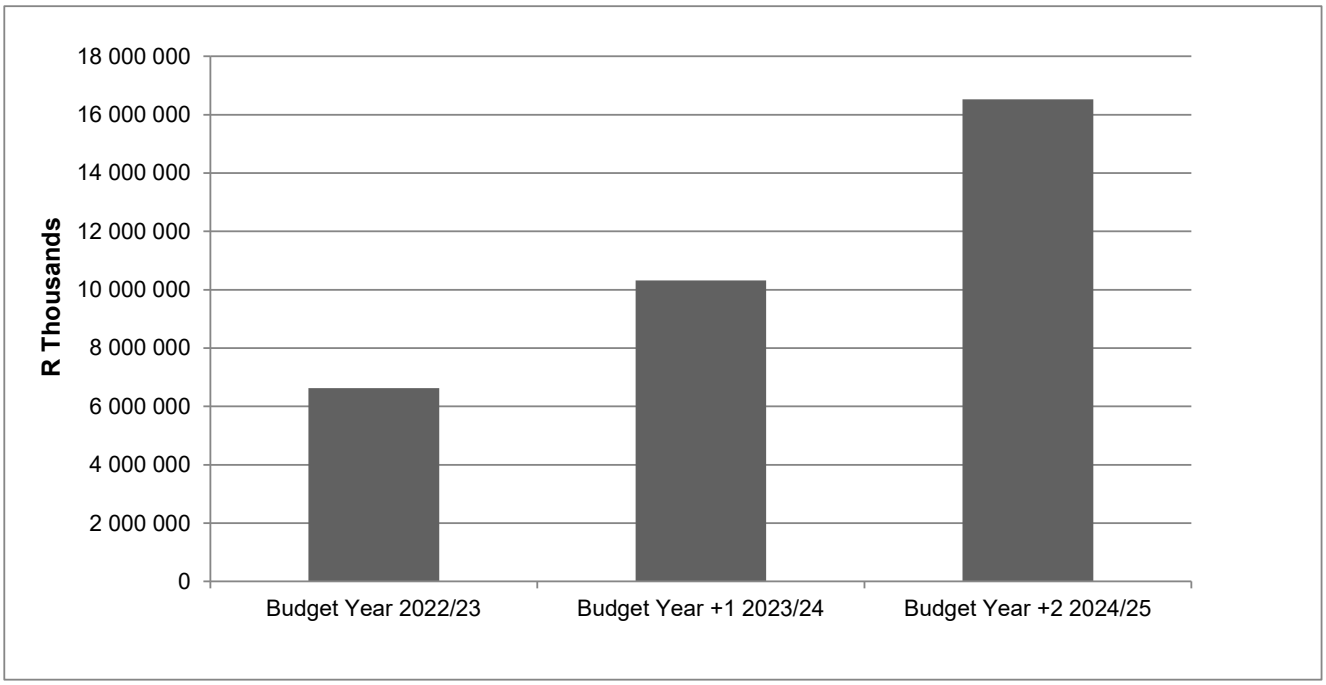

Figure 16 Outstanding borrowings (long-term liabilities) for the 2022/23 MTREF

- **Internally generated funds**

Internally generated funds are funded in accordance with Section 18 of the MFMA, which requires that the annual budget must be funded from, inter alia, cash-backed accumulated funds from previous years' surpluses not committed for other purposes.

The internally-funded component of the capital budget is mainly funded from:

- previous years' accumulated surpluses;
- contributions made to a Capital Replacement Reserve (CRR) in the previous year's operating budget; and
- Development charges which were already collected.

The levels of contributions made to the CRR in the previous year's operating budget are considered within the MTREF process to determine affordability and sustainability. Internally generated funds amount to R3 196 million, R1 851 million and R1 647 million respectively, over the MTREF.

The percentage of internally generated funds in relation to the total annual budget fluctuates from 42.8% in 2022/23 to 16.8% in 2023/24 and 13% in 2024/25.

Cash Flow Management

NET INCREASE/ (DECREASE) IN CASH HELD	2 932 657	947 294	(1 240 469)	(608 444)	(982 906)	(982 906)	(1 081 746)	558 693	498 806
Cash/cash equivalents at the year begin:	5 486 619	8 419 276	9 366 570	5 795 344	8 126 101	8 126 101	7 143 195	6 061 449	6 620 142
Cash/cash equivalents at the year end:	8 419 276	9 366 570	8 126 101	5 186 901	7 143 195	7 143 195	6 061 449	6 620 142	7 118 948

The above table shows the cash and cash equivalents of the City over the 2022/23 MTREF. The City continues to embark on an extensive debt collection process to boost cash levels. These initiatives and interventions have translated into a positive cash position for the City.

For the 2022/23 MTREF, the budget has been prepared to ensure high levels of cash and cash equivalents over the medium-term with cash levels anticipated to exceed R6 061 million in 2022/23, R6 620 million in 2023/24 and R7 119 million in 2024/25.

2.6.3 Cash Backed Reserves/Accumulated Surplus Reconciliation

The following table meets the requirements of MFMA Circular 42, which deals with the funding of a municipal budget in accordance with sections 18 and 19 of the MFMA. The table seeks to answer three key questions regarding the use and availability of cash:

- What are the predicted cash and investments that are available at the end of the budget year?
- How are those funds used?
- What is the net funds available or funding shortfall?

A surplus would indicate the cash-backed accumulated surplus that was/is available. A shortfall (applications > cash and investments) is indicative of non-compliance with section 18 of the MFMA requirement that the municipality's budget must be 'funded'. Non-compliance with section 18 is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded (budgeted spending is greater than funds available or to be collected). It is also important to analyse trends to understand the consequences, e.g. the budget year might indicate a small surplus situation, which in itself is an appropriate outcome, but if in prior years there were much larger surpluses then this negative trend may be a concern that requires closer examination.

Table 49 - MBRR Table A8 - Cash backed reserves/accumulated surplus reconciliation

Description	2018/19	2019/20	2020/21	Current Year 2021/22			2022/23 Medium Term Revenue & Expenditure Framework

Unspent borrowing	–	–	–	–	–	–	–	–	–
Statutory requirements	–	–	–	–	–	–	–	–	–
Other working capital requirements	(1 120 446)	(697 709)	207 964	(3 114 079)	(2 415 605)	(2 415 605)	(1 819 464)	(1 177 314)	248 294
Other provisions	–	–	–	1 264 232	947 234	947 234	917 034	969 836	1 018 840
Long term investments committed	2 503 755	2 771 233	3 071 050	3 402 669	3 402 669	3 402 669	2 768 888	1 859 336	–
Reserves to be backed by cash/investments	4 798 920	5 639 194	5 498 532	4 246 206	5 431 017	5 431 017	4 774 009	4 361 380	4 064 320
Total Application of cash and investments:	7 480 400	9 104 891	9 896 815	7 362 560	8 928 846	8 928 846	8 069 599	7 538 076	6 956 652
Surplus(shortfall)	8 813 763	8 965 537	7 686 290	5 699 230	6 089 235	6 089 235	5 866 738	6 956 955	8 037 186

From the above table it can be seen that the cash and investments available total R5 867 million in 2022/23 increasing to R8 037 million in 2024/25, including the projected cash and cash equivalents as determined in the cash flow forecast.

The following is a breakdown of the application of this funding:

- Unspent conditional transfers (grants): These include amounts rolled over relating mainly to existing multi-year projects.
- Unspent borrowing: There are no unspent borrowing from previous years.
- Provisions for statutory requirements: The City does not make provision for statutory requirements in this section of the budget as the City is mostly in a refund position.
- Other working capital and other provisions: The main purpose of other working capital/other provisions is to ensure that sufficient funds are available to meet obligations as it falls due. A provision equivalent to one and a half times the monthly operational expenditure has been provided for.
- Long term investments committed: Long term investments consist of the sinking funds for the repayment of current and future borrowings. This amount is "held to maturity" and is not available for spending.
- Reserves to be backed by cash / investments: Although the cash-backing of reserve funds is discretionary in nature and need not be fully cash backed, the City's reserve funds are fully cash-backed.

The following graph supplies an analysis of the trends relating to cash and cash equivalents and the cash backed reserves/accumulated funds reconciliation over the MTREF:

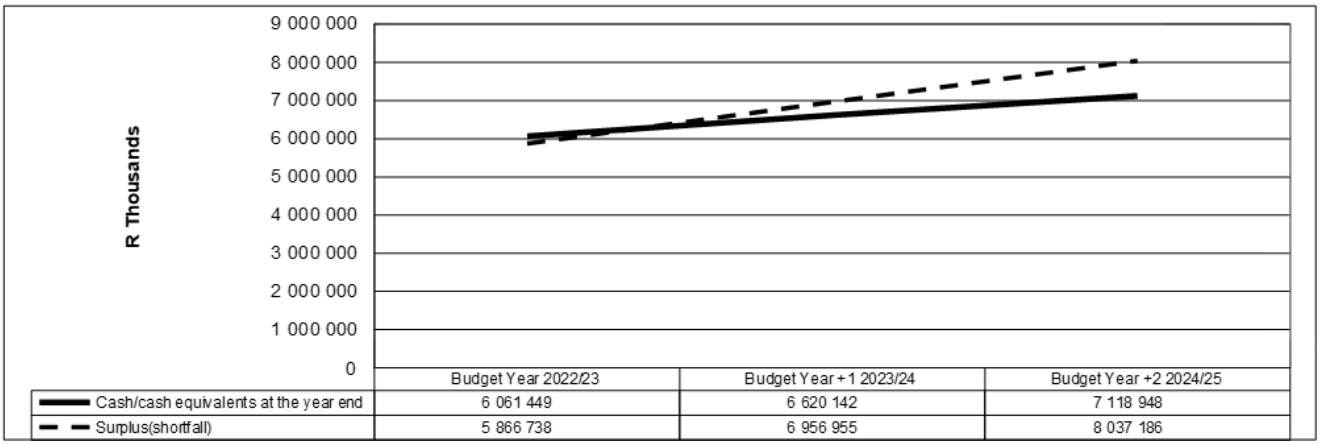

Figure 17 Cash and cash equivalents / cash backed reserves and accumulated funds

2.6.4 Funding Compliance Measurement

Section 18(1) of the MFMA states that an annual budget may only be funded from:

- Realistically anticipated revenues to be collected;
- Cash backed accumulated funds from previous years' surpluses not committed for other purposes; and
- Borrowed funds, but only for the capital budget referred to in section 17 and 19 of the MFMA.

To give effect to the above MFMA requirements, municipalities are required to assess their proposed budget against fourteen different measures developed by NT. The measures evaluate various financial health aspects of a municipality's budget and are made up of information sourced from the budget document. The City's funding compliance outcome in respect of these measures are presented in Table 50 (MBRR Table SA10 - Funding Compliance measurement) and discussed below.

Table 50 - MBRR Table SA10 - Funding compliance measurement

Description	MFMA section	2018/19	2019/20	2020/21	Current Year 2021/22			2022/23 Medium Term Revenue & Expenditure Framework

2.6.4.1 Cash/cash equivalent position

An increasing positive cash position is shown over the forecasted 2022/23 MTREF, indicating that the medium term budget is affordable and sustainable. The cash position is mainly as a result of a favourable opening cash balance.

2.6.4.2 Cash plus investment less application of funds

This measure shows how a municipality applies its available cash and investments. Total of cash plus investment less applications is more than the commitments for each corresponding year of the 2022/23 MTREF, which indicates that the City is able to afford its commitments over the medium term.

2.6.4.3 Cash year end/monthly employee/supplier payments

This measure outlines the level of financial risk, should the municipality be under stress, i.e. it indicates the number of times average monthly payments are covered. This ratio outcome averages 1.7 over the MTREF.

2.6.4.4 Surplus/deficit excluding depreciation offsets

The purpose of this measure is to highlight whether revenue levels are sufficient to conclude that the community is making a significant contribution towards the municipal resources consumed each year. The outcome shows a surplus over the MTREF, which means that the community is making an adequate contribution towards the economic benefits being consumed by the City.

2.6.4.5 Property rates/service charge revenue as a percentage increase less macro inflation target

This measure tests whether the municipality is contributing appropriately to the achievement of the national inflation targets.

The ratio outcome shows an average increase of 3.1% above the CPI threshold of 6% over the 2022/23 MTREF. The higher than CPI increase for Electricity and Water & Sanitation are explained below.

Electricity

The City applied an 8.61% increase for bulk purchases as per the approved application and, in the absence of future years' increases, applied a 15% bulk purchases increase for the outer years. The nature of business for the electricity service is the purchasing and redistribution of electricity, where bulk purchases constitute a large portion of the electricity service's budget. Bulk purchases as a percent of electricity expenditure averages 67% over the MTREF. The electricity average revenue increases are 9.50%, 15.56% and 13.37%, respectively over the 2022/23 MTREF. The revenue increase requirement are due to, amongst other, the following:

- Shrinkage in sales growth, due to consumers moving towards alternative sources of energy;
- Increase in bulk purchases without a concomitant increase in sales income, due to vandalism and theft;
- The establishment of a Generation department to investigate and prepare the directorate for future alternative generation possibilities including the building of ground mounted PV plants;
- Inclusion of mayoral priorities as it relates to load shedding; and
- Additional security in order to help curb the increase in theft and vandalism.

Water & Sanitation

The average revenue increase applied is 6.5% for 2022/23, 5.0% for 2023/24 and 8.8% for 2024/25. To ensure the lowest revenue increase, expenditure was reduced while still ensuring that the strategic imperatives of the service could continue. The revenue increase makes provision for, amongst other, the following:

- To ensure sustainable and resilient provision of water, budgetary provision for the New Water Plan was made, which includes initiatives to further invest in the underground extraction of water from aquifers;
- Water demand management to limit the abuse and loss of water;
- Interventions aimed at improving the water quality in the vleis;
- Improving response times for sewerage blockages and to reduce these blockages with preventative maintenance;
- Upgrades and extensions to the wastewater treatment plants;
- Continued investment in asset replacement programs to ensure proper asset management, with a specific focus on sewer network replacement as well as the upgrading of sewer pump stations;
- Ongoing investment in repairs and maintenance programs and maintaining required compliance standards;
- Supplying water and sanitation at appropriate compliance, capacity, skills, service delivery and responsiveness levels; and
- COVID-19 pandemic requirements, which has been incorporated into permanent aspects of the service levels.

2.6.4.6 Cash receipts as a percentage of ratepayer and other revenue

This is a macro measure of the rate at which funds are 'collected'. The expected purpose of this measure is to analyse an underlying assumed collection rate. The ratio outcome for 2022/23 is 94.5% improving to 95.0% in 2024/25. This collection rate is deemed realistic, as it is based on past and current trends. Initiatives are continuously put in place to improve revenue collection.

2.6.4.7 Debt impairment expense as a percentage of billable revenue

This is a measurement of whether the provision for debt impairment is being adequately funded and is based on the underlying assumption that the provision for debt impairment has to be increased to offset under-collection. This ratio is consistent with the forecasted average debt collection rate.

2.6.4.8 Capital payments percentage of capital expenditure

The purpose of this measure is to understand whether the timing of payments is being taken into consideration when forecasting the cash position. The ratio outcome is 100% over the 2022/23 MTREF period which shows the full capital budget is provided for in the cash flow forecasting.

2.6.4.9 Borrowing as a percentage of capital expenditure (excluding transfers, grants and contributions)

The purpose of this measure is to determine the proportion of a municipality's 'own-funded' capital expenditure budget that is being funded from borrowed funds. The City's long term borrowing is done in terms of chapter 6 of the MFMA, where a long term loan will only be entered into if it's affordable and sustainable. The ratio shows an outcome of 66.1% on average over the MTREF, showing that the City is borrowing less than capital expenditure, therefore sustainable and compliant to the MFMA.

2.6.4.10 Transfers/grants revenue as a percentage of Government transfers/grants available

The purpose of this measure is to ensure that all available transfers from all spheres of government have been included in the budget. The City's budget was compiled using the 2022 DoRb, and Provincial Gazette Extraordinary 8566 dated 14 March 2022.

This ratio outcome averages 101.1% over the 2022/23 MTREF. The result is slightly higher than 100% due to the following reasons:

- Interest of previous years' grants included;
- Funding received for the following grants where a memorandum of agreement is in place but not included in the DoRb and Provincial Gazette:
- Department of Environmental Affairs and Tourism;
- National Skills Fund grant;
- Regional land claims commissioner;
- General Budget Support grant but is not included in DoRb; and
- Human Settlements -Informal Settlements.

2.6.4.11 Consumer debtors change (current and non-current)

The purpose of this measure is to ascertain whether budgeted reductions in outstanding debtors are realistic. The ratio outcomes shows an average increase of 3.2% over the 2022/23 MTREF. The increase in the ratio is driven by the increase in consumer debtors, other debtors, and the current portion of long-term receivables.

2.6.4.12 Long term receivables % change

Long-term receivables include 'arrangement debtors' to be paid by the debtor over an extended period of time. Long-term receivable is projected to reduce by an average of 56.9% over the 2022/23 MTREF period. The reduction is due to loans provided to public organisations and sporting bodies prior to the implementation of the MFMA, which are currently being repaid and a long-term loan to the Khayelitsha Community Trust which is repayable over 18 years with the final payment due in 2024.

2.6.4.13 *Repairs and maintenance expenditure level*

This ratio is to indicate whether sufficient provision is made in respect of repairs and maintenance for property, plant and equipment. This ratio outcome for 2022/23 is 7.9% and is slightly below the NT benchmark of 8%. The lower ratio outcome in the outer years is due to an increase investment in new assets.

2.6.4.14 Asset renewal % of capital budget

This measure focuses on the credibility of the levels of asset renewal plans. The objective is to summarise and understand the proportion of budgets being provided for new assets, as well as asset sustainability.

Renewal of existing assets is split between *renewal* of existing assets and *upgrading* of existing assets. This ratio only takes into consideration the renewal of existing assets portion over the total capital budget and shows an outcome averaging 24.1% over the 2022/23 MTREF.

Considering both renewal and upgrading of existing assets as a percentage of total capital budget, the ratio outcome will average of 48.9% over the 2022/23 MTREF. This is higher than the NT norm of 40% to be invested in renewal of existing assets.

2.7 Ward Allocations

It is proposed that the City allocates budgetary resources for projects, programmes or other initiatives' application at subcouncil level. While these resources will be spent by line departments, subcouncils identify and recommend ward allocation adoption (following sundry internal line departmental input and liaison) by MayCo and Council.

The City has 116 demarcated wards, which forms part of 21 subcouncils. These subcouncils serve the residents by engaging with them on municipal issues. The total available to each ward for the 2022/23 financial year is set at R1 million per ward. These allocations could be spent on either capital or operating projects/programmes.

A ward allocation project must form part of the core business activities and assets of the lead department and must be aligned with the Service Delivery Business Implementation Plan of the directorate. Ward allocation projects must, as far as possible, be completed within the financial year in which approved. However, unspent capital funds may be rolled over to the next financial year, where compelling reasons exist for such roll-over.

2.8 Expenditure on transfers and grant programmes

Table 51 - MBRR Table SA19 - Expenditure on transfers and grant programmes

2.9 Allocations and grants made by the municipality

Transfers and Grants are allocations made to outside organisations or bodies from the City's approved budget. These allocations are gratuitous/unrequited transfers by the City to the grantee organisations and are not payments made in compliance with any commercial or other business transaction. All transfers and grants are disbursed in terms of section 67 of the MFMA. Application in respect of section 67 grant and grants-in-aid allocations are approved by the City's Grants-in-Aid Committee and event-related sponsorships by the Executive Mayor as per the City's System of Delegations.

The Grants-in-Aid Committee supports grant applications in terms of the City's Grants-In-Aid Policy and the members of the committee are officials of the City appointed by the CFO. The Committee co-ordinates, administers, and controls the screening process in respect of applications recommended by line departments and sub-councils to ensure that all recommended grants comply with the City's Grants-In-Aid Policy, the Constitution and relevant legislation.

An ad-hoc committee facilitates the selection of events and recommendations to the Mayor's events, which the City wishes to support in terms of the IDP and the City's Events Policy. The members of the committee consist of specific councillors as identified by the Mayor. The Committee meets as and when required.

Full disclosure on transfers and grants to external organisations by the City can be found in Annexure 21.

A 4.9% cost-of-living increase was provided for the City's s56/senior managers as per the SALGBC wage agreement for 2022/23. Table SA22, however, indicates an increase of 22.1%. This is mainly due to:

- The zero percent increase to the 2021/22 original budget, which was subsequently changed to 3.5% in December 2021 as approved for implementation by Council. The formula used in Table SA22 is based on the latest budget and not on the original budget;
- Vacant posts, which were budgeted at the mid-point of the Task grade to attract competitive skills; and
- Changes to the organisational structure, which resulted in an additional Executive Director's post.

2.12 Annual budgets – internal departments

2.12.1 Community Services & Health (Vote 1)

In support of the "Giving Hope" vision of the City, the Community Services and Health (CSH) directorate contributes to the health and well-being of communities and individuals through the provision of a range of community- and health facilities, spaces and services, as well as developmental programmes in support of enabling social inclusion.

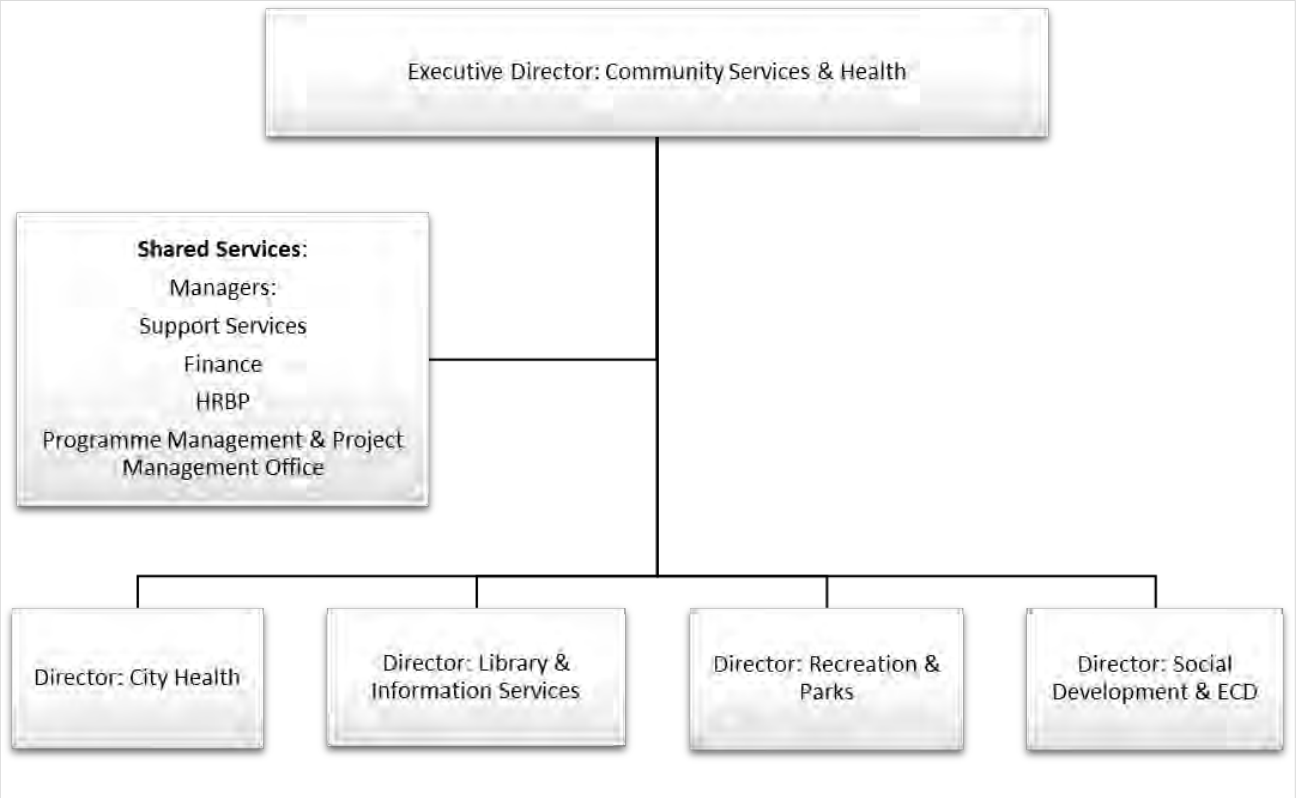
Through the directorate's departments, the broad social challenges and needs are addressed by providing and maintaining a holistic and integrated range of mandated, as well as discretionary, community facilities, functions, services and developmental programmes, including, but not limited to, those mentioned below.

The ability to deliver services is resource dependent, and the directorate continues to assess and prioritise resources and capacity against needs, in order to influence future decision-making. This includes assessing the delivery of services with limited resources and increasing vandalism, such as the possible unfortunate closure of a number of facilities.

CSH directorate is responsible for:

- Delivering a Comprehensive Primary Health Care Service, including Personal Primary Health Care (child health, maternal and women health, non- communicable diseases, and adult curative care in some larger facilities), Matrix and Men's Clinics sites as well as Municipal Health Care (also referred to as Environmental Health Services);
- Providing access to the services and resources required for informational, educational, cultural and recreational needs through a free public library service that includes spaces and programmes for social development;
- Providing attractive, safe, accessible and sustainable community facilities and spaces where the citizens of Cape Town can engage in active and passive recreation;
- Providing cemeteries and crematoria, which are an integral part of a dignified and efficient interment service;
- Horticultural services at City facilities;
- Community engagements and social preparation;
- Providing a number of targeted community services programmes focusing on substance abuse, homelessness, youth development, early childhood development, poverty alleviation, gender support and vulnerable groups;
- Developing, implementing and maintaining community-orientated arts, culture and heritage programmes, services, infrastructure and partnerships; and
- Maintaining/upgrading community service facilities that are planned and developed in a joint and integrated manner with internal- and external partners, and in areas of greatest need, including integrated facilities in informal settlements.

Management Structure



Changes to service levels and standards over the MTREF

There are no material changes in trends for the directorate over the MTREF period.

Past year's performance – 2020/21

The directorate achieved the following financial indicators in the 2020/21 financial year:

- Capital spend: 90.1% (target 90%)
- Operating spend: 98.2% (target 95%)
- Repairs and maintenance spend: 95.8% (target 95%)
- Training budget spend: 104.1% (target 95%)

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

Management, with the assistance of the Integrated Risk Management (IRM) department, have applied their minds, and due care is taken to ensure that risks, which could impact on the directorate not achieving its objectives, are identified, addressed and managed in accordance with the City's approved IRM Policy and Framework.

Risk Registers are utilised as the management tool to manage identified risks. Identified risks, rated equal to/above the Council approved risk acceptance level, are reported to the Executive Management Team (EMT). The Executive Director informs/discusses the directorate's risks with the relevant Mayoral Committee member on a six monthly basis.

Major features of expenditure including discretionary- and non-discretionary expenditure

The directorate's major categories of expenditure will include:

- Repairs and maintenance to community- and health facilities;
- Primary Health Care;
- Security services to secure facilities and staff;
- Ward Allocation projects;
- EPWP projects; and
- Various community based programmes.

Capital Plan: Directorate capital programme

Significant capital projects to be undertaken over the MTREF period include, but are not limited to:

- Integrated Recreation & Parks facilities;
- Cemetery expansion;
- Elsies River integrated recreation facility;
- Upgrade Maitland Crematorium;
- Extension of Belhar multi-purpose centre;
- IT modernisation;
- Upgrades to clinics;
- Swartklip multi-purpose centre;
- Swimming pool redevelopment;
- Strandfontein Clubhouse development;
- Lwandle community library upgrade;
- Mfuleni integrated recreation facility;
- Upgrade to Hartleyvale Stadium;
- Precast concrete wall at sports grounds: Avonwood, Lentegeur, Florida Park, and Salberau;
- Upgrade to Bishop Lavis sports ground
- Mandela Park integrated recreational facility
- Upgrades to Community Services & Health facilities;
- Upgrades to Recreation & Parks

2.12.2 Corporate Services (Vote 2)

The Corporate Services directorate is a transversal directorate by nature. Its core purpose is to provide multi-disciplinary services and professional partnerships to the City's directorates, supporting and enabling service delivery for the City through value adding programmes, systems, processes, policies and knowledge management.

The Corporate Services directorate consists of the following departments:

- **Customer Relations department**
  The department provides an effective and efficient customer relations service to the City's customers to address their requirements in terms of access to municipal service delivery, thereby creating a positive image of the City.

- **Executive and Council Support Operations department**
  The department drives the provision of inter alia, strategic, specialised and operational support services to Council, Councilors and its committees, the body politic, and the designated role players in the City's decision-making processes. The department oversees, drives, and leads the provision of the strategic and specialised transversal support services, and sets the direction for the functions that reside within the department. To operationalise its business offering, the department facilitates the interface between the executive decision-making structures, inter alia, Councilors, the Speaker, the Executive Mayor, Executive Deputy Mayor, Mayoral Committee members, the Chief Whip, all committee chairpersons, the City Manager, the Executive Management Team and the organisation as a whole, as well as other spheres of government.

  The department also provides a dedicated specialised support services to Councillors and Junior City Council (JCC) that include, inter alia, human resources, finance and general administration services and ensures that Councilors are capacitated and developed in order to deliver on their mandates. In line with the implementation of the City's Language Policy, which includes the promotion of multilingualism, the department drives the provision of translations and interpreting services and other language services related functions. The department also drives the mandate of creating and maintaining a corporate records management system and keeping culture through the management of Citywide transversal administrative registry support services as well as logistical printing services.

- **Fleet Management**
  The main function of this department is to provide a comprehensive fleet management service to fulfil the City's vehicles, plant and workshop requirements. Approximately 5 275 Fleet (Vehicles and Plant Equipment) are managed by this section, which is responsible for:
    - Ensuring availability of Fleet;
    - Procuring and disposal of Fleet;
    - Repairs and maintenance of Fleet;
    - On-road fueling of Fleet and Fuel Management initiatives;
    - Private hire management of Fleet;
    - Legislative- and Regulatory compliance;
    - Fleet Tracking, Monitoring & Utilisation;
    - Accident Management and
    - Business & Financial Planning

- **Facilities Management**
  The Facilities Management department provides a facilities management and maintenance service and implements a systematic approach to effectively maintain the performance of assets by procuring multi-disciplinary building services, ensuring statutory compliance, overseeing quality assurance and setting norms and standards that improves the life of the asset. The department also provides a repairs and maintenance services as follows:
  - Centralised asset users of corporate facilities (156 buildings);
  - Community Services & Health (128 clinics, 104 libraries and 61 SDECDs);
  - Safety & Security (30 fire stations, 13 Metro Police Offices, 31 traffic Centres); and
  - Corporate Services (11 courts)
  - The Leased Out Improved Property Portfolio Maintenance (LOIPPM) portfolio focusses on 937 residential and commercial immovable assets, 317 vacant properties and procures security services to safeguard assets pre-and post-occupancy.

  The department, furthermore, provides a Transversal Facilities Management service via the facilitation of period tenders and contracts, project management, contract security management to building infrastructure as well as the provision of a quality assurance role in the built environment.

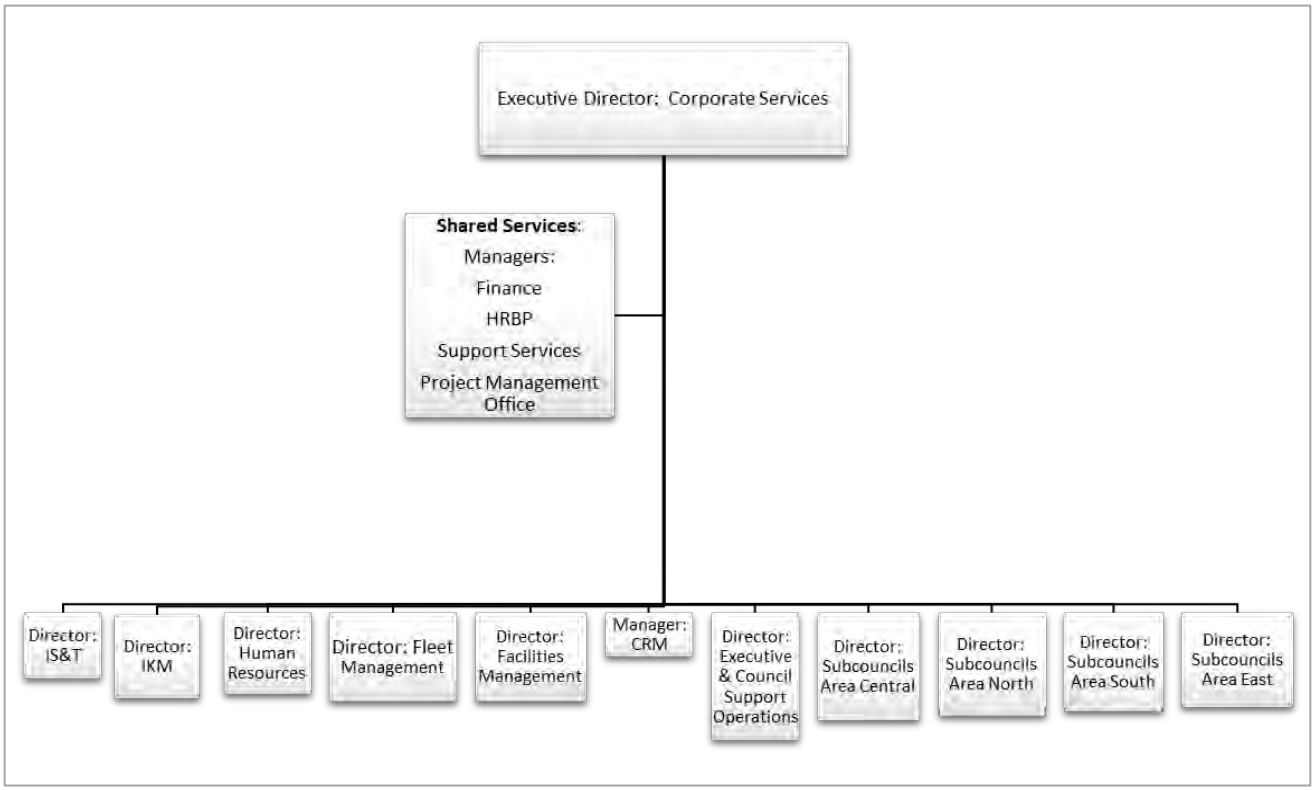
- **Human Resources department**
  The Human Resources department ensures proper resourcing of the organisation to enable an efficient and productive administration that prioritises service delivery. The City's Human Resource Strategy is aimed at delivering the right people, with the rights skills, at the right place and time. It is about ensuring the correct alignment of people with business needs. This provides value-added results as it improves service delivery within pre-determined budget parameters.

- **Information Systems & Technology (IS&T) department**
  The IS&T department provides Information and Communication Technologies (ICT) services within the City and thereby improves services to officials, citizens, visitors and other stakeholders through implementation of relevant technology tools that is fit for business needs. As a strategic partner to Council and its various business lines it aims to be a catalyst for the transformation of public services and to continue enabling the City to become a more efficient and effective local government authority. As a technology leader, the IS&T department positions itself as a dependable and trusted change agent serving to the forefront of technological progress and innovation in order to render the City more sustainable for all its stakeholders.

- **Information and Knowledge Management department**
  The department provides corporate guidance and standards to City departments in the fields of records managements, geographic information systems (GIS) and data governance in order to improve the management, sharing and retention of information across the organisation. The department also provides specialised services to City departments including geographic data management, geospatial data acquisition including aerial imagery, map production, 3D modelling, and information and records management services. Information is made available to City departments and the public through the City Maps office as well as the open data portal and GIS viewers available on the City's website.

- **Subcouncils**
  This department renders strategic, operational and specialist support to the decision-making structures within the City. It further establishes, institutes and manages the activities of Subcouncils and Ward Participatory Mechanisms as well as directs and provides oversight for the Councillor Support services.

Management Structure



Changes to service levels and standards over the MTREF

All departments within Corporate Services, with the exception of Customer Relations, are internally focused.

The Customer Relations department uses call-taking and service request statistics to manage the level of services provided to the City's customers. In the absence of proper benchmarking, the percentage of dropped calls are managed downwards, which serves as a measure of improving the level of services year-on-year.

Past year's performance - 2020/21

The directorate achieved the following financial indicators against the said targets, which illustrates that the directorate manages its finances closely in order to achieve its targets as reflected in the SDBIP.

- Capital spend: 90.4% (target: 90%)
- Operating spend 111.7% (target: 95%), due to the corporate provision for Post-Retirement Medical Aid (PRMA)
- Repairs and maintenance spend 93.9% (target: 95%)
- Training budget spend 87.4% (target: 95%)

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

The major sources of revenue generated by the Corporate Services directorate are:

- Grant Funding as per Division of Revenue Act
- Service Charges from the rental of spare capacity in the City's Broadband Project
- LGSeta – claims for prior year training costs incurred

Only the service charges generated from hiring out spare capacity in the City's Broadband project is demand driven and dependent on market forces. Even though the expansion of the Broadband project has resulted in no new infrastructure being implemented, the existing external users to the system remain unchanged and therefore no significant reduction in revenue is anticipated.

Historically, the other two major sources of revenue increase year-on-year. The City has no influence in determining the City's allocations in terms of these two funding sources.

Major features of expenditure including highlighting discretionary and non-discretionary expenditure

The directorate's major expenditure categories include:

- Salaries and Wages;
- Telecommunications Costs;
- Software Licensing;
- Professional Services;
- Corporate Training Programmes;
- Security Services;
- Fuel Costs;
- Advertising Contracts; and
- Maintenance of Broadband and ICT infrastructure; fleet, and corporate buildings.

Directorate capital programme

- Two large investments are proposed in the IS&T environment:
  - Broadband Infrastructure Programme (BIP)
    This program was reviewed based on an audit recommendation and the latest BIP operating requirements based on the business plan, which will be submitted to Council shortly. The revised business plan is focused around optimising the City's broadband infrastructure and utilising the asset for internal usage. This project has progressed through the detail design phase.
  - Core Application Review (CAR):
    The City is currently undergoing a major (core) systems transformation. The upgrade/replacement of these core applications (ERP [SAP], EGIS and Productivity) is required as these applications are nearing the end of its useful lifespan. The CAR project is tasked with defining the target architecture and roadmap for the City's core applications and is proposed to be implemented in a phased approach. This projects has gone through the conceptual design stage and projects must still be identified. The budget provision submitted to Council is therefore subject to change but represent the best estimate at this point in time, subject to affordability.

- Fleet Services Replacements (Plant & Vehicles)
  To replace aged fleet vehicles in terms of the Fleet Management Strategy and funding prioritised by Council for this purpose. Which will ensure more reliable and available Fleet which will support service delivery to key service delivery departments of Safety and Security, Community Services and Health, Urban Mobility - Roads and Human Settlements.

- Fleet Facilities Upgrade & Renovations
  To implement the much needed improvements and upgrades of the Fleet facilities in the four areas, which includes equipment. Ndabeni and Khayelitsha Workshop has already been upgraded, therefore leaving Ndabeni Precinct, Hillstar and Bellville workshops, which upgrades will be planned over the next 3 financial years.

- Corporate Accommodation
  The construction of new office buildings to house City of Cape Town staff. Facilities earmarked for extensions includes the Bellville Civic Centre, Dulcie September and Turfhall.

- Corporate Facility Upgrades:
  To modernise, rehabilitate, refurbish the existing facilities in order to extend the useful life of these assets and/or to increase the standard of performance. Facilities where upgrades are planned for includes:
  - the Cape Town Civic Centre (CHQ),
  - Brackenfell Municipal Offices,
  - Kuils River Municipal Offices,
  - Khayelitsha,
  - Lookout Hill,
  - Somerset West Municipal Offices,
  - Fezeka,
  - Fish Hoek Municipal Offices
  - Philippi depot.

2.12.3 Economic Growth (Vote 3)

The key purpose of the Economic Growth (EG) directorate is to position Cape Town as a city with an efficient environment conducive to economic growth, by leveraging its immovable property asset portfolio to the best interest of internal- and external clients.

The directorate also engages in the complete asset lifecycle management including the phases of planning, acquisition, holding and disposal. Due to the fact that the City has a substantial portfolio of assets, the efficient and effective distribution and management of these assets are critical to the sustained service delivery objectives of the City and the community it serves.

The directorate is made up of the following departments:

- **Enterprise and Investment department**
  The broad aim of the department is to maximise the opportunity to improve Cape Town's business climate and establish it globally as an attractive investment destination with positive economic growth through various programmes and projects to encourage more business opportunities.

- **Property Management department**
  The purpose of this department is to ensure a sustained and cost effective real estate, property development and immovable property asset management functionality. Property Management as the custodian of immovable property is responsible for the oversight of the deployment, use and performance of all immovable property assets, acquisition of immovable property assets required for infrastructure and service delivery purposes as well as the disposal of immovable property assets no longer required for delivery of basic municipal services.

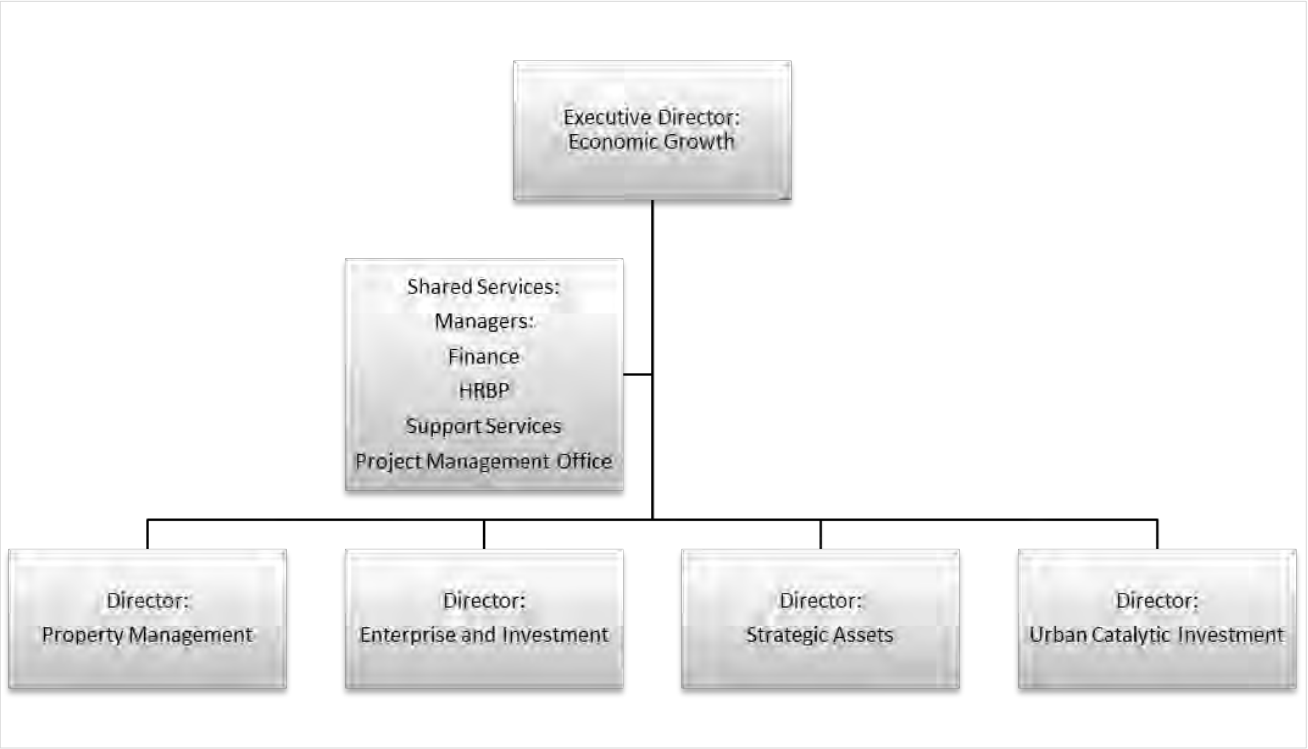
- **Strategic Assets department**
  This department consist of a portfolio of strategic assets of high economic, environmental and heritage value, which require an asset specific management model. The purpose of the department is to optimally utilise these key assets to position Cape Town on a global platform, act as an enabler and leverage City's tourism, travel, events and investment strategies and ensure that entrepreneurs and cultural partners have a world-class venue to use, perform and showcase their talents.

- **Urban Catalytic Investment department**
  Urban Catalytic Investment's aim is to enable an innovative and investment-friendly environment in spatially targeted 'Transit-Accessible Precincts' that promotes the City's vision for economic growth and development, jobs and the promotion of spatial transformation through transit-oriented development to enhance the livelihoods, quality of life and opportunities of all its citizens.

  It does so by leveraging City resources and investment into a portfolio of three priority catalytic precincts, namely: Bellville Future City, the Philippi Opportunity Area, and the Gateway Precinct, by enabling partnerships with public- and private-sector stakeholders in assembling complex sites, precinct planning and land packaging, remediating land where necessary, and securing the necessary supporting infrastructure and incentives.

  Fundamentally, the department seeks to add value that catalyses' private investment in blighted and underperforming parts of the City by creating an enabling environment where investment and delivery in spatially targeted catalytic precincts can flourish.

Management Structure



Changes to service levels and standards over the MTREF

There are no material changes in revenue trends over the MTREF period for the directorate.

Past year's performance – 2020/21

The directorate (previously known as the Economic Opportunities and Asset Management directorate) performed very well from a financial perspective in the 2020/21 financial year. The directorate met the targets for both capital- and operating budget expenditure.

Capital expenditure of 90% was recorded against the target of 90% and operating expenditure of 95.8% was recorded against the target of 95%.

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

The directorate does not foresee any risks in achieving revenue projections or expect any major shifts in revenue patterns. No planned alternative sources of revenue are anticipated in the short-term. The biggest revenue sources currently are from the Profit on the Sale of Assets (land sales) and the rental generated from properties leased out by the Property Management department.

Major features of expenditure including discretionary and non-discretionary expenditure

The directorate's major expenditure categories include:

- Salaries and wages;
- Contracted Services; and
- Transfers and Subsidies.

Directorate capital programme

Significant capital projects to be undertaken over the medium term include, amongst others:

- Informal Trading Permitting System Enhancement;
- CTICC 2 – Interface Structure; and
- Philippi Fresh Produce Market Refurbishment.

2.12.4 Energy (Vote 4)

The Constitution stipulates that the City has a responsibility to ensure that the citizens of Cape Town have access to basic services. Municipal powers and functions are dealt with in Section 156 (Schedules 4B and 5B) of the Constitution. Specific functions pertaining to electricity reticulation, are contained in Schedule 4B. Specific functions pertaining to street lighting are contained in schedule 5B.

To meet this responsibility, the Energy directorate must ensure the provision of effective and reliable electricity services through effective management of natural resources and service delivery infrastructure.

The directorate is made up of two departments namely:

- **Sustainable Energy Markets department**
  Branches within the department include Generation Development and Municipal Operations Efficiency, Renewable Energy & Energy Efficiency and Facilitation, Low Income Energy Services Delivery and Built Environment, Energy and Carbon Data Management & Integration Platforms.

  The departmental focus is mainly on, but not limited to:
  - Coordinating the implementation and monitoring of the City's Sustainable Energy Action Plan with departments and stakeholders towards achieving the Cape Town Energy 2040 vision;
  - Ensuring the continuation of improving the City's own energy use and carbon footprint by retrofitting City buildings and operations; and
  - Key cross-cutting projects including:
    - Developing partnerships for the City's path to sustainable growth: Initiating and building on beneficial partnerships locally, nationally and internationally to enhance and drive the City's path to a sustainable, low-carbon and inclusive future;
    - Green Procurement Programme and projects;
    - Friends and Neighbours Programme;
    - Smart Living and Working Programme;
    - The Mayor's Portfolio of Urban Sustainability; and
    - Ongoing implementation of the graduate intern and international intern programmes.

- **Electricity Generation & Distribution department**
  The department has been in existence since 1895 in different forms but providing the same essential service. Branches include Supply, Infrastructure Management, Engineering, Enterprise Asset Management, Retail Management and Technical Support Services.

  The department's core business is to provide reliable electricity supply to customers in the City's electricity services supply area and is licensed by NERSA to undertake this function. In order to ensure that the quality of electricity supply meets the required regulatory standards, the department monitors its performance in terms of NERSA guidelines as set out in the NRS048 documents.

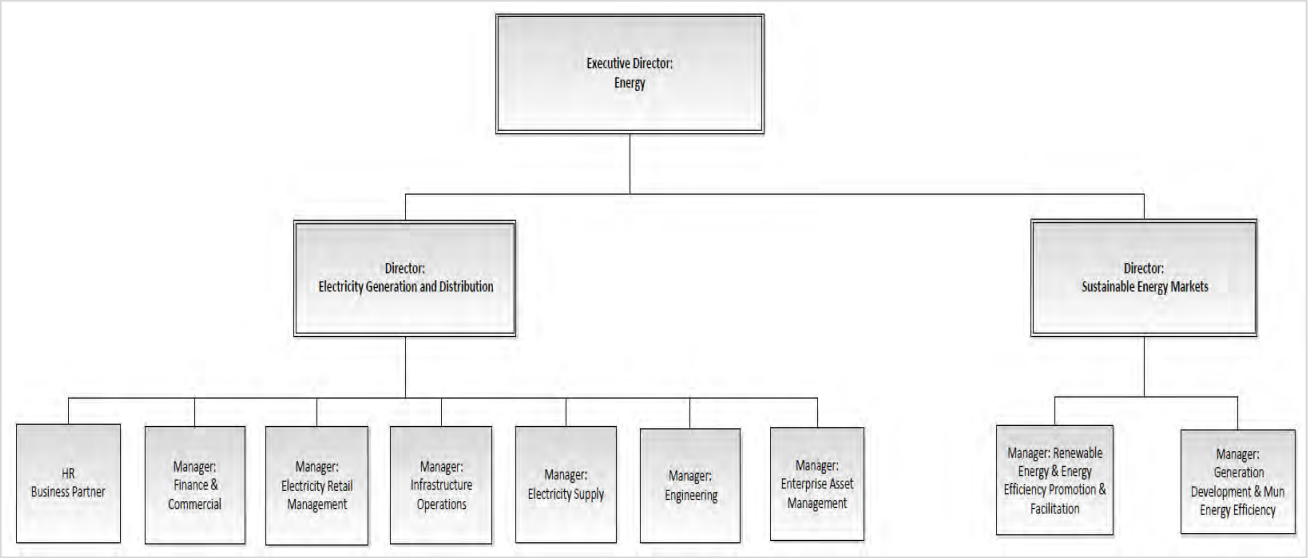
In accordance with the City's draft Energy and Climate Change Strategy, the department aims to promote the use of renewable energy as follows:

- Promote and facilitate the implementation of other renewable generation systems where practical;
- Keep abreast of national- and provincial developments regarding renewable energy and facilitate the incorporation thereof into City processes;
- Investigate the practicality of entering into long term power purchase agreements (PPAs) with independent power producers (IPPs) to provide electricity at the same price at which the City purchases it from Eskom;
- Manage the City's Small Scale Embedded Generation program, which provides for a limited amount of excess generation of small scale renewable energy generators to be fed back onto the municipal grid and to receive an associated credit; and
- Promote the finalisation of national technical specifications for the connection of small scale renewable generation to utility electrical grids.

The department, in partnership with the Sustainable Energy Markets department, aims to:

- Establish and implement an Energy Efficiency (EE) programme;
- Promote Eskom's Energy Saving Program to the City's electricity customers; and
- Establish and maintain an on-line EE and demand side management (DSM) resource.

Management Structure



Changes to service levels and standards over the MTREF

The department is ready to respond to a national declared emergency and activate load shedding in accordance with national requirements and published load shedding schedules. Load shedding in the event of a system emergency is required in order to prevent the power system from sliding intoan unstable state, which can lead to a national blackout with serious consequences.

The City's load shedding practices and schedules have been aligned with the national standard NRS048 part 9. Load-shedding schedules are posted on the City's official website.

Past year's performance – 2020/21

Operating expenditure amounted to 101.0%; the main reasons for the slight over expenditure was the bulk purchases made to Eskom and a rise in sales as a result of the economic recovery when lockdown levels eased.

Capital expenditure of 90.7% was achieved, which is a reasonable achievement considering the legislative environment within which to spend. The directorate operates within an environment where declining sales is the norm and has to plan and budget accordingly. A few vendors / suppliers / contractors were under business rescue or did not have the capacity/resources to implement work as a result of the COVID-19 lockdown.

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

The current infrastructure within the geographical area of Cape Town needs to be refurbished and maintained to ensure that the condition of the current networks and infrastructure is improved to meet the business and social challenges of electrification in South Africa. This supports the City's IDP basic services priority by enabling a well-managed and modernised infrastructure to support economic growth, by ending load shedding in Cape Town over time and by improving access to quality and reliable basic services.

The directorate considers itself well-run as is evidenced in the revenue collection and low levels of electrification backlog. The energy industry is changing and the sales environment is declining, yet the directorate has to prepare its business to meet the future energy needs of the City's residents. The introduction of the Home User tariff has assisted in the structural change required to limit the impact of declining sales. The directorate's revenue protection teams are working tirelessly on maintaining the current collection rates and minimising the City's losses. The continued roll-out of split prepaid metering will also assist in limiting losses.

Major features of expenditure including discretionary and non-discretionary expenditure

Bulk purchases of electricity from Eskom represents a substantial part of the directorate's budget - around 61%; the City has previously paid these charges to Eskom within the due dates.

The directorate also collects the non-regulatory portion of its tariffs, which represents 10% of sales for redistribution within the Rates account. The directorate's revenue protection efforts continue to assist in limiting these increases.

Directorate capital programme

The capital budget is funded from a number of funding sources with the CRR, EFF and CGD being the largest. It is critically important to match the benchmark for the investment in refurbishment in accordance with international best practice to ensure good quality of supply and excellent customer- and delivery service.

EFF as a funding source has an impact on tariffs. Funding of non-income generating projects in respect of infrastructure and refurbishment have been moved from EFF (loans) to CRR (internally generated funds) where there is sufficient CRR available on a year-on-year basis. Over a period of time this will have the effect of reducing tariff increase requirements.

2.12.5 Finance (Vote 5)

The Finance directorate promotes sound and sustainable management of the City's financial resources, in compliance with the MFMA, together with other related legislation, policies and procedures.

The directorate's main priorities include, among others, are:

1. Clean audit for the City;
2. Maintaining a good credit rating for the City;
3. City's Revenue Collection; and
4. Supplementary and General Valuations Projects.

Roles and responsibilities of the Finance directorate:

- Provision and maintenance of meaningful, accurate and coherent financial records to facilitate the management and control of expenditure activities against the objectives set by the budget and all forms of financial and statutory accountability finally embraced in the audited financial statements.
- Building a credible standing with the Auditor-General for the promotion of confidence in the financial records of the City.
- Managing the City's banking, investments, borrowings and cash flow (including municipal bond issues) in the most cost effective and efficient manner possible.
- Giving financial effect to the strategic focus of the City in the form of a short, medium and long term financial plan which is credible, viable and sustainable.
- Ensuring timeous and accurate payment of City creditors, councillors and officials.
- Management of City key strategic development targeted conditional grant and related funds (including USDG; ICDG; Health; NDPG; Libraries et al).
- Developing and reviewing financial and finance related policies. Controlling the creation and annual reviewing of all budget related policies, coordinating the annual miscellaneous and consumptive tariff setting processes, evaluation and reporting on the distribution of all billed municipal charges on an affordable and collectable basis.
- Providing a sustainable and credible revenue management service, taking into account an affordable and appropriate user-pays strategy, whilst acknowledging the severe economic challenges faced by many of the City's poorer residents.
- Providing on-going support to the City's directorates and departments in the acquisition and disposal of goods, services, property and construction works.
- Producing and maintaining the City's valuation rolls and all related compliance requirements in terms of prescribed legislation.
- Ensuring compliance to legislation, and the implementation and maintenance of good governance of the City's municipal entities.

The Finance directorate's intention is achieved through its seven departments:

- **Budgets department**

  The Budgets departments provides an enabling environment (from a support service, budgetary perspective) to optimise the utilisation of financial resources allocated to service delivery of City functions and the compilation, amendment, monitoring and reporting of financial/budgetary data sets within relevant legislative framework.

- **Expenditure department**
  The Expenditure department seeks to provide a financially controlled environment, using limited resources and internal controls by ensuring timeous and accurate payment of City creditors, councillors, officials and Expanded Public Works Programme (EPWP) workers in compliance with relevant legislation. Furthermore, the department ensures that all payroll accounts are reconciled and that the City has a well-managed Travel Management System.

- **Grant Funding department**
  The key imperatives of the Grant Funding department relate to its mandates in terms of supporting the City's operational and financial sustainability through its structured acquisition, governance and transversal roles with respect to the diverse array of grant funding received from National and Provincial government.

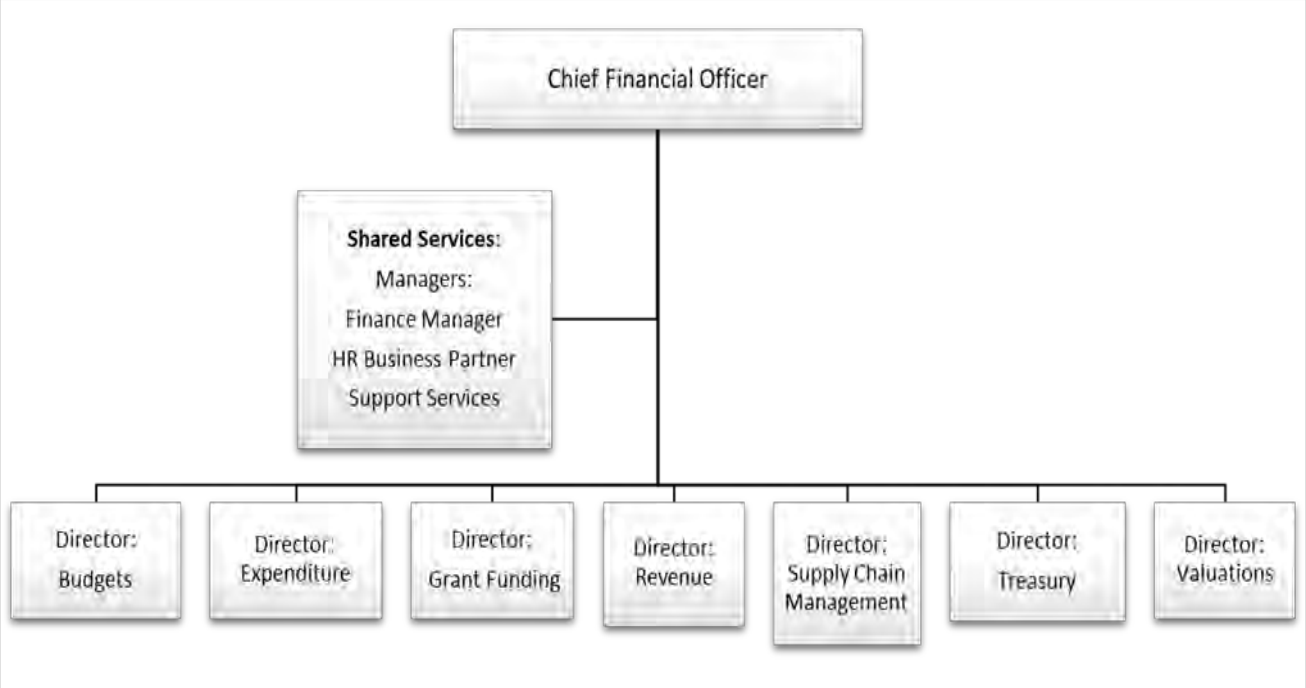
- **Revenue department**
  The Revenue department is a customer-focused department, comprising competent and dedicated staff, providing effective and efficient revenue management services, which includes rates and services, housing rentals and property management leases, by informing citizens through council structures as to their responsibility in creating a solvent and prosperous City, which supports the application of an affordable and appropriate user-pays strategy while acknowledging the severe economic challenges faced by many of the city's poorer residents.

- **Supply Chain Management (SCM) department**
  The SCM department supports and manages procurement policy, systems and processes for the acquisition and disposal of goods, works and services. Promotes compliance to a procurement system which is fair, equitable, transparent, cost-effective and competitive. Promotes black economic empowerment and local economic development and also encourages the promotions of small businesses in order to create sustainability and economic opportunities for the residents of the City.

- **Treasury department**
  The Treasury department provides and maintains meaningful, accurate and coherent financial records to facilitate the management and control of expenditure activities against the objectives set by the budget and all forms of financial and statutory accountability finally embraced in the audited financial statements. The department strives to build a credible standing with the Auditor-General for the promotion of confidence in the financial records of the City. The department ensures asset management is pro-active for accountability over an extensive array of assets. It manages the City's banking, investments, borrowings and cash flow (including municipal bond issues) in the most cost effective and efficient manner possible. It ensures the continuous viability of the General Insurance Fund and the City's Exempt Status under the Compensation for Occupational Injuries and Diseases Act (130 of 1993) and management of the Fund's core functions inherent in the provision of a self- insurance concept facility to the City. It increases the city's "resilience" in its service delivery process and targets. The department is also responsible for regulating, managing and monitoring Municipal Entities for maximum shareholding returns, financial performance, legislative and policy compliance. Municipal entities operate openly and transparently and that the community and City receives a return on the service provided.

- **Valuations department**
  The Valuations department delivers a high quality and impartial valuation service to customers to sustain a cost effective, just and accurate valuation roll that is up to date, taking all new development and land changes into account. The roll serves as the basis for the calculation of fair and equitable rates for the City, provides an effective non-conditional revenue stream taking cognisance of the ability-to-pay principal supported by Council and giving due relief, through the Rates policy, for the indigent, those on government support grants and the public benefit organisations providing supportive services to the City community.

Management Structure



Changes to service levels and standards over the MTREF

There are no material changes in trends over the MTREF period for the directorate.

Past year's performance – 2020/21

The Finance directorate's performance for the past year has been positive, demonstrated by the ongoing good credit ratings received, as well as an unqualified audit opinion with findings, providing financial sustainability to the City. The City has received a clean bill of health for financial sustainability and the pre-determined objectives are evidence-based and all stakeholders can rely on actual outcomes recorded against the targets that are a true reflection of the City achieving its IDP goals.

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

There are no material changes in revenue trends over the MTREF period.

Major features of expenditure including highlighting discretionary and non-discretionary expenditure

The directorate's major expenditure categories include:

- Salaries and Wages;
- Contracted Services – mostly linked to MURP projects;
- Depreciation; and
- Finance Charges.

Directorate capital programme

The key projects contained within the 2022/23 capital budget of the Finance directorate support both financial control and enhanced service delivery and include a number of strategically aligned projects to support the ease with which ratepayers can engage and do business with the City.

The majority of the capital budget over the next medium term revenue and expenditure framework mainly relates to:

- Aerial Photography;
- Furniture & IT Equipment;
- Insurance Contingency;
- Security at Cash Offices;
- System Enhancements;
- Upgrades to Cash Offices; and
- Warehouse Equipment.

2.12.6 Future Planning & Resilience (Vote 6)

Following a decision by Council on 15 December 2021, the Future Planning and Resilience Directorate came into existence on 1 February 2022. The intention of Council was to bring together a range of City functions that can be optimised through co-location in order to work across the organisation to perform short-, medium- and long-term strategy and policy development, capital planning, performance management and business improvement. The directorate is tasked with analysing and developing responses, both internally and externally, to the changing nature of the urban environment, including shock events.

The directorate strategy envisages achieving the following:

- Overseeing the implementation of the Infrastructure Planning and Delivery Framework, facilitating the work of the inter-disciplinary working group on Infrastructure Planning and Growth, and developing an Annual Infrastructure Report.
- Providing leadership and facilitation on long-term and annual strategic planning, which includes working closely with the Finance directorate on the annual strategy-led budget process.
- Facilitating the development and review of the City's 5-year Integrated Development Plan (IDP).
- The ongoing development and successful implementation of Project, Programme, Portfolio, Engineering and Contract Management, across the various directorates within the City ensuring a continuous improvement in maturity levels against industry benchmarks.
- Driving a culture of performance management that strategically focuses the City on evidence-based planning for decision-making, data management, monitoring, evaluation and legislative oversight.
- Enabling City-wide approaches to innovation and operational effectiveness as an enabler of modernisation initiatives in order to ensure continuous improvement, the optimal utilisation of resources, increased productivity, and improved quality and overall satisfaction of business and operating models.
- Implementing a new strategic approach to the "Future of Work" as part of the legacy of the COVID-19 pandemic to ensure the organisation is future-fit and is an "employer of choice".
- Overseeing the implementation of the Cape Town Resilience Strategy and the Cape Town Climate Action Plan, while ensuring that the urban environment is constantly assessed for changing shocks and stresses in order to ensure that new responses are included in strategy and planning processes.
- Surging the combined resources of the directorate to build strategic and programmatic responses to complex problems and city-wide shock events that require co-ordinated transversal responses.
- Communicating and building recognition of the City's brand through a credible and professional communication flow between the City and its various stakeholders.
- Optimising public participation processes to ensure stakeholders are empowered to contribute to City decision-making processes and to have meaningful role in the shaping of Cape Town's future.

The directorate works transversally across the organisation to support other directorates and departments in their strategy, planning, execution, performance management, business improvement processes and communication objectives in order to ensure alignment with the vision and priorities of the organisation over the short-, medium- and long-term.

The directorate is made up of the following departments:

- **Policy and Strategy**

  This department leads the drafting, amending and reviewing of the IDP in terms of relevant legislation for the purpose of attaining Citywide and organisational objectives. Additionally, it leads the development of the annual Strategic Management Framework (SMF). It also leads the strategy frameworks and policy processes in the organisation and provides the strategy and analytical support to enable sound decision-making, effective implementation, delivery and strategy-led budgeting.

- **Corporate Project, Programme and Portfolio Management**

  The department serves as a Centre of Excellence to provide the required cutting edge for Project, Programme, Portfolio and Engineering Management solutions to enhance the customer-centric culture in the City. The department does not only focus on the continuous increase of maturity throughout the City for the various disciplines, but also aims to ensure continuous individual competence improvements for project- and engineering managers. Through the Project Portfolio Management System, the implementation of the City's projects is supported and managed, and service delivery enhanced towards successful delivery of projects as scoped and planned within the cost, time and quality constraints. It also leads contract creation, execution, and performance monitoring to maximize operational and financial performance, while reducing financial risk.

- **Organisational Effectiveness and Innovation**

  The department drives use of innovation methodologies in support of government modernisation and efficiency initiatives in order to prepare the organisation for future challenges and opportunities and to ensure financial sustainability. It gives effect to strategic transformational initiatives of the City via the People Strategy. It plays a pivotal role in improving the effectiveness of the organisation via the following focus areas: organisational culture, embedding the behaviours associated with the City Values, driving the strategies, tools and resources of the Leadership Development and People Management frameworks, developing a compelling Employee Value Proposition to position the City as an "Employer of Choice" and equipping the organisation with tools to drive and lead change. It also transforms the City as a workplace by providing strategic direction and operational oversight in the implementation and monitoring of Employment Equity and matters related to diversity in the organisation. This is to ensure a continuous and developmental ethos of equity for all, emphasise diversity as a benefit and value for organisational performance.

- **Resilience**

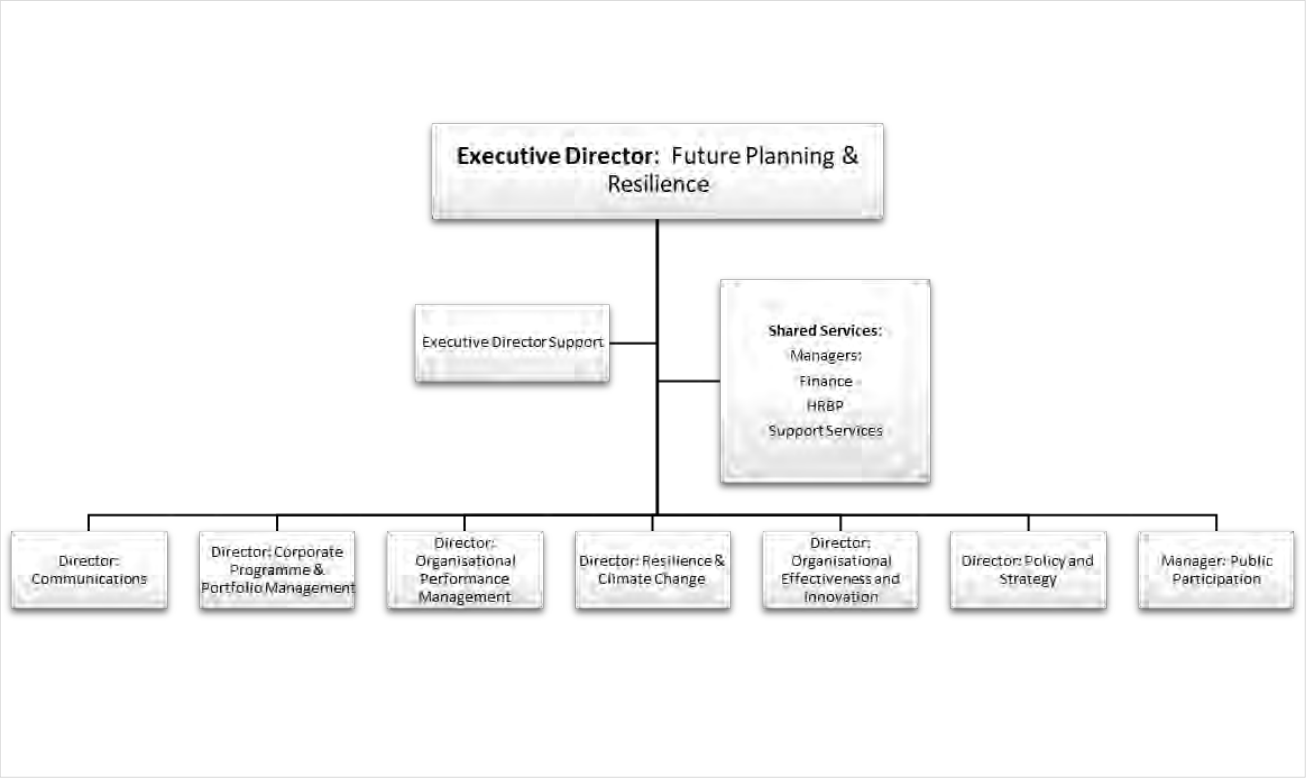
  The department develops strategic, transversal responses to city-wide prioritised shocks and stresses, and intractable issues that require collaboration and partnering, both internally and externally. It seeks to understand the impact of climate change in Cape Town for the purpose of developing organisation and city-wide responses that improve both mitigation and adaptive capabilities of the City.

- **Organisational Performance Management**
  This department guides and directs the enhancement of the City's organisational performance capabilities, alignment and systems in order to develop a mind-set of continuous improvement and improved quality of service delivery through strategy implementation, performance visualisation, accountability and improved evidence-based planning. It also guides the organisation towards attainment of a 'clean audit' for pre-determined objectives, and consequently positively impacts the credit rating and reputation of the City with local, regional and national stakeholders. It builds an analytics-driven culture across the organisation to generate insights that can be used by the organisation to inform strategic and operational decisions, which includes the provision of data engineering services to surface and automate the flow of data. It, furthermore, enhances the organisation's ability to successfully apply monitoring and evaluation (M&E) practices and systems by raising the performance management maturity level of the organisation.

- **Communications**
  The department provides a range of specialist communication services to all City departments around the various facets of communication. One of the main deliverables involves managing the City's Corporate Brand and media strategies, which in turn builds towards positive perception and reputation of the City. Services provided include media management and liaison (including social media), communication strategy and campaign development and execution, publications, website and Intranet development and management, photography, videography and audio-visual services. The dimensions of the department's activities are defined by the Corporate Brand Strategy, Brand Architecture and the Media and Communication Strategies of the City.

- **Public Participation Unit**
  The Public Participation Unit gives effect to the commitment for a more open and collaborative City government, through co-ordinating, monitoring and advising line departments on the most effective approach to public participation for the implementation of their projects or programmes, and which effectively empowers residents to actively contribute to the City's decision-making processes.

Management Structure



Changes to service levels and standards over the MTREF

All departments within the directorate are internally focused, with the exception of the Public Participation Unit. No changes are anticipated to service levels and changes over the MTREF.

Past year's performance - 2020/21

Future Planning and Resilience is a new directorate, which is made up of departments from Corporate Services and Urban Management. Performance is based on aggregate performance of departments from the old directorates.

- Capital spend: 81.03% (target: 90%)
- Operating spend 93.20% (target: 95%)
- Repairs and maintenance spend 95.2% (target: 95%)
- Training budget spend 144.0% (target: 95%)

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

The major source of revenue generated by the Future Planning & Resilience directorate is grant funding as per the Division of Revenue Act. There are currently no revenue risks.

Major features of expenditure including highlighting discretionary and non-discretionary expenditure

The directorate's major expenditure categories include:

- Salaries and Wages;
- Software Licensing;
- Professional Services; and
- Advertising.

Directorate capital programme

The department's capital programme for 2022/23 is made up of the following main projects:

- Integration and Enhancement – C3PM
- Wayleave System
- Contract Management System Integration

2.12.7 Human Settlements (Vote 7)

The Human Settlements directorate leads the City's efforts at facilitating the development of integrated and sustainable human settlements. Housing is one of the City's priorities and the directorate is committed to improving access to affordable and well-located housing through supporting a housing market that can deliver at scale to meet the needs of Cape Town's population.

The key objectives of the Human Settlements directorate are therefore to:

- Facilitate and develop sustainable integrated human settlements;
- Integrate the delivery of housing opportunities with the objectives and deliverables of the rest ofthe City, thereby ensuring that these contribute to the creation of a compact city and optimal useof facilities;
- Improve informal settlements and backyard precincts incrementally and create a better-quality and safer living environment, rather than merely providing shelter;
- Manage and maintain the City's rental housing assets strategically; and
- Promote and ensure meaningful partnerships with private sector and community-based stakeholders towards the development of affordable housing.

The above mentioned objectives are realised through projects and programmes implemented in the various line departments within the directorate.

- **Housing Development department**
  The core function of this department is to facilitate and develop sustainable integrated human settlements in alignment with the National Housing Code, the City's Spatial Development Framework and the City's Transit Oriented Development Framework. This is done by managing the initiation, planning and implementation of integrated human settlement projects and facilitating the development of social facilities and amenities. Furthermore, the department is responsible to facilitate the development of social- and gap housing in identified restructuring zones within the City to ensure the provision of affordable rental- and full-title ownership housing in well-located areas within the City. Lastly, the department is responsible for the upliftment of local communities through the management of People's Housing Programme (PHP) projects.

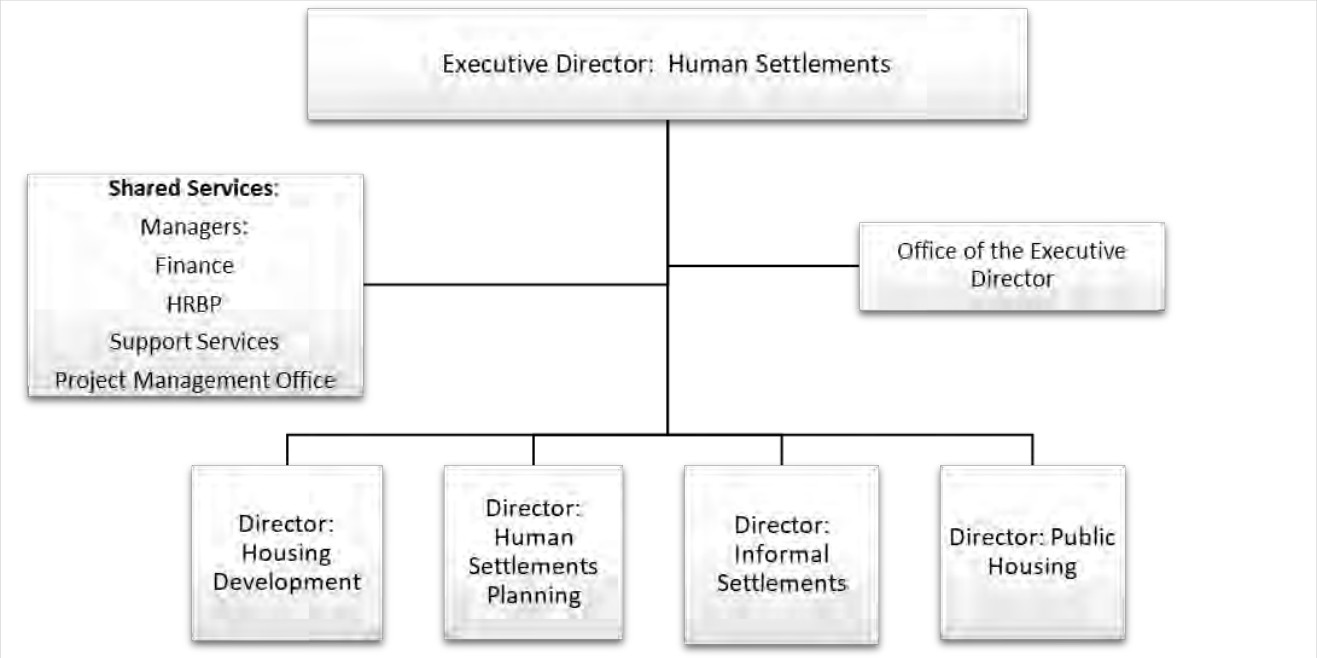
- **Public Housing department**
  The Public Housing department is responsible to direct, manage and control the operations with regard to the transfer of the City's public housing assets, as well as for tenancy transfer and management. The department is also responsible for the development and implementation of maintenance plans by assessing conditions, maintenance costing, and roll-out. The department also manages and administers properties envisaged to be retained as operational staff housing.

- **Informal Settlements department**
  The primary function of this department is the upgrading of informal settlements through a variety of interventions i.e.in-situ upgrading of informal settlements via the National Upgrading of Informal Settlements Programme, re-blocking and enhanced re-blocking as well as super-blocking. The latter interventions can result in individual serviced sites or the provision of shared basic services. The department, furthermore, provides basic municipal services to households residing in the backyards of City-owned rental housing.

- **Human Settlements Planning department**

  The core objective of the department is to provide strategic support in the implementation of human settlement programmes, which will be achieved through the development of human settlements operational strategies and policies that inform human settlements plans and programmes. Furthermore, this department is responsible for strategic identification and acquisition of land for human settlements purposes as well as focus on beneficiary and tenure administration.

Management Structure



Changes to service levels and standards over the MTREF

There are no material changes in trends for the directorate over the MTREF period.

Past year's performance – 2020/21

The directorate achieved the following financial indicators in the 2020/21 financial year:

- Capital spend: 94.5% (target 90%)
- Operating spend: 97.6% (target 95%)
- Repairs and maintenance spend: 121.8% (target 95%)
- Training budget spend: 99.7% (target 95%)

The following achievements have been accomplished by the directorate:

- Human Settlements opportunities provided (Top Structures): 2 587 (target 2 050)
- Human Settlements opportunities provided (Serviced Sites): 2 363 (target 2 800)
- Sites serviced in the informal settlements: 1 274 (target: 1 350)
- Service points (toilet and tap with hand basin) provided to backyarders: 357 (target: 350)
- Deeds of Sale agreements signed with identified beneficiaries per annum: 387 (target: 350)

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

Collection of rental income is under pressure as a result of the financial impact of the COVID-19 pandemic on tenants resulting in continued growth in outstanding rental debt. Appropriate debt management measures are in place to address this situation.

Major features of expenditure including discretionary and non-discretionary expenditure

The directorate's major categories of expenditure will be the:

- construction of top structures for qualifying beneficiaries;
- repairs and maintenance in respect of the City's rental units;
- the implementation of the managed settlement initiative in response to unlawful land occupation; and
- release of state-owned land so the private sector can deliver more affordable housing.

Directorate capital programme

The directorate's capital programme for 2022/23 is made up of the following major projects:

- Housing Projects - ACSA Symphony Way; Annandale; Aloe Ridge; Beacon Valley; Macassar BNG; Imizamo Yethu (CRU Top Structures); Sheffield Road; Highlands Drive Infill;
- Informal Settlement Upgrade – Enkanini; Kosovo; Gugulethu Airport Precinct;
- Informal Settlements upgrade programme;
- Land acquisitions;
- Major Upgrading of Housing Rental Stock; and
- Social Housing programme.

2.12.8 Office of The City Manager (Vote 8)

The City Manager heads the administration of the City and chairs the City's Executive Management Team (EMT), whose primary responsibility is to advise the City Manager on service delivery matters, strategy and policy. The City's EMT also supports the City Manager by driving the implementation of strategic programmes within the 5-year IDP.

The vision of this directorate is to be a trusted centre that advises, provides direction and engages with internal- and external partners. This is to assist the City to become known for its effective and equitable service delivery and to distinguish itself as a well-governed and efficiently runadministration contributing to the achievement of the goals and objectives of the IDP.

The Office of the City Manager comprises the following departments:

- **Legal Services and Compliance**

  The Legal Services department, through its six functional units, provides in-house legal assistance to the City's frontline departments as well as the City's corporate nerve centre. This legal assistance is rendered with the aim of enabling the municipality to deliver on its constitutional mandate. The department is guided by legislative requirements that indicate operations of the various courts, as well as timelines for court matters. The same applies to the processing and turnaround times for PAIA requests, which are also legislated to ensure efficiency, as well as the POPIA matters. The Department also manages and limits the legal risks of the municipality, its structures, the Executive Mayor, City Manager and Executive Directors. This function is executed by way of rendering effective and efficient legal services by providing legal advice (formally, and including in meetings such as Council and Mayoral Committee) and guidance, drafting or procuring opinions and agreements and providing legal assistance within the Office of the City Manager. Furthermore, the department is responsible for ensuring the legal compliance of all reports submitted to Council, its structures,the Executive Mayor, the Mayoral Committee and the City Manager.

  In addition, the department provides legal support to the Office of the City Manager, generally and in his/her capacity as the Appeal Authority in the finalisation of Section 62 appeals and resolutions of disputes, objections and complaints in accordance with Regulations 49 and 50 of SCM Regulations. Moreover, the department assists with the restriction of suppliers, found to have abused the Supply Chain Management process, in terms of Regulation 38 of the SCM Regulations.

  The department further assists the City Manager by investigating complaints emanating from the Office of the Public Protector and the SA Human Rights Commission, by preparing draft responses for discussion and approval to promote and safeguard the City's legal interests.

- **Stakeholder Engagement**
  This department is responsible to represent the City Manager at various internal- and external stakeholder engagements and to provide feedback and input to and from the City Manager's office. It further seeks to keep abreast of and remain informed on sensitive matters pertaining to the Administration and to ensure that the City Manager is alerted to matters requiring specific attention. It also serves to coordinate and facilitate oversight of specifically identified service delivery related issues in terms of interface with external customer and internal department. The branch also manages service delivery complaints referred to the City Manager and coordinates related investigations. The unit also protects the integrity of the City Manager's office by ensuring that external stakeholders are informed of matters receiving due attention from the Administration.

  The department further assists the City Manager to:
  - Increase the visibility of Office of City Manager in sub-councils and communities;
  - Investigate service delivery complaints that are escalated to Office of the City Manager;
  - Monitor progress on City Projects;
  - Monitor progress of complaints being dealt with by the Administration;
  - Liaise between the City and community/external stakeholder; and
  - Communicate the administration plans with the external stakeholders.

- **Office of the Executive Mayor**
  The main role of this department is to support the Executive Mayor in identifying the needs of the municipality, and recommend ways to realise those needs by means of the City's IDP and budget. The branch also supports the Executive Mayor in monitoring the Administration, reviewing the performance of the municipality and overseeing service delivery.

  The department further ensures the efficient and effective management of the executive political office of the Executive Mayor by providing strategic services. The Office includes Governance, Administrative, Media & Protocol, Stakeholder's Engagement, Legal Advice, Mayoral Fund, Political & Strategic Communication, and the Mayor's correspondence/complaints branch, who all render a service to support the Executive Mayor and his office. The Office of the Executive Mayor also has a daily working relationship with the VIP Unit, Events & Protocol who engage to support the Executive Office.

  The Office of the Executive Mayor also performs political/administrative interface with Mayoral Committee Members, Council, City Manager, Provincial- and National Government.

- **Combined Assurance and Governance**
  Note that as per the Council approved organisational macro restructuring effective 1 February 2022, the job title of the Portfolio Manager: Probity (PMP) was re-designated as the Director: Combined Assurance and Governance (CAG). Furthermore, the department previously known as Probity, which included Internal Audit (IA); Risk, Ethics and Governance (REG); Forensic Services (FS); Governance and Combined Assurance and the Office of the City Ombudsman no longer reported administratively to the PMP. The aforementioned functions are now regarded as departments within the Office of the City Manager and reporting administratively to the City Manager.

The Combined Assurance and Governance department comprises of the following functions:

- Combined Assurance and Consequence Management (CA&CM);
- Integrated Governance Reporting and Early Warning Systems (IGR); and
- Quality Assurance and Data Integrity (QADI)

As distinguished, trusted governance leaders and assurance advisors and partners, the Combined Assurance and Governance department aims to provide insight, foresight and innovative value adding solutions, which will assist the organisation in making governance a key enabler to effective, equitable, and sustainable service delivery.

Focus areas includes strengthened professional relationships with internal- and external assurance providers, and regulatory- and professional bodies for the provision of coherent and consistent support to management, the City Manager as the Accounting Officer, Executive Management Team (EMT), Risk Management Committee (RiskCo), Audit and Performance Audit Committee (APAC), and other applicable oversight/ governance structures.

- **Office of the City Ombudsman (OCO)**

  The OCO's role is to ensure fair and reasonable administration of the functional areas, which have been entrusted to the City in terms of Schedules 4 and 5 of the Constitution. Members of the public who are aggrieved by actions of the City's Administration may lodge complaints with the OCO. In terms of the Ombudsman By-Law, the OCO conducts independent investigations into complaints and strives to reach working resolutions on an amicable basis, by recommending corrective action. The OCO analyses complaints received and investigation outcomes to identifying trends, issues and concerns relating to certain City's administrative practices, processes, by-laws and policies. In addition to the complaints management and investigation functions, the OCO also performs advocacy and awareness functions.

- **Forensic Services**

  The purpose of Forensic Services is to combat, fraud, corruption, maladministration and, in doing so enhances proper governance, combined assurance and integrated reporting in the City. In this regard, the department's management team and staff has agreed on a vision, namely, "Delivering real-time reactive investigations and proactive programmes in an effective and independent manner".

  The scope of work includes, but is not limited to the provision of the following services/functions:

  - A reactive forensic service relating to alleged maladministration and/or negligence committed on the part of any employee, municipal entity, agent, contractor, supplier, and service provider to the City;
  - Undertaking a preliminary enquiry/assessment (as part of the reactive forensic service) into any matter that may give rise to a formal investigation with a view to establishing whether, on reasonable grounds, a forensic investigation is warranted;
  - Investigating alleged financial crime (fraud, theft, corruption, or other criminal activity);
  - Providing litigation support in respect of forensic investigations where required;
  - Leading, developing and/or ensuring the implementation of anti-fraud/corruption policies and prevention measures;

- Conducting appropriate proactive, detection, awareness, and education programmes on financial crime and maladministration, fraud prevention and deterrence;
- Facilitating the operation of an independent fraud hotline;
- Fostering open and effective communication with line management, the Mayoral Committee (MayCo), EMT, the APAC and other relevant (internal and external) stakeholders, such as Municipal Public Accounts Committee (MPAC) and the Speaker of Council; and
- Reporting in an effective and timely manner to the appropriate levels of management and the appropriate governance structures.

- **Internal Audit (IA)**
  The purpose of IA is to provide independent, objective assurance and advisory services designed to add value and improve the City operations. It helps the City accomplish its objectives by bringing about a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.

  IA's vision, simply put, is to be a trusted advisor to the City. Its mission is to enhance and protect organisational value by providing risk-based and objective assurance, advice, and insight to the City. IA is largely directed by the Institute of Internal Auditor's International Standards for the Professional Practice of Internal Auditing as well as benchmarks with leading practice.

- **Risk, Ethics and Governance (REG)**
  The overall purpose of REG is to provide the City with efficient integrated risk management (IRM) processes, ethics and integrity services, as well as a robust business continuity management (BCM) function. Ethics investigations are authorised by the City Manager (CM) and are undertaken in an independent and objective manner.

  The Chief: REG reports functionally to the Risk Committee (RiskCo), which was constituted by the CM to provide the appropriate advisory forum and governance structure to assist the CM and the EMT in discharging their risk management responsibilities and providing an enabling environment to assist the City to comply with laws, regulations and recognised governance frameworks. RiskCo advices on matters related to risk governance and reports to the APAC thereon. In terms of Ethics matters the Chief: REG reports to the APAC.

Changes to service levels and standards over the MTREF

There are no material changes in trends over the MTREF period for the directorate.

Past years' performance - 2020/2021

- Meeting the target of 80% for the completion of authorised forensic investigations with limited investigative staff.
- Exceeded the number of reports to the CM on the implementation of forensic recommendations by Executive Management.
- Exceeding the number of hotline promotions and anti-corruption training interventions.
- Exceeding the number of reports to the CM on the completion of line referrals (cumulative).
- Upskilling and enabling staff to continue to work remotely during the COVID-19 national lockdown.
- Completed annual risk register updates throughout the City.

- Completed the monitor and review sessions during quarters 3 and 4.
- Maintenance of the City's Corporate Risk Register as well as five transversal risk registers.
- Updating the standard operating procedure for the integrated risk management function within REG to accompany the Assurance Governance Framework.
- Continued implementation of business continuity management (BCM) function in accordance with the BCM standard operating procedure (SOP) to accompany the Assurance Governance Framework under the auspices of a newly created leadership position for the BCM. This included the continuous development of Business Impact Assessments on focus areas identified by Executive Directors, as well as Continuity Plans for selected areas.
- Various training awareness initiatives conducted across the City relating to the Code of Conduct, declaration of interests, gift receiving, private work and related policies. Directorate and departmental nodal representatives were also re-confirmed and trained on the declaration of interest process and requirements.
- Approval of the updated Rewards, Gifts Favours and Hospitality SOP by the CM.
- Achievment of the service delivery objectives and targets of the Ethics function for the Pro-active (training awareness initiatives), Advisory and Reactive (ethics investigations) component.
- Assistance, guidance, review and secure sign-off of operational corporate pandemic plans.
- Participated in the Pandemic Business Continuity Committee and participated where requested, such as the vaccination program etc.

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

Not applicable to the directorate.

Major features of expenditure including discretionary and non-discretionary expenditure

The directorate's main expenditure categories include:

- Employee Related Cost;
- Contracted Services; and
- Other expenditure.

Directorate capital programme

The directorate's capital budget relates to additional- and replacements of office furniture and IT equipment.

2.12.9 Safety & Security (Vote 9)

The Safety & Security directorate is committed to ensuring a safe and secure environment for all its residents, by combating crime and disorder, reducing vehicle speed and accidents on our roads, improving response time to emergency fire calls, reducing disaster risks in all communities within the City and supporting community events in order to create opportunities for communities and build social cohesion.

The directorate consist of seven functional departments as listed below.

- **Metropolitan Police Services**
  The Metropolitan Police Services department was established in terms of the South African Police Service Act. Its mandate is the enforcement of traffic laws, enforcement of by-laws and crime prevention. Its current operations include clamping down on drug- and alcohol-related offences and addressing gang-related violence. To this end, the Gang and Drug Task Force was established, resulting in significant operational successes. Other major initiatives include the expansion of the department's Youth Cadet Camps and Social Crime Prevention projects to bring policing closer to the people of the City. Major projects include the increase in CCTV installations areas within the City based on the Mayor's Visible Service Acceleration (MVSA) Plan, CCTV installations in various wards across the City, procurement of related equipment and the Property Improvement Training College.

- **Law Enforcement, Traffic and Coordination department**
  The department comprises the following units:
  - **Law Enforcement Services**
    - This unit is responsible for the enforcement of by-laws and regulations in terms of the Criminal Procedures Act. The unit is dedicated to protect lives and property through effective and efficient combating of crime through partnerships that create a safe environment, build trust and enhance the quality of life in all our communities. This includes general by-law enforcement in residential areas and resorts as well as specialised enforcement through various units. These units are responsible for dealing with copper theft, informal trading, displaced people, illegal land invasion, liquor control, problem buildings, combatting poaching, prevention of noise nuisances and security at Council rental housing stock. This includes inspection at scrap metal dealers and of liquor premises for compliance. The department plays a major role in beach management over festive seasons as well as other public events and actively supports other directorates in land invasion action. The largest project of the department is the Law Enforcement Advancement Plan (LEAP) which is co-funded by the Western Cape Government and enforced in partnership with the South African Police Service to combat crime in high homicide crime rate areas. The construction of Law Enforcement Base and procuring of vehicles also form part of the major projects embarked on within this unit.
  - **Traffic Services**
    - This unit was established in terms of the National Road Traffic Act. It consists of two sections; Operations- and Licensing. The Operations Section deals with specialised and general activities such as the enforcement of traffic regulations on roads, which includes speed checks conducted as well as drivers screened for driving under the influence and road safety education at schools. The Licensing Section deals with learner- and driver licence testing, card conversions and renewals, as well as managing the traffic court division and the public/private partnership agreement on traffic cameras.

- **Special Investigation Unit**
  - The function of this unit is to provide investigation support to the directorate and the City in areas such as fraud and corruption, misconduct by City employees, malicious damage to Council property, hijacking and theft of council vehicles, protest action, land invasion, service delivery strikes, gang-related violence and anti-social behaviour within communities.
- **VIP Unit**
  - The function of this unit is to ensure effective support and protection to all political office bearers including the Executive Mayor, Executive Deputy Mayor, Chief Whip, Speaker and all councillors.

- **107 Public Communication Emergency Call Centre (PECC) department**
  Emergencies are logged through the PECC, which directs all calls to appropriate institutions and agencies. The Centre is manned by well qualified operators. Some focus is also placed on education and public awareness campaigns at community facilities, libraries, clinics and shopping centers.

- **Fire and Rescue Services department**

  This department was established in terms of the Fire Brigade Services Act. The department has 32 fire stations operating on a 24-hour basis. Its core functions include responding to fires and emergencies as well as medical emergencies. The major programmes include educational programmes, raising awareness around fires, life safety on building, structures and events.

- **Disaster Risk Management Centre (DRMC) department**
  The department supports a safe and resilient Cape Town through coordinating and delivering (as mandated by the Disaster Management Act, 2002) a continuous and integrated multi-sectoral, multi-disciplinary process of planning and implementation of measures aimed at: preventing or reducing the risk of disasters; mitigating the severity or consequences of disasters; emergency preparedness; rapid and effective response to disasters; and post-disaster recovery and rehabilitation.

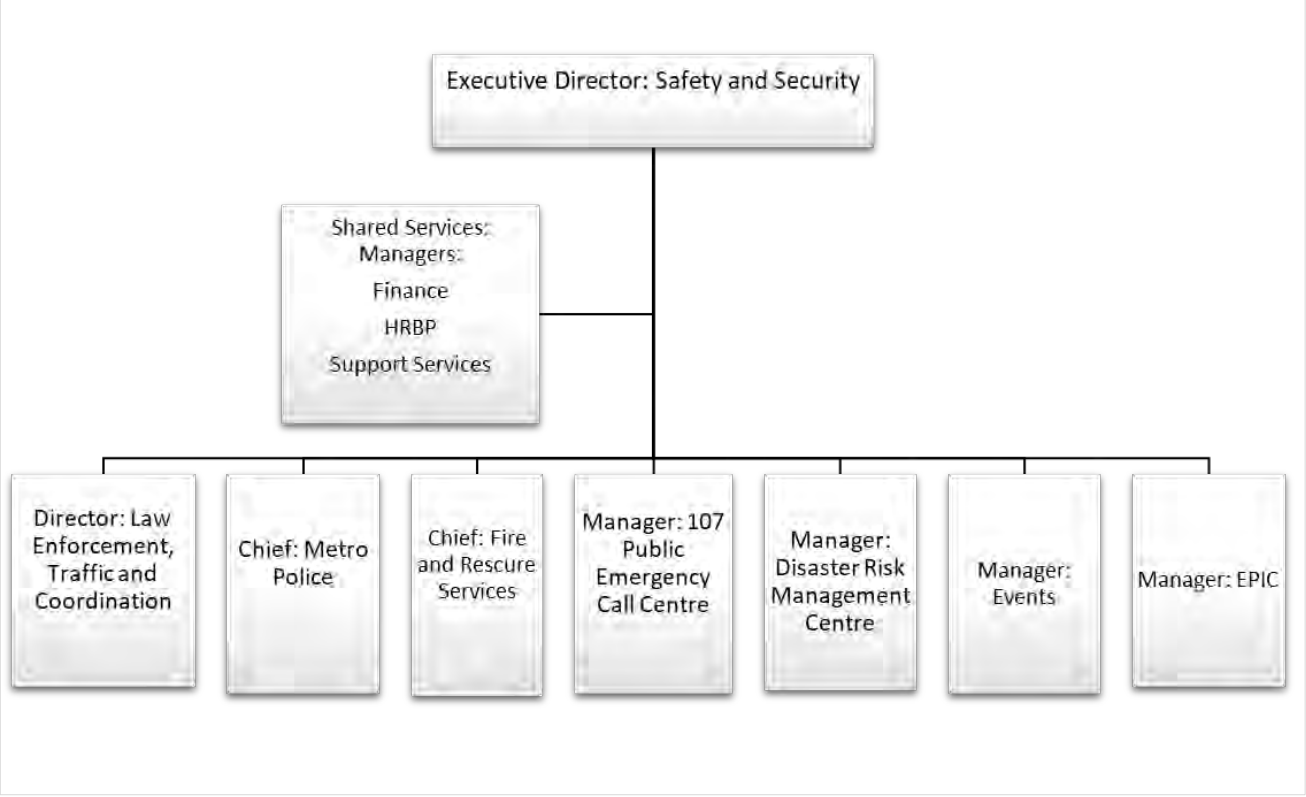
  Key performance areas include: establishing and maintaining integrated institutional capacity for disaster risk reduction; disaster risk assessment; disaster risk reduction; and response and recovery. Portfolios within the department includes four service delivery DRMC Areas as well as: Disaster Logistics and Fleet Management; Public Awareness and Preparedness; Disaster Operations and Systems Integration; Disaster Management Planning; Disaster Management Training, and Volunteer Management.

  Major programmes, projects and initiatives include: the Disaster Management Advisory Forum and its hazard-specific subcommittees; Disaster Risk Assessment; Disaster Risk Reduction and Response; Winter Readiness; Festive Season Safety; Events Safety; Women and Girls in Resilience; Be a Buddy; Community-based Disaster Risk Reduction; Emergency preparedness support to commerce industry and institutions in the formal and informal sectors; Volunteer Development; Disaster Operations Centre; Disaster Management facilities, equipment and systems resilience and improvement; Disaster Coordinating Team and City Joint Operations Centre management as required and ongoing incident and disaster impact assessments, response and relief coordination and management.

- **Events department**
  The Events department contributes to the Inclusive Growth mandate, which is to stimulate economic growth, development, attract investment and demonstrate inclusivity through the staging and hosting of events as well the facilitation and promotion of film activities. Additionally, the department contributes to the Safety mandate by regulating events and filming through facilitating and issuing event and film permits. Events and film also contributes to the Inclusive City mandate, as it is important drivers of social inclusivity. The department continues to aspire to deliver on the City's achievement as the World's Leading Festival and Events Destination and to contribute to creating an enabling environment that stimulates growth in the Event and Film industries.

- **Emergency, Policing Incident Command (EPIC) department**
  The function of this department is to support, leverage and plan technology implementations within the directorate. This includes managing the utilisation of already deployed technologies and solutions, but also includes innovation and further development and integration of the EPIC Solutions and other associated Safety & Security technology. Ongoing technical development is required in order to ensure that the directorate and the City are in a position to leverage technology to improve service delivery. Major internal projects include the Contravention System, EPIC Programme Replacement Devices, and the Computer Aided Dispatch System. Procurement-related technology projects include the NW Community Safety Application, the introduction of BodyCams and Dashcams (with ANPR capability), the deployment of Information, Surveillance and Reconnaissance (ISR) Aircraft, as well as the creation of an internal S&S drone (RPAS) capability.

Management Structure



Changes to service levels and standards over the MTREF

Although the 2020/21 financial year saw a decrease in the fines revenue budget due to the reduction of fines by the courts and an undeniable trend in non-payment of traffic fines within the COVID-19 environment, the 2021/22 financial year presented an increase in the fine income budget, which can be attributed to an upward trajectory of traffic fines issued due to staff members working overtime and the implementation of various fine collection strategies.

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

Although various interventions have been implemented, there is a general culture of non-payment of traffic fines in the City, which will have an effect on the directorate's revenue projections.

Major features of expenditure including discretionary- and non-discretionary expenditure

The directorate's major expenditure categories include:

- Salaries and Wages;
- Telecommunications Costs;
- Software Licensing;
- Professional Services;
- Fuel;
- Security Services;
- Commission- Revenue;
- Event Promoters; and
- Sponsorships.

Past year's performance – 2020/21

The directorate continues to implement various safety and security programmes through technology to ensure all communities are safe and protected.

Over the two last decades, CCTV systems have proven to be an extremely effective tool in combatting and preventing crime within the City. The camera footprint increased by one hundred and thirty one (131) cameras in 2020/21, bring the total number of surveillance cameras to nine hundred and one (901) cameras located throughout the City. Ten thousand nine hundred and ninety (10 990) camera detected incidents were responded to by various policing agencies and resulted in two hundred and sixty seven (267) arrests in the 2020/21 financial year.

The PECC fielded 510 360 calls in 2020/21 financial year. Most callers sought medical assistance, with requests for assistance for law enforcement matters coming in at second place.

229 roadblocks were held to reduce drinking and driving offences and 4 773 manual speed checks were conducted.

The Fire and Rescue Service Command and Control Centre responded to 29 980 emergency incidents of which 9 034 were medical/trauma related special service incidents, and 20 946 were fire-related incidents. Two new fire stations i.e. Kommetjie and Sri Lowry's Pass were commissioned, and a number of new fire engines, water tankers and auxiliary vehicles were procured during the 2020/21 financial year.

Directorate capital programme

The directorate's significant capital projects are:

- EPIC Programme;
- Upgrading and improving Safety & Security facilities;
- Installation and upgrade of CCTV cameras in various areas within the City, including the Mayor's Visible Service Acceleration (MVSA) Project and wards;
- Dashboard- and body cameras; and
- Events Mobile Application System and Online Event Calendar System.

2.12.10 Spatial Planning & Environment (Vote 10)

On 15 December 2021, Council approved proposals for the re-alignment of the organisation's macro-organisational structure to improve the way the City does its business. This included, in part, a new focus for the Spatial Planning & Environment (SPE) directorate with the alignment of the Mayoral Urban Regeneration Programme (MURP) unit and City Improvement Districts (CIDS) unit to the directorate as of 1 February 2022.

The purpose of the directorate is to coordinate precinct spatial and environmental planning and the execution of built environment regulatory mandates. It is the view and objective of the directorate to improve safety and address socio-economic challenges to instill pride and quality of life for residents in identified neighborhoods.

Service delivery will now be achieved through five line departments, namely:

- **Urban Planning and Design**

  The primary focus of the department is to finalise the 8 District Spatial Development Frameworks to inform the Metropolitan Spatial Development Framework (MSDF) to be approved with the 5-year IDP 2022-2027 in May 2022. This process is ongoing.

- **Environmental Management**

  The department manages 21 nature reserves to protect and conserve the City's natural areas and biodiversity heritage. It has the responsibility to regularly review the environmental compliance register, including the procedure for remediation and escalation of environmental non-compliance in City operations. It manages a coastline of approximately 240 km in length – longer than any other municipality in the country – which excludes the coastline falling within Table Mountain National Park (approx. 67km). The department is responsible for any matters that affect the coast on the landward side, including pollution incidents in the catchment. It also plays a role in marine aspects e.g. anchored vessels (noise pollution), marine water quality monitoring, whale carcass removal, whale disentanglement and sea animal stranding. The department conducts frequent water quality sampling at 99 sites along the coast and publishes comprehensive Coastal Water Quality tables online, to promote transparency of results. It also assists transversally across the organisation with conservation of heritage sites.

- **Development Management**

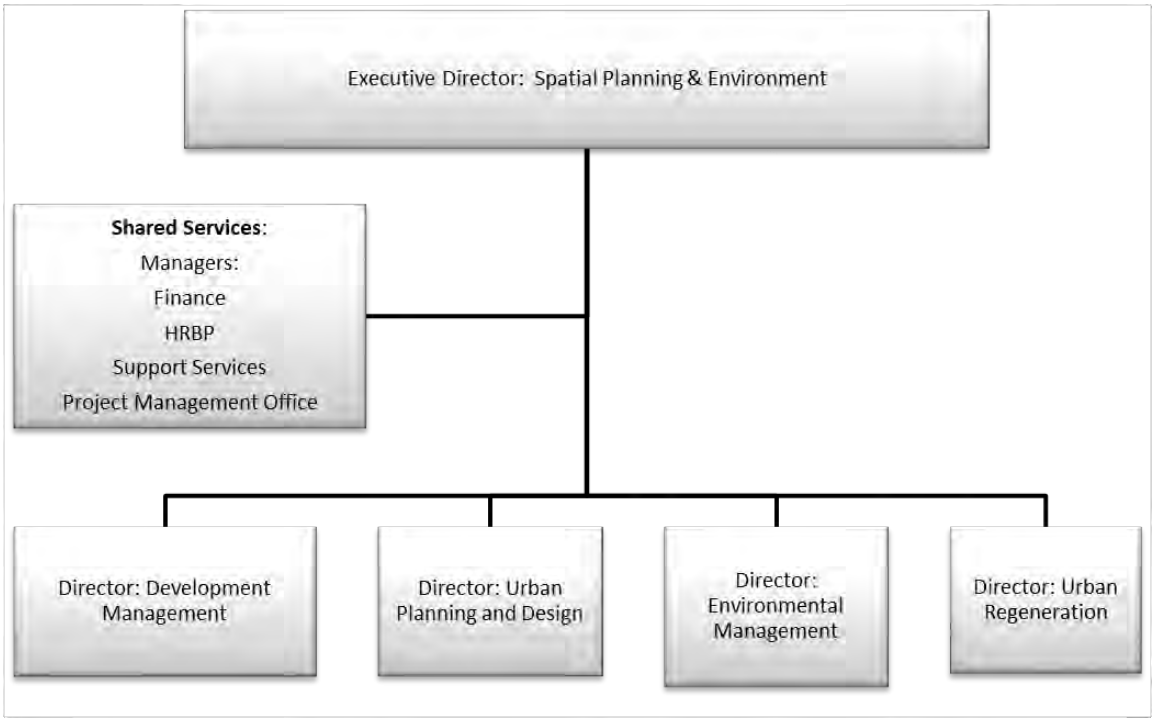
  The primary purpose of the department is to create an effective and efficient planning and building development environment in Cape Town, South Africa and in Africa, which promotes and facilitates sustainable development through equitable and effective service delivery. This is done through transversal delivery of services in its operations, the integrated nature of its e-Systems based on the principles of the Property Value Chain (PVC) with linkages to departments within the City.

- **Urban Regeneration**

  Mayoral Urban Regeneration Programme (MURP) focusses on improving conditions within the shared public environment by introducing a sustainable system of operations and maintenance of public infrastructure and facilities in partnership with communities. There are many projects across the City to support and improve the lives of the poor via the Mayors Visible Service Acceleration (MVSA) and Violence Prevention through Urban Upgrading (VPUU) Programmes. 23 MVSA precincts has been identified for interventions.

  The CID Unit within the Urban Regeneration department is currently administering 47 CIDs, which are operational within Cape Town with at least another 20 communities at various stages of pursuing CID establishment. CIDs are geographically defined areas where property owners pay additional property rates to fund supplemental municipal services ito a Council approved Business plan as supported by the community who fund and drive the process and then manage the operations under the oversight of the City. CIDs improve and upgrade their local areas by focusing on public safety, cleansing, environmental initiatives and social programmes to make their areas clean and safe to work, live and play. This can result in attracting investments, stimulating the economy and creating employment opportunities over the next term of office and beyond for the directorate and the City at large.

Management Structure



Changes to service levels and standards over the MTREF

The current service standard relates to the municipality having a consolidated spatial view of its key business districts and the interventions required to unlock/promote economic growth in these areas.

The City monitors information from valuation data as well as surveys and other studies to determine economic activity. The nodes are contained in the MSDF for the City, approved in 2018. In addition, further work is in progress to assess the data and make various assumptions about more localised economic activity to inform the Land Use Model. The Land Use Model has been used to inform the sector plans concluded in the 2021 financial year. These detail the infrastructure requirements for utilities. This data has further informed the new District Spatial Development Frameworks (DSDFs), which are expected to go out for public participation in July 2022. The DSDF plays a critical role in providing a holistic view and integration between sectors as well as utilising place-based decision-making approaches that are a critical component to economic stimulus.

Past year's performance – 2020/21

The directorate experienced many challenges with regard to implementing its capital budget and achieved an overall spend of 79.10%.

Projects successfully completed or worked on in the 2020/21 financial year are:

- Various coastal structure upgrades which includes: Muizenberg Beach Front Upgrade; Big Bay/Small Bay Revetment; Milnerton Beachfront Retreat; Table View Beachfront Upgrade; Fisherman's lane/Strandfontein Boardwalk; Seaforth Beach Precinct Upgrade;
- Land Acquisition – Erf 2003 Melkbos concluded;
- Local Environment & Heritage projects –Garden Landscaping, paving, garden elements, shade & deck elements, play elements, furniture elements and artwork completed at Green Point Park EE;
- Reserve Fencing and Upgrades: Symphony Way, Stellenbosch, Morkels Cottage, Vesuvius Way and Wolfgat and IT infrastructure at the Helderberg & Edith Stephens Nature Reserves & alarm system installations at Witzands Nature Reserve; and
- Upgrade to ArcGIS 10.7 - New system went live 31 May 2021

The directorate achieved an overall spend of 98% on its controllable operating expenditure budget with the following projects/programme benefitting:

- Kader Asmal Integrated Programme linked to EPWP – Alien and invasive plant clearing projects;
- Baboon Management;
- Shark Spotting;
- Precinct planning projects;
- Coastal Management, including dune rehabilitation and coastal surveys;
- Security programmes to secure nature reserves; and
- 95% spend on operating-funded ward allocations that included alien- and canal clearing, and environmental awareness programmes.

The directorate achieved an overall collection rate of 91% on its primary controllable revenue budget of which building levies revenue makes up the bulk of revenue.

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

Although the building industry has shown an increase in activity during the 2021/22 financial year, revenue is largely dependent on demand within the building construction industry. Additional revenue above inflation is not expected in the near future given the current economic climate.

Demand for building-related activity is dependent on the construction industry. The objective of most of the tariffs is not to recover the full service cost but to discourage frivolous applications and speculation and, above all, to minimise increases and to remain as affordable as possible.

Revenue collection at nature reserves has shown an upward trend for the past three financial years, due to an increase in visitors, activities and upgrades to facilities. An increase in revenue collection is anticipated for the 2022/23 financial year.

Environmental and Heritage Management revenue collection for the past three financial years has been stable with no significant increases. The budget has been adjusted downward based on trends over the past three financial years. No significant changes to revenue are expected. The majority of tariffs for 2022/23 will remain unchanged to alleviate any additional financial strain on micro, small and medium sized companies as well as non-profit bodies operating in the markets whilst having regard to the local and national economic crisis caused by COVID-19 Lockdown.

Major features of expenditure including discretionary and non-discretionary expenditure

- Baboon Management and Shark Spotting programmes on the Cape Peninsula;
- Provision of a service provider for visitor and staff safety management within nature reserves and open spaces;
- Kader Asmal Integrated Programme linked to EPWP – Alien and invasive plant clearing projects; Green Jobs (Erosion control, fire breaks, rehabilitation, etc.) and management / control of alien invasive animal species;
- Kader Asmal Skills Development Programme linked to EPWP;
- Cape Town Environmental Education Trust (CTEET) partnership;
- SANCCOB Non-Profit Organisation partnership;
- National Sea Rescue Institute (NSRI) partnership;
- Coastal Management, including dune rehabilitation and coastal surveys;
- Vlei Rehabilitation Remedial Programmes for Rietvlei, Zandvlei and Zeekoevlei;
- Removal of Illegal Posters and Signs in Terms of the Outdoor Advertising and Signage By-Law;
- Heritage grading audits as part of the red tape reduction programme for the IDP;
- Administering the Municipal Planning Tribunal;
- Mayoral Urban Regeneration Programme – facilitating various precinct management programmes in various areas across the metro;
- Mayoral Visible Service Acceleration (MVSA) programmes in Lotus Park Guguletu, Monwabisi Park and Harare;
- CID Unit's continued oversight in respect of fiscal governance - all 47 CIDS have received unqualified audit opinion since inception 2000.

- Other planning projects:
  - Integrated Incentive Overlay Zone;
  - Potsdam Sustainability Campus;
  - Municipal Strategic Development Framework Review;
  - Maitland Abattoir Prefeasibility study; and
  - Best practice design guidelines for Micro-Unit plans.

Directorate capital programme

Significant capital projects to be undertaken over the medium-term include:

- Coastal Infrastructure: Rehabilitation and upgrade of dilapidated coastal infrastructure facilities in order to ensure public safety/reduce liability to the City, reduce social ills, improve social and economic impact of the City's coast line, and to prevent loss of resilience and promote the City's coastline as a world class destination. Projects include: Upgrades to Fisherman's lane/Strandfontein Boardwalk; Seaforth Beach Precinct; Monwabisi Beach Precinct; Muizenberg Beach Front; Small Bay Sea Wall; Strand Sea Wall; Table View Beachfront; Upgrading Sea Point Promenade Ph2; and Revetment and retreats at Glencairn Rail and Milnerton Beachfront.

- Wetland Rehabilitation: Acquisition of a weed harvester and truck to remove invasive aquatic weeds from the Rietvlei due to high nutrients content in the water due to sewerage spills into the waterbody.

- E-systems enhancements: The Development Application Management System (DAMS2) functionality is enhanced on the E-Services Portal and on SAP in order to improve the effective scrutiny of development applications that will improve customer service delivery and contribute to a better economy for the City.

- Acquisition of Land Programme: The aim is to proactively secure priority biodiversity properties for conservation purposes in order to provide a suite of sites with various ecological attributes that can be proposed as biodiversity offsets in order to facilitate City development projects. Biodiversity offsetting is often a condition of approval for various Human Settlements development applications.

- Local Environment and Heritage Projects such as the Asanda Village Wetland Rehabilitation - comprises of the upgrade of the stormwater system which flows into the wetland; construction of a Footway; construction of a recreational area and the installation of public lighting. Upgrade to the existing Green Point Park Environment Education Centre to provide an interactive outdoor experience for children and everyone that enjoys being outdoors and a new multi-functional environmental education centre in Westridge Park.

- Nature Reserve Visitor Education Centres Upgrades at Bracken, Harmony Flats and Zandvlei - These projects entail construction of larger facilities in order to engage a wider community and to increase environmental awareness.

2.12.11 Urban Mobility (Vote 11)

The Urban Mobility directorate is a key contributor to the City's IDP objective of a more inclusive city based on an efficient mobility network system for public and private transport, pedestrians and cyclists and with public transport services that enable greater access to opportunities. This contributes to enabling a growing, thriving local economy that benefits everyone. Transport has a key role to play in making Cape Town a viable and competitive global investment destination.

As a global C40 city, Cape Town is committed to taking bold climate action for a healthier and more sustainable future. Urban Mobility has a leading role to play in reducing greenhouse gas emissions. The Comprehensive Integrated Transport Plan (CITP) for 2018-2023, sets out how the directorate will build on the progress it has made in delivering integrated, intermodal and interoperable transport in Cape Town.

The City's delivery of integrated transport is based on the IPTN Network Plan 2032 encompassing the integration of transport and land use through transit-oriented development.

Urban Mobility and Intermodal transport requires that all functions and modes are under the jurisdiction of a single authority. To this end, the City continues to pursue the Contracting Authority and the Municipal Regulatory Entity (MRE) assignments. Although rail is considered the "backbone" of Cape Town's transport system, it is currently in crisis with the Urban Mobility directorate developing a response to the impact of this on the city-wide intermodal transport system.

An interoperable transport system is one in which its component parts work easily with one another without special effort on the part of the commuter.

Cape Town's transport sector faces complex challenges. Pressure on the road network is exacerbated by the failure of rail, which has contributed to congestion and eroded the resilience of the local transport system. Solving this challenge requires enhanced cooperation between national, provincial and local government.

The Urban Mobility directorate's Congestion Relief and Travel Demand Programme continues to improve infrastructure of traffic systems, while the implementation of the Travel Demand Management Strategy has nudged commuters towards more sustainable travel behaviours.

The work-from-home (WFH) requirements imposed by COVID-19 have also demonstrated that flexible working approaches are possible and effective. In 2020/21 the Travel Demand Strategy has taken into account the effect of WFH and is working closely with the Corporate Services directorate to incorporate this change of behaviour in the Future of Work Programme. The Transport Planning and Network Management department is also engaging with business on the Travel Demand Strategy and the effects of WFH to attempt to build the lessons learnt from lockdown into the way Cape Town moves going forward.

MyCiTi, Cape Town's bus rapid transit system, marked its first ten years in operation in 2020. This provided an opportunity for a programmatic review as the service charts a path for the next decade based on a frank evaluation of lessons learnt.

As the directorate confronts challenges and embraces new opportunities, organisational change was required. This included an appropriate institutional vehicle for the MyCiTi Metro South East Corridor roll out (Phase 2A), a complex programme that currently cuts across departments within the directorate.

With ongoing investment in new infrastructure and the continuous maintenance of its assets and road network, the directorate plays an important role in the local economy. This takes place through well-governed tenders and contracts and the economic growth opportunities that are unlocked when new infrastructure is provided and backlogs are addressed in disadvantaged communities.

The directorate also plays an important role in economic growth by promoting the use of local labour through the Community Work Programme (CWP) and Expanded Public Works Programme (EPWP). These public employment programmes create work and upskilling opportunities for individuals who otherwise have limited opportunities for formal employment.

Background, purpose and service mandate of the directorate

Cape Town, due to a number of historic factors, is an inefficient city - the result of which is exacerbated transport costs for residents, commuters, freight, and tourists.

Public transport is overcrowded and the facilities are in many cases inferior and substandard. The scale of the problem is enormous and the financial burden on the City reaches billions of Rand each year.

The National Land Transport Act, 2009 (NLTA) gave metropolitan municipalities the power to integrate public transport services that are subject to contracts as well as appropriate uncontracted services into the larger public transport system in terms of an integrated transport plan.

The Integrated Public Transport Plan (IPTN) determines the role that appropriate transport modes play to provide users of the system with optimal solutions that will enable them to travel from origin to destination in a seamless and cost-effective manner. It also provides strategic direction.

The directorate is responsible for ensuring that the medium-to-long term plan and related policies, sector plans and strategies are rolled out inclusive of planning, operations, management and maintenance across the full spectrum of the integrated transport lifecycle and infrastructure.

The directorate also provides for parking, network, freeway management, destination boards, traffic calming, and transport enforcement in collaboration with the Safety & Security directorate.

This directorate is furthermore responsible for the Operating License Strategy, implementation and management of mini bus and metered taxis including the registration of all taxi associations operating in the City. Industry transition as it relates to the implementation of the IRT system and industry engagement and negotiations are pivotal functions.

The directorate comprises a management structure with five performance-orientated departments with a focus on integrated service delivery. These departments are:

- **Transport Planning and Network Management**

  This department is responsible for Integrated Transport Planning, which encompasses medium- to long-term planning, the Comprehensive Integrated Transport Plan (CITP) and related policies, sector plans, strategies, and frameworks. It further incudes systems planning and network design, the focus being on the IPTN as well as transport infrastructure planning, concept design and development. It also includes network implementation strategies that will enable integrated transport strategy and ensure efficient traffic related systems, network facilitation, development, integration, operations and traffic management.

- **Transport Infrastructure Implementation**

  This is a capital-led department that focusses on the implementation of major and minor built environment projects and programmes. The department is responsible for detail design, procurement phase, construction management, monitoring and delivery of new infrastructure and the expansion and upgrading of the City's road network, public transport network, public transport infrastructure and related facilities. The department also coordinates transversal integration and implementation of major built environment capital programmes, projects and capital planning and budgeting processes executed across the various corridors and nodes.

- **Roads Infrastructure Management**

  This department is responsible for the maintenance of all road infrastructure assets falling under the auspices of the Urban Mobility directorate. This includes the entire road network, stormwater system, all completed public transport, Non-Motorised Transport (NMT) networks and street furniture within the road reserve. It also includes the recording and maintenance of the accurate inventory of these assets as well as the management and maintenance of these assets.

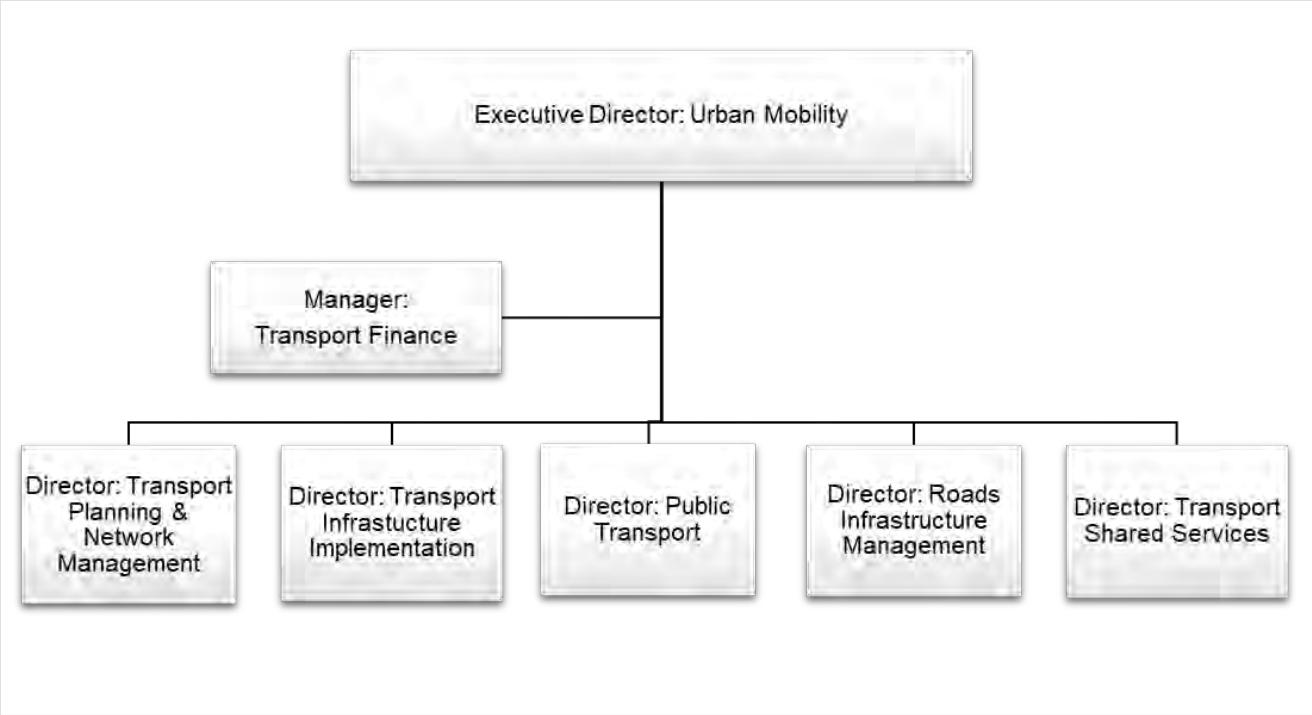
  It is further responsible for the management of the Informal Settlements Network, Infrastructure Maintenance and Plant as well as the management of the four City areas, districts and depots, which include management of maintenance plant, lines and signs, weed spraying, stormwater maintenance in the road reserve and the maintenance of warning, regulatory signage and road markings. It is also responsible for rail sidings, the safety thereof, and the management of all plant, fleet and other construction equipment.

- **Public Transport**

  This department is responsible for the management oversight of all scheduled land-based public transport service as assigned to the City and contemplated in sections 40-46 of the National Land Transport Act, 2009. This includes the establishment of operational standards for scheduled public transport operations as well as strategic fleet management, both of the fleet owned by the City as well as the safety and compliance of the entire scheduled public transport fleet. It further includes the development, approval and management of the vehicle operator contracts to ensure an integrated and responsive public transport service to be delivered at a premium standard. Lastly, it includes the strategic management of operations, the development and implementation of the strategy on the regulations of public transport, and the related management strategies. The department is responsible to lead, direct and manage the regulation and industry transition of public transport in terms of the relevant policies and strategies.

- **Transport Shared Services**
  This department provides a centralised support function to the directorate, which includes Human Resources, Support Services, Communication, Customer Relations, Change and Stakeholder Management, Business Planning, Business Systems, Information, Business Administration, and Programme Monitoring. It plays a key transversal role in equipping and enabling the directorate to achieve its objective of being well governed, compliant, service-oriented, customer-centric, data- and performance-driven. It also ensures that end user and community needs are met and addressed in an efficient, effective and targeted manner.

Management Structure



Changes to service levels and standards over the MTREF

There are no material changes in trends over the MTREF period for the directorate.

Past year's performance – 2020/21

The **Transport Planning and Network Management** department achieved the following notable outcomes:

- Draft 2021 Annual Update of the Comprehensive Integrated Transport Plan (CITP 2018 - 2023) has been completed.
- An investigation into identifying locations and interventions to provide road based public transport with speed advantage has been initiated.
- Completed the review of applicable strategies and policies, and identified data requirements to inform the update of the IPTN as well as the Quality Bus Rationalisation Plan.
- Commencement of six preliminary designs for road congestion management and relief projects to ensure readiness for implementation in process.
- The earlier work related to the Flexible Working Programme as part of Travel Demand Management institutionalised and incorporated in the Future of Work Programme of the City.

- Commenced a city-wide Household Travel Survey.
- Implementation of Traffic Calming projects to the value of R3.189 million.
- Upgraded batteries in uninterruptible power supply units to maintain traffic signal operation during load shedding.
- Upgraded vehicle detection at various intersections.
- Completed the review of traffic signals plans on five major arterial corridors.

The **Transport Infrastructure Implementation** department achieved the following notable outcomes:

- The construction of IRT Phase 2A Trunk Infrastructure: Jan Smuts Drive from Turfhall Road to Govan Mbeki Road added a 2km long section of Jan Smuts Drive from single carriageway to a dual carriageway with separate bus transit lanes along the median, to accommodate the City's future IRT Phase 2A bus service.
- Initiation of the procurement process for the Construction of the next phase of the IRT Trunk Infrastructure along Govan Mbeki road from Lansdowne road to Heinz road; as well as the construction of the Khayelitsha / Mitchell's Plain MyCiTi Bus Depots.
- The ORIO project advanced well with the completion of the concept designs for Nolungile, Vuyani and Nyanga PTI projects. This process included extensive community engagements which included the establishment of a Broader Leadership Group; engagement of Precinct Representative Groups and the completion of Stakeholder Mapping which created the foundation for the development of various plans to inform the detailed design phase of the projects.
- As part of the Public Transport Interchange (PTI) Programme, the department, completed the construction and upgrade of the Du Noon PTI and commenced with construction on the Retreat PTI. It is noted that the directorate concluded a three-year lease agreement with the rail authority and that the process is underway to conclude a long term lease for the Retreat PTI. Moreover, the department initiated the procurement process for the Makhaza and Somerset West PTIs.
- The rollout of the Non-motorised transport programme has progressed well, with construction contracts completed (Blaauwberg North, Durbanville, Edgemead/Bothasig, and a further one in progress (Inner City). Furthermore, the conceptual and detailed design for the Kuilsriver NMT project was initiated.

The **Public Transport** department achieved the following notable outcomes:

- The Optimisation Programme was successfully implemented. This was required to make up the revenue shortfall experienced because of the impact of the COVID-19 pandemic.
- Illegal and violent protest action were effectively managed, stabilising the service within a very volatile environment. This was of particular importance in the busy peak periods in order to provide the service to those who need it most. The team went beyond the call of duty to ensure that the service could run at full capacity.
- A Fleet Replacement Strategy draft outline was provided to the director. A draft framework on fleet replacement and bus life cycle costing was provided.
- An electronic Fleet Maintenance Information System (FMIS) pilot project was established, which is still in progress. Fleet has received the FMIS devices and their Fleet Officers have been populating the devices. The next stage is to use the data to drive evidence based decision making within Public Transport Fleet Branch. This will ensure better bus availability.
- New AFC and APTMS Professional Services contracts were signed during July 2020, which will expire on 30 June 2023.

- A total of 7 Cash Vending Machines (CVM) were installed at various MyCiTi stations to improve commuter access to the MyCiTi service.
- The new long-term APTMS Maintenance contract was signed on 31 March 2021 and is valid until 30 June 2023.
- An additional 19 public transport facilities were refurbished during the 2020/21 financial year. The approximate budget allocated was R20.9 million.
- Pilot TOC for 7th Ave Taxi Association: Council approved the Report entitled, “Item No. C 15/12/20: Progress and Way Forward on the Proposed Transformation of the Minibus-Taxi Industry Model to Enable a New Economic Responsive Approach.” in December 2020, which authorised the department to engage extensively with the minibus-taxi industry in respect of the TOC formation.

The **Roads Infrastructure Management** department completed/implemented the following significant projects:

- metro roads reseal and resurfacing programme;
- local roads reseal and resurfacing programme;
- PMS, BMS and Load Management System updating and development; and
- numerous ward council projects including traffic calming and footways.

The **Transport Shared Services** department achieved the following notable outcomes:

- Promoting the use of MyCiTi : The focus was on safety while using public transport and although a special effort was made to promote the festive season services, these had to be cancelled as a result of Lockdown Level 3 Regulations.
- COVID-19 Messaging: The department led the COVID-19 related message development and deployment across all Public Transport modes including, GABS, Metro Rail, MyCiTi, TAXIs and Public Transport Interchanges.
- The road network and pothole campaign: Continuation of The Mayor’s Pothole Campaign by visiting various communities and road maintenance teams to show residents that the City is focused on bringing services to them. This campaign was necessitated because transport maintenance work was lagging behind due to COVID-19 lockdown restrictions, which resulted in significant backlog in the repair of potholes. The campaign continues to receive favourable media coverage and is well received by the affected communities.
- Stakeholder relations: The Transport Information Centre (TIC) continued to operate within the COVID-19 restriction levels and handled on average 180 000 calls per month.
- Changing road user behaviour: The focus was on encouraging ‘work from home’ and was deployed via social media.
- Legislative platforms: The City’s Land Transport Advisory Board (LTAB) and Intermodal Planning Committee (IPC) in terms of the National Land Transport Act, Act 5 of 2009 continued virtually.
- Creation of Shared Services department: The creation of Shared Services department in October 2020 meant Business Planning, Transport Technology, Project Management, Communications, Finance, Administration, Support Manager and the HRBP have been bought into one department allowing for a more comprehensive basket of services to support and guide the line departments as well as the Executive Director. The creation of a Support Manager post within the department has seen the on-boarding of compliance and governance functions as well as Special Projects, which lends better support to fulfilling the transversal nature of the functions.

- Compliance and Governance matters: Governance and compliance matters have been prioritised with a clear intent to move from a position of compliance to governance enabling service delivery. Requirements have been met in the past year in terms of OPM reporting and Probity matters continue to be monitored for implementation and report back ensuring Transport is prioritising good governance and compliance.

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

There is a risk of the MyCiTi fare income being lower than projected if competing modes increase their market share (e.g. if minibus-taxi services expand or lower their fares); if the quality of service declines due to the impact of protected/unprotected strikes or due to fare losses as a result of interruption in electricity supply; if the fares become unaffordable or difficulties arise in the fare system; and due to more people working from home during and after COVID-19. If this were to happen MyCiTi services will have to be curtailed, law enforcement increased or other steps taken to optimise the system to ensure there is sufficient budget for the services within the 2022/23 financial year.

Major features of expenditure including highlighting discretionary and non-discretionary expenditure

- Provision for the contracted road based MyCiTi transport;
- Roads and Stormwater;
- Public Transport Interchanges maintenance;
- Public Transport Planning; and
- Roads Infrastructure Conditional Assessment.

Directorate capital programme

- Congestion Relief;
- Public Transport Interchanges;
- Non-Motorised transport;
- Roads Rehabilitation;
- Metro Roads: Reconstruction; and
- IRT Phase 2A.

2.12.12 Urban Waste Management (Vote 12)

Urban Waste Management directorate is made up of two functional departments:

- **Solid Waste Management**
  The City's Solid Waste Management department is the service authority and regulator of waste management activities in Cape Town per the system of delegations and the municipality's executive powers conferred on it in law. The City is responsible for services in the metropolitan municipal area (as a service authority or regulator).

  The City's waste management services aim to integrate waste management services in such a way that they are able to not only provide basic services, but to augment economic activity and minimise the effects of waste on human- and environmental health. Much national support and development is necessary, as waste minimisation and recycling activities are not limited to Cape Town, and involve the processing and manufacturing sectors on a national scale. It will require a country-wide approach in terms of planning, infrastructure, facilities, incentives and disincentives to drive out economies of scale that will make this sustainable and economically viable. These are key influences on achieving the long term waste management vision and objectives set by the department.

  The long-term vision for the Cape Town Waste Management sector is to:
  - Improve access to basic services for residents to as close to 100% as possible within the constraints of available funds and unplanned growth;
  - Develop multiple integrated initiatives that will reduce waste and the associated impacts substantially as well as contribute to and support economic development;
  - Generate other sources of funding for integrated waste management through Public-Private Partnerships within the Cape Town municipal area;
  - Improve the income generated by the Council's waste services;
  - Optimise the utilisation of the Council's resources and capital; and
  - Regulate waste and the associated services that will ensure sustainability and prevent impact or harm to people and the environment.

- **Expanded Public Works Programme (EPWP) and Community Development Workers (CDW)**
  The EPWP & CDW department is aligned to the Economic Growth Priority of the Integrated Development Plan (IDP 2023 - 2027). Economic inclusion generally refers to the equality of opportunities for all members of society in order to participate in the economic activities of the country as employees, entrepreneurs, consumers and citizens. Economic inclusion requires the extension of access to markets and opportunities for education, employment and entrepreneurship, especially to the under-served social groups. From this general definition, it can be concluded that a complete and an all-inclusive view of economic inclusion should feed into (and be evaluated upon) the areas of education (formal/skills and training), employment (creating sustainable work opportunities for all), as well as entrepreneurship (through providing information, funding or training and opportunities for businesses to thrive). The inclusion of each of the above economic inclusion components ensures a holistic approach to the implementation of an economic inclusion model.

Furthermore, the EPWP is directly anchored as one of the key programmes for the required rebuilding and economic recovery of the City. This is in line with the Presidential Employment Stimulus, which places Public Employment Programmes at the centre of the country's recovery plan, in the post-COVID-19 world.

Changes to service levels and standards over the MTREF
There are no material changes in revenue trends for the directorate over the MTREF period.

Past year's performance – 2020/21
The department continued to implement the recommendations of the Municipal Systems Act section 78(3) study, which includes waste minimisation, waste to energy projects and the provision of infrastructure for waste minimisation. The department has also channelled more resources towards waste minimisation infrastructure and programmes. The City effectively introduced recycling at larger drop-off sites and is investigating the usage of drop-off facilities as mini material recovery facilities (MRF).

A total of 18.73% in waste minimisation was achieved, which is a substantial growth, and on track to achieving the City's Integrated Waste Management Policy (IWMP) objectives. Home composting bins have been issued to more than 27 900 beneficiaries and the programme will continue for the next five years with an estimated 5 000 additional beneficiaries per year.

The provision of basic waste management services was maintained at 100%. However, there is a looming challenge on providing services for backyarders, which at this stage is done on an ad hoc basis. Informal settlements now receive a weekly door-to-door bagged waste collection service integrated with area cleaning provided by the City's private contractors. Area cleaning to all informal settlements has increased from five to seven days a week.

The department also ensured compliance with waste management statutes by reviewing its by-law and IWMP. The department continues to upgrade its facilities to ensure that all waste is effectively managed and accounted for. These upgrades include changes to increase recovery of recyclables and upgrading of weighbridges to improve measurement, efficiency and to improve service to the public.

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue
Disposal revenue will be under pressure going forward with the introduction of waste minimisation initiatives that will reduce waste being taken to landfill sites. Alternative sustainable revenue streams are being investigated.

Major features of expenditure including discretionary and non-discretionary expenditure
The Department's major expenditure categories include:

- Salaries and Wages
- Contracted Services – mostly linked to:
  - Refuse removal services;
  - Area cleaning and door-to-door refuse removal services to informal settlements;
  - Cleaning of the previously disadvantaged sandy areas;
  - Hauling of waste from various facilities to the Landfill sites; and
  - Chipping of garden greens.

- Depreciation
- General Expenses – mostly linked to:
  - Fuel;
  - Rehabilitation of landfill sites;
  - Security services costs at various sites; and
  - Purchasing of bags.
- Repairs and maintenance on buildings and fleet.
- Activity based costing linked to fleet and equipment rental

Directorate capital programme

The department's capital programme for 2022/23 is made up of the following main projects:

- Vehicle and plant replacement programme;
- Upgrading of various depots;
- Upgrading of various drop-off sites to include components of waste minimisation;
- Construction of new material recovery facilities;
- Development of new landfill airspace; and
- The construction of landfill gas to flaring infrastructure for future possible electrification.

2.12.13 Water & Sanitation (Vote 13)

The Water & Sanitation directorate performs the dual role of Water Service Authority and Water Service Provider. It also provides bulk drinking water to adjacent local authorities, namely Drakenstein Municipality and Stellenbosch Municipality. As a water service provider, the City constantly strives to improve its performance with respect to water quality management and therefore water safety planning and risk mitigation methodologies are integrated into the management processes. Although no major corrective interventions are currently required in terms of the water safety plan, the City will constantly evaluate the need for additional risk mitigation measures. Provision is made in the normal budget allocations to maintain the high standards already achieved. Should additional safety barriers be identified or additional license conditions be specified, then budgetary allocations will be prioritised for the associated intervention.

As regards to the management of wastewater, the directorate has a risk-based approach in place, where strategic risks to the wastewater business have been identified; rated and mitigation measures put in place. The plan to improve capacity and compliance is being implemented but there is a significant financial requirement for capacity upgrading, maintenance, rehabilitation and replacement of ageing assets to mitigate the critical risks in the Wastewater Risk Abatement Plan (WWRAP), the sewer network as well as the sewer pump stations. The WWRAP specifically relates to new license conditions imposed by the National Department of Water & Sanitation.

The Water & Sanitation Strategy, informed by the long term vision, is centered on five core commitments i.e. safe access to water and sanitation, the wise use of water, sufficient and reliable water from diverse sources, shared benefits from regional sources, and transitioning into a water sensitive city. The fulfilment of these five commitments will result in the citizens' needs being met, support being given for improved living conditions as well as protection of the environment and will ultimately enable and support a growing economy.

The Water & Sanitation directorate is structured into four departments with two focusing on direct delivery and two working transversely to improve coordination and efficiency.

Cluster	Branch
Bulk Service	▪ Bulk Water ▪ Wastewater ▪ Catchment, Stormwater & River Management
Distribution Services	▪ Reticulation ▪ Informal Settlement Basic Services
Technical Services (Working transversally acrossbranches)	▪ Engineering & Asset Management ▪ WDM, Regulation & Planning ▪ Scientific Services ▪ Auxiliary Services
Commercial Services (Working transversally acrossbranches)	▪ Customer Services ▪ Capital & Contract Management ▪ Finance & Commercial

The branches within the departments perform the following functions:

- **Bulk Services department:**
  - **Bulk Water Branch**
    Manages water catchment areas, storage dams, dam safety, developing and implementing new and diverse supplies of water to increase resilience, water treatment and the conveyance of water in bulk water supply lines to reticulation networks.
  - **Wastewater Treatment Branch**
    Manages wastewater treatment works and has the important function of treating used water (effluent) and making it safe before discharging it back into the environment.
  - **Catchment, Stormwater and River Management Branch**
    Manages the strategic planning for the City's stormwater system, which includes the management of river systems and their drainage catchments in order to manage flood risk, improve inland water quality and optimise the harvesting of stormwater as a valuable water resource.

- **Distribution Services department:**
  - **Reticulation Branch**
    Distributes drinking water to consumers and conveys wastewater to treatment works through a network of pipelines, pump stations and reservoirs. Also conveys treated effluent (recycled) water to large users and to designated collection/filling points for construction and industrial contractors.
  - **Informal Settlements Basic Services Branch**
    Provides basic services to informal settlements through the development and implementation of infrastructure, asset maintenance and management of janitorial services for ablution facilities.

- **Technical Services department:**
  - **Engineering and Asset Management Branch**
    Ensures the electrical and mechanical maintenance of the water and sanitation equipment and facilities. Also provides risk management, fleet management and health and safety services for the directorate.
  - **Water Demand Management, Regulation and Planning Branch**
    Provides a planning service and is responsible for policy development (e.g. the Water Services Development Plan and the Water Conservation and Demand Management Strategy) as well as the development and enforcement of by-laws (e.g. the Water and Treated Effluent by-laws). Also coordinates water demand management programmes, quality management and awareness programmes (e.g. water conservation and sewer blockage education), information management and business reporting.
  - **Scientific Services Branch**
    Ensures that the water and treated effluent quality is in compliance with strict water quality checks as prescribed by the Department of Water and Sanitation (DWS). Conducts vigorous testing of drinking water including chemical and microbiological analysis in accordance with SANS 241:2015. In addition, tests treated wastewater from wastewater treatment works (WWTW), water from rivers and vleis, and perform air pollution testing.

- **Auxiliary Services Branch**
  Manages depot and building maintenance, information and technology support, staff housing, external communication programmes and campaigns around water and sanitation issues, loss control, investigations as well as security and protection services for staff in volatile areas.

- **Commercial Services department:**
  - **Customer Services Branch**
    Manages the optimising of water meter operations, accurate billing based on meter reading, responsiveness to customer queries as well as effective implementation of debt management and revenue collection actions.
  - **Capital and Contract Management Branch**
    Provides oversight on the implementation of the projects forming part of the directorate's capital development programme ensuring adherence to supply chain management/tender processes as well as contract management principles.
  - **Finance and Commercial Branch**
    Provides administrative functions relating to budgeting, accounting and financial administration as well as management of movable assets.

    Finally the **Human Resources Business Partner** reports directly to the Executive Director and provides an administrative role to the directorate, which includes training and human resources support.

Changes to service levels and standards

The directorate's commitments for a shared water future are encapsulated in the Water & Sanitation Strategy. Although the achievement of targets in this regard is showing positive trends, the directorate has been experiencing challenges relating to the sewer blockages, spills and overflows.

Therefore, in addition to the high level of service delivery already provided by the directorate, the following aspects received further allocations during the operational review:

- New operations flowing from the New Water Plan projects;
- New operations flowing from the Zandvliet WWTW project;
- Growing basic service requirements to informal settlements relating to janitorial services as well as converting temporary services to permanent;
- Additional capacity to prevent pollution and sewer incidents;
- Additional capacity for the wastewater transition plan; and
- Additional capacity to develop a customer centric culture.

Past year's performance – 2020/21

The Water & Sanitation Services department (now Water & Sanitation directorate) experienced a number of very challenging years due to the unprecedented drought that put the department under tremendous strain, but this was overcome by hard work and dedication, together with the positive response from the City's customers, which made Cape Town the number one water-saving City in the world.

Soon thereafter the directorate's resilience was again tested with the onset of the COVID-19 pandemic, which created operational challenges. The directorate again showed its flexibility by maintaining high levels of service during the pandemic reflecting the commitment of staff.

The directorate also continued to maintain service delivery standards by ensuring the meeting of key implementation plan targets including:

- compliance of drinking water standards;
- the replacements of the water and sewer network;
- additional installations of new water connection points and new sanitation services points; and
- Expanded Public Work Programme (EPWP) opportunities.

The commitment by staff as well as the Water Strategy places the directorate on a trajectory to become a modern professional water service provider, consistent with international best practice.

Risks to achieving revenue projections, any expected major shifts in revenue patterns and any planned alternative sources of revenue

Although consumption levels significantly reduced during the drought, the City managed to stabilise revenue generated via the water and sanitation tariffs. Consumptions levels have steadily increased as the City moved out of the drought period and these have been factored into the tariff increases. No major shifts in revenue patterns are currently foreseen for the 2022/23 financial year.

The City continues to closely monitor the consumption patterns.

Major features of expenditure including discretionary and non-discretionary expenditure

In summary, the proposed budget makes allowance for cost associated with the water augmentation plan to ensure security of water supply, upgrades and extensions to the wastewater treatment plants, water demand management initiatives, ensuring the management of assets at appropriate levels, sustain and enhance the maintenance programmes as well as supplying water and sanitation at appropriate compliance, capacity, skills, service delivery and responsiveness levels.

Directorate capital programme

Some of the major capital projects are:

- Bulk Water - New Water Plan: Atlantis Aquifer; Cape Flats Aquifer & Recharge; Table Mountain Group Aquifer; Zandvliet Waste Water Plant Re-use; Bulk Water Infrastructure Replacement;
- WWTW: Zandvliet WWTW - Primary Treatment & Sludge; Athlone WWTW;
- Extension: Cape Flats WWTW – Bio-solids; Potsdam WWTW;
- Catchment, Stormwater and River Management: Sir Lowry's Pass River Upgrade; Lourens River;
- Flood Alleviation; Upgrade Vygekraal River bank – Athlone;
- Reticulation: Cape Flats Sewer Rehabilitation; Philippi Collector Sewer; Gordon's Bay Sewer Rising Main, Rehabilitation of Bulk Reticulation Sewers – Milnerton Area; Upgrade of Rietvlei Sewer Pump station; Replace Water Network (city-wide) as well as specific increases to the Replace Sewer Network (city-wide) and improvements to sewer pump stations;
- Informal Settlements: Provision of water and sanitation infrastructure to informal settlements;
- Customer Services: Meter Replacement Programme;
- Engineering & Asset Management: Vehicle and Plant requirements;
- Water Demand Management: Treated Effluent and Pressure Management Programme; and
- Auxiliary Services: Depot Upgrades; IT & Information Management Systems.

2.13 Annual budget and service delivery agreement – Cape Town International Convention Centre (CTICC)

2.13.1 Executive Summary

The continuation of the State of Disaster and related lockdown levels has meant that the CTICC is able to host events of up to 1 000 people in attendance, which has allowed larger events to take place. This has had a significant effect on the trading environment and has required CTICC 1 to be re-commissioned to host larger events.

With the increase in events hosted, the company will likely sell fewer Class C shares to the City during the financial year than was originally anticipated when the 2021/22 budget was presented. This will have a positive impact on the company's ability to remain a going concern for the foreseeable future.

The budget has been prepared taking into account the impact of current COVID-19 regulations on the operations during the budget year. The key assumptions made in preparing the budget are, inter alia:

- Events contracted and on the books as at December 2021 as well as a "blue-sky" portion for the year, assuming that the current limit of 1 000 people for indoor events will remain for the full budget period.
- Additional costs related to the re-commissioning of CTICC 1 to host larger events in the venue.
- The freeze on non-critical vacancies to remain.
- Labour broker contract to be awarded to secure staff to host events.
- Staff to reduce leave balances by taking leave during slow periods.
- Remote working to be retained to limit costs such as electricity, water, cleaning, office costs, staff meals etc.
- Maintenance to continue on all equipment and infrastructure to sweat existing assets and retain cash flow.

2.13.2 Service Delivery Agreement between the City and the CTICC

Table 74 - CTICC – Service Delivery Agreement

Cape Town Convention Centre Company SOC (RF) Limited

Period of agreement	No period stipulated but subject to annual reviews in terms of Section 93A of the Systems Act.
Service provided	International conference centre
Expiry date of SDA	Not applicable
Monetary value	No current operating funding from the City.
Ownership and control	Shareholding as at 31/01/2022 City of Cape Town - 72.7% Provincial Government of Western Cape - 22.2% SunWest International Pty Ltd - 5.1%
Oversight processes	The Finance directorate (Treasury Department) of the City monitors performance and compliance.
Mandate	To manage and sustain a World Class International Convention Centre
Funding over medium term	The CTICC does not intend taking up loan funding to fund their capital programme at this time.
Summary of SDA	Sets out the obligations of the CTICC and the City in respect of compliance and performance issues.
Link to IDP	Inclusive City Public space, environment and amenities Safety
Past performance and future objectives	The CTICC has performed exceptionally well and exceeded its targets in the past. As the expanded centre will support the CTICC's vision and growth outlook, as well as the City's objective of establishing Cape Town as Africa's top business events destination.

The entity's major expenditure categories include:

- Employee related costs;
- Depreciation;
- Contracted services, which mainly consists of cleaning services, security services and refuse removal; and
- Other expenditure, consisting mainly of marketing and communication, IT costs, office- and travel costs, and which are an integral part of the entity's business strategy to grow revenue.

Being in the international service and hospitality business requires that facilities are always up to international standards. The assets of the conference centre represent a major investment, which attracts substantial depreciation. There is also a policy for regular replacement of fixed assets to maintain the high standards, but this has been impacted over the last two years as a result of the COVID-19 pandemic.

The aggregated annual budget, as required in terms of section 9 of the MBRR, are presented in the five primary budget tables on page 222 to page 226. These tables reflect the CTICC's 2022/23 budget and MTREF to be supported by Council.

Schedule D reflecting the annual budget and supporting documents for the CTICC is attached as Annexure 30, while the business plan is attached as Annexure 31. The entity's proposed tariffs are attached as Annexure 32.

2.14 Annual budget and service delivery agreement – Cape Town Stadium (CTS)

2.14.1 Executive Summary

The 2020/21 financial year has been a challenging year for the Cape Town Stadium (CTS), due to the impact of COVID-19 on business. As projected during the previous CTS business planning cycle, the Municipal Entity (ME), which governs and manages the stadium on the City's behalf, has taken major strides in developing and implementing its organisational, administrative, commercial, financial and facility management operations.

CTS have completed its third full annual financial cycle. The board and management of CTS are pleased to report that during the current (2021/22) financial year, the stadium has achieved (and in some instances exceeded) its year-to-date projected performance and budgeted financial targets. A Service Delivery Agreement (SDA), in terms of the MFMA, has been implemented with the City. In respect of its governance and management of the stadium, CTS, under the guidance of the Board, has also successfully concluded its macro organisational restructuring process, which was undertaken to align it with an organisational structure suitable to fulfil its contractual mandate to the City for the ultimate benefit of the City's ratepayers.

The Board and Management of CTS are pleased that the CTS once again achieved an unqualified 'clean' audit report for its third full financial year of operations.

In pursuit of financial sustainability, the Board approved commercialisation strategy, which has been a focal point of CTS during its current business cycle. CTS has refined the commercial strategy and business plan and has secured a Naming Rights Partner, an Anchor Tenant in Western Province Rugby for the CTS, as well as the commencement of the implementation process of the commercial events overlay, which includes concessionaires, liquor distribution agents, hospitality partners and preferred suppliers. The COVID-19 lockdown restrictions have had a significant impact on the commercial aspect of the entity. The business plan has been prepared on the basis that government will lift restrictions on gatherings in a phased approach and that spectators will be allowed to attend events.

The following CTS board committees and sub-committees have been fully constituted and will carry out their Board approved functions in terms of documented and approved Terms of References:

- Audit and Risk Committee
- Human Resource, Social and Ethics Subcommittee
- Events, Marketing and Communications Subcommittee
- Commercial and Finance Subcommittee

These committees have been effectively and diligently fulfilling their respective oversight roles. From a governance perspective, an experienced and outsourced company secretary to perform the company secretariat functions was appointed during the year.

2.14.2 Service Delivery Agreement between the City and the CTS

Table 80 - CTS – Service Delivery Agreement

Period of agreement	The period of agreement is 50 years. The City may, at its sole discretion, extend the service provider's appointment for a further period of 49 years.
Funding	The City will provide the grant allocation to cover the entity's operational expenditure in terms of an approved budget. The provision of support services have been renewed for a further three (3) years on 1 February 2021. The entity will be responsible for all maintenance, which is based on the City's maintenance standards. The City will be liable for all capital expenditure, including additional hospitality suites.
Staffing	The City will second staff members to the entity with the concurrence of the staff members concerned. Staff currently employed at the Cape Town Stadium will remain as City employees, will be paid by the City and will receive their standard benefits including bonuses and leave pay. The entity appointed the CFO and will appoint a legal and compliance officer in the 2022/23 financial year.
Services to be Provided	· General facility maintenance and event support operations; · Events and entertainment services management; · Commercialisation, marketing and hospitality management; and · Finance, legal and administration management.
Ownership and Control	The City is the 100% shareholder of the entity.
Oversight Processes	The City's Finance directorate (Treasury department) monitors the Service Delivery Agreement (SDA) and related performance and compliance of the entity.
City's Obligations	The City must provide dedicated and prioritised support with regards to accounting, financial management and budgeting per the MFMA, including utilisation of the SAP (Systems, Applications and Products) system as used by the City, Supply Chain Management support, legal company secretary, brand management and communication. In addition, the City must provide dedicated and prioritised services in regard to human resource management support, as well as internal audit and risk management support including oversight over the service provider's audit committee.

The aggregated annual budget, as required in terms of section 9 of the MBRR, are presented in the five primary budget tables on page 229 to page 232. These tables reflect the CTS's 2022/23 budget and MTREF to be supported by Council.

Schedule D reflecting the CTS's annual budget and supporting documents is attached as Annexure 33 while the business plan is attached as Annexure 34. The CTS's proposed tariff structure is attached as Annexure 35.

2.18 Legislation compliance status

Compliance with the MFMA implementation requirements has been substantially adhered to through the following activities:

- **Budget and Treasury Office**
  A budget office and Treasury office was established in accordance with the MFMA.

- **Budgeting**
  The annual budget is prepared in accordance with the requirements prescribed by National Treasury, MFMA, MBRR and mSCOA regulations.

- **In Year Reporting**
  Fully compliant with regards to monthly and quarterly MBRR reporting to National Treasury.

- **Annual Report**
  The annual report is prepared in accordance with the MFMA and National Treasury requirements.

- **Municipal Entities**
  The City currently has only two entities i.e. the Cape Town International Convention Centre (CTICC) and the Cape Town Stadium (CTS).

- **Internship Programme**
  The CFO has introduced an organised professional training and work experience program (Finance Graduate Development Program or FGDP) intended to standardise the current diverse training options by providing training and exposure to qualifying officials and/or suitably qualified external applicants and/or suitably qualified bursars (Bachelor of Commerce or equivalent degree), who meet the criteria and who are aspiring to become local government accountants subject to a recruitment and selection process.

  The National Treasury Municipal Finance Management Internship Programme (NTMFMIP) has merged with the FGDP.

  The City is funding five interns, whilst NT is funding an additional three interns.

  Most interns that were previously on the NTMFMIP have been appointed within the City on completion of the program whilst others got employment opportunities elsewhere.

2.19 External mechanisms

A summary of the total service delivery package and associated financial implications of each external mechanism utilised by the City is attached as Annexure 27 to the document.

2.20 Other supporting documents

*The information provided in the table above is based on number of properties and not households for Water for example, and for Electricity it will be based on number of service connections. There is therefore not a direct correlation between the two as a property can consist of numerous households.

2.21 Consolidated budget tables

The consolidated tables, as required in terms of Regulation 9 of the MBRR, are presented in the nine primary budget tables on page 261 to page 273.

The tables provide a consolidated view of the main tables (including financial position and cash flow) of the City, CTICC and CTS.

The consolidated tables include the City's and entities' MTREF with elimination of inter-company entries. It will therefore not align to a direct consolidation of tables between the City's MBRR Schedule A and the entities' MBRR Schedule D.

Table 99 - MBRR Table A1 - Consolidated Budget Summary

ANNEXURE 2

PROPERTY (TAX) RATES 2022/23

MAY 2022

PROPERTY RATES 2022/23

Property rates are levied in accordance with Council policies, the Local Government: Municipal Property Rates Act 2004 (MPRA), the MPRA Regulations, and the Local Government: Municipal Finance Management Act 56 of 2003.

Property rates are based on values indicated in the General Valuation Roll 2018 (GV) with the date of valuation being 2 July 2018. The Rate-in-the-Rand for Property Rates for 2022/2023 financial year are:

	PROPERTY CATEGORIES	RATE-IN-THE-RAND
1.1	Residential (The City will not levy a rate on the first R300 000 of the market value as per the Valuation Roll)	R0.006344
1.2	Business and Commercial Properties	R0.012688
1.3	Industrial Properties	
1.4	Mining Properties	
1.5	Properties owned by an Organ of State and used for public service purposes	
1.6	Vacant land	
1.7	Agricultural land	R0.001269
1.8	Public Service Infrastructure (The City will not levy a rate on the first 30% of the market value as per the Valuation Roll)	R0.001586
1.9	Properties owned by an organisation – not for profit and used as an early childhood development facility	
1.10	Properties owned by an organisation – not for profit and used for youth development	
1.11	Properties owned by an organisation – not for profit and used as accommodation for the vulnerable	
1.12	Properties owned by an organisation – not for profit and used for an old age home	
1.13	Properties owned by an organisation – not for profit and used exclusively for amateur sport	
1.14	Properties owned by a Social Housing Regulatory Authority accredited Social Housing Institution and used for social housing	
1.15	Properties owned by war veterans' associations and used for the welfare of war veterans	
1.16	Properties owned by PBO and used for specified public benefit activities	
1.17	Properties used for multiple purposes	per allocation
1.18	Cemeteries and Crematoria	R0.000000
1.19	Properties owned by an organisation – not for profit and used for animal shelters	
1.20	Properties owned by an organisation – not for profit and used as a local community museum	
1.21	Nature conservation land	

The rates levied per individual property will be calculated based on the value of that property and multiplied by the rate-in-the-rand set out in this document. Rebates are also taken into consideration.

The definitions of categories are reflected in the Rates Policy 2022/2023 attached as Annexure 5.

RATES RATIOS

The residential category is used as the base rate. The rates ratio per property rating category are:

	PROPERTY CATEGORIES	Ratio to Residential
1.1	Residential (The City will not levy a rate on the first R300 000 of the market value as per the Valuation Roll)	1:1
1.2	Business and Commercial Properties	1:2
1.3	Industrial Properties	
1.4	Mining Properties	
1.5	Properties owned by an Organ of State and used for public service purposes	
1.6	Vacant land	
1.7	Agricultural land	1:0.20
1.8	Public Service Infrastructure (The City will not levy a rate on the first 30% of the market value as per the Valuation Roll)	1:0.25
1.9	Properties owned by an organisation – not for profit and used as an early childhood development facility	
1.10	Properties owned by an organisation – not for profit and used for youth development	
1.11	Properties owned by an organisation – not for profit and used as accommodation for the vulnerable	
1.12	Properties owned by an organisation – not for profit and used for an old age home	
1.13	Properties owned by an organisation – not for profit and used exclusively for amateur sport	
1.14	Properties owned by a Social Housing Regulatory Authority accredited Social Housing Institution and used for social housing	
1.15	Properties owned by war veterans' associations and used for the welfare of war veterans	
1.16	Properties owned by PBO and used for specified public benefit activities	
1.17	Properties used for multiple purposes	per allocation
1.18	Cemeteries and Crematoria	1:0
1.19	Properties owned by an organisation – not for profit and used for animal shelters	
1.20	Properties owned by an organisation – not for profit and used as a local community museum	
1.21	Nature conservation land	

EXEMPTIONS, REDUCTIONS AND REBATES

Reduction

For all residential properties, the property value appearing on the Valuation Roll, the City will not levy a rate on R300 000 of the property value for rating purposes. The R300 000 comprises of the first R15 000 statutory impermissible rate and R285 000 reduction determined in the Rates Policy.

Rebates in respect of a category of owners of property are as follows:

Indigent owners

In terms of sections 3(3)(f) and 15 of the MPRA all indigents, for rating purposes, will qualify in respect of their primary place of residence for the benefits as set out in this policy and Chapter 4 of the Credit Control and Debt Collection By-Law and Policy and may also qualify for the 100% rebate if the applicant is dependent on pension or a social grant for their livelihood on condition that all other criteria remain applicable. The cumulative rebates shall not exceed 100%.

Owners who are dependent on Pension or Social Grants for their livelihood

In order to qualify for a rebate, this category of owners must meet the following criteria:

a) be a natural person;
b) be dependent on a pension or social grant for their livelihood - the dependency on pension or social grants is not a sole dependency but there must be a dependency to some degree. At the discretion of the CFO, an owner, applying for the pension rebate, who is still economically active may be considered for the rebate if all the other criteria set out in the paragraph are met and they are not yet dependent on a pension;
c) the property must satisfy the requirements of the category of Residential Property;
d) be the registered owner of the Residential Property; and
e) on 1 July of the financial year:
    i. occupy the property as his/her primary place of residence, provided that where the owner is unable to occupy the property due to no fault of his/her own, the spouse or partner or children (including minor children) may satisfy the occupancy requirement;
    ii. With regards to owners who are dependent on pensions, the applicant must be at least 60 years of age; or if the owner turns 60 during the year the rebate will be granted on a pro rata basis from the date on which the applicant turned 60;
    iii. be in receipt of a gross monthly household income not exceeding R17 500 (seventeen thousand five hundred Rand) and proven by the submission of the minimum of three months bank statements from all financial institutions or, if the person does not have a bank account, such proof as the City may require to substantiate the person's level of gross monthly household income.

The gross monthly household income and rebate for the 2022/2023 financial year is as follows:

Gross Monthly Household Income		% Rebate
R 0	R 4 500.00	100%
R 4 501.00	R 6 000.00	95%
R 6 001.00	R 7 500.00	90%
R 7 501.00	R 9 000.00	80%
R 9 001.00	R 10 500.00	70%
R 10 501.00	R 12 000.00	60%
R 12 001.00	R 13 500.00	50%
R 13 501.00	R 14 500.00	40%
R 14 501.00	R 15 500.00	30%
R 15 501.00	R 16 500.00	20%
R 16 501.00	R 17 500.00	10%

BUDGET IMPLICATIONS

The Budget for 2022/2023 has been balanced using the estimated income from levying the rates in this report.

Provision has been made in the Budget for 2022/2023 for the income foregone arising from the rates relief as detailed in the Rates Policy 2022/2023.

CITY OF CAPE TOWN

STAD KAAPSTAD

ANNEXURE 3

CITY IMPROVEMENT DISTRICTS ADDITIONAL RATES

2022/23 BUDGET (MAY 2022)

CITY IMPROVEMENT DISTRICTS (CIDs) ADDITIONAL RATES 2022/2023

Each CID must submit a budget to the City annually in terms of the Special Rating Areas (SRA) By-Law. This budget must be in accordance with the approved business plan of the CID and be approved by the company members at an Annual General Meeting (AGM) or Members Meeting. The budgets for 2022/23 for all existing CIDs included in the table below were all approved in terms of this requirement prior to submission to the City for inclusion in the City`s budget document. The CIDs have a 5-year budget as per their approved Business Plan and as such cannot anticipate future development or valuation fluctuations due to successful appeals etc. Communities are informed from the outset regarding the impact of valuation fluctuations on CID budgets and also individual contributions. Accordingly, various scenarios materialize in later years where the CID budget may be spread over a broader community thus reducing the burden on individuals. Similarly, successful appeals could result in a larger than anticipated burden on other individuals due to the valuation base reducing concomitant to annual budget increases. The impact on individuals is extensively modelled to ensure that it does not exceed the original approved impact as per the 5-year budget and if greater than the budget growth it remains within the threshold of affordability and sustainability.

In all cases the budgets were modelled and reviewed by the CID Branch in terms of compliance and affordability which included the impact on individual properties.

The amount of any additional rate levied in a CID area is determined by Council. The additional rate is a debt owing to the City and is payable and collected in the same manner as any other property rates imposed by Council. Two different categories of property are identified when imposing an additional rate in a CID, namely Residential and Non-residential. The SRA Policy, as approved by Council, further clarifies that any non-residential property with a municipal valuation of 50% or more of the total municipal valuation of the CID it is located in will not fund more than 25% of the budget. At this stage, this scenario only exists in the Glosderry CID. Following the tabling of the budget in March, the valuation for the only property linked to the Glosderry>50% additional rate was adjusted downwards from R777 000 000 to R643 420 000 which necessitated an increase in the additional rate on that property to ensure that the Glosderry CID budget can be collected in 2022/23 without burdening the other property owners.

All the CIDs approved their budgets unanimously at their Member's meetings. Nine CIDs (Beaconvale, Epping, Montague Gardens-Marconi Beam, Northpine, Observatory, Penzance Estate, Voortrekker Road Corridor, Vredekloof and Woodstock) applied for a new 5-year term commencing on the 1st of July 2022. At their AGMs, members voted unanimously in favour for the continuation of the CIDs. These are included in the table below as approved by Council on 28 April 2022 (Items C11/04/22 to C19/04/22).

The Observatory Improvement District (OBSID) approved an above inflationary budget increase of 18.5% at its Annual General Meeting as part of its new business plan to improve the level of services in the area. The resulting increase in the additional rate will be limited to 4.0% due to supplementary valuations that have increased the total property valuation for the OBSID thereby spreading the impact of the budget increase across a broader base.

One application was received for the establishment of a new CID, namely Parow East Industrial, included in the table below, and was approved by Council at its meeting on 31 March 2022 (Item C15/03/22).

The additional rates for 2022/23, expressed as Rand-in-the-rand and based on the total property valuation per CID, are submitted for Council approval.

CID Additional Rates are rated at 15% for VAT. Additional Rates below are shown as a rate-in-the-Rand.

ANNEXURE 4

REVISED CONSUMPTIVE TARIFFS, RATES AND BASIC CHARGES FOR ELECTRICITY GENERATION AND DISTRIBUTION, WATER AND SANITATION AND SOLID WASTE MANAGEMENT SERVICES

2022/23 BUDGET (MAY 2022)

TABLE OF CONTENTS

1. **ELECTRICITY GENERATION AND DISTRIBUTION** 3
2. **WATER AND SANITATION** 7
3. **SOLID WASTE MANAGEMENT** 9

1. ELECTRICITY GENERATION AND DISTRIBUTION

1.1 General

The proposed revisions to the tariffs have been formulated in accordance with the City of Cape Town Tariff and Rates Policy and comply with Section 74 of the Municipal Systems Act.

In terms of section 75A of the Local Government Municipal Systems Act, any fees, charges or tariffs which a municipality may wish to levy and recover in respect of any function or service of the municipality, must be approved by a resolution passed by the municipal council with a supporting vote of a majority of its members.

The Electricity Regulation Act requires that proposed revisions to the electricity consumption based tariffs be submitted to the Regulator for approval prior to implementation. Provisional approval will therefore be requested with the express proviso that any alterations required by Council will be submitted to the Regulator as soon as possible.

The Consumptive Tariff Schedule includes a note indicating that the tariffs are applied in accordance with the terms and conditions as contained in the Electricity Tariff Policy.

On 9 March 2022, NERSA approved a tariff increase to direct Eskom customers of 9.61%. This then equates to a 8.61% increase to Municipalities. To date, NERSA have not issued a finalised Guideline increase for regulated tariffs to Municipalities (the draft for consultation contained a Guideline increase of 7.47%, but this calculation contains several errors and does not in any way allow for changes in the amount of electricity sold).

CPI was set by the City at 4.6% for the coming financial year, and, together with the above bulk purchases increase, other required expenditure items and a reduction in sales volumes of 1.5% on a restated sales base for 2021/22 (increased by 0.7%), means that a total tariff increase of 9.5% is required for the coming financial year.

The unregulated portion of the tariff is made up of the Contribution to Rates (R1782.5m, or 24.75c/kWh on relevant energy portions) and the cost of street lighting (R532.7m or 6.67c/kWh). Subsidised energy tariffs (Lifeline Block 1 and Investment Incentive tariffs) only attract the street lighting portion, while the remainder attract both the Contribution to Rates amount and the street Lighting portion, for a total of 31.42c/kWh (as per the Consumptive Tariff Schedule in Annexure 6).

These increases are in line with the guidelines established in the Medium Term Revenue and Expenditure Framework.

Present electricity tariffs were approved by Council on 26 May 2021 and by NERSA on 14 July 2021, and were implemented with effect from 1 July 2021.

1.2 Proposed Electricity Tariff Policy Changes

It is proposed that the Tariff Policy for Electricity Generation and Distribution is amended as follows for the 2022/23 Financial Year:

- Clause 4.1.5 clarified to include all scenarios where the cost of a Prepayment Meter will be able to be recovered via the Vending System
- Clause 4.1.6 added to provide an end date to the Small-scale Embedded Generation incentive (30 June 2025)
- Clause 4.2.5 added to clarify metering requirements for Small Power User 2 to be available
- Clauses 4.2.9 and 4.2.10 deleted as the tariffs to which they refer are no longer available (other clauses renumbered accordingly)
- Clauses 4.3.7 and 4.3.9 amended to remove specific references to Rates Policy clauses (this has proven problematic to update – tariff policy now references the specific nature of the rebate, rather than a specific clause number)
- References to “AMI Meter Reading Charge” amended to refer to “AMI Access Charge” to reflect the proposed update to the name of this charge

1.3 Consumptive Tariff Proposals

For the 2022/23 financial year, the following is proposed for the Residential tariffs.

No changes are proposed in terms of eligibility, or structure, of the standard Residential Tariffs, nor are there any changes proposed in terms of the Free Basic Electricity allocation. All components increase by 9.5% across all three tariffs.

For SSEG customers, the AMI Access Charge increases by CPI (as contained in the Miscellaneous Tariff Schedule), and the Residential SSEG Feed-in Tariff increases in line with CPI as well. The Incentive tariff (of 25c for each kWh fed into the grid) is retained, and is proposed to be extended to 30 June 2025.

All components of the Small Power User Tariffs increase by the average amount. Any small variation to this is the result of rounding. Small Power User 3 tariff (for very small supplies - less than 250kWh per month consumed) which was not approved by NERSA and therefore not implemented is again applied for. The intention behind this tariff is to provide for small organisations where energy consumption is low or intermittent in use, that are typically not for profit or provide accommodation for the vulnerable. The introduction of this tariff will be tested over a period and further restrictions to accessing this tariff may be applied. This tariff is also only applicable via a prepayment meter.

All Large User Time of Use Tariffs increase by the average of 9.5% across all components. Any variation to this that exists is once again the result of rounding.

The Large Power User Tariffs (non-Time of Use), as well as the Medium Voltage Time of Use Tariff are discontinued and marked for deletion from the schedule for this year.

Both the Large User HV Time of Use Tariff, and the Large User MV Time of Use Tariff (as well as all related tariffs) are again proposed to feature a split demand charge (although this was not approved by NERSA for 2021/22, resulting in the non-implementation of the HV tariff). The first component of this split is the Energy Demand Charge, which is the traditional, measured demand as previously. The second and new component, is the Network Access Charge, which is charged in accordance with the Notified Maximum Demand (or Maximum Export Capacity) of a customer, as this is the amount of network infrastructure that has to be reserved for that customer, and non-utilisation of that reserved portion has previously not been charged for, but has resulted in incurred costs. For all MV customers, this Network Access Charge is again set at zero for the coming year, with the Energy Demand Charge being increased by 9.5% over the existing period Demand Charge, as a measure to introduce the concept to the existing customers. For the HV tariff, where no customers currently exist, values (as per the tariff schedule) are attached to these components, and increase by 9.5% over the current financial year.

The Non-Residential Small-scale Embedded Generation Feed-in Tariff 1 remains unchanged, as it is felt that this should be reduced over time, rather than through a reduction, as this tariff has been used to develop the business case for these systems. The Non-Residential Small-scale Embedded Generation Feed-in Tariff 2 (for customers wishing to retain the “green” benefits), is slightly reduced in order to account for a change in the Carbon Tax rate. The SSEG Incentive tariff remains applicable to all customers here too, and is unchanged at 25c/kWh (with a proposed end-date of 30 June 2025).

The design philosophy for the Investment Incentive Tariffs of providing the benefit through excluding the Contribution to Rates amount from these tariffs continues. As a result of a recalculation of this amount, these tariffs will see varying increases in terms of percentages, depending on what proportion of the tariff component the Contribution to Rates forms.

The design philosophy for the Wheeling Tariffs remains the same for the coming year. The Wheeling Customer MV Tariff increases by the applicable projected Eskom increase of 9.61%, plus a small correction to bring the base tariff in line with what Eskom actually implemented for the 2021/22 financial year, while the Use-of-System Tariff increases by a balancing amount so that any energy bought from the City increases by the average of 9.5%. The Service Charge for the Wheeling Use-of-System charge is set at double the normal Large User Medium Voltage Service Charge to account for the extra administration that is required in order to facilitate wheeling.

It must further be noted at this point that the rules and processes for Wheeling have not yet been finalized, the tariffs therefore will only become effective once the outstanding items have been resolved and Wheeling is implemented.

The tariff for Street Lighting and Traffic Signals energy increases by 9.5%.

1.4 Miscellaneous and Street Lighting Tariffs

The Miscellaneous Electricity Tariffs are levied to recover the costs of services provided directly to individual customers.

In terms of the Miscellaneous Tariff Schedule, each tariff was revisited in terms of its relevance and revenue generating potential.

The following tariffs are added to the Schedule for the 2022/23 financial year:

- Item 2.1.2 added to accommodate the additional costs involved in the effective disconnection of an Unauthorised Small-scale Embedded Generation Connection (three-phase)
- Items 4.1.3 and 4.1.4 the Shared Connection Charges for 132kV and 66kV Network segments
- Item 9.2 the installation of one Quality of Supply (QOS) instrument per 11kV feeder supplying the customer
- Item 16.5.1 for the recovery of costs incurred for the replacement of stolen overhead service connection within 12 months of a previous such replacement

No items are deleted from the schedule for the 2022/23 financial year. All references to the discontinued Large Power User tariffs are removed.

The following items on the Schedule are dependent on the Consumption Based tariffs, and are adjusted in accordance with the current tariff increase estimate of 9.5%:

- Item 10.6 will move to the SPU3 tariff if approved by NERSA, otherwise will remain as SPU2.
- Item 13.1, Bulk Residential and Small Power User deposits
- Item 13.2, Deposits for Time of Use agreements
- Item 14.1, Unmetered Tariffs.
- Item 3.1.2 (Table Mountain Lighting) on the Street Lighting Schedule will increase by the average consumption tariff increase.

All other tariffs are either increased by CPI (4.6%), or else were determined from a zero base, which can result in a variety of different increases, depending on the make-up of the actual tariff. In most instances these prices are dependent upon external pricing, and may result in a significant increase, a zero change, or a decrease in the price.

A specific issue was identified around the cost of work to provide a new residential connection with a 60A single phase prepayment meter (item 3.2), where the municipal supply cable does not exist. This tariff previously did not recover the costs of providing this system, and has consequently been recalculated from a zero base in order to correct this, which has resulted in a significant increase in the cost of this service.

Note that in some instances the rounding for VAT purposes may result in a slightly above or below increase for some items.

The increases are in accordance with the guidelines established in the Medium Term Revenue and Expenditure Framework.

2. WATER AND SANITATION

The Water and Sanitation Consumptive Tariffs are levied to recover the costs of providing the services.

The proposed tariff increases are predominantly due to the water augmentation plan to ensure security of water supply, upgrades and extensions to the wastewater treatment plants, water demand management initiatives, ensuring the management of assets at appropriate levels, sustain and enhance the maintenance programs as well as supplying water and sanitation at appropriate compliance, capacity, skills, service delivery and responsiveness levels. This includes enhanced focus on the ageing sewer network infrastructure as well as upgrading of the sewer pump stations.

Level Water wise (no restriction) water and sanitation tariffs are recommended for implementation from 1 July 2022. There is a 6.5% tariff increased proposed on Level Water wise (no restriction) tariffs and this increase is also applicable for the proposed 2022/23 increases for level 1, level 2, level 3 and level emergency tariffs.

The Bulk Water tariffs, which is predominantly used for internal sales purposes, have been re-aligned in accordance with the latest circumstances and have been set at R5.73 (excluding VAT) per kilolitre.

The miscellaneous tariffs are levied by Water and Sanitation for the provision of various services by the Directorate. Examples of these services are the installation of water connections and the testing of meters. The aim of these tariffs is to recover the cost of the provision of a particular service to each customer.

An average increase of 4.6% was applied to the 2021/22 tariffs to determine the applicable tariffs for the 2022/23 financial year. The revenue trends for the past 3 years are as follows:

	2018/19		2019/2020		2020/21	
	Plan	Actual	Plan	Actual	Plan	Actual
810100 Administration Fees	2 000 000	1 612 167	2 082 800	1 279 127	1 405 000	1 322 086
811210 Connection Fees	24 999 999	17 513 347	24 000 000	18 190 442	24 000 000	27 084 388
812740 Service Charges Other	4 708 800	4 302 213	4 903 744	3 775 495	3 000 000	3 051 604
860940 Laboratory Services	249 999	112 084	260 349	140 533	273 628	187 025
	31 958 798	23 539 811	31 246 893	23 385 597	28 678 628	31 645 103

The proposed consumption tariffs as well as miscellaneous tariffs are shown in the attached Tariffs and Charges Book as Annexure 6.

Notable changes and additions in the tariff policy and tariff schedules for the 2022/23 financial year include:

Consumptive:

- The Free Basic Services to indigent properties has been adjusted upwards to a monthly allocation of 15kl of water and 10.5kl of sanitation. This aligns the Free Basic Services to the Excessive Use approach introduced during the previous financial year.

Miscellaneous:

The miscellaneous tariff schedules have been amended to allow for:

- New scientific services tariffs for laboratory test items;
- Refinement and pricing of the re-sizing of meters as well as the installation of leadings (e.g. new sub-divisions);
- Refinement and pricing of the application for new sewer connections;
- Clarification that where sewage is removed via a tanker service, one removal does not exceed 10kl.

3. SOLID WASTE MANAGEMENT

The Solid Waste Tariffs are levied to recover costs of services provided directly to customers and include refuse collection fees, disposal fees, compost sales, weighbridge fees and other ad hoc services. An average increase has been applied on the Consumptive Tariffs for Collections of 5% & Disposal of 5%. An average increase has been applied on the Miscellaneous Tariffs for Cleaning of 4.6%.

The following amendments to the Tariff Policy are proposed:

- **Tariff Policy Changes**

  - Cosmetic changes to the following definitions:
    - Domestic Waste;
    - Lockable;
    - Recycling Container;
    - Residential Properties.
  - Change to the definition of Vacant land to align with the Rates Policy:
    - Property that is currently categorised as vacant land and where construction has commenced but which is incomplete, will be deemed to be vacant land and will remain categorised as such until the completion of the building works and the use of the property is determined by the Municipal Valuer for categorisation purposes.
  - Cosmetic changes to the following item numbers:
    - 1.2;
    - 1.3.1;
    - 6.1.1.1.1 to 6.1.1.1.4;
    - 6.1.6.6 to 6.1.6.10;
    - 6.2.1.1.1 to 6.2.1.1.2;
    - 6.2.2.4;
    - 6.2.2.5.1 to 6.2.2.5.3;
    - 7.2;
  - New item added – 16.5 - The approval for the purchasing of Special Waste permits lies with the Director: Solid Waste Management

- **Tariff Book changes:**

  - Cosmetic changes to the following items:
    - 1.3.1.1.1;
    - 1.3.1.1.1.1 to 1.3.1.1.1.2;
    - 1.3.1.1.1.4 to 1.3.1.1.1.10;
    - 1.3.1.3.2.2;
    - 1.3.1.3.2.5

Failure to implement the proposed Tariff increases on 1 July 2022 will result in under recovery of Revenue required to meet anticipated expenditure for the 2022/2023 financial year.

CONSUMPTIVE SOLID WASTE TARIFFS 2022 / 2023

All Tariffs reflected below are exclusive of VAT

Solid Waste		2021/22 (excl. VAT)	2022/23 (excl. VAT)	2022/23 (incl. VAT)	Average Increase %

SECTION A - INTRODUCTION

DEFINITIONS

In addition to the definitions contained in the *MPRA* and the *Rates By-Law*, the following words and phrases bear the meanings assigned to them below:

"Accommodation for the vulnerable" means a property used for:

- A shelter for homeless adults;
- A shelter for the abused and/or victims of violence;
- A children's homes which cares for homeless children as stipulated in the Children's Act, 38 of 2005 used primarily for the accommodation of children;
- A home accommodating and catering for the health of physically or mentally challenged individuals.

"Agricultural property" means property that is used primarily for agricultural purposes but, without derogating from *section 9* of the *MPRA*, excludes any portion thereof that is used commercially for the hospitality of guests, and excludes the use of the property for the purpose of eco-tourism or for the trading in or hunting of game.

"Animal Shelter" means a property used for the protection, rescue and rehabilitation of domestic animals.

Business and Commercial property" means:

(a) Property used for the activity of buying, selling or trading in commodities or services and includes any office or other accommodation on the same property, the use of which is incidental to such activity;
(b) Property on which the administration of the business of private or public entities takes place;
(c) Property used for the provision of commercial accommodation;
(d) Property used for education purposes;
(e) Property used by the State or any organ of State; or
(f) Property that does not fall into any other category of property.

"Cemeteries" means properties used for the burial of human bodies and storage of cinerary urns.

"**Crematoria**" means properties used for the cremation of human bodies.

"CFO" means the Chief Financial Officer of the City, being a person designated in terms of *section 80(2)(a)* of the *MFMA*, or his/her nominee.

"**City/Council**" means the City of Cape Town, a municipality established by Government Notice No 479 of 22 September 2000 issued in terms of the Local Government: Municipal Structures Act 117 of 1998.

"Commercial Accommodation" means a property used for purposes of providing accommodation but is not being used as a primary place of residence or where more than 40% of a primary place of residence is used or available to be used to provide accommodation to temporary visitors at a fee. This includes but not limited to property used for transient / short-term letting such as guest houses; self-catering; bed and breakfast establishments as well as residential apartments that form part of a hotel rental pool.

"Early Childhood Development Facility" means a property used as an Early Childhood Development Facility registered with the Department of Social Development, Western Cape Government.

"Exemption" in relation to the payment of a rate, means an exemption granted by a City in terms of *section 15* of the *MPRA.*

"Gross monthly household income" means the gross monthly household income of both the owner and spouse or partner including any party in a co- habitation relationship from all sources, including but not limited to salaries, wages, dividends, pensions, grants, rentals, board and lodging, interest received, and any investment income. Care dependency grants, foster child grants and child support grants are specifically excluded from gross monthly household income. This income definition is specific to the Rates Policy and does not relate to any other external definitions of income.

"Industrial Property" means property used for a branch of trade or manufacturing, production, assembly or processing of finished or partially finished products from raw material or fabricated parts in respect of which capital and labour are involved, and includes–
(a) The processing of raw products and resources on the property;
(b) The storage and warehousing of products on the property; and
(c) Any office or other similar facility on the same property, the use of which is incidental to such activity.

"Local Community Museum" means a property that is used as a museum that concentrates on the history and culture of the immediate local community within which it is situated.

"**MFMA**" means the *Local Government: Municipal Finance Management Act, 56 of 2003.*

"**MPRA"** means the *Local Government: Municipal Property Rates Act, 6 of 2004* as amended from time to time as well as regulations (MPRR) published in terms of the *MPRA*, which is referred to as the "*Property Rates Act*" in the By-law but for the purposes of brevity, shall be referred to as the "*MPRA*" in this Policy.

"MPRR" means the *Municipal Property Rates Regulations.*

"Nature Conservation Land" means any property:

a) Referred to in S 17(1)(e) of the MPRA, or
b) exhibiting sensitive ecological areas/features, identified by the City's Environmental Management Department as such, for that portion of land exhibiting these sensitive features, provided that the land is either leased to the City for nature conservation purposes or where there is a written agreement, with the City, CapeNature or SANParks, for the conservation management of the relevant portion of land where the land is conserved in perpetuity, or
c) Private property contracted into the Table Mountain National Park in terms of the Protected Areas Act, from the commencement date of the agreement between the owner of the property and SANParks and for each year that the owner foregoes beneficial occupation/use of the land pending formal gazetting of the agreement.

"Non-Residential Property" means all properties other than those defined as residential but including all vacant land.

"Old Age Home" means a property specifically used for the accommodation of retired people.

"Organisation - Not for Profit" means;

- a Non Profit company defined as such in terms of Section 1 of the Companies Act 71 of 2008
- a registered Non-Profit Organisation
- a registered Public Benefit Organisation
- a Trust, where none of the Trustees are beneficiaries and the Trust operates for a public benefit
- a voluntary organisation operating for a public benefit
- a religious organisation undertaking a public benefit activity

"**PBO / Public Benefit Organisation**" means an organisation conducting specified public benefit activities as defined in the *MPRR;* and registered in terms of the *Income Tax Act* for tax reductions because of those activities.

"Pension" includes, but not limited to, a pension fund, retirement annuity, income annuity, retirement fund or other income arising out of any retirement funding investment income received (including rental income).

"Primary Place of Residence" means a residence –
(i) in which a natural person ordinarily resides as his or her main residence
(ii) is used mainly for residential purposes

"Property Rating Category" means a category of properties determined in terms of section 8 of the MPRA.

"Ratepayer" means a person or entity that is liable, in terms of the *MPRA*, for the payment of rates on property levied by the City.

"Rate/s" means a municipal rate as defined in *section 1* of the *MPRA* and includes any additional rates on property as envisaged in *section 19 (1)(d)* and *section 22* of the *MPRA.*

"Rates By-law" means the *City of Cape Town: Rates By-law.*

"**Rebate**" in relation to a rate payable on a property, means a discount granted in terms of *section 15 of the MPRA* on the amount of the rate payable on the property.

"**Reduction**" in relation to a rate payable on a property, means the lowering, in terms of *section 15 of the MPRA* of the amount for which the property was valued and the rating of the property at that lower amount.

"**Relief**" means exemptions, reductions or rebates that may be granted by the City in terms of this Policy.

"Residential Property" means a property of which the primary use is for residential purposes, without derogation from *section 9* of the *MPRA*, that is:

- used predominantly (60% or more) for residential purposes based on either the size of the house or the size of the improved part of the property (depending on the non-residential use), and includes any adjoining/adjacent developed property registered in the name of the same owner and used together with such residential property as if it were one property. The physical configuration of the two properties must be such that the two properties cannot be dealt with as separate viable economic units and can only function as if they are one entity. (Any such grouping shall be regarded as one residential property for rating purposes and for clearance application purposes); or

- a unit registered in terms of the *Sectional Titles Act, 95 of 1986*, used predominantly (60% or more) based on the size of the section (depending on the non-residential use) for residential purposes, and includes any unit in the same sectional title scheme registered in the name of the same owner which is used together with the residential unit as if it were one property, for example a garage or domestic worker's quarters. (Any such grouping shall be regarded as one residential property for rating purposes and for clearance application purposes);

- For the sake of clarity, the following properties are specifically excluded from the definition:
  - residential apartments that form part of a hotel rental pool and are not being used as a primary place of residence for residential purposes;
  - property used for commercial accommodation; and
  - any vacant land irrespective of its zoning or intended usage.

"Residential purposes" in relation to the use of the property means improved properties where people reside as their primary place of residence.

"Social Grant" means a grant paid by National Government to South African citizens who are in need of assistance in respect of the following grants: grant for older persons; disability grant; war veterans grant; care dependency grants; foster child grants; child support grant; grant-in-aid; Social Relief of Distress.

"Social Housing" means a property used for a rental or co-operative housing option (primary place of residence) for households earning between R1 501 - R15 000 per month.

"Supplementary Valuation / SV" means the updating of the valuation roll whenever necessary as per *section 78* of the *MPRA.*

"Systems Act" means the *Local Government: Municipal Systems Act, 32 of 2000.*

"Valuation Roll" means a general valuation (GV) roll prepared in terms of *section 30* of the *MPRA* or a supplementary valuation (SV) roll prepared in terms of *section 78* of the *MPRA.*

"Vacant Land" means a property without any buildings or structures, as determined by the Municipal Valuer. Properties that are used as cemeteries will not be treated as vacant land.

Property that is currently categorised as vacant land and where construction has commenced but which is incomplete, will be deemed to be vacant land and will remain categorised as such until the completion of the building works and the use of the property is determined by the Municipal Valuer for categorisation purposes.

Properties used as cemeteries will not be treated as vacant land.

"Youth Development" means a property used for extra mural activities by the youth for developmental purposes (including organisations such as the Scouts, Girl Guides, Voortrekkers or organisations the Municipal Valuer deems to be similar).

1. Legislative Context

In terms of *Section 229* of the *Constitution of the Republic of South Africa*, a municipality may impose rates on property.

In terms of *Section 4(1)(c)* of the *Systems Act*, a municipality has the right to finance the affairs of the municipality by imposing, *inter alia*, rates on property.

In terms of *Section 2* of the *MPRA*, a metropolitan or local municipality may levy a rate on property in its area.

This Policy is adopted in terms of *Section 3* of the *MPRA.*

This Policy must be read together with, and is subject to the provisions of and the regulations of the *MPRA* and the *Rates By-Law*.

In terms of the *MPRA*, the City allows for certain exemptions, reductions and rebates based on the ownership of properties.

The City's Rates Policy must be adopted on an annual basis to ensure compliance with the City's strategic objectives and with the applicable legislation.

This Policy is prepared in order to support the Municipal budget in accordance *with Regulation 7 of the MFMA* namely the *Municipal Budget and Reporting Regulations*.

2. Guiding Principles

The City's Rates Policy (herein after referred to as "the/this Policy") is based on the following guiding principles:

- equity;
- affordability;
- poverty alleviation;
- social and economic development;
- financial sustainability; and
- cost efficiency.

As provided for in the *MPRA*, the City has chosen to differentiate between various categories of property and categories of owners of property. Some categories of property and categories of owners are granted relief from rates. However, the City does not grant relief in respect of payments for rates to any category of owners or properties, other than by way of an exemption, reduction or rebate provided for in this Policy, or to owners of properties on an individual basis.

SECTION B - MUNICIPAL PROPERTY RATES

3. Categories of Property

In accordance with Section 8 of the MPRA, the City levies different rates on different categories of properties, which are determined according to the use of the property.

The City has identified the following categories of property in accordance with section 8 and 93A of the Act: -

a) Residential properties;
b) Business and commercial properties;
c) Industrial properties;
d) Agricultural properties – any agricultural property not used for bona fide farming will not fall within this category;
e) Mining properties;
f) Properties owned by an organ of state and used for public service purposes.
g) Public Service Infrastructure properties;
h) Properties owned by Public Benefit Organisations and used for specified public benefit activities;
i) Properties used for multiple purposes - In cases where the Municipal Valuer considers it reasonable to apply this category, properties which are used for multiple purposes and thus fall within different categories of properties, an apportionment of value for each distinct use of the property must be calculated by the Municipal Valuer and used for billing at the appropriate and applicable rate(s);
j) Vacant land;
k) Cemeteries and Crematoria;
l) Properties owned by an organisation – not for profit and used for animal shelters;
m) Properties owned by an organisation – not for profit and used as an early childhood development facility;
n) Properties owned by an organisation – not for profit and used for youth development;
o) Properties owned by an organisation – not for profit and used as accommodation for the vulnerable;
p) Properties owned by an organisation – not for profit and used as a local community museum;
q) Properties owned by an organisation – not for profit and used for an old age home;
r) Properties owned by an organisation – not for profit and used exclusively for amateur sport;
s) Properties owned by a Social Housing Regulatory Authority accredited Social Housing Institution and used for social housing;
t) Properties owned by war veterans' associations and used for the welfare of war veterans;
u) Nature conservation land.

4. Application Requirements for the Change in Property Rating Category

4.1. Agricultural Property*

In order for property to be categorised as agricultural property a SARS ITA34 certificate must be provided together with a statement by the owner describing all activities performed on the property.

4.2. Properties owned by Public Benefit Organisations (PBOs) and used for specified public benefit activities*

In order for property to be categorised as Properties owned by Public Benefit Organisations (PBOs) and used for specified public benefit activities, the following requirements* must be met:

- The registered owner **must** be a registered PBO;
- The user (lessee) **must** also be a registered PBO; **and**
- The property **must** be used for specified public benefit activities in accordance with items 1, 2 or 4 of the 9th Schedule of the Income Tax Act.

The following documentation must be provided together with the completed application form:

a) An exemption letter from SARS confirming registration as a PBO;
b) A valid tax clearance certificate or confirmation of tax compliance status; and
c) A copy of the organisation's memorandum of incorporation/founding documents

4.3. Properties owned by an organisation – not for profit*

In order for property to be categorised as Properties owned by an organisation – not for profit the following requirements* must be met:

- The registered owner and user of the property must meet the requirements of an organisation not for profit; and
- The property must be used for the purposes in accordance with the property rating category. Where there is no definition provided, the ordinary meaning shall apply.

In order to be categorised as any one of the organisations not for profit mentioned above, application for the change in property rating category must be made and the following documentation must be provided*:

- A copy of the founding documents of the organisation;
- A valid tax clearance certificate or confirmation of tax compliance status;
- SARS document confirming PBO/NPO/NPC registration (if applicable)

4.4. Properties owned by a SHRA-accredited Social Housing Institution and used for social housing*

Properties registered in the name of a SHRA-accredited Social Housing Institution must provide at least 60% of the residential units on the property to house tenants whose gross monthly income is less than the maximum and it is spread within the income bands range (R1,500-R15,000/month) determined by SHRA guidelines and regulations.

The Social Housing Institutions must apply on an annual basis and provide the income bands of all their tenants to the satisfaction of the Director: Revenue.

Properties registered in the name of a SHRA-accredited Social Housing Institution must provide at least 60% of the residential units on the property to house tenants whose gross monthly income is less than the maximum and it is spread within the income bands range (R1,500-R15,000/month) determined by SHRA guidelines and regulations.

If more than 40 % of a property houses tenants whose gross monthly household income exceeds the aforementioned income limit, then such property will not qualify for this category.

In order to be categorised as Properties owned by a SHRA-accredited Social Housing Institution and used for social housing, application for a change in property rating category must be made and the following information/documentation must be provided*:

- Latest financial statements;
- Proof of SHRA accreditation;
- Copy of each tenant's lease agreement; and
- Tenant information and income captured in an excel spreadsheet containing the following information:
  - Name of housing development
  - Erf/unit number
  - Suburb or scheme name
  - Account number if applicable
  - Tenant's name and surname
  - Tenant's ID number

- Tenant's income (proof required)
- Tenant's contact details
- Tenant's cell / tel. number
- Tenant's email address

4.5. Properties owned by war veterans' associations and used for the welfare of war veterans*

In order for property to be categorised as Properties owned by war veterans' associations and used for the welfare of war veterans, a copy of the founding documents of the association must be provided together with a confirmatory statement by the owner describing all activities performed on the property.

The application forms for the change in property rating category for the above-mentioned property categories can be found on the City of Cape Town's Property Rates website.

Property owners are to apply for the change in property rating category once at the start of a General Valuation except in relation to Properties owned by a SHRA-accredited Social Housing Institution and used for social housing which must be applied for annually.

* The City/Municipal Valuer reserves the right to request additional documentation if so required.

5. Criteria for Applying Different Levies for Different Categories of Properties

The rate charged as an amount-in-the-rand for Residential Properties is the base rate and the rates charged in respect of all other categories of properties are reflected as ratios to the residential rate. The criteria for applying different ratios are as follows:

5.1. Industrial, Commercial, Mining Properties

The ability of owners to recover part of their costs via lower income tax and the ability to recover such costs from their own customers supports the rate differentiation. These property categories will be rated at double the residential property rate-in-the-rand. The City determines the rates ratio for these property categories at 1:2.

5.2. Vacant land

Owners are encouraged to develop vacant land in line with the City's policies. The City determines the rates ratio for vacant land at 1:2.

5.3. Agricultural Property

The *MPRR on Rate Ratio* prescribes that Agricultural properties are to be rated at no more than 25% of the residential property rate-in-the-rand. Thus, the City may rate an agricultural property at any ratio of choice below the prescribed rates ratio of 1:0.25.

Taking into account the limited rate-funded services supplied to agricultural properties in general, the contribution of agriculture to the local economy, the extent to which agriculture assists in meeting the service delivery and development obligations of the City, and the contribution of agriculture to the social and economic welfare of farm workers, the City determines the rates ratio for bona fide agricultural property at 1:0.20.

5.4. Properties owned by an Organ of State and used for public service purposes

Ratepayers contribute to the national *fiscus* through various national taxes for national and provincial government to provide the services set out in the definition of public service purpose.

In addition, the MPRA already provides relief in respect of public service infrastructure. Therefore, properties owned by an organ of state and used for public service purposes should not receive any further benefit and the ratio will be twice the residential rate. The City determines the rates ratio for Properties owned by an Organ of State and used for public service purposes at 1:2.

5.5. Public Service Infrastructure (PSI)

The *MPRR on Rate Ratio* prescribes that, PSI property must be rated at no more than 25% of the residential property rate-in-the-rand. The City determines the rates ratio for PSI property at 1:0.25.

5.6. Properties owned by Public Benefit Organisations (PBOs) and used for specified public benefit activities

The *MPRR on Rate Ratios* stipulates that property owned by PBOs and used for a specified public benefit activity listed in item 1(Welfare and humanitarian); item 2 (Health care); and item 4 (Education and development) of Part 1 of the *Ninth Schedule to the Income Tax Act, 58 of 1962*, will be rated at no more than 25% of the residential property rate-in-the-rand. The City recognises the important role that PBO's play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

The City determines the rates ratio for Properties owned by Public Benefit Organisations (PBOs) and used for specified public benefit activities at 1:0.25.

All other property owned by PBOs that do not fall within the definition as outlined in the *MPRR*, and by virtue of the use of the property, does not fall within any of the other property categories, will be rated as business and commercial property.

5.7. Cemeteries and Crematoria

Properties used as a cemetery or a crematory will receive a rates ratio of 1:0. Cemeteries will not be treated as vacant land and such usage will not attract availability charges in accordance with the Tariff Policy.

5.8. Properties owned by an organisation – not for profit and used for animal welfare

The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

The City determines the rates ratio for these properties at a rates ratio of 1:0.

5.9. Properties owned by an organisation – not for profit and used as an early childhood development facility

The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

The City determines the rates ratio for these properties at a rates ratio of 1:0.25

5.10. Properties owned by an organisation – not for profit and used for youth development

The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

The City determines the rates ratio for these properties at a rates ratio of 1:0.25

5.11. Properties owned by an organisation – not for profit and used as accommodation for the vulnerable

The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

The City determines the rates ratio for these properties at a rates ratio of 1:0.25

5.12. Properties owned by an organisation – not for profit and used as a local community museum

The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

The City determines the rates ratio for these properties at a rates ratio of 1:0.

5.13. Properties owned by an organisation – not for profit and used for an old age home

The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

The City determines the rates ratio for these properties at a rates ratio of 1:0.25.

5.14. Properties owned by an organisation – not for profit and used exclusively for amateur sport

The City recognises the benefit that amateur sport plays within society**.** In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

This category requires that property be used exclusively for amateur sport. The City recognises that in exceptional circumstances an owner may want to host a professional sport event without losing the benefits of this property rating category. An owner may apply to the Chief Financial Officer to host a professional event at their property.

The Chief Financial Officer may grant the request to host a professional event, including imposing any reasonable conditions.

In considering the request, the Chief Financial Officer should take into consideration one or more of the following factors:

- The economic benefit to Cape Town
- The impact on the surrounding community
- The financial impact that the event will have on the owner
- The number of previous professional events approved
- The input from the Events Office of the City
- The duration of the event

Any application needs to be submitted timeously to allow for a considered decision by the Chief Financial Officer.

The City determines the rates ratio for these properties at a rates ratio of 1:0.25.

5.15. Properties owned by a SHRA-accredited Social Housing Institution and used for social housing

The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a reduced rates burden assists these organisations in meeting their objectives.

Non-Residential Properties of such institutions do not fall within this category.

The City determines the rates ratio for these properties at a rates ratio of 1:0.25

5.16. Properties owned by war veterans' associations and used for the welfare of war veterans

The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

The City determines the rates ratio for these properties at a rates ratio of 1:0.25

5.17. Nature conservation land

Private land owners who conserve land through voluntary conservation stewardship ease the burden on the City and other conservation organisations as the land is added to the overall conservation estate but it need not be purchased by an Organ of State. In addition, the costly ecological management of these sites, in particular alien vegetation and fire management are conducted by the landowner as per an approved Environmental Management Plan.

The City determines the rates ratio for these properties at a rates ratio of 1:0

Note: In those instances where the ownership and/or use of a property falls within more than one category of properties, the Municipal Valuer has the discretion to determine which category of property the property will fall into.

- **Rates Ratios**

CATERGORY	RATES RATIOS
Residential Properties	1:1
Industrial Properties	1:2
Business and Commercial Properties	1:2

Nature Conservation land	1:0

6. Exemptions, Reductions and Rebates

6.1. The City may, in terms of the criteria set out in this Policy, exempt a specific *category of owners* of properties, or the owners of a specific *category of properties*, from the payment of a rate levied on their property; *or* grant to a specific *category of owners* of properties, or to the owners of a specific *category of properties*, a rebate *or* reduction in the rates payable in respect of their properties.

6.2. To avoid fruitless and wasteful expenditure, the City will not levy a rate on any private road or any other property where the market value of the property is equal to or less than R50 000 or such other amount as determined by Council from time to time. This clause will not apply when other service charges (including availability charges) or an additional rate in respect of property situated in a special rating area (as contemplated in *section 22* of the *MPRA* and the *Special Rating Area By-law and Policy*) are billed to that property nor will it apply to any units in a sectional title scheme.

6.3. In accordance with *section 15(3)* of the *MPRA*, the Municipal Manager of the City will annually table in the Council of the Municipality a:

6.3.1. List of all exemptions, reductions and rebates granted by the City during the previous financial year; and

6.3.2. Statement reflecting the income of the City foregone during the previous financial year by way of such exemptions, reductions and rebates.

7. Rates Relief Applicable to the Category of Properties

REDUCTION:

Residential Property

As an important part of the City's indigent relief measures aimed primarily at alleviating poverty amongst those persons owning low-value properties, the City will not levy a rate on the balance of the market value up to a maximum amount of R285 000.00 in respect of residential properties assigned in the Valuation Roll.

If more than 40% of the extent of a house or the sectional title unit is being used for purposes other than residential purposes, these properties do not qualify for the residential rebate.

8. Categories of Owners of Properties

The City has determined the following categories of *owners of property* for the purpose of exemptions, rebates and reductions in accordance with *section 15 (2)* of the *MPRA*.

8.1. Indigent

In terms of *sections 3(3)(f)* and *15* of the *MPRA* all indigent owners, for rating purposes, will qualify in respect of their primary place of residence for the benefits as set out in this policy and Chapter 4 of the *Credit Control and Debt Collection By-Law and Policy*. Indigent owners may also qualify for the 100% rebate if the applicant is dependent on pension or a social grant for their livelihood on condition that all other criteria remain applicable. The cumulative rebate shall not exceed 100%.

8.2. Owners who are dependent on Pension or Social Grants for their livelihood

8.2.1. In order to qualify for a rebate, this category of owners must meet the following criteria:

a) be a natural person;
b) be dependent on a pension or social grant for their livelihood - the dependency on pension or social grants is not a sole dependency but there must be a dependency to some degree. At the discretion of the CFO, an owner, applying for the pension rebate, who is still economically active may be considered for the rebate if all the other criteria set out in the paragraph are met and they are not yet dependent on a pension;
c) the property must satisfy the requirements of the category of Residential Property;
d) be the registered owner of the Residential Property; and
e) on 1 July of the financial year:
    i. occupy the property as his/her primary place of residence, provided that where the owner is unable to occupy the property due to no fault of his/her own, the spouse or partner or children (including minor children) may satisfy the occupancy requirement;
    ii. With regards to owners who are dependent on pensions, the applicant must be at least 60 years of age; or if the owner turns 60 during the year the rebate will be granted on a pro rata basis from the date on which the applicant turned 60;

iii. be in receipt of a gross monthly household income not exceeding R17 500 (seventeen thousand five hundred Rand) and proven by the submission of the minimum of three months bank statements from all financial institutions or, if the person does not have a bank account, such proof as the City may require to substantiate the person's level of gross monthly household income.

8.2.2. A *usufructuary* or *habitatio* (right of habitation) or an executor or administrator of a deceased estate will be regarded as an owner. The applicant must produce an Affidavit or a letter from the Master of the High Court or suitably endorsed Title Deed or addendum to the Title Deed to substantiate the appointment.

8.2.3. The criteria of a natural person may be waived at the discretion of the CFO to allow for a property owned by:

8.2.3.1. A trust where at least one beneficiary meets all the other criteria; provided that the gross monthly household income of the persons normally residing on that property be added to the gross monthly household income of all beneficiaries, which income may, collectively, not exceed R17 500.

8.2.3.2. A Close Corporation (CC) where the total number of members meets all of the other criteria; provided that the gross monthly household income of the persons normally residing on that property be added to the gross monthly household income of all members, which income may, collectively, not exceed R17 500.

8.2.3.3. Multiple owners where at least one co-owner meets all of the other criteria; provided that the gross monthly household income of the persons normally residing on that property be added to the gross monthly household income of the co-owners of that property, which income may, collectively, not exceed R17 500.

8.2.4. The criteria of registered owner (per the Deeds Office) may for the purposes of granting exemptions, rebates and reductions be waived at the discretion of the CFO to allow the holder of a share in a share-block company or the holder of a life right and who occupies that property which that person has the right to occupy and such person is responsible for the payment of the rates in terms of their right to occupy, to allow that owner and occupant to apply for this rebate (subject to all the other applicable criteria).

8.2.5. Owners must apply for the rebate in the year when a new GV or SV, as the case may be, are implemented. Applications made when a new GV is implemented must be received by the City by 31 August of the financial year when the GV will be implemented. Applications made when a SV is implemented, must be received by the City by the last day of the third month following the implementation date of the SV, failing which no such rebate may be granted for those financial years.

8.2.6. Where there is a change in the gross household income, the owners must apply for the rebate within three months of the change, failing which no such rebate will be granted for that financial year.

8.2.7. Approved rebate applications will remain valid until the next GV, SV or until a change to the gross household income of those properties are implemented. An owner is required to immediately inform City should the gross monthly household income change.

8.2.8. Any owner, who meets all the other criteria, may apply to receive the rebate from the date of receipt by the City of the application for the remainder of the validity of that GV, where after all the criteria set out above will apply to applications for rebates in subsequent financial years.

8.2.9. If the gross monthly household income changes substantially as a result of the spouse/partner passing away the surviving spouse/partner may apply for the rebate to be adjusted from the date of death.

8.2.10. Where a couple qualifies for a rebate in terms of this paragraph and one passes away and the surviving spouse/partner does not qualify in terms of age / social grant criteria, the rebate may be retained for a period of 12 months from the date of death on condition that the surviving spouse meets the other criteria mentioned herein.

8.2.11. Where a ratepayer qualifies for a rebate in terms of this paragraph and passes away, leaving only a child headed household where the child does not qualify in terms of age or does not receive a social grant, the rebate will be retained for a period of 12 months from the date of death on condition that the other criteria mentioned herein are met.

8.2.12. On application, the gross monthly household income will be rounded off to the nearest rand in order to determine the percentile rate applicable. The percentage rebate granted to different gross monthly household income levels will be determined according to the schedule below.

Gross Monthly Household Income		% Rebate
R 0	R 4 500.00	100%
R 4 501.00	R 6 000.00	95%
R 6 001.00	R 7 500.00	90%
R 7 501.00	R 9 000.00	80%
R 9 001.00	R 10 500.00	70%
R 10 501.00	R 12 000.00	60%
R 12 001.00	R 13 500.00	50%
R 13 501.00	R 14 500.00	40%
R 14 501.00	R 15 500.00	30%
R 15 501.00	R 16 500.00	20%
R 16 501.00	R 17 500.00	10%

8.2.13. Any late applications or deviations from the ownership, occupancy, registration or usage requirements for an exemption, rebate and reduction must be motivated in writing to the CFO and will be dealt with at the discretion of the CFO or his/her nominee, taking account of any factors which he/she deem to be relevant, including, but not limited to considerations of fairness and equity. The CFO or his/her nominee has the right to conduct a full credit check or financial analysis on any person, organization or institution applying for any benefit in terms of this policy.

8.2.14. Should a property owner not be satisfied with the outcome of an application for a rebate in terms of this policy, he/she may lodge an appeal in terms of *section 62* as read with *section 95(f)* of the *Local Government Municipal Systems Act 32 of 2000*.

SECTION C – GENERAL

9. Impermissible Rates

The City will not levy a rate on the properties mentioned in sections 17 of the MPRA.

The City does not levy a rate on a property registered in the name of, and used primarily as a place of public worship by a religious community. This includes the official residence occupied by the primary office-bearer (priest, pastor, minister etc.) who officiates services at the place of public worship.

9.1. In order for a rate not to be levied on a property used as place of public worship, the following documentation is required*:

a) If the property is registered in the name of a Trust, the Trust Deed must be provided, as proof that the property is registered in the name of a trust established for the sole benefit of a religious community; or
b) documentation as proof that the property is subject to a land tenure right.

9.2. In order for a rate not to be levied on the residence of the primary office-bearer, the following criteria must be met*:

a) The religious community must be the registered owner of the property being used as a place of public worship, as well as the residential property, which is occupied by the primary office-bearer.
b) The property must be used for residential purposes and occupied by the primary office-bearer as his/her primary place of residence.

9.3. The following documentation is required in respect of the residence of the office-bearer*:

a) A confirmatory statement from the primary office-bearer stating that he/she resides on the residential property owned by the religious organisation, as his/her primary place of residence; and
b) A copy of proof of address not older than three months (addressed to the primary office-bearer and not to the religious community. A municipal account will not be accepted as proof of address for application purposes).

*The City reserves the right to request additional information/documentation, if so required.

10. Liability for Rates

A property rate is a debt in respect of taxation in terms of *section 11* of the *Prescription Act 68 of 1969,* and the City can recover rates in arrear for a period of up to 30 years.

The due date for payment of rates in terms of *sections 26(2)(a) and (b*) and *78(4)* of the *MPRA* means the date reflected on a municipal invoice as the final date on which payment is due and payable.

Liability for the payment of rates is further governed by the *MPRA* and the *City's Credit Control and Debt Collection* By-Law and Policy.

Rates which are recovered by the City on an annual or a monthly basis, are payable on or before the due date stipulated in the account sent to the ratepayer and payable in full on or before the due date and interest will be charged on rates that are in arrears.

A ratepayer remains liable for the payment of the rates whether or not an account was received and if an account was not received, the ratepayer must make the necessary inquiries from the City to establish the amount due for the rates and to pay that amount to the City.

11. Multiple Owners

The City of Cape Town will not split a municipal account because of multiple owners and will hold the owners jointly and severally liable for payment.

12. Interest on Overdue Accounts

Interest will be raised on overdue accounts as determined in the Credit Control and Debt Collection By-Law and Policy.

13. Effects of reviews, objections and appeals on liability for payment

The lodging of an objection, a review or an appeal in terms of *sections 50, 52 and 54* of the *MPRA* does not defer liability for the payment of rates.

14. City Owned Properties

City owned properties will only be valued where the City intends to impose rates on those properties.

The City Manager or his/her nominee may determine which City properties need to be valued for rating purposes. When the City Manager determines that municipal property is to be valued for rating purposes, the lessee of the municipal property will be regarded as the owner of the property and will be liable for the payment of any rates due. The Municipal Valuer will be responsible for allocating the property to the appropriate property rating category.

A purchaser, in the case where a property was sold by the City and of which possession was given to the purchaser pending registration of ownership in the name of the purchaser at a later date, will be deemed to be the owner and will be liable for the payment of rates and may therefore be eligible for any rates relief.

15. Supplementary Valuation (SV) Effective Date

The effective date in respect of a supplementary valuation will be conducted in accordance with section 78 of the MPRA.

16. Adjustments to previous Valuation Rolls

Rates raised in a previously certified Valuation Roll may be written back with the authority of the Director: Valuations in the following circumstances:

16.1. Administrative errors including incorrect erf extents and erven that were not timeously made inactive:
16.2. Inconsistencies in valuations between valuation rolls where a current objection or appeal has been successful;
16.3. Incorrect attribute data (e.g. dwelling extents) were used to value a property for a historical roll, and require the historical value to be amended in line with the corrected data.

17. Identification and Quantification of Costs and Benefits

The cost to the City and benefit to the local community of exemptions, rebates, and reductions are reflected in the City's budget.

18. Hanging and Holding Properties

For the purposes of creating a single account for properties forming one economic entity, specific contiguous properties may be treated as one property on the valuation roll, i.e., one valuation for a number of contiguous properties. The holding property as well as the hanging properties will be reflected on the roll but the valuation will only be reflected against the holding property.

Properties may be created as one economic entity in terms of the following rules:

a) Properties must be in the same ownership;
b) A building(s) forming an economic entity must straddle all the contiguous erven as if they were consolidated;
c) All municipal services must be linked to the property reflecting the total municipal valuation of the erven treated as if consolidated;
d) A contiguous property with no economic viability or development potential and which is likely to attract no more than a nominal value, e.g. irregularly shaped or small pieces of land that cannot be optimally developed, small uneconomic land extensions for swimming pools or gardening, lanes, stairs, slivers of land bordering rivers, as well as road reserves may be treated as a hanging property even though the requirements of paragraph (b) are not met;
e) Contiguous pieces of agricultural land which are being farmed as one economic entity will also qualify should the other requirements (excluding b) be met;
f) Parking on a separate erf that is essential for the viability of the economic unit; and
g) Sports fields that may or may not be contiguous to a school but form an essential component of the school may be treated as an economic unit.
h) All Public Service Infrastructure property (with exception of Public Service Infrastructure phase out) will be subject to a hanging and holding relationship.

The Municipal Valuer will, in his/her discretion, decide which properties should be treated in terms of the above as hanging and holding.

SECTION D – SPECIAL RATING AREAS

19. Special Rating Areas

The Council may by resolution from time to time determine special rating areas as envisaged in *section 22 of the MPRA* and levy additional rates on properties in areas for the purpose of raising funds as contemplated in the said section and the Council has adopted a By-law and policy to regulate the implementation of such special rating areas.

SECTION E – COUNCIL RESOLUTIONS EFFECTING THE LEVYING OF RATES

20. Special Council Resolution (SPC 07/05/16) dated 30 May 2016

NOTE:

Council Special Council Resolution (SPC 07/05/16) dated 30 May 2016 states:

(a) The Rates Policy 2016/17 be amended with the insertion of:

> *"5.21 Owners of properties in the Diep River Housing Rental Estate who have taken ownership in terms of agreement with the former South Peninsula Municipality and the Steurhof Restitution of Tenancy Rights Committee, and who were evicted lessees in terms of the Group Areas Act are exempted from rates for the first ten years of ownership, calculated from the date of registration in their name. The exemption applies to the owners, heirs, dependants or spouse and lapses upon alienation of the property by the owner, heirs, dependants or spouse. After the ten years the compulsory phasing in of rates are applicable in terms of 21 of the MPRA."*

(b) that the Steurhof Lease Claimants be exempted from rates as per Section 5.21 of the Rates Policy 2016/17

ANNEXURE 6

TARIFFS, FEES AND CHARGES BOOK

2022/23 BUDGET (MAY 2022)

CITY OF CAPE TOWN
2022/2023 TARIFFS, FEES AND CHARGES

PREAMBLE

The purpose of the Tariffs, Fees and Charges book is to outline fees, charges or tariffs in respect of any function or service to the local community which a municipality may set, and includes a surcharge on such tariff.

ALL TARIFFS ARE EFFECTIVE FROM 1 JULY

All Miscellaneous and Consumptive tariffs include VAT except
Fines, Penalties, Refundable Deposits, Housing and Contracted road-based public transport which are exempt from VAT

Tariffs are determined in terms of:

The Local Government Municipal Finance Management Act 56 of
2003 The Local Government Municipal Systems Act 32 of 2000
The Local Government Municipal Property Rates Act 6 of 2004

VAT is calculated at 15% in terms of the Value- Added Tax Act No. 89 of 1991

KEY TO COST RECOVERY CATEGORIES:

PARTIAL COST RECOVERY (PCR)	Where tariffs are set to recuperate, at least in part, the costs of products or services that provide benefits to the users to encourage local economic development e.g. Informal Trading
SUBSIDISED (S)	Where one group of users pay more than the costs of the goods/services that they receive, and the 'surplus' is used to offset the cost of goods/services provided to other users within the same service e.g. Electricity (Lifeline); Water & Sanitation (Domestic Full - Step 1 & 2); Solid Waste (240L Container Service)
SOCIAL BENEFIT (SB)	Where tariffs are set at affordable levels which encourages usage and does not cover the cost of products or services (neither partially nor fully) but provides benefits to low income users e.g. pauper burials/cremations
MARKET RELATED (MR)	Where tariffs are set at a level to ensure financial sustainability of the service e.g. Electricity (Large Power Users)
FULL COST RECOVERY (FCR)	Where tariffs are set to recuperate all costs associated with specific products or services. Full cost represents the value of all the resources used or consumed in the provision of the product or service. In addition to the costs directly associated with these, full cost includes an appropriate allocation of indirect (including capital) costs.

	***		1.CANCELLATIONS OF BOOKING/REFUND OF HIRE CHARGE										
			1.1 Cancellations must be by written notice and submitted to the City's booking offices or online.				Statement amended for clarity and to inform of online option.						
			1.2 An administration fee equivalent to 10% of the tariff applicable to a booking will be levied for every transfer of a booking provided that written notice of intention to transfer is given on or before the 14th day prior to the date originally reserved and the facility being available on the new date requested.										
			1.3 If the booking is cancelled after the payment was received a 10% cancellation fee will be charged, based on the total amount due (excluding breakage deposit).										
			1.4 If a cancellation request is received less than 14 (fourteen) days before occupation, no refund of any money will be made.										
	***		CONCESSIONS										
			The Director: Recreation & Parks, Area Managers: Recreation and Parks, or his or her nominee may grant individuals or organisations concessions as stipulated in Council's Concessions Policy. Commercial users are not entitled to concessions or discounts. Applications are to be submitted via the booking office.				Statement amended pending approval of the Concessions Policy to be considered by Mayco. Commercial - constitutes any usage where revenue is generated. Events involving fundraising are not entitled to request concessions unless they have complied with the Concessions Standard Operating Procedure.						
			1.1 Rebates on Film Permits: If for Cape Town Marketing or Student Film, 100% rebate may be applied in consultation with Cape Town Film Permit Office.				Numbering amended to 1.1.						
			1.2 At facilities operating an electronic access control system, a R50 card fee is applicable per issue. This in addition to the annual club fee at facilities allows clubs access after hours.				Numbering amended to 1.2.

			SPECIAL CONDITIONS										
			The booking, for fund raising and commercial purposes, of resorts,, coastal facilities, parks or sections thereof, where traditionally high volumes of communities make use of such facilities during season and public holidays, is not permitted. This prohibition is applicable particularly where such organisations, individuals or entities will exclude the general public from making use of the facilities and/or where an entrance fee is applicable. Events and activities formally supported by the City are not affected			Swimming pools deleted as the statement contradicts the exclusion clause for swimming pools as bookings for such events are not accepted at swimming pools.					
			EXCLUSIONS										
			Functions: After-hours at swimming pools										
			No bookings are accepted for private after-hours functions in or out of season, due to operational as well as occupational health and safety risk considerations.										
			Filming: No filming bookings can be accepted during peak season school or public holidays, where the acceptance of such booking will inhibit public access to the facility.

		REGULATIONS											
	***	**1.CANCELLATION OF BOOKING/REFUND OF HIRE CHARGE**											
		1.1 Cancellations must be by written notice and submitted to the City's booking offices or online.					Statement amended for clarity and to inform of online option.						
		1.2 An administration fee equivalent to 10% of the tariff applicable to a booking will be levied for every transfer of a booking provided that written notice of intention to transfer is given on or before the 14th day prior to the date originally reserved and the facility being available on the new date requested.											
		1.3 If the booking is cancelled after the payment was received a 10% cancellation fee will be charged, based on the total amount due (excluding breakage deposit).											
		1.4 If a cancellation request is received less than 14 (fourteen) days before occupation, no refund of any money will be made.											
		1.5 Notwithstanding the abovementioned, should a booking be transferred or cancelled, the date of the original booking will be used to determine the amount of refund to which the Lessee is entitled.											
		CONCESSIONS											
	***	The Director : Recreation & Parks, Area Managers: Recreation and Parks or his or her nominee may grant individuals or organisations concessions as stipulated in Council's Concessions Policy. Applications are to be submitted via the booking office.					Statement amended pending approval of the Concessions Policy to be considered by Mayco. Commercial - constitutes any usage where revenue is generated. Events involving fundraising are not entitled to request concessions unless they have complied with the Concessions Standard Operating Procedure.						
		1.1 Rebates on Film Permits: If for Cape Town Marketing or Student Film, 100% rebate may be applied in consultation with Cape Town Film Permit Office.					Numbering amended to 1.1						
		SPECIAL CONDITION											
		The booking, for fund raising and commercial purposes, of resorts, coastal facilities, parks or sections thereof, where traditionally high volumes of communities make use of such facilities during season and public holidays, is not permitted. This prohibition is applicable particularly where such organisations, individuals or entities will exclude the general public from making use of the facilities and/or where an entrance fee is applicable. Events and activities formally supported by the City are not affected

		EVENTS											
		Event application may not be processed or allocated an Event Organiser reference number without venue confirmation letter by the venue owner. Events may only proceed upon receipt of events permit obtainable from Events Office. Conditions of hire for sportsfields as well as consideration of facility user priority are applicable upon consideration of events permit. In addition to a deposit being charged, the Event Organiser must sign a consent form which obliges the Event Organiser full responsibility and accountability for field damages caused by the event. Event Organiser is liable for cost of post event reinstatement where applicable.											
		No parking allowed on Green Point Common fields during events to preserve fields for high sporting demand											
		Refundable deposit for events for 1 to 5 fields = 50% of hire fee. Deposit to increase by 20% per field in excess of 5 fields used.											
		Commercial tariffs applicable to all revenue generating events											
		Non commercial tariffs applicable to all non-revenue generating events.											
		Preparation and dismantling shall form part of the letting period for events and shall be charged at 20% of the applicable tariff. The preparation and dismantling period shall not exceed 2 days. Where an excess of 2 days is required, written approval must be obtained from the Director Recreation & Parks prior to confirmation of the booking.					Statement moved from under Consessions						
		To manage risk and user demand: Users are to ensure the facility suitability in terms of the expectation and scope of the intended event. Event confirmation will be assigned on final issue of event permit and not on reservation of the facility.
