SGB Smit Power Matla (Pretoria)	Yrs	3	Term tender for design, manufacture, delivery, installation and commissioning of power	30 June 2024	60
Tshepo-Themba Engineering	Yrs	3	Design, manufacture, delivery, installation and commissioning of fire protection for powe	30 June 2023	7
Ampcor Khanyisa (Pty) Ltd	Yrs	3	Design, civil and building works, manufacture, supply, delivery to site, off-loading, installation and maintenance of 11 and 33 kV neutral earthing resistors and neutral earthing compensator.	30 September 2023	5
ABB South Africa (Pty) Ltd	Yrs	3	Design, manufacture, delivery, installation, and commissioning of medium voltage indoor switchgear and ancillary equipment for main substations (Item B: Gas-insulated switchgear for extending or replacing existing ABB TYPE ZX1.2 & ZX2).	31 October 2023	42
CBI Electric African Cables	Yrs	3	Design, manufacture, supply and installation of 132 kV underground cable and accessories for Paardevlei – Helderberg.	31 October 2022	25
Mott Macdonald PDNA	Yrs	3	Provision of professional services: Quality assurance inspection of electrical cables, switchgear (HV & MV), ancillary equipment, power transformers, reactors and design review of power transformers and reactors.	17 January 2024	8
Ampcor	Yrs	3	Design, manufacture, supply, delivery to site, off-loading, installation, testing, commissioning and maintenance of 66 (72,5) kV and 132 (145) kV switchgear, associated equipment and civil works.	30 June 2023	30
Sebata Sherq	Yrs	3	Provision of a service provider for the implementation of a new and maintaining of existing Integrated Management System (ISO) for City of Cape Town requirements.	12 December 2022	9
1. Garden and Organics 2. Sisonke Treefellers 3. CT Volkwyn Engineering	Yrs	3	Pruning of trees near bare conductor low and medium voltage overhead lines.	30 January 2023	18
CBI Electric African Cables	Yrs	3	Maintenance, testing, investigations and repairs of high voltage cable installations.	05 May 2024	5
1. Ikapa Reticulation and Flow CC 2. Red Ant Security Relocation and EVI 3. KEV Accurate Measuring	Yrs	3	Electricity meter reading, delivery of warning notices to disconnect supply, disconnection and reconnection, effective disconnections and special investigations to address data purification and meter reading problems.	30 June 2024	21
1. Jake Trading CC 2. Elex Khanyisa 3. Maritz Electrical	Yrs	3	Provision of construction works for the installation and replacement of electrical equipm	03 September 2024	83
Maritz Electrical	Yrs	3	Design, manufacture, supply, installation, removal and maintenance of festive lighting fo	30 June 2023	12
Elex Khanyisa	Yrs	3	Replacement of single phase electrical meters and associated services.	30 June 2024	120
BCB Cable Jointing CC	Yrs	3	Emergency cable jointing.	30 June 2023	5
1.Adenco Construction (Pty) Ltd2. Elex Khanyisa	Yrs	3	Maintenance of highmast public lighting installations.	30 November 2024	15
Element Consulting Engineers	Yrs	3	Provision of professional services: Design and construction monitoring.	30 June 2024	6
Vote 7 - Human Settlements					
1. Sustainable Planning Solutions 2. African Town Planning Solutions 3. Headland Planners JV 4. Urban Dynamics South Cape	Yrs	5	Provision of town planning and urban design services to obtain all the necessary statutory approvals to enable integrated human settlement developments on land parcels within the City.	30 June 2023	14 100
Miradi Architects	Mths	33	Pickwick Transitional Housing - Facilities and Occupant Management.	30 June 2023	7 600
	Yrs	3	Enterprise development and programme management support in establishing and implementing a Contractor Development Framework to implement a turnkey solution to Public Housing offering the following services: Facilities Management, Community Engagement & Liaison, Contractor Development, Project Financing and Supply Chain Management.	30 June 2023	50 000
1. Bergstan South Africa Consulting 2. MZI Development Services 3. Umtha Consultancy	Yrs	5	Provision of beneficiary administration and social facilitation services for integrated human settlement developments within the City.	23 April 2023	32 377

External mechanism Name of organisation	Yrs/ Mths	Period of agreement Number	Service provided	Expiry date of service delivery agreement or contract	Monetary value of agreement 2. R thousand
Vote 8 - Office of the City Manager					
KPMG	Mths	36	Appointment of a service provider for the implementation, management and co-ordination of the City's independent 24 hour fraud hotline.	30 June 2024	325
Document Warehouse	Mths	30	The provision of a scanning, indexing and storage service for the Forensic Services department and Motor Vehicle Registration and Licencing section of the City.	30 June 2023	6 000
Vote 9 - Safety & Security					
Cape of GoodHope SPCA	Yrs	2	Provision of animal care, pound and animal control.	30 June 2023	4 000
Traffic Management Technologies	Yrs	6	Service provider for traffic contravention services.	30 June 2026	38 333
Syntell (Pty) Ltd	Yrs	3	Service provider for traffic contravention services.	30 June 2023	14 000
Computer Specialists (Pty) Ltd	Yrs	3	Supply, installation and maintenance of electronic ticketing and queing system for the various driving licence testing centres.	30 June 2023	1 467
Vote 10 - Spatial Planning and Environment					
Quemic Africa (Pty) Ltd	Mths	59	Visitor and staff safety management within the nature reserves and open spaces of the City.	30 June 2027	25 200
NCC Environmental Services (Pty) Ltd and Sheree Letitia Hendrick-Parker T/A Churchill Auto Centre	Mths	23	Implementation of labour intensive interventions to restore and rehabilitate natural ecosystems (ecological infrastructures).	30 June 2023	4 500
NCC Environmental Services (Pty) Ltd	Mths	35	Management and control of invasive animal species in the City.	30 June 2024	4 000
Contour Trading Academy CC	Mths	31	Removal of invasive plants - Intermediate and high altitude (rope access) sites.	30 June 2024	2 667
P.C Zini t/a Hygiene Services and Likhona Lethu Services (Pty) Ltd	Mths	36	Control of aquatic and terrestrial invasive plants, removal and disposal of biomass and litter from site.	30 June 2023	15 000
Vidamemoria Planners CC t/a Vidamemoria Heritage Consultant	Mths	35	Identification, assessment grading and mapping heritage resources.	30 June 2023	833
NCC Environmental Services (Pty) Ltd	Mths	33	Provision of a service provider to carry out baboon management in the Cape Peninsula.	30 June 2023	17 390
Vote 11 - Urban Mobility

ANNEXURE 28

SCHEDULE OF SERVICE DELIVERY STANDARDS

2022/23 BUDGET (MAY 2022)

Description Standard	Service Level
Building Plans Approval	
How long does it take to approve a building plan (Days)	30 days for structures of <500m2 60 days for structures of >500m2
Solid Waste Removal	
Premise based removal (Residential Frequency)	Once per week
Premise based removal (Business Frequency)	One, three and five times per week
Removal Bags provided (Yes/No)	Yes; Informal Settlements
Garden refuse removal Included (Yes/No)	No; alternative removal per arrangement/request at separate tariff.
Street Cleaning Frequency in CBD	Daily
Street Cleaning Frequency in areas excluding CBD	Adhoc service
How soon are public areas cleaned after events (24hours/48hours/longer)	Within 24hours
Clearing of illegal dumping (24hours/48hours/longer)	Longer; dependant on the amount to be removed and subject to resource availability.
Recycling or environmentally friendly practices (Yes/No)	Yes
Licenced landfill site (Yes/No)	Yes
Water Service	
Water Quality rating (Blue/Green/Brown/No drop)	Blue and Green drop / No drop audit performed.
Is free water available to all? (All/only to the indigent consumers)	Only indigent consumers
Frequency of meter reading? (Per month, per year)	Per month
Are estimated consumption calculated on actual consumption over (two month's/three month's/longer period)	Longer period
On average for how long does the municipality use estimates before reverting back to actual readings? (months)	Latest standard procedure is not to exceed 12 months.
Duration (hours) before availability of water is restored in cases of service interruption:	
* One service connection affected (number of hours)	Within 24 hours (Within 48hrs if meter related)
* Up to 5 service connections affected (number of hours)	Within 24 hours
* Up to 20 service connections affected (number of hours)	Within 24 hours
* Feeder pipe larger than 800mm (number of hours)	Within 48 – 60 hours (Timeframe is however situation dependent - use is made of alternative sources of supply during repairs on the Bulk Water supply system.)
What is the average minimum water flow in your municipality?	Average water production is between 800 and 825 million litres per day and has been on an upward trajectory since the 2015-2018 drought.
Do you practice any environmental or scarce resource protection activities as part of your operations? (Yes/No)	Yes (Water conservation and water demand management programmes, clearing of invasive alien plants in dam catchments)
How long does it take to replace faulty water meters? (days)	Within 48 hours. Can however take up to 28 days depending on circumstances.
Do you have a cathodic protection system in place that is operational at this stage?	Only partial
Electricity Service	
What is your electricity availability percentage on average per month?	97.90%
Do your municipality have a ripple control in place that is operational? (Yes/No)	No
What is the frequency of meters being read? (per month, per year)	Per month
Are estimated consumption calculated at consumption over (two month's/three month's/longer period)	Previous year
On average for how long does the municipality use estimates before reverting back to actual readings? (months)	Always attempt to use actual readings.
Duration before availability of electricity is restored in cases of breakages (immediately/one day/two days/longer)	Immediately
Are accounts normally calculated on actual readings? (Yes/no)	Yes
How long does it take to replace faulty meters? (days)	1 day
Do you have a plan to prevent illegal connections and prevention of electricity theft? (Yes/No)	Yes
How effective is the action plan in curbing line losses? (Good/Bad)	Average
How soon does the municipality provide a quotation to a customer upon a written request? (days)	Dependent on circumstances
How long does the municipality takes to provide electricity service where existing infrastructure can be used? (working days)	3 months
How long does the municipality takes to provide electricity service for low voltage users where network extension is not required? (working days)	3 months
How long does the municipality takes to provide electricity service for high voltage users where network extension is not required? (working days)	3 months
Sewerage Service	
Are your purification system effective enough to put water back in to the system after purification?	Wastewater is treated before returning to the natural environment. A portion of treated wastewater is reused for irrigation and industrial purposes. System = nature = yes / System = water system (Treated Effluent for irrigation and industrial purposes) = Yes

Description Standard	Service Level
To what extent do you subsidise your indigent consumers?	0-4.2kl free + additional 3.15kl subsidised for indigent customers (Additions recommended in 22/23 Budget).
How long does it take to restore sewerage breakages on average:	
* Severe overflow? (Hours)	Within 24 hours
* Sewer blocked pipes: Large pipes? (Hours)	Within 24 hours
* Sewer blocked pipes: Small pipes? (Hours)	Within 24 hours
* Spillage clean-up? (Hours)	Within 24 hours
* Replacement of manhole covers? (Hours)	Within 24 hours
Road Infrastructure Services	
Time taken to make safe Potholes on minor roads after the Department has been informed of the report thereof.	Within 48 hours
Time taken to repair a single pothole on a major road after the Department have been informed of the report thereof? Final repair (weather permitting and materials availability).	Within 15 days
Time taken to make safe Potholes on major roads after the department has been informed of the report thereof.	Within 48 hours
Time taken to repair a single pothole on a minor road after the Department has been informed of the report thereof? Final repair (weather permitting and materials availability).	Within 15 days
Time taken to repair a road following an open trench service crossing? (Service provider is responsible for keeping safe the trench crossing.) Final repair can be within 2 to 6 weeks dependent on depot staff availability or outsourcing via an annual contractor.	6 weeks
Time taken to repair walkways after the Department has been informed of the report thereof? (Make safe)	Within 15 days
Final repair of walkways (dependent on extent of the work required) - Work will be programmed. From 1 week to 3 months.	3 months
Property valuations	
How long does it take on average from completion to the first account being issued? (one month/three months or longer)	1 to 2 months depending on the daily billing cycle for the specific property.
Do you have any special rating properties? (Yes/No)	Yes
Revenue Department	
How long does it take on average from completion to the first account being issued? (one month/three months or longer)	1 to 2 months depending on the daily billing cycle for the specific property.
Do you have any special rating properties? (Yes/No)	Yes
Financial Management	
Is there any change in the situation of unauthorised and wasteful expenditure over time? (Decrease/Increase)	Fluctuates from year to year.
Are the financial statements outsourced? (Yes/No)	No
Are there Council adopted business processes instructing the flow and management of documentation feeding to Trial Balance?	Yes; standard SAP business processes.
How long does it take for an Tax/Invoice to be paid from the date it has been received?	It takes approximately 4.9 days on average to pay an invoice from date of receipt, taking into account all verifications and approval processes performed by involved line departments.
Is there advance planning from SCM unit linking all departmental plans quarterly and annually including for the next two to three years procurement plans?	There is a system for demand management that is incorporated into the Tender Tracking System (TTS), which includes advance planning for term tenders. The system is maintained for the MTREF period subject to the necessary data being provided in a timely and accurate manner by line departments. The Demand Management unit integrates with the Project Management (CPPM) information to link capital projects to either existing contracts or items created in the demand plan where applicable.
Administration (Corporate Call Centre)	
Reaction time on enquiries and requests?	This varies from day to day and also depends on the medium used. Calls are answered within 1 to 2 minutes. This changes when there are spikes in call volumes.
Time to respond to a verbal customer enquiry or request? (working days)	Immediately during the call; depending the nature of the request.
Time to respond to a written customer enquiry or request? (working days)	Acknowledged immediately via auto response and responded to as soon as possible. This varies from queue to queue. Our aim is to acknowledge immediately and respond within 7 days.
Time to resolve a customer enquiry or request? (working days)	Approximately 70% are resolved immediately at first point of contact. 30% resolved by back office according to their service standards. Percentage of calls not answered ranges from 5% to 20%.
What percentage of calls are not answered? (5%,10% or more)	It differs from queue to queue and the time of day, week, month, year and extenuating circumstances. **Percentage of calls not answered ranges from 5% to 20%.**
How long does it take to respond to voice mails? (hours)	We do not use voice mail.
Does the municipality have control over logged enquiries? (Yes/No)	Yes; the City uses the SAP system, which gives us an overview of all customer complaints and service requests reported via the Call Centre.

Description Standard	Service Level
Is there a reduction in the number of complaints or not? (Yes/No)	Yes, there is a general reduction in the number of complaints received. There are spikes in specific types of complaints, e.g. water management devices under guarantee that has now been resolved.
How long does it take to open an account for a new customer? (1 day/2 days/ a week or longer)	There is a difference in the time to open a new account for a new property, which is dependent on the registration process from the conveyancer to the deeds office. This takes up to 3 months.
How many times does SCM Unit, CFO's Unit and Technical unit sit to review and resolve SCM process delays other than normal monthly management meetings?	Process delays are tracked by SCM Management and engagements with respective line departments take place on an ongoing basis.
Community safety and licensing services	
How long does it take to register a vehicle? (minutes)	15 min
How long does it take to renew a vehicle licence? (minutes)	5 min
How long does it take to issue a duplicate vehicle registration certificate? (minutes)	15 min
How long does it take to de-register a vehicle? (minutes)	10 min
How long does it take to renew a drivers license? (minutes)	40 - 120 minutes due to social distancing protocols (facility dependant)
What is the average reaction time of the fire service to an incident? (minutes)	Between 8 to 20 minutes
What is the average reaction time of the ambulance service to an incident in the urban area? (minutes)	N/A - Provincial Competency
What is the average reaction time of the ambulance service to an incident in the rural area? (minutes)	N/A - Provincial Competency
Economic development	
Did your municipality participate in the Sub-National Doing Business Survey, and have the results been analysed to design interventions to promote the ease of doing business in your municipality? (Yes/No)	Yes
Does the municipality have a consolidated spatial view of its key business districts and the interventions required to unlock or promote economic growth in these areas, and is this information taken into account in the City's infrastructure planning – including the Built Environment Performance Plan? (Yes/No)	The City monitors information from valuation data as well as surveys and other studies to determine economic activity. The nodes are contained in the Metropolitan Spatial Development Framework (MSDF) for the City, approved in 2018. Further work is in progress to assess the data and make various assumptions about more localised economic activity to inform the Land Use Model. The Land Use Model has been used to inform the sector plans concluded in the 2021 financial year. These detail the infrastructure requirements for utilities. This data has further informed the new District Spatial Development Frameworks (DSDFs) which are expected to go out for public participation in July 2022. The DSDF plays a critical role in providing a holistic view and integration between sectors as well as utilising place-based decision making approaches which are a critical component to economic stimulus. Several existing mechanisms are being proposed by the new DSDF and are outlined below: - NDAs (New Development Areas) – land with opportunity for new residential and non-residential (mainly economic) development; - DFAs (Development Focus Areas) – spatially targeted areas with significant development and redevelopment potential that require prioritised for public investment. These have been identified using the following criteria: * Targeted areas for urban restructuring that have the highest potential spatial transformative impact (i.e. addressing issues of spatial fragmentation, economic opportunity, inefficient urban form and segregation by integrating communities and increasing opportunities to a greater number of people in highly connected areas). * Areas linked to projects with a multi-sectoral focus where there is funding available (be it operational and/or capital), or funding to be applied for, for planning that will give rise to implementation (i.e. LASDFs, Precinct Plans etc.). (Planning work should at least commence within the lifespan of the DSDF). * Priority Areas of Opportunity as identified in CLDP and Integration Zones that would serve as catalysts to unlock the potential for integrated development with cross-cutting benefits e.g. Bellville PTI, Philippi East. * Areas with highest levels of accessibility (i.e. within nodes and along development corridors). * Potential to attract private sector investment. * Business precincts with high locational potential that require infrastructure or public investment to catalyse said potential (Mainly Transition and Opportunity Areas from ECAMP). * These areas inform spatial prioritisation for investment. This methodology has also been incorporated in the annual prioritisation of the proposed capital budget and projects to ensure alignment.
How many job opportunities have been created through the municipality's EPWP and/or Community Work Programme in the last financial year?	31 871 job opportunities
How many projects does the municipality drive to support small business growth and entrepreneurship?	Enterprise & Investment = 17 Social Development and Early Childhood Development = 16

Description Standard	Service Level
Does the municipality have an active partnership with academic institutions in the region in order to grow the local skills base? (Yes/No)	Yes
Does the municipality have an internship and/or apprenticeship programme to support skills development? (Yes/No)	Yes - Internship and apprenticeship programs
Does the municipality have active programmes to promote its business sectors and attract investments? (Yes/No)	Yes
Does the municipality have any incentive plans in place to create a conducive environment for economic development? (Yes/No)	Yes, financial and non-financial incentives available to new investment and expansion of existing investment in 6 spatially targeted areas.
Other Service delivery and communication	
Is an information package handed to the new customer? (Yes/No)	No
Does the municipality have training or information sessions to inform the community? (Yes/No)	Yes
Are customers treated in a professional and humanly manner? (Yes/No)	Yes
EPWP & CWP	
Randomisation of names for 10 -20 jobseekers	3 working days
Randomisation of names for 20 or more jobseekers	5 working days
Processing of Project Initiation Documents (PIDs)	5 working days
Liquor License Applications	
Public Participation to be conducted -	
Section 36 Applications (new applications)	Within 35 days from date on which Liquor Authority places the advert.
Section 48 (1) Applications (temporary liquor licence applications)	Within 8 days on which the application is received.
Section 48 (4) Applications (event liquor licence applications)	Within 8 days on which the application is received.
Area Economic Development	
Advertising and Application for Trading Bay -	
Advertising of vacant Trading Bay	Advert runs for 10 days
Generation of automatic sms to preferred Trader for screening interview	Within 3 days after the closure of advert.
Traders response to sms	Outside control of AED (could be 1 day or 5 days)
Screening of successful Trader and initiation of approval workflow	5 days for completion
Final approval of successful Trader	1 day after completion of approval workflow

PART ONE – ANNUAL BUDGET

1. Chairpersons report and resolutions

Please see separate report.

2. Executive summary

Since it opened its doors in 2003, the Cape Town International Convention Centre (CTICC) has met and exceeded its intended purpose—to contribute to economic growth and job creation in the city and province, by hosting international and national conferences, meetings, exhibitions and events.

The regulations issued by the government to protect the health and safety of citizens had an adverse impact on the operations of the CTICC from March 2020, onwards. At the time of writing, attendance at events has been increased to 1,000 people and international travel is slow in its recovery. As such, we do not expect operations to return to what it was prior to the pandemic. This business plan and budget have been developed on the expectation that the current restrictions will be in place for the full financial year under consideration and beyond. Should event sizes be restricted the budget could be unattainable and an adjusted budget will have to be prepared.

The current restrictions allow events of up to 1,000 people in attendance, which has allowed larger events to be hosted. This has had a significant effect on the trading environment and has required that CTICC 1 be re-commissioned to host larger events.

With the increase in events hosted the company will likely sell fewer Class "C" shares to the City of Cape Town during the financial year than was originally anticipated when the 2021/22 budget was presented. This will have a positive impact on the company's ability to remain a going concern for the foreseeable future.

The budget has been prepared taking into account the impact the current Covid-19 regulations' impact on the operations during the budget year. The key assumptions made in preparing the budget include the following:

a. Events contracted and on the books (Forward Book) as at December 2021 as well as a "blue-sky" portion for the year, assuming that the current limit of 1,000 people for indoor events will remain for the full budget period.

b. Additional costs related to the re-commissioning of CTICC 1 to host larger events booked in the venue.

c. The freeze on non-critical vacancies to remain.

d. No provision made for bonusses.

e. Salary increments have been budgeted.

f. Labour broker contract to be awarded to secure staff to host events.

g. Staff to reduce leave balances by taking leave during slow periods.

h. Remote working to be retained to limit costs, such as electricity, water, cleaning, office costs, staff meals, etc.

i. Maintenance to continue on all equipment and infrastructure to sweat existing assets and retain cash flow.

Each business unit has a detailed action plan and an implementation framework for the next year that supports business objectives. These unit strategies support the core business strategy, explain how key performance indicators will be achieved and outline how each unit will contribute to the sustainability of the organisation.

The CTICC's overall impact is not judged solely on its own financial results but its overall benefit to the citizens of Cape Town, the Western Cape and South Africa.

Given the company's economic mandate, the CTICC continues to focus on expanding its regional and broader international reach. Now, more than ever, it is important to ensure that the CTICC plans for the future and adapts in a way that allows it to achieve success in the post-pandemic environment. Sales, client relations and marketing strategies are in place to, first, keep the CTICC top of mind with key role-players and decision-makers and, second, position the CTICC as a venue that has the staff, skills, track-record and vision to deliver and exceed clients' expectations. The CTICC has several client engagements planned, nationally, regionally and internationally, to support this strategy.

3. Annual budget tables

The basis of measurement and accounting policies in preparation of the budget has been consistent with prior years. *Refer 4. Overview of budget-related policies*.

PART TWO – SUPPORTING DOCUMENTATION

1. Overview of budget process

The 2022/23 budget process followed a similar approach to that used in previous years. The budget takes into account the current market conditions, such as the impact of the Covid-19 pandemic, inflation, historical trend analysis, as well as the proposed city budget guidelines. Zero-based budgeting was used, where all expenses were justified and analysed for the centre's needs and cost.

2. Strategic alignment with the City **of Cape Town's** Integrated Development Plan (IDP)

The CTICC is committed to ensuring its activities align with and support the City of Cape Town's Integrated Development Plan (IDP). The CTICC's business plan is geared towards developing the sectors identified by the City of Cape Town and the Western Cape Government as strategic areas for job creation and economic growth.

Annexure A illustrates the alignment between the CTICC and the City of Cape Town. The CTICC's business strategy is geared towards driving the knowledge economy and contributing to growth in the key economic sectors identified by both the City of Cape Town and the Western Cape Government as strategic areas for job creation and economic growth. The economic sectors identified, which are subject to change upon the release of the new IDP in 2023, include:

- Oil and Gas
- Tourism
- Agro-processing
- Business Process Outsourcing
- Renewables
- Film
- Electricity
- Water
- ICT
- Logistics
- Financial Services
- Education
- Health
- Marine

The City of Cape Town's IDP focus areas compared to the CTICC's Business Objectives has been attached as Annexure A.

3. Key performance indicators 2022/23

As a results-driven organisation, much emphasis is placed on attainment of targets, firstly at an organisational level, and then cascading down to departmental and finally to individual performance assessments. The system of performance management is integral to achieving the financial and non-financial targets. The CTICC's performance is measured by the City of Cape Town against a set of Key Performance Indicators (KPIs). These are reviewed annually. The KPIs as referred to in Annexure B, have two specific financial areas namely, operating profit and capital projects.

These are key performance indicators which measure the financial performance of the CTICC.

4. Overview of budget related policies

The budget policies effective at the time of the budget preparation are as follows:

4.1 Annual Leave Policy
4.2 Asset Management Policy
4.3 Business Travel and Subsistence Policy
4.4 Cancellation Terms and Conditions Policy
4.5 Cost Containment Policy
4.6 Cell Phone Policy
4.7 Credit Control and Debt Collection Policy
4.8 Non-executive Directors and Audit Committee Members' Remuneration Policy
4.9 Optimal Yielding Policy
4.10 Entertainment Policy
4.11 Fraud Policy
4.12 Investment Policy
4.13 Mobile Device Policy
4.14 Overtime Policy
4.15 Petty Cash Policy
4.16 Procedures for Acceptance and Receipt of Gifts Policy
4.17 Reward and Recognition Policy
4.18 Uniform Policy

These policies are available for inspection upon request.

5. Overview of budget assumptions

Revenue

Venue rental has been budgeted to contribute 59.0% of total revenue and is accordingly budgeted to increase by 298.3% compared to the 2021/22 adjustment budget. The main reason for this is the relaxation of the restrictions, that are assumed to allow at least 1,000 people for indoor events, for the entire financial year, as well as the willingness of clients to host events and people eager to attend.

Food & beverage revenue is calculated on a percentage of venue rental income, which in turn is based on the events in the booking system. Total food and beverage revenue of R33.4 million is budgeted for the year, which is up 269.6% on the previous year due to the relaxation of restrictions and larger events hosted.

Other Income is directly dependent on the events held at the CTICC, with the exception of the turnover rental received. This category is budgeted at R18.0 million. Interest received of R0.7 million is being budgeted as the company will have the Client Advance deposits which will be invested in interest bearing accounts.

Direct Costs

The cost of sales budget is in line with the historic trend of the CTICC and takes into account the business levels expected, which is higher than the previous year.

Indirect Costs

Total indirect costs are budgeted at R154.6 million, an increase of 16.9% on the prior year. When it is considered against the revenue increase of 152.7% it becomes more apparent that the level of fixed costs the company has in maintaining the facilities, even when it is idle. The following has been taken into account when budgeting for the indirect costs:

a. CTICC 1 to be re-commissioned for the entire financial year.
b. Salary increments budgeted from July 2022.
c. No performance bonus provided.
d. Freeze of all non-critical positions remains.
e. Limiting the increases in the building related costs such as cleaning, security, landscaping, window cleaning and maintenance as events are hosted again.
f. Reduction in office costs as a result of continuing remote working.

The budgeted costs of all categories in indirect costs are increasing as a result of events being hosted, inflation and contract cost increases and additional costs incurred in marketing and travel costs. A brief explanation for the increases in the categories follows:

- Payroll costs are only expected to increase by 13.3%, which accounts for filling critical vacancies required and the salary increment.

- Utility costs are expected to increase by 8.0% due to the tariff increases anticipated in July and due to the events hosted. This has been reduced by the lower rates costs due to the reduction in the municipal valuation of CTICC 1 after the rates objection process was completed.
- Maintenance costs increase by 26.4% due to the increased events and maintenance of infrastructure required as many items have not been replaced due to the drop in capital expenditure over the last 2 financial years.
- Building costs are increasing by 41.7% due to more events being hosted and includes security, cleaning, refuse removal and pest control and the re-commissioning of CTICC 1 for the full year.
- Marketing and corporate communications are up by 8.3%, activities are increased.
- Travel costs are expected to increase as the company will be able to send representatives to attend international trade shows and events as well as conduct client engagement meetings, to attract much needed business.
- Advisor and professional services costs are up by 2.7% and includes internal audit, company secretary, legal fees, labour relations and staff wellness service providers.
- Office costs are increasing by 19.5% due to costs related to admin functions, bank charges and external audit services.
- Computer expenses are increasing by 7.1% due largely to inflationary increases and forex related costs.
- Catering materials up by 87.0% due to costs related to events being hosted.

Depreciation of R45.2 million has being budgeted for the year, this is reducing over the prior year due to the impairment losses applied to the assets over the past 3 years. There is no budget required for the impairment loss based on the value in use calculation conducted.

6. Overview of budget funding

The CTICC is a cash generating entity and its operational and capital expenditure has historically been self-funded through cash generated from operational activity and reserves. However, over the past 2 years due to the current restrictions placed on its operations the shareholders have been approached to provide funding for operational purposes. The City of Cape Town (CoCT) has approved the purchase of 50,000 Class "C" ordinary shares up to a maximum of R200 million. The CTICC will sell shares to the CoCT during the 2022/23 financial year as and when a cash flow shortage is projected. It is estimated that the CTICC will raise R53.0 million in the year from share sales.

7. Expenditure on allocations and grant programs

The CTICC is not the beneficiary of allocations and grants, and all operational and capital expenditure are funded through cash generated, reserves and shareholder funding.

8. Board member allowances and employee benefits

The Board of Directors and Audit and Risk Committee members do not receive any allowances and are only paid fees for their attendance of board and committee meetings. The fees are determined by the City in terms of national guidelines issued by National Treasury. The fees breakdown for the budget year is as follows:

Detail	Members	Chairman
Board and Committee meetings Committees include: Audit and Risk Committee Nominations Committee Finance Committee Social and Ethics Committee HR & Remuneration Committee Ad Hoc Meetings	R 672 830	R 86 816

The following table represents the personnel employed by the CTICC.

Detail	Count	R'**000**
No. of board members	8	760
Senior managers (incl. CEO)	4	8 371
Other managers	19	
Other staff members	134	50 821
Total personnel	165	59 952

9. Monthly targets for revenue, expenditure and cash flow

REFER ANNEXURE C

10. Contracts having future budgetary implications

The contracts with suppliers have been included in the normal operational expenditure budget.

11. Capital expenditure details

REFER ANNEXURE C

12. Legislation compliance status

The legislative checklist is done on an annual basis and there are no areas of non- compliance.

13. Other supporting documents

None.

ANNEXURE A (conti.)

The Alignment Between the CTICC's Business Objectives and the City of Cape Town's Integrated Development Plan Focus

City of Cape Town 2023 – 2027 IDP Priorities	CTICC Business Objectives (2023 – 2027)
Economic growth	The CTICC aims to: • Maximise economic impact and job creation through business events • Diversify the business to incorporate other revenue models • Maintain good corporate governance • Maintain good customer service • Continue human capital development of workforce • Good corporate citizenry
Public space, environment and amenities	The CTICC aims to: • Maintain the accredited quality of our infrastructure • Limit the business' operations impact on the environment • Improve our health and hygiene protocols and standards to reduce exposure to communicable diseases
Safety	The CTICC aims to: • Create a safe environment around the CTICC precinct • Create a safe working environment for our staff

Key Performance Indicators

#	CATEGORY	IDP Priority	Objective	Programme	INDICATOR	INDICATOR DEFINITION	TARGET 2022/2023 [2]	TARGET 2023/2024 [2]	TARGET 2024/2025 [2]	TARGET 2025/2026 [2]	TARGET 2026/2027 [2]
1	International events	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.3 Inclusive economic development and growth	Number of international events hosted	The indicator measures the total number of international events hosted at the CTICC. International events are defined as an event where the majority of the delegates are from outside of South Africa. The minimum number of delegates attending should be no less than 40 and the duration should be at least two days (one night) within the city.	12	17	21	25	29
	Total events hosted	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.3 Inclusive economic development and growth	Number of total events hosted	The indicator measures the total number of events hosted at the CTICC.	195	250	320	380	420
2	Human Capital Development	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.1 Ease of doing business	Percentage of annual total salary cost spent on training of permanent and temporary staff (%)	The indicator measures the percentage annual total salary cost spent on the training of permanent and temporary staff	3,5%	4%	4%	4%	4%
3	Customer Centricity and Service Excellence	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.1 Ease of doing business	Percentage of minimum aggregate score for all CTICC internal departments and external suppliers (%)	Customer centricity and service excellence are measured independently on the level of service offered by the CTICC to our external clients and recorded as a percentage.	75%	80%	80%	80%	80%

4	Supply Chain Procurement from B-BBEE Suppliers	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.3 Inclusive economic development and growth	Percentage B-BBEE spend (%)	The indicator measures the percentage of expenditure with B-BBEE suppliers measured in terms of the B-BBEE Act. B-BBEE suppliers are defined as those suppliers that have a valid B-BBEE rating certificate or an affidavit in the case of EME and QSE suppliers.	70%	70%	70%	75%	75%
5	Tertiary Student Programme: Contribution to Youth Employment and Skills Development	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.3 Inclusive economic development and growth	Tertiary students employed (Number)	The indicator measures the number of students employed at the CTICC in the FY	2	3	4	4	4
6	Graduate Programme: Contribution to Youth Employment and Skills Development	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.3 Inclusive economic development and growth	Number of graduates employed (Number)	The indicator measures the number of graduates employed at the CTICC in the FY	2	3	4	4	4

#	CATEGORY	IDP Priority	Objective	Programme	INDICATOR	INDICATOR DEFINITION	TARGET 2022/2023 [2]	TARGET 2023/2024 [2]	TARGET 2024/2025 [2]	TARGET 2025/2026 [2]	TARGET 2026/2027 [2]
7	Number of people from the employment equity target groups employed in the three highest levels of management, in compliance with the municipal entity's approved employment equity plan	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.2 Modernised and Adaptive Governance	Employees from the EE designated groups in the three highest levels of management (%)	The indicator measures the percentage of people from employment equity target groups employed in the three highest levels of management, in compliance with the municipal entity's approved EE plan. Level 1 - Executive directors Level 2 - Senior managers Level 3 - Managers	75%	80%	80%	80%	80%
8	Quality Offering	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Maintain five-star tourism grading through effective management of maintenance quality service delivery.	The indicator measures the standard of the CTICC as a world-class venue. Defined as 5-Star Grading by South African Tourism	Maintain five-star tourism grading through effective management of maintenance quality service delivery.				
9	Budget										
	Reduction in year-on-year Operating Loss [3]	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Percentage reduction in Operating Loss [3] from the prior year (%)	This indicator measures the % reduction in the Operating Loss achieved from the prior year. Operating Loss is defined as earnings before interest, taxation, depreciation and amortisation (EBITDA).	45.4%	90.5%	n/a	n/a	n/a

#	CATEGORY	IDP Priority	Objective	Programme	INDICATOR	INDICATOR DEFINITION	TARGET 2022/2023 [2]	TARGET 2023/2024 [2]	TARGET 2024/2025 [2]	TARGET 2025/2026 [2]	TARGET 2026/2027 [2]
	Operating Profit [3]	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Percentage achieved of annual budgeted operating profit [3] (%)	This indicator measures the operating profit achieved. Operating profit is defined as earnings before interest, taxation, depreciation and amortisation (EBITDA).	n/a	n/a	100%	100%	100%
	Capital Projects	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Percentage of the total number of capital projects for the year completed or committed (%)	The indicator measures the percentage of the total number of capital projects completed or committed for the financial year.	90%	90%	90%	90%	90%
10	Governance										
	External Audit Report	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Opinion of the Auditor-General	The indicator measures good governance and accounting practices and will be evaluated and considered by the Auditor-General in determining his opinion. An unqualified audit opinion is where the auditor, having completed the audit, has no reservation as to the fairness of presentation of financial statements and their conformity with generally recognised accounting practice. This is referred to as a 'clean audit'. Alternatively, the auditor would issue a qualified audit opinion either in whole or in part over the financial statements if these have not been prepared in accordance with generally recognised accounting practice, or the auditor could not audit one or more areas of the financial statements.	Clean Audit Report				
11	Financial Ratios										

#	CATEGORY	IDP Priority	Objective	Programme	INDICATOR	INDICATOR DEFINITION	TARGET 2022/2023 [2]	TARGET 2023/2024 [2]	TARGET 2024/2025 [2]	TARGET 2025/2026 [2]	TARGET 2026/2027 [2]
	Ratio of Cost Coverage maintained (RCC)	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Cash/cost coverage ratio (NKPI)	The ratio indicates the ability to meet at least monthly fixed operating commitments from cash and short-term investments, without collecting any additional revenue during that month.	2.5 times	2 times	3 times	3 times	1 times
	Net Debtors to Annual Income (ND)	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Net Debtors to annual income (NKPI)	Net current debtors are a measurement of the net amounts due to the municipal entity that are realistically expected to be recovered. Net Debtors is defined as gross debtors less impairments and refunds.	6.4%	5.0%	5.0%	4.5%	4.5%

1. *The baseline figures currently reflect the audited actual achievement as of 30 June 2021.*
2. *The targets are a draft and will be presented to the CTICC Board for approval in March 2022.*
3. *Operating profit/(loss) is defined as earnings before interest, taxation, depreciation and amortisation (EBITDA).*

Executive Summary

This document represents the Cape Town International Convention Centre (CTICC)'s Five-Year Business Plan for 2023 – 2027.

Since opening its doors almost two decades ago, the CTICC has focused on building a resilient brand on the global business events stage. The continued interest in the CTICC as a venue to host conferences and trade exhibitions, most notably those in the medical and scientific fraternities, signifies the strength and flexibility of the venue and destination.

The meetings, incentives, conferences and exhibitions (MICE) industry has been one of the hardest-hit sectors over the past 20 months due to the regulations impacting travel and events. Even with many businesses and associations worldwide re-evaluating their position on business travel, the CTICC has maintained its reputation as an agile, innovative and desirable world-class space for knowledge sharing and meeting.

As the CTICC is a state-owned entity, this document is duly aligned with and guided by the City of Cape Town's Integrated Development Plan (IDP) and its strategic priorities. The city's six priorities and three foundations focus on making Cape Town the City of Hope. The business plan also aligns with the Western Cape Government's Economic Growth Strategy.

Despite global and economic challenges, the CTICC's financial history showed that the organisation generated an operating profit year-on-year before the Covid-19 pandemic. To ensure that the business rebuilds and reverts to making a profit as soon as possible, each business unit operates according to an implementation framework and action plan detailed for the next five years. These support the core business plan and explain how key performance indicators (KPIs) will guide each unit's contribution to the organisation's sustainability.

The core plans for each business unit are:

- The event and sales team will secure the forward book and grow the repeat events segment annually by promoting multi-year deals.

- The conference and exhibitions services team will focus on increasing revenue year-on-year as of the 2024 financial year, and leverage technology to host hybrid events to assist clients in improving attendance figures for events.

- Sales will focus on growing the pre-defined market segments. It will also build and strengthen the existing brands under the own events segment.

- The marketing and communications team will continue to build the brand's equity to ensure customer confidence. They will use data to develop content that is relevant to its key audiences to have maximum and measurable impact.

- The revenue management team will focus on increasing the CTICC's average occupancy year-on-year through several tactics, such as revised pricing strategies and increasing long-term contracts with corporates.

- The food and beverage team will focus on improving the cost-effectiveness of the operation and maintaining its ISO 22000:2018 certification.

- Facilities management and technical services' priority for the next five years will be the continued maintenance of the venue while reducing operational and capital expenditure.

- The finance team will ensure that the business sustains its sound financial governance and track record of unqualified audits for the next five years and into the future. At the same time, the supply management team will implement a fully integrated contract and demand management platform.

- The Human Resources (HR) Department will ensure that the CTICC remains an employer of choice to attract, recruit and retain a diverse workforce that meets the organisation's demands.

- The safety and security team will ensure the safety of the CTICC's staff, clients, delegates and suppliers through an enhanced security infrastructure, and maintain its relationship with key stakeholders, such as the Cape Town Central City Improvement District (CCID) and the South African Police Service (SAPS).

- The Information Technology (IT) team will ensure that all technology deployed supports the business activities of the organisation and the needs of the clients and visitors.

The CTICC is committed to building and upholding an ethical business culture. It is a participant of the United Nations Global Compact (UNGC) and commits to the UNGC's Ten Principles covering human rights, labour, environmental protection and anti-corruption. Economic, social and environmental sustainability is reflected in every aspect of the business. The CTICC formalised its sustainability commitment in 2008 through the Nurture Our World (NOW) committee, which has representation from each department to ensure that triple-bottom-line sustainability underpins everything it does.

The CTICC has reduced water consumption through its environmental sustainability practices for several years. Since 2018, the CTICC has saved 64 million litres of water, and plans are in place to be more water resilient in the future. The CTICC remains vigilant about waste reduction in general and minimising waste to landfill. Its recycling efforts begin with eco-procurement and aims to work primarily with suppliers who offer reusable and recyclable products where possible.

The impact of the efforts by the CTICC on its triple bottom line continues to show positive results, and the CTICC will remain focused on innovation as a key business driver and strategic differentiator over the next five years and beyond.

The CTICC is also committed to innovation and forward thinking and will continue to find new ways to build the business, support the community and create jobs using its adaptable space.

1. Strategic Focus

1.1 Forging the Future of the CTICC

The CTICC of the future will reflect its established success of the past – its success as a globally recognised and respected tourism industry icon and world-class centre of operations.

Although the Covid-19 pandemic has devastated the business events industry, at the CTICC, we hold the view that Covid-19 has given us the opportunity to evolve and become the convention centre that leads the disruption of what "space" can be. This has resulted in a strategy for re-purposing and re-imagining the CTICC.

The new strategy that the CTICC will be adopting in the next two years will position us as a significant global player in the fields of technology and innovation. As such, the Five-Year Business Plan presented here will, in the next year, include amendments to incorporate our new approach.

1.2 Purpose

We connect people to create jobs by attracting events in key economic sectors and exceeding our clients' expectations.

1.3 Mission

We will bring the purpose to reality by:

- Maximising economic spin-off and job creation.
- Focusing on innovation and exceeding expectations.
- Achieving service excellence by building capable and quality staff.
- Being a world leader in sustainability.

1.4 Values

At the very core of the CTICC, underpinning its purpose, mission and vision, lies a set of brand values displayed in every part of the organisation. Passion, integrity, innovation and excellence are more than just words at the CTICC. They are the actions that guide the teams' motivation and drive business processes, ensuring that the team thrives and that the CTICC's clients and stakeholders benefit from it.

- Passion: We live to go beyond.
- Integrity: We are transparent in all our actions.
- Innovation: We create magic that gives us the edge.
- Excellence: We create superior experiences.

- Gratitude: We are appreciative of the opportunities provided by the CTICC, the City of Cape Town, and the country we live in.
- Caring: We care for one another, our clients, our business, our building, and our equipment.

1.5 The Alignment with the City of Cape Town's Integrated Development Plan and Strategic Economic Sectors

The CTICC is committed to ensuring its activities align with and support the City of Cape Town's Integrated Development Plan (IDP). The CTICC's business plan is geared towards developing the sectors identified by the City of Cape Town and the Western Cape Government as strategic areas for job creation and economic growth.

The economic sectors identified, which are subject to change upon the release of the new IDP in 2023, include:

- Oil and Gas.
- Tourism.
- Agro-processing.
- Business Process Outsourcing.
- Renewables.
- Film.
- Electricity.
- Water.
- ICT.
- Logistics.
- Financial Services.
- Education.
- Health.
- Marine.

Table 2: The Alignment of the CTICC's Business Objectives with the City of Cape Town's Integrated Development Plan Priorities

City of Cape Town 2023 – 2027 IDP Priorities	CTICC Business Objectives (2023 – 2027)
Economic growth	The CTICC aims to: • Maximise economic impact and job creation through business events • Diversify the business to incorporate other revenue models • Maintain good corporate governance • Maintain good customer service • Continue human capital development of workforce • Good corporate citizenry
Public space, environment and amenities	The CTICC aims to: • Maintain the accredited quality of our infrastructure • Limit the business' operations impact on the environment • Improve our health and hygiene protocols and standards to reduce exposure to communicable diseases
Safety	The CTICC aims to: • Create a safe environment around the CTICC precinct • Create a safe working environment for our staff

2. Contextual Analysis

For the CTICC to grow and sustain growth, it has a set of strategies to guide it. These strategies ensure that the organisation maintains its solid financial foundation and prepares for challenges ahead. As part of the planning process, several strategic interactions were held over the last year. These meetings included several stakeholder engagements, strategic management planning sessions and staff meetings. The interactions focused on re-shaping the future of the CTICC and setting a north star for the team. The team also undertook a political, economic, sociological, technological, legal and environmental (PESTLE) and strength, weakness, opportunity and threat (SWOT) analysis, and an independent external provider compiled the competitive analysis.

2.1 Competitive Analysis

In April 2021, the CTICC undertook an analysis to determine its competitive position. The study sought to unpack the external context and the market forces affecting the CTICC, as well as a review of internal performance to assess the accomplishment of the CTICC's eight market segments. An independent research team did a benchmarking exercise based on four key variables (location, facilities, price, and customer experience) to identify the foremost international, national, and local competitors.

The analysis identified the CTICC's 12 main competitors, as shown in Figure 1 below.

Figure 1: Key Competitors

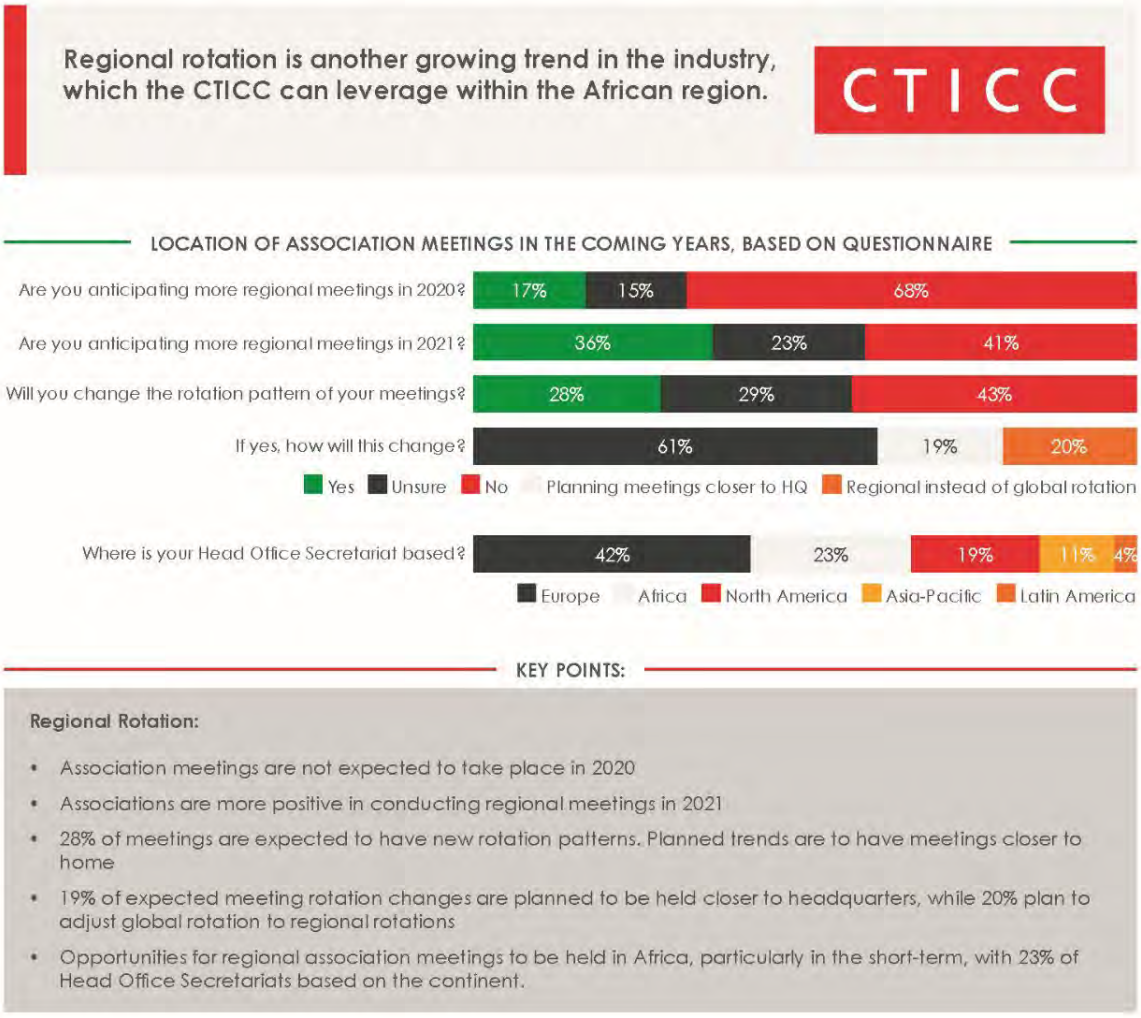
Source: CTICC Competitor Analysis, 2021

The key findings of the study included the following:

- The CTICC is operating in an industry that is growing but at a slow pace.
  The historic growth of the meetings, incentives, conferences and exhibitions (MICE) industry can be attributed to industrialisation and the globalisation of trade. Recent geopolitical conservatism and the consequent stagnation in trade openness have slowed the growth of the international meetings industry. Travel restrictions have significantly impacted the industry in response to the global Covid-19 pandemic. It is anticipated that the industry will return to normal and that the market will recover from 2022.

- Regional rotation is growing in the industry, creating opportunities for the CTICC to compete.
  Regional rotation refers to the move by associations to hold their meetings within regions (i.e., North America, Latin America, etc.) Regional rotation is an important development for the CTICC, as 23% of surveyed association secretariats reside within this region. This is behind Europe with 42%. The area has usually fallen behind the traditional regional leaders (i.e., North America and Europe) in economic development, infrastructure and facilities. In this regard, South Africa, and particularly Cape Town, holds a competitive advantage on the continent, with its world-class infrastructure and facilities, positioning Cape Town as a sought-after business events location, both regionally and globally.

  Figure 2: Regional Rotation



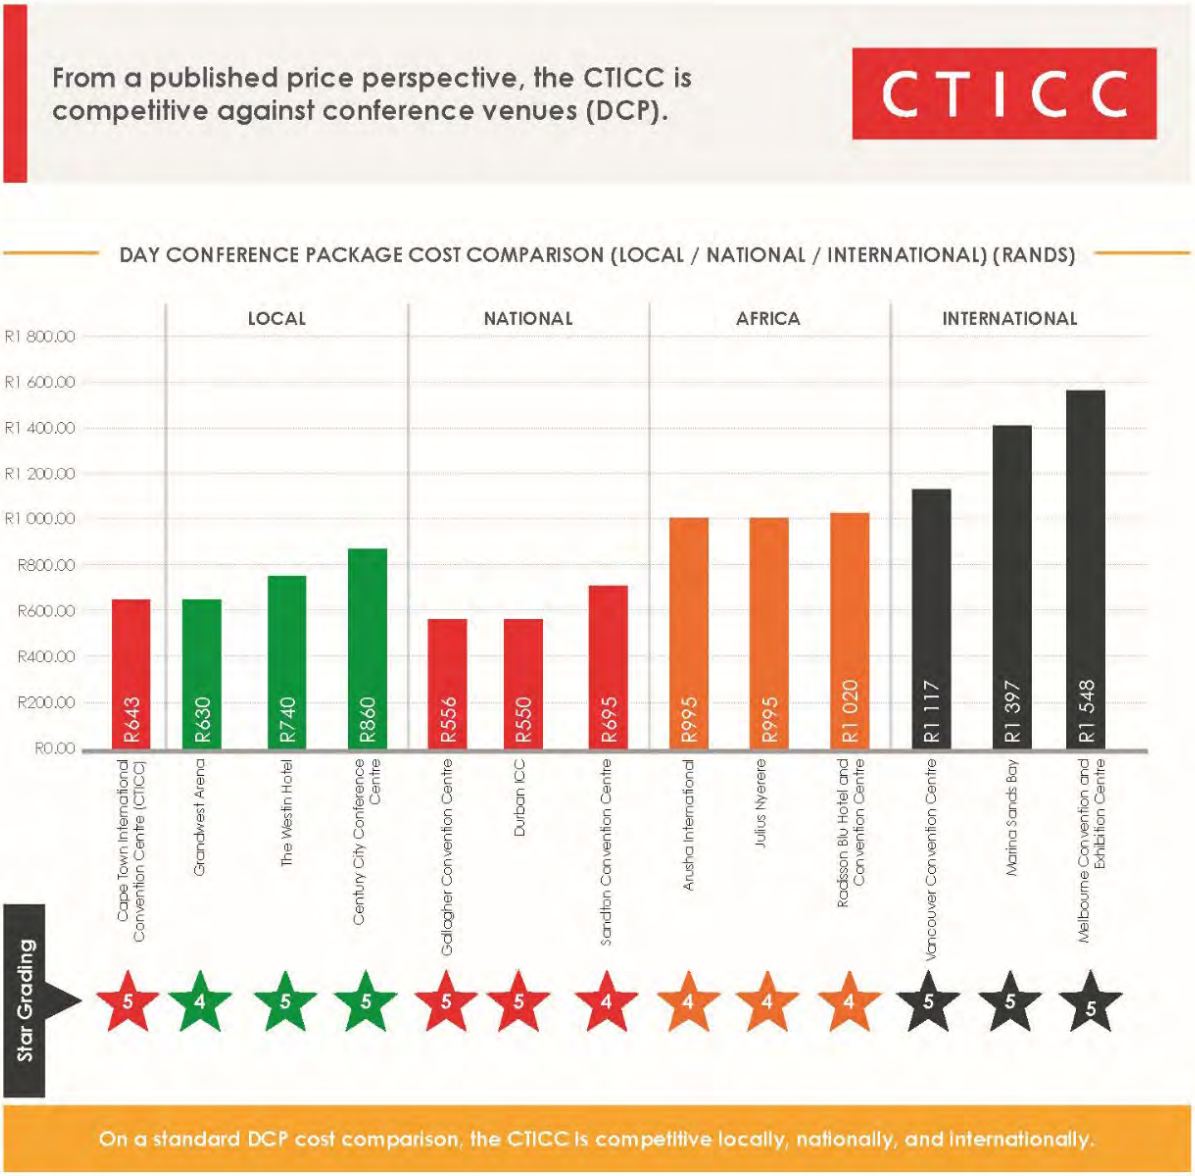
Source: CTICC Competitor Analysis, 2021

- Virtual conferencing is the fastest-growing segment in the industry.
  The segment is forecasted to grow 19% per annum. The Covid-19 pandemic has accelerated this, as virtual conferencing platforms have positioned themselves as key meeting enablers in a socially distanced world. 82% of recently surveyed companies indicated that they may have their event in a hybrid format, including a virtual interface over and above the standard in-person experience. Several competitors are strengthening their virtual conferencing capabilities to leverage recent market shifts brought upon by the Covid-19 pandemic.

- The CTICC is well-positioned to compete from a location, facilities, and customer experience perspective.
  Cape Town remains an attractive international destination for tourism and business travel. The CTICC boasts facilities that compete with other top international conferencing venues globally. Few national and local competitors can match the complete list of offerings provided by the CTICC. The CTICC promotes sustainability both within its facilities and its branding, positioning it as a venue of choice for environmentally conscious clients. It must be noted that specific national and local competitors, such as hotels that do not directly compete in all the CTICC's segments, may provide more tailored or niche services in areas such as banqueting. Client experience feedback remains positive and high, with marginal changes in performance.

- The CTICC is competitively priced overall relative to competitors who focus on conferencing as their core business and have a five-star grading.
  This trend can be observed across the board regarding conference packages, venue rentals and banqueting. Internationally, the CTICC has a price advantage that can be leveraged to increase competition, particularly in the region where the CTICC boasts a superior location and first-class facilities relative to the competition. Additionally, the CTICC has an ISO 14001 certification for its Environmental Management System. This is an essential branding element for the CTICC for international and local markets. Locally, the competitors are primarily hotels whose core business is accommodation. This has an impact on the pricing – for example, venue rental prices from hotels were, on average, lower than prices obtained from conference venues due to the hotels offsetting the venue rental for accommodation rental.

Figure 3: Price Comparison



Source: CTICC Competitor Analysis, 2021

- The CTICC segments remain relevant, although market forces threaten some.
  As a venue, the CTICC specialises in delivering events in the following segments:
  - International conferences.
  - National conferences.
  - Exhibitions.
  - Trade fairs.
  - Special events (sports, cultural and leisure events).
  - Banquets.
  - Film and photo shoots.
    - Own events.
    - Other events (e.g., workshops, training seminars, exam writing, product launches, breakfasts, AGMs, and corporate roadshows).

  - In particular, the CTICC's banquet segment will face pressure over the short term due to the Covid-19 pandemic and the lower volumes permitted to ensure social distancing. Over the medium to long term, competition from indirect competitors (such as hotels) and a sluggish economic environment may result in further downward pressure on revenue within this segment. The CTICC's own events are an important development that can drive more significant national and local market share. The addition of virtual and hybrid event capabilities has added value to the existing segments, ensuring they remain relevant within the current and future market.

2.2 External Environment | PESTLE Analysis

The macro-environment within which the CTICC operates consists of six sub-environments or variables: political, economic, social, technological, legal and environmental. These form the backbone of a PESTLE analysis, and are constantly changing forces, which affect the market and micro-environments and impact each other, resulting in a dynamic and continually changing business environment. The macro-environment analysis ensures that focus is on these constant changes in the sub-environments and their implications for the business.

Table 3: The Results of the CTICC's PESTLE Analysis

Political	Economic	Social
• Covid-19 regulations impact on gatherings • International travel restrictions between countries impact travel in and out of South Africa due to Covid-19 • 2024 general election • Data protection laws • Government stability and related changes • Government passes legislation, which impacts the relationship between the company and its customers, suppliers and other stakeholders • Governmental support – National Convention Bureau (subvention) • Riots and civil unrest against all spheres of government	• Stricter lockdown levels causing recessions and higher unemployment • Slow growth due to the long-lasting impact of Covid-19 regulations • Increases in the Consumer Price Index (CPI) impacting on the cost of living • Above inflation increases of essential commodities, services, fuel pricing and municipal services • The negative impact of Covid-19 on the tourism and hospitality industry • High labour costs • Fluctuating interest rate • Unfavourable exchange rates • The shift in traditional markets • Load-shedding • Higher expenses related to cleaner green energy • Lack of transport infrastructure	• Changes in diet preferences and an increase in a healthy food trend • Growth in the unemployment rate exacerbated by retrenchments due to the impact of Covid-19 • High crime rate • Increased homelessness and vagrants around the city and CTICC precinct • High rate of poverty • The hesitancy of people to vaccinate • Civil unrest due to the lack of service delivery • Population growth rate (influx from other provinces) • Customer service and product quality • Digital platforms used to ill effect (fake news)

Technological	Legal	Environmental
• E-commerce amplified by the Covid-19 regulations and the need for online solutions • Automation and self-payment systems • Hybrid/virtual events • Cyber security and threats • Migrating to cloud technology, artificial intelligence and virtual reality • The automation of many manual tasks can allow companies to replace human production lines • Global internet connectivity presents an even larger market for many companies but might mean less interest in traditional communication mediums	• Safety regulations amplified by the impact of Covid-19 • Adherence to the Protection of Personal Information (POPI) Act and General Data Protection Regulation (GDPR) • Mandatory Covid-19 vaccination • Applying for and receiving a visa is accessible to almost everyone around the world, with travel restrictions and Covid-19 passports becoming a requirement in the current climate • Tourists need to be aware of the local laws and restrictions • Competition regulation • Consumer protection	• Impact of Covid-19 on the environment and sustainability • Load-shedding due to energy shortage • Renewable energy sources • Move away from dirty to clean energy • The most significant environmental factor influencing the tourism industry is the pollution created by transportation mediums • As the number of tourists across the world increase again, governments are expected to take up strict action to regulate pollution levels caused by humans visiting tourist spots • Attitudes toward renewable energy

2.3 Trends Impacting Business Events

The CTICC has looked at several trends and seen how it can adapt its business and take advantage of them for the next few years. These include:

- The value of hybrid beyond the venue and event – the value of a hybrid event, such as increasing delegate numbers, filling the sales pipeline, networking opportunities due to artificial intelligence (AI) and the ability to access the content after the event etc., is evident. Therefore, many conferences will continue to use this model.
- The continued focus on safety by organisers – as governments relax social distancing measures, organisers will continue to prioritise safety. Optimised use of space, ensuring the health and safety of delegates, and safety signage etc., will become the norm.
- Venues' increased focus on environmental and social sustainability – clients seek partners with measurable and impactful sustainable offerings and business operations, and these practices will soon become standard.
- The acceleration of technology – seamless digital experiences that are personalised for delegates has been fast-tracked over the past year, and this trend will grow in the business events space.

2.4 Internal Environment

The CTICC offers event-related services typically required to host an event or conference. The venue has two facilities, CTICC 1 and CTICC 2. Its offering includes conference services, food and beverage services, exhibition services, operational services, marketing and corporate communication services, a digital platform known as CTICC Engage, stringent Covid-19 protocols (C19Care and the CovidScreen app), a venue capacity management tool and an own events collection that is accessible to as many people as possible, as well as event-related services, such as IT, audio-visual and cleaning.

Together, they are designed to offer clients a unique experience in an exceptional environment. The CTICC is passionate about constantly improving the way it does business to ensure that it delivers excellent results for its shareholders and consistently enhances the experiences of clients and guests. To this end, consistent service excellence across every facet of the business is critical to its success and reputation as a world-class convention venue.

In today's challenging economic climate, the pressure on businesses to do things differently is evident. Consumer demand has evolved, and we have seen a trend towards a more discerning client. We need to cater to this demand and meet those expectations to succeed. The CTICC has recognised that the only way it can achieve this is through a dedicated focus on innovation. As a result, it prioritises the application of creative thought and action to every aspect of its business.

Table 4: Services Offered by the CTICC

Core	Ancillary
• Venue hire • Food and beverage • Own events • Innovation campus	• Audio-visual services • Décor services • Entertainment services • Confex – stand-building • ICT services – Wi-Fi • Parking facilities • Safety and security • CTICC Engage (Digital) • Branding
Speciality	**Mandatory**
• Branding • Coffee on the Square • Coffee on the Circle • Old Pier Café	• Cleaning services • Perimeter security • Electrical and plumbing

2.5 SWOT Analysis

Awareness and monitoring of the environment and the factors that affect the business positively and negatively are vital in keeping the CTICC relevant. It also allows the business to maintain its scope and competitive edge. To identify the most critical factors, the team conducted a SWOT analysis. The key findings are tabulated below.

Table 5: The Results of the CTICC's SWOT Analysis

Strengths: • Best practice in health and safety regulations • Highly dedicated and skilled workforce • CTICC owns their assets • Sound financial management and strong, long-term supplier relationships • Great location – easy access to hotels and retail and from roads/highway and airport • 140 855 sqm² total capacity • Collaborative approach with key national, provincial and local governments and Western Cape key stakeholders • Sustainability-conscious organisation • Excellent open share platform with various law enforcement in terms of intelligence • World-class, state-of-the-art building • Flexible venue space • High-quality catering • Desirable destination • Reputable brand • Own events portfolio • Strong forward book	Weaknesses • Not leveraging enough of the CTICC's sustainability service offerings • Limited resources due to budget constraints • Difficulty in sustaining ever-changing technological advancements • High operating and overhead costs • Perceived as a venue for large events only • Lack of in-house training • Lack of consistency from suppliers • Exchange rates make advertising prohibitively expensive • Long haul destination
Opportunity • Increased awareness and understanding from the government regarding the value of business events • Growing national and government business • Africa's share of international association meetings is growing • Growth of the tech sector in the Western Cape • Exchange rates make international travel viable	Threat: • Long haul destination and the associated carbon footprint • Seasonality of the destination • National broadband capacity • Long-term weakness of the Rand • International perception of crime in South Africa • Political unrest/instability • High cost of travel to and accommodation in Cape Town

3. Key Performance Indicators

#	CATEGORY	IDP Priority	Objective	Programme	INDICATOR	INDICATOR DEFINITION	TARGET 2022/2023 [2]	TARGET 2023/2024 [2]	TARGET 2024/2025 [2]	TARGET 2025/2026 [2]	TARGET 2026/2027 [2]
1	International events	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.3 Inclusive economic development and growth	Number of international events hosted	The indicator measures the total number of international events hosted at the CTICC. International events are defined as an event where the majority of the delegates are from outside of South Africa. The minimum number of delegates attending should be no less than 40 and the duration should be at least two days (one night) within the city.	12	17	21	25	29
	Total events hosted	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.3 Inclusive economic development and growth	Number of total events hosted	The indicator measures the total number of events hosted at the CTICC.	195	250	320	380	420
2	Human Capital Development	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.3 Inclusive economic development and growth	Percentage of annual total salary cost spent on training of permanent and temporary staff (%)	The indicator measures the percentage annual total salary cost spent on the training of permanent and temporary staff	3,5%	4%	4%	4%	4%

3	Customer Centricity and Service Excellence	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.1 Ease of doing business	Percentage of minimum aggregate score for all CTICC internal departments and external suppliers (%)	Customer centricity and service excellence are measured independently on the level of service offered by the CTICC to our external clients and recorded as a percentage.	75%	80%	80%	80%	80%
4	Supply Chain Procurement from B-BBEE Suppliers	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.3 Inclusive economic development and growth	Percentage B-BBEE spend (%)	The indicator measures the percentage of expenditure with B-BBEE suppliers measured in terms of the B-BBEE Act. B-BBEE suppliers are defined as those suppliers that have a valid B-BBEE rating certificate or an affidavit in the case of EME and QSE suppliers.	70%	70%	70%	75%	75%
5	Tertiary Student Programme: Contribution to Youth Employment and Skills Development	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.3 Inclusive economic development and growth	Tertiary students employed (Number)	The indicator measures the number of students employed at the CTICC in the FY	2	3	4	4	4

6	Graduate Programme: Contribution to Youth Employment and Skills Development	Economic Growth	1. Increased jobs and investment within the Cape Town economy	1.3 Inclusive economic development and growth	Number of graduates employed (Number)	The indicator measures the number of graduates employed at the CTICC in the FY	2	3	4	4	4
7	Number of people from the employment equity target groups employed in the three highest levels of management, in compliance with the municipal entity's approved employment equity plan	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.2 Modernised and Adaptive Governance	Employees from the EE designated groups in the three highest levels of management (%)	The indicator measures the percentage of people from employment equity target groups employed in the three highest levels of management, in compliance with the municipal entity's approved EE plan. Level 1 - Executive directors Level 2 - Senior managers Level 3 - Managers	75%	80%	80%	80%	80%
8	Quality Offering	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Maintain five-star tourism grading through effective management of maintenance quality service delivery.	The indicator measures the standard of the CTICC as a world-class venue. Defined as 5-Star Grading by South African Tourism	Maintain five-star tourism grading through effective management of maintenance quality service delivery.				

CTICC

9	Budget										
	Reduction in year-on-year Operating Loss [3]	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Percentage reduction in Operating Loss [3] from the prior year (%)	This indicator measures the % reduction in the Operating Loss achieved from the prior year. Operating Loss is defined as earnings before interest, taxation, depreciation and amortisation (EBITDA).	45.4%	90.5%	n/a	n/a	n/a
	Operating Profit [3]	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Percentage achieved of annual budgeted operating profit [3] (%)	This indicator measures the operating profit achieved. Operating profit is defined as earnings before interest, taxation, depreciation and amortisation (EBITDA).	n/a	n/a	100%	100%	100%
	Capital Projects	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Percentage of the total number of capital projects for the year completed or committed (%)	The indicator measures the percentage of the total number of capital projects completed or committed for the financial year.	90%	90%	90%	90%	90%
10	Governance										
	External Audit Report	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Opinion of the Auditor-General	The indicator measures good governance and accounting practices and will be evaluated and considered by the Auditor-General in determining his opinion. An unqualified audit opinion is where the auditor, having completed the audit, has no reservation as to the fairness of presentation of financial statements and their conformity with generally recognised accounting practice. This is referred to as a 'clean audit'. Alternatively, the auditor would issue a qualified audit opinion either in whole or in part over the financial statements if these have not been prepared in accordance with generally recognised accounting practice, or the auditor could not audit one or more areas of the financial statements.	Clean Audit Report				

11	Financial Ratios										
	Ratio of Cost Coverage maintained (RCC)	A Capable and Collaborative City Government	16. A Capable and Collaborative City Government	16.1 Operational Sustainability	Cash/cost coverage ratio (NKPI)	The ratio indicates the ability to meet at least monthly fixed operating commitments from cash and short-term investments, without collecting any additional revenue during that month.	2.5 times	4 times	3 times	2 times	1 times

1. *The baseline figures currently reflect the audited actual achievement as of 30 June 2021.*
2. *The targets are a draft and will be presented to the CTICC Board for approval in March 2022.*
3. *Operating profit/(loss) is defined as earnings before interest, taxation, depreciation and amortisation (EBITDA).*

4. Technical Indicators and Core Strategies

The global pandemic has significantly transformed the worldwide meetings, incentives, conferencing and exhibitions (MICE) industry. For groups to return to destinations, the attendees should feel confident that they will be safe and meet their goals for the meeting or conference.

The CTICC's core plan for the medium to long term will be geared towards the region and the African continent as potential markets that have untapped opportunities. This will be a four-pronged approach, which will encompass:

- The continued implementation of our C19Care protocols, which include the maintaining of the upgraded health and safety programme, utilisation of the CovidScreen app, our mandatory vaccination policy and the use of our venue capacity management tool.
- Producing our own events – enabling the CTICC to generate new revenue opportunities and demonstrate the venue's agility and adaption prowess.
- Expanding its African reach as a source of conferencing and events business.
- Maintaining a healthy international event forward book to revive the struggling industry and work towards economic recovery.

This approach enables the CTICC to provide value to its wider industry and community by establishing the venue as a valued resource and contributor to the economy. The focus remains on reigniting visitor confidence in attending events, especially those hosted at the CTICC, and instilling confidence in the business and events industry once again.

The CTICC's teams play a pivotal role in ensuring that we meet and surpass the following objectives:

- Maximising revenue to ensure financial sustainability.
- Securing a range of events in key economic sectors.
- Exceeding targets for the number of international conferences.
- Surpassing client expectations through service excellence.

The CTICC derives its primary international business from the association market in Europe and the United Kingdom. Still, there are opportunities in the United States and international associations headquartered in Africa. The team will also target national associations, corporate organisations, government, public, and other organisations and local or provincial meetings that take the form of training sessions, roadshows, product launches and breakfast sessions. Short-term planning will be streamlined further to enable a seamless, efficient process whenever bookings are finalised within one month of the event date.

A creative, proactive approach will increase bookings in the segments with the most significant economic impact, such as international conferences, exhibitions, trade fairs and national conferences. Continued research will be conducted to identify opportunities to host indoor sporting events and federations that do not require funding. The CTICC will align its strategy for hosting sporting events with the city's tourism, events and marketing departments.

Banqueting continues to be a challenging market segment, as the CTICC competes with hotel venues in Cape Town. The team will focus on improving the food and beverage offering, paired with unique client experiences.

Film shoots are seasonal. The Sales Department intends to build on this portfolio by aligning the CTICC with film and media units in various organisations, such as the City of Cape Town's Film unit, Cape Town Film Studio and Wesgro's Film and Media unit.

Since the opening of CTICC 2, a renewed strategy around own events is being explored. This strategy includes the creation and ownership of events and the co-hosting of events with strategic partners. CTICC 2 will also house the state-of-the-art campus for entrepreneurs in the technology sector by providing them with a range of facilities.

4.1 Event Operations

Five-year strategic objectives	4.1.1 Secure the forward book and grow the repeat events segment annually 4.1.2 Manage events successfully and profitably whilst improving efficiencies and identifying and increasing new and existing revenue streams

In the context of the CTICC, event management forms part of the process during which an event is planned, coordinated, and executed. The team is tasked with assisting with the retention of repeat business, securing multi-year deals, building client relations, and helping to exceed budgets through the sales of catering, technology and parking services.

4.1.1 Retain clients and secure the forward book for repeat events by promoting multi-year deals

This division manages all repeat events, from booking to ensuring continuity. We aim to increase the number of repeat bookings annually and secure the forward book by encouraging clients to sign three-year contracts where viable.

Tactics:

- Actively promote multi-year deals by offering special rates and value-add propositions to secure larger events.
- Continue to be flexible in accommodating client needs, especially with the impact that the pandemic has had on businesses and through the recovery phase.
- Increase the frequency of contracted annual events that are not able to enter into multi-year deals.
- Availability of confirmed venue rental rates two years in advance.

4.1.2 Manage events successfully and profitably whilst improving efficiencies and identifying and increasing new and existing revenue streams

The team will continue building efficiencies and investigating ways to enhance the client experience. Ways to do this include planning effectively, in-person or remotely, during the preparation phases and communicating with clients to keep them informed on new developments to ensure that their needs are met.

Tactics:

- Continue conducting research initiatives to identify what the competitors offer and what the market requires.
- Improve the customer/visitor experience and client satisfaction index through client care initiatives during pre-event planning meetings and while on-site.
- Incentivise clients for using contracted service providers through discount models linked to service providers.
- Technology will play an integral part in event planning with the new landscape of events in mind – this creates an opportunity to increase this revenue stream with CTICC Engage, the digital and hybrid event platform.
- Collaborate with other departments to increase in-house offerings, like smart boardrooms with a complete technical offering.

4.2 Conference and Exhibition Services

Five-year strategic objectives	4.2.1	Increase revenue for the conference and exhibition services area year-on-year annually
	4.2.2	Event technology to play an integral role in all events to increase attendance figures, or both physical and virtual attendance, which will increase productivity for venue staff and decrease event-related costs to clients

The Conference and Exhibition Services Department is responsible for providing a turnkey solution to all clients by establishing partnerships with important event-related suppliers. These suppliers can offer services to all conference and exhibition organisers. Services range from audio-visual, digital solutions, stand building, safety and security, cleaning and décor services.

As part of the department's recovery response to the Covid-19 pandemic, there has been a change in the business landscape. The team has discovered new revenue streams with their current services providers and new service providers. Examples are transportation, rapid Covid-19 testing for events, providing digital platforms and solutions, selling personal protective equipment and leasing furniture.

In addition to this, the department will also focus on providing ticketing solutions for the CTICC's own events, registration systems, and infrastructure that will reduce contact and the need for queueing while we adhere to social distancing.

One of the core objectives of the department is to meet and exceed the Conference and Exhibition Services budget. In addition to this revenue component, the department also ensures that all events comply with the by-laws set by the City of Cape Town, the Safety at Sports and Recreational Events Act, and regulations passed by the National Government concerning the Disaster Management Act.

The department is also focused on providing sustainable event solutions in line with the Nurture Our World (NOW) committee's objectives.

4.2.1 Increase revenue for the conference and exhibition services area year-on-year by 10% as of the 2024 FY

The department is responsible for generating up to 15% of the overall budget by selling various event-related services to all clients, suppliers and events to improve the overall event experience.

Tactics:

- Increase market share for CTICC key service providers, focusing on the CTICC's repeat clients.
- Encourage all exhibition clients to use sustainable initiatives by 2023 when hosting their exhibitions.

4.2.2 Event technology to play an integral role in all events to increase attendance figures

Technology has and will continue to play a role in successfully hosting event experiences for clients. We would like to see technology driving both in-person events and virtual attendance. The goal is to increase productivity for venue staff and an opportunity for clients to improve their overall event profitability.

Tactics:

- The appointment of a dedicated staff member, either within the Confex or Information Technology (IT) department, to focus on the sale of event technology and identify solutions the client might require, such as artificial intelligence (AI), virtual reality, clever use of floor space, augmented reality, as well as virtual networking. These technologies can enhance customer experience and networking, and result in better data management and collection.
- Ensure compliance and adherence to the Supply Chain Management (SCM) policies and procedures to secure suppliers as and when required.
- Regular client engagements to drive awareness of the CTICC's offerings and how this will benefit their events.
- Increase the services offered on the CTICC e-commerce platform by 2023.

4.3 Event Sales

Five-year strategic objectives	4.3.1 Grow market segments as part of the recovery plan 4.3.2 Bid for larger association conferences in core markets 4.3.3 Build and strengthen existing brands under the own events segment

4.3.1 Grow market segments as part of the recovery plan

The CTICC's focus has been on securing international association conferences, which remains our primary source of revenue. However, Covid-19 research indicates that the number of delegates attending these events will decrease, and many conference dates and rotations have changed. The hybrid element has now become part of conferences.

Accordingly, an additional objective is to attract more national corporate, association and government meetings to Cape Town. African regional meetings are still a low hanging fruit that needs to be tapped into even more.

Tactics:

- Base business plan – to build and maintain relationships with existing clients through retention. Continue to formulate key account and partner account agreements with identified top accounts through specified criteria.
- Offer Professional Conference Organisers (PCO) attractive incentives to increase loyalty to the CTICC. The aim is to drive business to the CTICC and ensure that the centre remains the venue of choice for PCOs.
- Increase CTICC visibility by attending more tradeshows and roadshows nationally, regionally and internationally, as well leveraging on partnerships in the industry.
- For larger events (sports, etc.), we provided added extras (as sponsorship) to position CTICC as the venue of choice.
- Acquisition – attract new business through marketing promotions and campaigns.
- Develop a Key Account Management Standard Operating Procedure to formulate and formalise the sales calling cycle.

4.3.2 Bid for larger association conferences in core markets

Despite the increased competition from new convention centres and hotels, the CTICC is still the only venue with the infrastructure, resources and space to host large international association meetings. Hosting larger conferences will have a more significant economic impact, create more jobs, and ensure optimal use of CTICC 1 and CTICC 2.

Tactics:

- Proactively target international association meetings that attract more than 1 000 delegates.
- Increase visibility in regional and international markets through in-market representatives.
- Increase the number of leads generated through in-market representatives, and by participating at international tradeshows and association memberships.
- Actively work with local and international PCOs, destination management companies (DMCs) and stakeholders to attract more international incentives and corporate conferences.

4.3.3 Build and strengthen the existing brands under the own events segment

By creating events aimed at the higher living standards measure (LSM) audience, the team intends to grow and maintain the existing four own events with a year-on-year growth.

Tactics:

- Increasing each own event portfolio by adding additional revenue streams, such as activations, workshops and conference programmes.
- Ensure buy-side and sell-side objectives are met with exhibitors and visitors, showing a return on investment (ROI) and high Net Promoter Score (NPS).
- Create digital and technology components to increase market share and stay abreast with the latest trends by 2023.

4.4 Marketing and Communications

Five-year strategic objectives	4.4.1 Build brand equity to improve customer confidence 4.4.2 Leverage data diagnosis for value creation 4.4.3 Engage with our key audiences through more relevant content

The marketing and communication strategy will promote the CTICC's distinctive positioning and build a relationship between its clients and/or visitors to increase brand equity and drive sales. It also aims to connect the CTICC to its customer and/or consumer base through three key elements: data, channels and content.

4.4.1 Build brand equity to improve customer confidence

Brand equity intercedes the relationship between customer relationship marketing and the commercial value of an organisation. A brand with high brand equity provides value to the customer and/or consumer, as they will have more confidence in booking space with the CTICC or attending an event at the CTICC.

For the organisation itself, brand equity provides a clear advantage over its competitors, as marketing campaigns are more effective, brand loyalty is higher, and they can price more strategically. Therefore, it is of utmost importance to the CTICC to continually focus on the elements that improve and build the CTICC's equity as a brand.

Tactics:

- The building of brand loyalty with new and existing clients and/or visitors.
- The building of brand awareness through a mix of long-term brand building and reputation work and short-term performance-based promotional campaigns.
- The promotion of a defined and distinctive positioning of the brand and its services. A robust and differentiating positioning provides customers and/or consumers with an apparent reason "to buy" and will assist the CTICC in responding to its competitors.
- The creation of positive feelings for the brand through positive brand associations with individuals, organisations and industries with like-minded values and purpose.

4.4.2 Leverage data diagnosis for value creation

The marketing and sales team will continually use various data sources to unlock client and visitor insights to adapt to change and improve customer relationships and engagement. The team's ability to tap into their multiple data sources will enable them to build value out of the diagnosis through the implementation of relevant promotional and customer relationship tactics that are measurable for maximum sales impact.

Tactics:

- Development of a marketing dashboard.
- Development of a loyalty programme.
- Compiling a touchpoint audit of the client journey.

4.4.3 Engage with our key audiences through more relevant content

The marketing and sales team will develop a detailed buyer persona for each of the seven business segments. This will also include selecting channels and the format of the content needed. The buyer personas will provide the team with insights for creating content that the audience will see as valuable and relevant.

Tactics:

- The hiring of an in-house designer to assist in the "always-on" approach to content development and distribution in various formats.

4.5 Revenue Management

Revenue Management provides a support function to the organisation, focusing on the sales, marketing and communications operations. Whilst adhering to the City of Cape Town's requirements in response to change in the external environment, this department ensures that the CTICC achieves its long-term and short-term business strategies through effective rate management, revenue streams management, business-mix strategies, channels, distribution, and strategic pricing and benchmarking. The below was formulated with recovery in mind due to the impact of Covid-19

Five-year strategic objectives	4.5.1	To ensure that the CTICC maximises and optimises revenue opportunities and increases the CTICC's average occupancy year-on year

4.5.1 To ensure that the CTICC maximises and optimises revenue opportunities and increases the CTICC's average occupancy annually

Based on the revised vision for CTICC 1 and 2, the primary intent is to increase occupancy, and formulate a client retention/acquisition plan and revenue streams management and sustainability plan within a competitive rate model.

Tactics:

- Formulate a clearly defined pricing strategy for the traditional CTICC model for CTICC 1 and the new strategy for CTICC 2.
- Ensure price relevance in the marketplace based on a competitive and changing business environment – rates available two years in advance.
- Develop a yield management strategy based on dynamic pricing for venue rental and day conference package (DCP) pricing (seasonal rates/tiered pricing).
- Base business plan – through retention and acquisition, the strategy is established by ensuring that repeating events, three-year deals, and partner and key accounts are formalised and booked. This is to be monitored through the Forward Book Report.
- Effective demand planning through the marketing calendar for promotions.
- Drive revenue streams through effective business-mix management.
- Drive an effective and efficient contract management process while ensuring audit and the City of Cape Town requirements are met.
- Further development on e-commerce to offer online services, including an online booking portal for short-term events (one-stop shop) – this tactic will be incorporated based on the overall IT objectives for the business to offer online services.

4.6 Food and Beverage

Five-year strategic objectives	4.6.1 Improve cost-effectiveness of operations 4.6.2 Maintain ISO 22000:2018 certification

The key focus for the Food and Beverage (F&B) Department is to ensure ongoing service excellence throughout the pandemic and beyond. The F&B Department will look for habits to contain costs in the immediate short term of the next 12 – 24 months.

The F&B Department will ensure that Covid-19 compliance protocols and CTICC standards are followed to maintain the safe provision of all services in conjunction with the City of Cape Town by-laws.

Spread over the latter two to three years, the department will be observing trends to increase revenue and create new revenue streams.

4.6.1 Improve cost-effectiveness of operations

Uncover approaches to become more cost-effective in our daily operations, taking the below tactics into consideration, technology to support costing processes and labour cost containment.

Tactics:

- Import all event inventory and menus into the database (Procure.Net) to reduce stock hold to ensure better inventory management.
- Create costing templates.
- Compile bid specifications to support outcomes.
- Staff to be trained as multi-talented F&B operators through a programme designed with the Human Resources Department.
- Improve equipment care to ensure that equipment lasts longer, reduce breakages and losses and avoid unnecessary equipment write-offs.

4.6.2 Maintain ISO 22000:2018 certification

The CTICC is a world-class event and catering facility, which prides itself on delivering consistent service, supported by technology and superior quality equipment to enhance the food offering. We are Halaal-certified by the Islamic Council of South Africa (ICSA).

The centre is ISO 22000:2018 (Food and Management System) certified, and this will help grow the CTICC's market share, as the certification provides international confidence in our products and services.

Tactics:

- Continuous internal audits to guarantee compliance with the system.
- Eliminate the use of single-use plastic.
- Better chemical and waste management.

4.7 Facilities Management and Technical Services

Five-year strategic objectives	4.7.1	Continuance of venue maintenance while focusing on reducing operational and capital expenditure during the Covid-19 pandemic
	4.7.2	Diversifying staff skill sets through cross- and on-the-job training due to a reduction in staff numbers, while ensuring sustainable business continuity
	4.7.3	Control costs through efficient financial management and planning

The CTICC is cognisant of the following, in particular, which have been adopted into operational planning:

- Sustainability remains important worldwide.
- Disaster preparation is required to ensure business continuity after a disruptive event.
- CTICC 1 demands a growing focus on "repair or replace" policies.
- A healthy, functioning venue (fully functioning air conditioning, operational drainage and plumbing, etc.) is a growing requirement, especially in the event industry, to attract more businesses, as the wellbeing of building occupants affect the bottom line.
- A computerised maintenance management system (OnKey) is continuously upgraded and programmed to manage all forms of building equipment, including maintenance job plans. This system greatly enhances the existing ability to determine ongoing maintenance concerns and assists in formulating repair and/or replacement, preparation and planning.
- A Building Management System (BMS) is continually upgraded and improved to ensure that the building operates at optimal capacity. In-house resources have been trained to keep the system up to standard.
- A comprehensive strategic document (the future strategic facility and equipment condition assessment, maintenance and renovation plan) has been compiled and is used to project and plan future enhancements and replacements to the venue.
- Operational efficiency in terms of health and safety forms an integral part of the CTICC's commitment to service excellence, providing a safe working environment and environmentally-friendly operations by implementing Covid-19 protocols and adherence to the International Organization for Standardization (ISO) standards.

4.7.1 Continuance of venue maintenance while focusing on reducing operational and capital expenditure during the Covid-19 pandemic

The CTICC focuses on maintaining its building assets to be a world-class venue.

Tactics:

- Due to the significant budget reduction, the focus has shifted to repairing and maintaining legislatively mandated and critical assets. Replacements are done only when deemed necessary, aiding in maintaining a healthy, functioning venue.
- Focus on the maintenance of assets to increase the lifespan.

4.7.2 Diversifying staff skill sets through cross- and on-the-job training due to a reduction in staff numbers, while ensuring sustainable business continuity

Although the CTICC has seen a reduction in staff due to the Covid-19 pandemic, the team remains committed to training and upskilling current staff in anticipation of business levels returning.

Tactics:

- Current staff members will receive further training and skills transfer through on-the-job training to be universally knowledgeable within the Facilities and Operations Department.
- Cross-train heating, ventilation and air conditioning (HVAC) and electrical technical staff to be universal in performing tasks in either area.

4.7.3 Control costs through efficient financial management and planning

Facilities Management focuses on managing and reducing operating expenses by optimal planning.

Tactics:

- To implement the comprehensive strategic plan.
- The use of OnKey to ensure the implementation of the preventative maintenance plan.
- Training internal staff to operate and programme the BMS to reduce cost.
- Utilising the BMS to identify critical assets that need repair or replacement through condition monitoring.

4.8 Finance

Five-year strategic objectives	4.8.1 Sustain sound financial governance 4.8.2 Increase reliance on automated financial controls 4.8.3 Integrate financial systems

With sustained sound financial governance and a track record of nine unqualified audits with no significant findings, the systems implemented at the CTICC very clearly work well.

4.8.1 Sustain sound financial governance

The Finance Department will continue to sustain its record of sound financial governance and unqualified audits. All relevant and applicable legislation and regulations will be applied across the organisation. Cash coverage on operating costs will continue to be maintained above five times through working capital management.

Tactics:

- Continuous review and improvement of internal controls and the control environment.
- Adherence to the legislation, which includes the Companies Act, Municipal Finance Management Act (MFMA), Municipal Budget and Reporting Regulations and Municipal Supply Chain Management Regulations.
- Prepare the financial statements in terms of Generally Accepted Accounting Practice (GRAP).

4.8.2 Increase reliance on automated financial controls

The department will continue to maximise its operational efficiency, improve accuracy, decrease the level of assurance required on the integrity of financial information, reduce potential fraud and positively impact the environment by using less paper, through increasing its reliance on automated financial controls and using integrated finance systems.

The automated system will reduce auditing time usually spent on checking figures manually, which will reduce the cost of this function for the CTICC.

Tactics:

- Improving configuration controls.
- Consolidating the overall control environment.
- Integrating the different systems in use.
- Designing and implementing custom automated tests.
- Implementing continuous monitoring tools and detective controls.

4.8.3 Integrate financial systems

The CTICC currently manages various legacy IT systems, which currently do not all integrate seamlessly. A review of all systems will be continued, detailing their purpose, effectiveness, integration with other systems and operating cost. The information will streamline the processes and integrate systems where possible. There is a possibility that a single enterprise resource planning (ERP) system could replace legacy systems.

Integrating financial systems improves response and processing times and enhances decision-making and performance information.

Tactics:

- Reviewing the current legacy systems and levels of integration.
- Identify areas of improvement or those requiring additional development.
- Integrate systems where appropriate to improve the control environment and reduce manual interventions.
- Improve the control environment, including IT general controls.

4.8.4 Supply Chain Management

Five-year strategic objectives	4.8.4.1 Implement fully integrated acquisition and contract and demand management platforms on the enterprise resource planning system 4.8.4.2 Enhance contract management systems and controls

The focus is to drive down the financial and economic costs associated with the CTICC's procurement processes and improve the efficiency of the Supply Chain Management (SCM) unit.

4.8.4.1 Implement fully integrated acquisition and contract and demand management platforms on the enterprise resource planning system

In addition to managing the CTICC supplier database, processing requisitions and issuing purchase orders, the company's supply chain and procurement processes are all manually driven, with a high dependence on supervisory intervention. To reduce this dependence and minimise associated risks, the department will investigate migrating from a manual to an ERP-driven acquisition and contract management system that speaks to company policy and business processes. This will improve procurement planning and compliance to the SCM policy and supplier performance. It will enforce cost savings and provide credible data for procurement forecasting.

4.8.4.2 Enhance contract management systems and controls

As a municipal entity, the CTICC must ensure compliance with the MFMA. To this end, the CTICC must develop, implement and maintain an effective contract management system that meets the requirements of section 116 of this legislation. The CTICC has introduced a dedicated resource(s) within the department to ensure compliance with legislation and the implementation of the CTICC's contract management framework. The CTICC will expand on this by enhancing the application of templates/documentation, existing processes and the adoption of an information communication technology (ICT)-based archiving and contract management software.

Tactics:

- Development of an online supplier portal.
- Investigation and/or development of procurement modules within the Employee Benefit Management Services (EBMS).
- Investigation and/or development of contract management modules within the EBMS.

The implementation of contract management and automated financial controls maximise operational efficiency, improves accuracy, decreases the assurance required on financial information integrity, reduces potential fraud, and positively impacts the environment by using less paper.

4.9 Human Resources

Five-year strategic objectives	4.9.1. Ensure that the CTICC remains an employer of choice 4.9.2. Develop employees to create an environment that recognises hard work and talent 4.9.3. Full utilisation of HR-related systems to ensure a paperless and streamlined HR system and processes 4.9.4. Recruit and retain a diverse workforce to meet the demands of the organisation

HR, as a business partner to the organisation, will assist with formulating strategies, designing the organisation, and implementing the business model. The overall goal of the HR Department is to drive and support the workforce through development, recruitment and retention. The CTICC believes that growing its people contributes to the organisation's growth.

4.9.1 Ensure that the CTICC remains an employer of choice

Staff development, recognition and retention strategies are a significant focus for the CTICC. The focus would be to fully integrate the company values of passion, innovation, integrity, excellence, gratitude and caring in all its operations by being accountable for the results, impact and work.

Tactics:

- Advertising positions on relevant social media and job portals.
- Ensuring a robust onboarding process.
- Providing competitive, market-related remuneration and affordable employee benefits, as guided by the CTICC Remuneration, Reward and Recognition Policy.
- Implementing an Employee Assistance Programme (EAP) that focuses on the holistic wellbeing of staff, with an emphasis on mental, physical and financial wellbeing.

4.9.2 Develop employees to create an environment that recognises hard work and talent

Human capital development, minimum competency level, and student and graduate programmes form part of the HR key performance indicators (KPIs). To achieve these objectives, the HR Department will recruit students and graduates from hospitality and other core sectors (e.g. commercial, human resources and finance) and place them throughout the business to gain valuable work experience.

Tactics:

- Compile individual development plans for all staff focusing on skills gaps.
- Implement cross-training and on-the-job staff training, with a focus on multiskilling.
- Recruit students within the hospitality sector.
- Recruit graduates within the core departments of the organisation.
- Ensure senior management members are enrolled and complete the minimum competency level courses.

4.9.3 Full utilisation of HR-related systems to ensure a paperless and streamlined HR system and processes

The team must ensure that all processes within the HR Department are streamlined to improve service delivery to clients.

Tactics:

- Streamlining human resources processes on the SAGE 300 system.
- Full utilisation of an automated system for shortlisting during recruitment processes.
- Implement the performance management module into the SAGE 300 system.

4.9.4 Recruit and retain a diverse workforce to meet the needs of the organisation

This objective will focus on retention and succession planning, ensuring the retention of all high-performing staff.

Tactics:

- Ensuring that the CTICC is an organised, professional and supportive environment to work in.
- Maintaining 80% on the KPI for the number of people from the employment equity target groups employed in the three highest levels of management.
- Aligning the Remuneration, Reward and Recognition Policy to best practices in top employer companies.
- Succession planning programme for high performers in the senior, middle and junior management teams.
- Aligning performance management to an inclusive 360° process.
- Incorporating instant rewards for high achievers by introducing an instantaneous recognition and rewards programme.

4.10 Safety and Security

Five-year strategic objectives	4.10.1 Ensure the safety and security of all involved in events hosted at the CTICC 4.10.2 Enhance security infrastructure to ensure public safety 4.10.3 Obtain SAPS risk grading certificates 4.10.4 Collaborate with CCID and CBD stakeholders to improve security measures within the CTICC precinct 4.10.5 Continuous implementation of stringent Covid-19 measures

The CTICC's focus is to ensure the safety and security of all individuals, property and assets during the execution of events hosted within the complex, according to strict legislative requirements.

4.10.1 Ensure the safety and security of all involved in events hosted at the CTICC

The safety and security of people, property, patrons and assets at events held at the CTICC remain a prime concern. The level of safety and security at all events is maintained by close cooperation with the South African Police Service (SAPS) in shared intelligence to effect accurate risk grading to events.

Tactics:

- Quality, environmental and safety management systems are maintained and enhanced at every level to retain the ISO certification and ensure full legislative compliance.
- Technological enhancements (e.g., vehicle licence-plate recognition) to be installed to improve the safety and security of CTICC and its patrons.
- Ensure adherence to city by-laws by assisting in the smooth process of event applications, permits and Building Development Management (BDM).

4.10.2 Enhanced security infrastructure to ensure public safety

Workplace safety is assured by the ISO standards and will continue to provide a support framework for managing safety at events for contractors, employees and visitors.

Tactics:

- Upgrade the Occupational Health and Safety Assessment Series (OHSHAS) 18001/2015 to 45001 in June 2021 and implement new Occupational Health and Safety practices according to ISO 45001 standards.
- The migration audit, which was conducted as a desktop audit, and Phase 1 was completed. Phase 2 will be conducted in July 2022.

4.10.3 Obtain SAPS risk grading certificates

The City of Cape Town's Events Permit Office requires venues that host public events to have risk grading certificates. Event organisers will need to submit these certificates with their application to receive a permit to host an event at the CTICC.

Tactic:

- Continue submitting applications to the SAPS timeously to complete the risk grading certification process.
- Apply for the venue grading certificate to mitigate the individual event risk grading certification process.

4.10.4 Collaborate with CCID and CBD stakeholders to improve security measures within the CTICC precinct

The team aims to provide a safe venue and host events without incident. To this end, the CTICC works closely with law enforcement agencies, such as the SAPS, Metro Police, City of Cape Town Fire Department, Cape Town Central City Improvement District (CCID) and City of Cape Town Disaster Risk Management Centre.

Tactics:

- The CTICC has a disaster preparedness plan covering eventuality, such as fires, viral outbreaks, power cuts, water shortages, bomb threats, terror attacks, or incidents resulting in mass casualties.
- Conducting regular fire tests.

4.10.5 Continuous implementation of stringent access control measures

In preparation to host events post the Covid-19-related pandemic, the CTICC upgraded its existing operational protocols to ensure the health and safety of guests, clients, and staff by developing the new C19Care protocols. This was done in collaboration with local and international health, tourism and industry leaders. All National Department of Health guidelines were also applied in its development.

Tactics:

The CTICC implemented stringent access control protocols in line with Covid-19 regulations. This guaranteed that the CTICC remains one of the safest venues to do business in. It also protects the workforce by enforcing the following:

- Mandatory Covid-19 screening.
- Mandatory wearing of masks inside the venue.
- Floor plans have been revised to implement physical distancing.
- Covid-19 standard operating procedures (SOPs) and protocols.
- Good hygiene practices and procedures.
- Remote working policy, allowing only essential staff into the venue daily, with communication taking place via Teams or other online portals.

The CTICC received the globally recognised Safe Travels stamp from the World Travel and Tourism Council (WTTC) due to its stringent compliance with all Covid-19 industry protocols.

4.11 Technology

Five-year strategic objectives	4.11.1 Use technology to support business activities 4.11.2 Adhere to corporate governance guidelines 4.11.3 Provide services that support the business and event-hosting activities 4.11.4 Upgrade systems to enhance cyber security and disaster resilience 4.11.4.1 IT security enhancements 4.11.4.2 Disaster recovery

The CTICC is dedicated to continually enhancing systems in the technology space. The centre will continue to look at ways to improve service availability, resilience and efficiency in the field. Particular focus will be placed on cyber security systems and services to enhance the CTICC's security posture to match the ever-changing threat landscape. This department strives to ensure that a balance is achieved and maintained among competing current industry trends, client expectations and departmental revenue budgets, while remaining relevant – locally and internationally.

4.11.1 Use technology to support business activities

The team will use technology as a differentiator in business activities to enhance the client experience and increase revenue.

Tactics:

- Enhancement of the ERP system via an optimisation plan forms part of the ERP upgrade. This optimisation plan will streamline processes within the ERP platform, improving the user experience and reducing the time to perform tasks.
- The opportunity to develop the Budgeting and Management Information System (MIS) components within the ERP solution exists and, when completed, would consolidate budgeting and event-related MIS and ERP into one system that reduces costs.
- ICT hardware and systems will be maintained in the medium term to limit spending.

4.11.2 Adhere to corporate governance guidelines

The IT Governance Institute defines IT governance as "the responsibility of the Board of Directors and executive management. It is an integral part of corporate governance and consists of the leadership, organisational structures and processes that ensure that the organisation's IT sustains and extends the organisations strategies and objectives."

ICT governance is designed to ensure that the acquisition, management and use of IT enhance service delivery to the public, as well as the productivity and cost-efficiency of the department.

Tactics:

- Continue evaluating, directing and monitoring the effectiveness of the technology and information resources in line with the guidelines set out in the King IV™ Code.
- Review, plan and implement changes required, as identified in the ICT Risk Register, delivered as part of the CTICC financial year 2021 internal audit coverage plan.

4.11.3 Provide services that support the business and event-hosting activities

This department strives to ensure that a balance among current industry trends, client expectations and departmental revenue budgets is achieved and maintained, while remaining relevant – locally and internationally.

Tactics:

- The migration to cloud-hosted services, such as the Microsoft 365 platform and other modules, will continue. Cloud technologies are being used to reduce capital and operating costs through economies of scale. An additional advantage to cloud-hosted services is constant updates and upgrades, ensuring the latest security and vulnerability compliance.

4.11.4 Upgrade systems to enhance cyber security and disaster resilience

The CTICC has implemented and is improving security measures to prevent a breach. Further development and activation of cloud-based security components within the Microsoft 365 platform will significantly improve cyber security resilience.

Tactics:

- Enable the Microsoft 365 security suite to consolidate all related security monitoring and reporting into one holistic platform.
- Schedule and execute regular vulnerability scanning, penetration testing and remediation operations.
- Conduct cyber security training programmes and user awareness campaigns.

.

4.11.4.1 IT security enhancements

It has been identified that the IT security positioning would be enhanced by implementing a specialised IT Security Operation Centre (SOC) by an outsourced specialist IT security service provider. This is due to the highly technical skill sets required to establish an in-house SOC and the advanced systems needed to analyse and interrogate the data generated from the underlying systems.

4.11.4.2 Disaster recovery

The CTICC owns, manages and maintains its off-site disaster recovery infrastructure. An enhancement of the disaster recovery infrastructure has been carried out to facilitate an effective solution to meet the company's requirements over the next three to five years.

5. Key Projects

Some improvements may take longer to plan and implement but small, incremental changes go a long way towards streamlining operations. Task teams and sub-teams will be identified to generate ideas around quick-win solutions through the power of collaboration.

Table 6: Key Projects

Project Description	Project Detail	Implementation Date	Completion Date
5.1 Photovoltaic (PV) panels	To investigate the feasibility of adding PV panels to the roof of CTICC. The intention is to reduce the centre's electrical costs in an environment where the cost of energy consumption increases at double the inflation rate. This will also contribute to the environmental sustainability of the CTICC.	Currently under investigation if budget allows for it in 2023/24	Currently under investigation
5.2 Grow and strengthen our own events	Build and strengthen exciting and newly developed own events to ensure continued growth.	2020/2021 and 2022/2023 financial year	As per the event date.

Project Description	Project Detail	Implementation Date	Completion Date
5.3 Integrate technology throughout the business	IT's integration as a technology partner is one of the new initiatives in the pipeline. The team will establish what enhancements are required and integrate systems across departments. The focus is on improving efficiencies through technology.	Q4 of 2020/21 – Sage 300 and Jarrison time and attendance integration Q2 of 2021/22 – Business Process Optimisation (BPO) and EBMS v30 Upgrade Q3 of 2020/21 – Microsoft 365 migration Q2 of 2022/23 – Management information systems integration Q2 of 2023/24 – Wi-Fi 6/7 upgrade	Q3 of 2021/22 – Sage 300 and Jarrison time and attendance integration Q1 of 2022/23 – BPO and EBMS v30 upgrade Q4 of 2021/22 – Microsoft 365 migration Q4 of 2022/23 – Management information systems integration Q4 of 2023/24 – Wi-Fi 6/7 upgrade

6. Sustainability

The CTICC strives to harness the power and performance of its people to maximise economic spin-off, contribute to job creation, drive innovation, exceed service expectations, nurture quality and be a world leader in sustainability. Economic, social and environmental sustainability is reflected in every aspect of the business.

In 2008, the CTICC formalised its sustainability commitment by introducing its Nurture Our World (NOW) initiative, a public expression of the CTICC's intention to be a leader in environmental awareness. This is what drives its triple bottom line. The collective also supports other subsidiary initiatives, such as International Organization for Standardization (ISO) certifications (ISO 9001: 2015 Quality Management, ISO 14001: 2015 Environmental Management and OHSAS 18001: 2007 BS Occupational Health and Safety Management).

The CTICC has been a member of the United Nations Global Compact (UNGC) since 2010. It operates in line with the ten guiding principles of the UNGC derived from the Universal Declaration of Human Rights, the International Labour Organization's Declaration on Fundamental Principles and Rights at Work, the Rio Declaration on Environment and Development and the United Nations Convention Against Corruption. The CTICC submits its Integrated Annual Report annually as a Communication of Progress, and it has received active or advanced status for the past 12 years.

As a responsible company, the CTICC always strives to reduce its environmental footprint and mitigate its impact. The CTICC also actively helps clients to upcycle their events. The CTICC believes that sustainability principles and practices should be implemented throughout the venue to improve upon initiatives by:

- Supporting local community partners.
- Tracking all sustainability activities to ensure that they have a significant impact.
- Promoting sustainable events through early assessment of construction type and waste generation.
- Measurably building the CTICC brand as a conference and events industry world leader in sustainability.

6.1 Environmental

Five-year strategic objectives	6.1.1	Reduce water consumption through environmental sustainability practices
	6.1.2	Further reduce electricity consumption year-on-year in terms of kWh
	6.1.3	Divert more than 70% of waste from landfill
	6.1.4	Drive ISO standards as part of the embedded CTICC work-life culture

Environmental sustainability is a key focus area of the business. To ensure maximum resource management, effective monitoring and management systems that encourage resource management must be implemented throughout the CTICC.

6.1.1 Reduce water consumption through environmental sustainability practices

The CTICC has reduced water consumption through its environmental sustainability practices for several years.

The venue is fortunate to have a reverse osmosis plant which, in a 24-hour cycle, can produce up to 200 000 litres of drinking water from groundwater. Greywater is recycled for irrigation and cleaning purposes, and 265 000 litres of rainwater is captured in storage tanks.

Tactic:

- The venue intends to continue with its water resilience plans to reduce dependence on the municipal supply and obtain water for cooking and food preparation from non-municipal sources.

6.1.2 Further reduce electricity consumption by 1% year-on-year in terms of kWh

The CTICC's electricity consumption decreased by 574 457 kWh, which equated to a 4.7% reduction in the 2019/20 year. The decline is attributed to the impact of the Covid-19 pandemic on business demand and, thus, no energy-saving conclusions can be drawn from such.

Tactic:

- The CTICC is committed to reducing its electrical energy consumption. The five-year strategic plan includes an investigation into more sustainable electrical generation. The proposed reduction methods include photovoltaic (PV) solar panels and solar water heating. The CTICC's technical team is committed to lowering kVA by ensuring that the Building Management System (BMS) is running optimally.

- The department will improve these efficiencies by adhering to environmental sustainability practices, utilising technology to streamline business operations and improve client service levels. The team is continuously implementing initiatives to reduce the impact of the future occurrence of drought conditions in the Western Cape. This includes radically reducing potable water consumption by utilising the reverse osmosis plant that uses extracted sea and groundwater. We have already installed heat pumps for water heating to reduce the use of the existing boiler technology within the venue.

- Our primary focus has shifted from predominantly potable water-saving initiatives to seeking methods of providing the venue with its energy requirements through the implementation of renewable energy systems. To this end, appropriate consultants will be appointed in the 2021/22 financial year to compile a feasibility study to determine a solution best suited for the venue.

6.1.3 Divert more than 70% of waste from landfill

The CTICC encourages clients and events to participate in the CTICC's goal of diverting waste from landfill. The CTICC has a sustainability strategy and reporting measures to ensure that waste is separated at source, weighed, and disposed of correctly.

Tactic:

- The CTICC is committed to waste reduction in general and minimising waste being sent to landfill sites in particular. Action around this policy focuses on eco-procurement from suppliers who offer reusable and recyclable products.
- The Conference and Exhibition Services Department, with the assistance of the Sustainability Officer, proactively identify events where they can either advise clients to adhere to more sustainable practices or where they can upcycle conference materials. Upcycling initiatives have included sending wood from exhibition stands to schools, and conference banners are donated to various projects that repurpose these items.

6.1.4 Drive ISO standards as part of the embedded CTICC work-life culture

The CTICC aims to provide quality services and products that are safe, competitive, efficient, reliable and environmentally sustainable through safe and healthy practices.

Tactic:

- Ensure all policies are actively communicated and made available to all personnel, clients, sub-contractors and concessionaires, including the public at large.

6.2 Social

Five-year strategic objectives	6.2.1 Ensure that the Local Community Partners are aligned with the centre's focus areas 6.2.2. Assist in achieving a higher B-BBEE level through the social and economic development plan 6.2.3. Maintain the CTICC's positioning as a leader in sustainability 6.2.4. Create a more substantial presence and understanding among staff around the Local Community Partners

As a strategic asset of the City of Cape Town and the Western Cape Government, the CTICC is committed to giving back to the community and strives to be a responsible corporate citizen. The CTICC's contribution to social capital (job creation) is an important corporate social responsibility (CSR) measure, supported by a comprehensive strategy that lists various focus areas for the CTICC's community support. This extends beyond mere financial support and includes skills development, education and overall community upliftment.

6.2.1 Ensure that the Local Community Partners are aligned with the centre's focus areas

Choosing new Local Community Partners (LCPs) with focus areas aligned to the CTICC's purpose and values will create effective partnerships between each organisation and the CTICC.

Tactic:

- The sectors of venue sponsorship, skills exchange, food donations, conference material donations and building material donations are where the CTICC can offer the most value. The CTICC will focus on assisting LCPs with these offerings. The team will also support the LCPs should they run activations for special needs individuals.

6.2.2. Assist in achieving a higher B-BBEE level through the social and economic development plan

According to the B-BBEE Commission, Socio-Economic Development (SED) can advance the empowerment of black people. The venue aims to align its CSR activations and spending to facilitate income-generating activities for targeted beneficiaries.

Tactic:

- Supporting socio-economic development to at least 75% of the total value of SED contributions directly benefiting black people.

6.2.3. Maintain the CTICC's positioning as a leader in sustainability

The team will continue to create awareness about all the social and environmental sustainability initiatives that they are participating in, including activations and environmental measures.

Tactics:

- Use multiple platforms, including the website and social media, external media (such as publications), and entering into award programmes for all sustainability initiatives.
- Conduct and publish case studies on how the CTICC has assisted clients in upcycling and offsetting their carbon footprint.

6.2.4. Create a more substantial presence and understanding among staff around the Local Community Partners

The team will continue to initiate CSR activations and facilitate staff awareness and participation.

Tactic:

- Create more awareness about the CSR programme to encourage staff to participate in CTICC activations. Attention will be increased by creating collateral to educate staff about the LCPs and their work and encourage staff to pinpoint where they would like to assist in the CSR programme (either at or outside of the CTICC). Should staff wish to support any CSR initiatives outside of the LCP base, the CTICC has committed to considering these initiatives where possible.

7. Corporate Governance and Risk Management

The CTICC's Board of Directors ("the Board") ascribes to the principles and recommended practices as set out in the King IV Report on Corporate Governance for South Africa ("King IV"). This outcomes-based corporate governance code recommends best practices for cultivating good governance in relation to ethical culture, performance, effective control and legitimacy.

The Board is committed to maintaining high financial management, accounting, and reporting standards to ensure that the CTICC's affairs are managed ethically, transparently and responsibly, while also considering appropriate risk parameters.

The Board is responsible for risk governance and delegates oversight to the Audit and Risk Committee, which monitors the implementation and effectiveness of the enterprise risk management framework and risk management processes. Risk management is an integral part of the CTICC's strategic management and ensures sustainable growth.

The Board is further responsible for the governance of technology and information and delegates oversight to the Finance Committee, which monitors the implementation and effectiveness of the CTICC's Information Technology (IT) governance framework to support the CTICC in setting and achieving its strategic objectives.

With the assistance of the Audit and Risk Committee and Social and Ethics Committee, the Board ensures that compliance with applicable laws, rules, codes and standards are implemented to ensure that the CTICC acts as an ethical corporate citizen. The CTICC is also compliant with the Municipal Finance Management Act (MFMA), which provides for "secure, sound and sustainable management of the financial affairs of municipalities and other institutions in the local sphere of government" as well as other legislation, such as the Companies Act, the European Union General Data Protection Regulations (GDPR) and the Protection of Personal Information (POPI) Act.

The remuneration of the Board of Directors and its committee members, executives and senior managers are aligned with the MFMA. The Cape Town City Council sets and revises the upper limits of remuneration for the Board, its committee members, and the Chief Executive Officer (CEO). The Board also determines the senior managers' compensation who report to the CEO. Shareholders approve the policy for directors and independent Audit and Risk Committee members' remuneration at every second Annual General Meeting (AGM), as required by the Companies Act.

Bonuses are linked to performance and the Human Resources and Remuneration Committee determines the CEO's performance bonus. The management team (senior and middle management) receives performance bonuses in July, based on met company performance, while the bonuses paid out in February are based on personal performance.

The CTICC has revised and implemented its enterprise risk management framework, combined assurance framework, IT governance framework and legal and compliance framework to ensure that they were all concise, accessible, and appropriate for the size and nature of the CTICC's business operations and are aligned with recent changes in laws and regulations.

Effectively, responsible parties are employed to ensure the integrity and confidentiality of personal information by taking reasonable technical and organisational measures for the level of security required. This included the POPI Act, which means clients residing in countries governed by this legislation have the assurance that their personal data is protected. The team takes a global view and applies what is common to both legislation sets.

The frameworks referred to in this section are critical. They set out the structure and the rules that outline how the CTICC is managed and controlled in terms of risk, combined assurance and IT governance, and legal and regulatory compliance. The CTICC will continue to monitor the maturity of these frameworks.

The CTICC has a record of nine clean, unqualified audits and is committed to maintaining this. Procurement from B-BBEE companies is a priority, and the CTICC continually strives to improve on its targets.

7.1 The Company Secretary

The core focus of the Company Secretary is the effective administration of the Board and its committees and shareholder matters to ensure that procedures and structures are in place to promote good corporate governance outcomes.

The Company Secretary strives to ensure that the CTICC has a balanced and representative board, which is adequately informed and equipped to make the right decisions in the best interests of the CTICC within the constraints of its legal frameworks.

The Board is ultimately responsible for determining the direction of the CTICC through the establishment of strategic objectives and policies. Board meetings are held at least quarterly to review the company's performance against budgeted targets. These can be held more frequently if necessary.

It is important that Board members know their duties and responsibilities as directors regarding the applicable legislation and good corporate governance principles and recommended practices. Therefore, new Board members must receive a thorough induction as soon as possible to add value to the company. Board members and shareholders must also receive comprehensive reports to allow them to make informed decisions regarding the CTICC. Per King IV™, the Board is ultimately responsible for the legitimacy of all reports issued to stakeholders.

8. Financial Projections

Historically, the CTICC was able to sustain and support its operating and capital expenditure requirements since inception without having to obtain loan funding or require an equity injection from shareholders – other than for the expansion and building of CTICC 2. By all accounts, the CTICC was successful in the implementation of its business plan and strategies in the pre-Covid-19 environment.

In March 2020, South Africa experienced its first cases of Covid-19, and this was when the CTICC started to see the impact of the pandemic on the business. Bans on gatherings or events with more than 100 people were imposed on 15 March 2020 and the latter part of the month resulted in a nationwide lockdown commencing on 27 March 2020. The resultant National State of Disaster and lockdown has meant that the CTICC has, at times, been unable to host any events due to stringent regulations.

This has placed the financial security of the company at risk, as it is unable to operate at a level that is sustainable. However, the CTICC was still incurring operational and capital expenditure to maintain its assets and secure its future by continuing to market its services and venues to secure future bookings. At the time, the CTICC's forward book of events amounted to R877 million for a total of 196 events expected to be held from January 2021 to 2024. These included international and national events. Consequently, the CTICC had received advance deposits totalling R33.3 million from the contracted events.

The strategy was to protect the CTICC's forward book and to request clients whose events were affected during the lockdown to postpone rather than cancel them. The strategy proved successful, with many events being moved several times as the regulations changed.

This strategy also allowed the CTICC to retain the deposits paid by clients, which aided the funds available. These funds have been ring-fenced and invested so that they are not utilised for operational purposes.

Currently the value of the Forward Book is estimated at R607 million, with events contracted to the 2026 financial year. The lower value of the Forward Book, prior to the pandemic, is due to the lower revenues expected from food and beverage and other services with the decrease in attendance numbers expected.

The Forward Book remains the key to the recovery plan of the CTICC and the ability to grow it further and to secure repeat business from the clients.

Table 7: Forward Book – 2022/23 to 2025/26

Financial year	Events	Attendees	VR Revenue	F&B and Other	Total
2022	175	146 191	R39 448 240	R19 724 120	R59 172 360
2023	88	212 968	R106 420 349	R53 210 175	R159 630 524
2024	53	155 080	R126 978 240	R63 489 120	R190 467 360
2025	31	106 500	R85 299 864	R42 649 932	R127 949 796
2026	11	46 750	R46 628 085	R23 314 043	R69 942 128
Total	358	667 489	404 774 778	202 387 390	607 162 168

Management has reviewed all cost drivers and plans to ensure that non-critical expenditure is prevented, and capital projects deferred where possible. The assets are being maintained to ensure that the venues are operational and able to accommodate clients as and when required, as clients are booking events at short notice. All other interventions are further highlighted earlier within the document.

The CTICC is forecasting a return to profitability by the 2024/25 financial year based on the strength of the Forward Book as well as the potential “Blue Sky” included in the forecasts. The CTICC is also projecting to generate sufficient cash flow to fund its capital expenditure program, which was negatively impacted through the pandemic.

Table 8: Revenue Projections – 2022/23 to 2026/27

Description	Actual 2020/21	Budget 2021/22	Budget 2022/23	Budget 2023/24	Budget 2024/25	Budget 2025/26	Budget 2026/27

ANNEXURE 32

CAPE TOWN INTERNATIONAL CONVENTION CENTRE (CTICC) (MUNICIPAL ENTITY) - TARIFFS

2022/23 BUDGET (MAY 2022)

Pricing Strategy 2022/2023 Financial Year

The Cape Town International Convention Centre Company SOC Limited (RF) (CTICC) is a financially sustainable municipal entity that attracts and retains events.

Historically, the CTICC was able to sustain and support its operating and capital expenditure requirements since inception without having to obtain loan funding or require an equity injection from shareholders – other than for the expansion and building of CTICC 2. By all accounts, the CTICC was successful in the implementation of its business plan and strategies in the pre-Covid-19 environment. The CTICC must ensure that the costs of operating and maintaining both CTICC 1 and 2 are effectively managed and that sufficient revenue is earned through the hosting of events to cover any, and all, operational and maintenance costs and ensure that the CTICC retains its 5-star grading status.

In order to do this and to remain competitive in an ever-evolving and competitive market, the CTICC has a clear pricing strategy, which is reviewed on an annual basis.

In terms of this strategy, the CTICC's adopts two forms of pricing namely Premium Pricing as we believe our product offers value and memorable experiences to our clients, as well as Bundled Pricing, which is focused on package rates which are more suitable to the local and corporate market.

Validity of Rates

Generally Package rates are made available for the calendar year (Jan-Dec) with an anticipated CPI related increase, however due to the impact of Covid-19, as part of the recovery strategy the CTICC has taken a conservative approach to pricing.

Rates are determined taking the following factors into consideration:

- The impact of Covid-19
- CPI rate at the time of finalising its pricing,
- Competitor rates including local, national and international markets,
- Foreign currency fluctuations,
- Food costs (inflationary and fuel costs),
- Labour legislation and in particular sectoral determinations.

Conference package rates have increased by 0% (July – December 2021) and 4,7% (Jan – June 2022), based on market dynamics and demand.

Important to note that 2020 DCP (Day Conference Package) pricing was held in 2021.

The below rates are published on our website in the client manuals:

Day Conference Package Rates for 2022 Calendar Year

Package	2021 (July - Dec 2021) Excluding VAT	2022 (Jan – June 2022) Excluding VAT	2022 (July – December 2022) Excluding VAT
Full English Breakfast	R 304,35	R 378, 26	R 378, 26
Half Day Conference	R 513,04	R 513,04	R 513,04
Full Day Conference – Meeting rooms	R 573,91	R 573,91	R 573,91
Full Day Conference – Ballroom and Auditoria	R 643,48	R 656,52	R 656,52

Please note 2023 rates have not been confirmed and will be increased based on the latest published CPI as per Statistics SA.

Event Numbers

Our event number targets for the 2022/23 FY are 12 for International Conferences and 180 for the total number of events.

The CTICC strives to reach the event numbers target by actively launching promotions and campaigns to increase business from the local corporate and association market as well as business from local communities and organisations.

These campaigns are designed to increase the venue rental budget, but more importantly, are aimed attracting events in key economic sectors and addressing occupancy levels in low seasons.

Optimal Yielding Policy

The CTICC has developed an Optimal Yielding Policy aimed at attracting and retaining clients in key economic sectors that support the CoCT's IDP. Discounts are offered in line with the delegated authorities approved by the Board.

PART ONE - OVERVIEW

1. Executive summary

The Cape Town Stadium ("CTS") is a municipal entity tasked with the management of the DHL stadium, with the ultimate goal of becoming a financially independent and sustainable business through the commercialisation of the asset.

The CTS is currently endeavouring to deliver on its mandate as per the signed Service Delivery Agreement ("SDA"), as well as meeting the income targets as set out in the SDBIP. This will be achieved via a phased activation of all identified income streams. The aim of the entity is to maximize income and in doing so minimize the operational cost of managing the facility. The entity will strive towards financial sustainability and continuously contributing to the tourism, hospitality and events industry in the Western Cape. The financial plan for 2022/23 indicates an income target of R 92 million for the rental of facilities and other income. This target will be achieved on the presumption that stadiums will be allowed to operate without restrictions for the 2022/23 financial year, through the activation of the commercialisation model and various income streams, namely: the event income, naming, pouring rights, as well as commercial and retail leasing. The stadium remains a multifunctional facility, which will continue to host a variety of events from international and national sporting events, to recreational events, film shoots and corporate events. Multi-year agreements were signed with a number of local sport and recreational institutions, which will contribute towards reduction of the operational cost.

2. Annual Budget tables

The basis of measurement and accounting policies in preparation of the budget has been consistent with prior years. Refer to part two section 4, overview of budget-related policies.

PART TWO – SUPPORTING DOCUMENTATION

1. Overview of budget process

The 2022/23 budget process has taken into account the 2021/22 financial year of the operations of the CTS, as well as the current market conditions including the current restrictions around the Covid-19 pandemic, inflation, historical trend analysis and the proposed City budget guidelines.

2. **Strategic alignment with the City of Cape Town's ('COCT') Integrated** Development Plan (IDP)

The CTS is committed to ensuring its activities align but also support the City of Cape Town's IDP. As a municipal entity, CTS is required to submit, along with the annual budget, a multi-year business plan that sets key financial and non-financial performance objectives and measurement criteria. The CTS's mandate of achieving financial sustainability through maximum leveraging of all commercial opportunities, as well as contributing to the local economy through job creation, promotion of entrepreneurial endeavour and increase event tourism, economic growth, job creation and maintaining the asset, remains at the core of what the CTS does.

Annexure B illustrates the alignment between the CTS and the City of Cape Town. In addition to aligning with the City of Cape Town's IDP, the CTS's business strategy is also geared at contributing to the growth in the key economic sectors identified by both the City of Cape Town and the Western Cape Government as strategic areas for job creation and economic growth. Strategic economic sectors include:

- Finance
- Information Communication Technology (ICT)
- Retail
- The green economy including renewable energy
- Tourism and events

The COCT's Integrated Development Plan focus area's as compared to the CTS's business objectives is attached here under.

3. Key performance indicators 2022/23

The attainment of the key performance indicators targets as reflected in the Service Delivery Budget Implementation Plan ('SDBIP') is crucial for the successful operations of the entity. In addition, the performance management system prevalent is measured by the City of Cape Town against a set of key performance indicators (KPI's). These are reviewed annually by the shareholder. Annexure B reflects the CTS's SDBIP and targets for 2022/23.

4. Overview of budget related policies

The budget policies effective at the time of the budget preparation are:

4.1 All City related HR policies
4.2 Business Travel and Subsistence Policy
4.3 Supply Chain Management Policy
4.4 Director and Audit Committee Remuneration Policy
4.5 Code of Ethics
4.6 Entertainment Policy
4.7 Health & Safety Policy & SOP
4.8 Suite Policy
4.9 Procedures for Accepting and Receipt of Gifts Policy
4.10 Cost Containment Policy
4.11 Employee Reboot Facility Policy
4.12 Risk Management Policy
4.13 Virement Policy
4.14 Petty Cash Policy

These policies are available for inspection upon request.

5. Overview of budget assumptions

5.1 Revenue

Rental of Facilities and Equipment:

Rental of fixed assets in 2022/23 have been budgeted at R69.9 million which relates to income to be realised from the proposed new financial model with Western Province Rugby Federation (WPRF) as well as the implementation of the commercial overlay division.

Transfers and Subsidies (Grants)

As per key performance indicators agreed upon between the City and the entity, the annual grant was budgeted at R33.2 million for the 2022/23 financial year.

Other Revenue

Other revenue have been budgeted at R22 million which comprises of income generated through naming rights, rebates received from suppliers as well as services in kind.

5.2 Expenditure

Employee related costs

Employee related costs are budgeted at R2.8 million that relates to the employee cost of the CFO as well as the appointment of a legal and compliance officer for the entity. The entity will have two employees; all other employees are seconded from the City.

Remuneration of Board Members

The budget of R478 893 is based on six (6) board members and the outer years have been budgeted with annual inflationary increases of 4%.

Other materials/inventory consumed

Other materials/inventory consumed comprise of fuel, printing and stationary and other material related costs. An estimate amount has thus been included in the 2022/23 budget and adjusted with inflationary related increases of 4%.

Contracted Services

Contracted services consist of consultants and professional services, contractors cost as well as outsourced services. The 2022/23 budget increased with 27% compared to the 2021/22 adjustment budget due to the increased R&M expenditure, marketing budget, salary cost for the seconded employees and number of events expected to take place during the 2022/23 financial year.

The seconded employee costs for the 2022/23 financial year increased with 12% compared to the previous financial year due to the appointment of the SCM practitioner for the entity, as well as the annual salary cost of living increase for the 2022/23 financial year.

Other Expenditure

Other expenditure has been budgeted to increase with 36% compared to the 2021/22 adjustment budget, due to a portion of the naming rights income payable to WPRF. There has been a reclassification of this line item under expenditure. The prior year the net revenue was reflected under revenue.

6. Overview of budget funding

The CTS is the beneficiary of a municipal grant allocation to cover operational expenditure in terms of the Budgeted Medium Term Revenue and Expenditure framework.

7. Board member allowances and employee benefits

The board members do not receive any allowances and are only paid a director's fee for their attendance at board and sub-committee meetings. The director's fees are also determined by the City in terms of national guidelines issued by National Treasury. The directors' fees are as follows:

Detail	Members
Board and Committee meetings: 2022/23 Committee include: Audit and Risk Committee HR, Social and Ethics Committee Events strategy and Marketing Committee Finance and Commercialisation committee	R 478 893

8. Contracts having future budgetary implications

   The Cape Town Stadium does not have any contracts which will impose financial obligations on the municipal entity beyond the three years covered in the annual budget.

9. Legislation compliance status
   The legislative checklist is done on an annual basis and there are no areas of non-compliance.

10. Other supporting documents
    None

Annexure A

Alignment between the City and the CT Stadium

A capable and collaborative City Government. Leveraging the City's assets	Cape Town Stadium strives to position Cape Town as a forward looking and globally competitive City through: ▪ Maximum leveraging of commercial opportunities. ▪ Improved business conversation short, medium and long term. ▪ Developing partnership. ▪ Seamless and successful delivering of events. ▪ Implementation, promotion and enhancements of the repositioning of the CTS Corporate brand.
Training skills development:	▪ Attract, retain, motivate and develop a high calibre cohesive component and strive to become a highly sought after employer
Compliance	▪ CTS contributes to a capable and collaborative City through compliance with the MFMA and required legislation as well as through the development and subsequently compliance of various policies such as the risk management policy, code of ethics and other relevant policies.
Health and safety:	▪ Ensure clients and staff needs are addressed through the provision of a menu of services, from cleaning to safety and security and other BBBEE suppliers.
Economic Growth	▪ Contributing to local economy through the major event hosting facilities and maintenance initiative.
Public Space, Environment and Amenities	▪ Ensure clients and staff needs are addressed through the provision of a menu of services which includes maintenance, cleaning, safety and security. ▪ An approved and scheduled facility operational programme to support the planned life cycle of the CTS.

CAPE TOWN STADIUM

1 EXECUTIVE SUMMARY

1 EXECUTIVE SUMMARY

1.1 INTRODUCTION

The Cape Town Stadium (RF) SOC Limited ("CTS RF") is a Municipal Entity tasked with the management of the DHL Stadium, with the ultimate goal of becoming a financially independent and sustainable business through the commercialization of the asset.

The 2020/2021 financial year has been a challenging year for CTS (RF) as a result of the COVID 19 pandemic, with only a few events being hosted at DHL Stadium and those events that were hosted, done so without any spectators. CTS (RF) was however able to maximise revenues wherever the restrictive legislation allowed, and together with stringent budget cuts, were able to achieve short-term objectives without compromise to the longer-term sustainability. COVID 19 has resulted in a significant delay with regards to CTS (RF) implementing its strategy to become financially sustainable.

CTS (RF) has completed its third full annual financial cycle. The Board and management of CTS (RF) are pleased to report that during the 2020/21 financial year, the Municipal Entity ("ME") has achieved and in some instances exceeded its projected performance and budgeted financial targets. A Service Delivery Agreement ("SDA") in respect of its governance and management has been implemented by CTS (RF), as legislatively required in terms of the Municipal Financial Management Act, 2003 ("MFMA")

The CTS (RF) Board of Directors (the Board) and Management were pleased that the Entity achieved an unqualified 'clean' audit report for the third full financial year of operations.

The mandate for the Entity is to be financially sustainable and, to this end, the Board approved commercialisation strategy, has been a focal point of the Entity during its current business cycle. With the successful appointment of our commercial service providers, the Entity is now well-positioned to implement the commercial event overlay. This implementation will see, in addition to rental and technical revenues, commercial revenues being generated from events hosted at the stadium. The success of the implementation of the commercial event overlay will be dependent on when COVID 19 restrictions will be lifted and normal business resumes at the stadium.

NAMING RIGHTS PARTNER

In 2021 CTS (RF) successfully secured DHL as the Naming Rights Partner for the stadium. The stadium will, for the next 4 years, be known as DHL Stadium. Together with the right to name the stadium, DHL has also secured a set of branding rights that will transform the stadium to a fully fledged, commercially branded stadium. While the name of the stadium has now changed to that of DHL Stadium, it is important to note that this does not affect the name of the ME, Cape Town Stadium (RF) SOC Limited, which remains unchanged.

The following CTS (RF) Board committees and sub-committees have been fully constitutionalized via the development and approval of Terms of Reference:

- Audit and Risk Committee
- Human Resource, Social & Ethics Sub-committee
- Events, Marketing & Communication Sub-committee
- Commercial Sub-committee

These committees have been effectively and diligently fulfilling their respective oversight roles.

An independent, experienced and outsourced company secretary has been appointed to support the Board and committees.

CTS (RF) is committed to upholding good ethical standards and the application of corporate governance principles in accordance with King IV. The Entity has adopted the King IV principles and will continue to conduct its business in an open, fair, responsible and transparent manner, with accountability attributed as relevant to the Board, management and staff members.

Retention and development of existing delivery-focused staff is a key focus area for CTS (RF), particularly with reference to the dynamic, implementation-orientated environment within which the business is operating. In this regard, and in terms of good corporate practice, a succession plan has been developed by management and approved by the Board. This plan will ensure that the business objectives are adequately supported in future years as the ME implements its commercial strategy.

The immediate objective is to ensure readiness for the return of spectators to stadiums. While the timeline to this remains unclear, we anticipate some form of spectator attendance in the first half of the 2022 calendar year.

The Entity is now entering into the commercial and financial sustainability phase of its business cycle, which is ultimately aimed at transforming the DHL Stadium into a valuable City asset.

1.2 LEGISLATIVE COMPLIANCE & POLICY FRAMEWORK

A final Service Delivery Agreement (“SDA”) between CTS (RF) and the City was signed on 15 November 2018. The business plans and Service Delivery Budget Implementation Plan (“SDBIP”) (Annexure B) targets and scorecards of the Entity have been developed to ensure focused implementation and execution of its legislative and contractual mandates, obligations and responsibilities.

Relevant policies were internally developed by CTS (RF) to ensure compliance with these legislative responsibilities. These policies were reviewed during the 2020/21 financial year and several new policies were drafted and approved by the Board. The policy framework aligns to the future ME objectives and will be updated from time to time as required in order to support the business as it grows.

1.3 FINANCIAL SUSTAINABILITY

As part of its drive towards financial sustainability and having recognized the fact that the number of spectators at events is the major driver of all commercial income streams at DHL Stadium, CTS (RF) is focusing on the following targeted operational areas:

- Activation of all potential income streams;
- Attracting events with a high spectator yield;
- Focusing its marketing initiatives towards increasing the number of events at DHL Stadium (including, but not limited to, bowl, non-bowl, and conferencing & banqueting, film shoots and product launch events);
- Optimizing utilization of budget and realizing savings where possible and appropriate.

1.4 COMMERCIALISATION MODEL

The Board has approved the implementation of the recommended partially outsourced commercialisation model, which, in essence, will see the majority of commercial opportunities being outsourced to specialists during years 1 – 4 and these same opportunities , following skills transfer, from years 5 – 6.

The commercialisation efforts are managed by a newly formed Commercial Department who in turn are responsible for the implementation of the strategy, as well as managing all outsourced service providers. The outsourced commercial opportunities include the commercialization of inter alia, naming rights, advertising rights, pouring rights, liquor distribution, hospitality, food and beverage and concessionaires.

The signing of a binding Heads of Agreement between the City and Western Province Rugby in 2019 was an important milestone and a core enabler to the commercialisation of CTS (RF). This enabled the appointment of the commercial service providers who will now support events hosted at DHL Stadium and in turn assist CTS (RF) achieving its revenue targets.

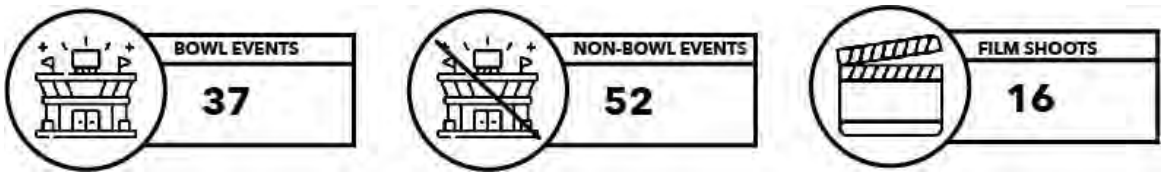
In pursuance of its commercial property initiatives, CTS (RF) has entered into a lease agreement with the City, which now allows it to sublet all available office and retail space in the stadium. A commercial strategy will be developed for the vacant space and potential usage of space within the building in order to best realise gain from this space over the future years.

With the securing of DHL as the Naming Rights Partner in July 2021, the ME will focus on the delivery of rights and media value in the coming years, in order to build future value.

The focus of the department in future years will be to continually assess changing markets and ensure the commercial strategy remains relevant, while capitalizing on opportunities with the primary objective of commercial gain.

1.5 EVENTS

DHL Stadium has maintained its position as a multi-functional facility and has hosted 105 multi-category events, during the 2020/21 financial year, broken down as follows:



The Entity has concluded several multi-year bowl event deals with; inter alia, major international concert promoters, World Rugby™, major Premier Soccer League ("PSL") clubs and the South African Rugby Union ("SARU"). The stadium is also a regular annual host to the knockout stages of PSL major events.

The DHL Stadium is currently the host of the SA leg of the HSBC World Rugby Sevens Series and has in 2019 received the accolade of being the best event of the World Sevens™ Series. It will host the Cape Town leg of this event again in 2022.

DHL Stadium was also the proud host of the British Irish Lions Test Series during which we hosted five test matches against the springboks as well as a match against the DHL Stormers.

Reference is also made to the recent announcement that DHL Stadium will be the proud host of the Rugby Sevens World Cup™ in 2022 in addition to the HSBC World Rugby Sevens Series.

It remains a strategic priority of CTS (RF) to ensure the optimal use of the City's major stadium asset through, amongst others, the creation of event use opportunities for both professional and non-professional (community/cultural) organizations and the professional delivery of its obligations to its valued international and local event organizer clients.

With the 2022/3 FY bowl calendar already full, the focus of the department will be to assist in the securing of events that align to our target markets for future years and ensure the successful delivery of events with the aim of securing repeat business, in turn leading to an events calendar that is secured well in advance of the year in question.

Whereas in the past, the ME focused purely on the number of events hosted as a measurement of success, in future the ME will focus on the number of events as well as the number of spectators as there is a direct correlation between the number of spectators and commercial opportunity.

1.6 MARKETING - "**DHL** STADIUM - SO MUCH MORE THAN JUST A **STADIUM**"

The credo "So much more than just a stadium" continues to hold for the DHL Stadium, affirming the confidence in being able to host any event no matter the complexities; making our clients' vision a bespoke reality. This credo is a message, which has been deeply integrated into its daily business practices and is, inter alia, a core feature of our communication and PR strategy.

The Marketing, Brand and Events Acquisition Department will continue to focus its efforts on managing the DHL Stadium key marketing and brand components as well as procuring new events for the stadium. As part of this, the stand-alone DHL Stadium website and the Instagram account has proved vital tools for the showcasing of the DHL Stadium.

The focus of the department in the future years will be to assist in the positioning of the DHL Stadium both in South Africa and globally, with the aim of acquiring events that align to the identified target markets. This will be achieved through stakeholder engagement, owned marketing platforms and media exposure.

1.7 ORGANISATIONAL DESIGN & ALIGNMENT WITH BUSINESS GOALS

The Entity Board approved the new organizational design and the top structure has been appointed. The ME will continue to review the organizational structure over the future years as the entity's financial sustainability objectives are realized.

The Board has approved the revised organizational structure is set out in Annexure A.

1.8 HUMAN CAPITAL DEVELOPMENT

As a progressive organization, which prides itself in the well-being and development of its human capital, CTS (RF) is acutely aware that continuous training of its valued staff is essential to the successful delivery of its mandate.

The management of major stadia is a specialist, complex and dynamic area, which requires consistent growth of its staff, both as individuals and as a key component of the organization.

To achieve this, targeted training interventions as well team and organizational effectiveness assessments (and interventions where applicable) will be affected by the Entity during the period of this business plan.

1.9 OPERATIONS AND EVENTS

The Operations and Events Department was established in 2020. The primary mandate of this department is asset preservation, facility maintenance as well as, ensuring, and coordinating logistical, and event readiness.

A Maintenance Strategy and Plan has been implemented and is being diligently monitored to ensure the longevity of this asset. The regular compliments received in this regard from national and international users of the stadium bears testimony to the success of this programme. This strategy remains in place and will be monitored continuously through the next year.

This department also serves as the entry point for event clients who wish to use the venue and the movement of the events section into this sphere of operations has proven to be effective from the organizations restructuring integrations as well as a client service point of view.

ADDITIONAL HOSPITALITY SUITES

In line with international research and benchmarking of commercially successful international stadiums, the expansion of its in-stadium hospitality facilities at the DHL Stadium has been completed. This involved the design and construction of the additional suites at DHL Stadium. The Operations and Events Department managed the implementation of this strategic capital project.

The project increased the number of suites by 162, with the total suites available at the DHL Stadium now being 236. This is to cater for the requirements of Western Province Rugby and in anticipation of their move to DHL Stadium in line with the terms agreed between the parties.

These suites will be fully commercialized in the upcoming year as we on-board our anchor tenant and host full stadia events.

SASREA COMPLIANCE

CTS (RF) has applied for and has again received its Existing Stadium Safety and High-Risk Grading Certificate as contemplated in Section 8 of the Safety at Sports & Recreational Events Act, 2010 for DHL Stadium. The DHL Stadium is the only sport & recreational facility in the Western Cape Province categorized to host high-risk events.

The Operations and Events Department is currently in the process of applying for the SASREA required Section 10 stadium Alteration/Extension Safety Certificate in respect of its imminent additional suite capital project referred to in more detail later in this report.

1.10 AN ENVIRONMENTALLY SUSTAINABLE STADIUM

The Entity is currently and will continue to implement a number of initiatives to maximize the environmental sustainability of the asset and to comply with existing City, Provincial and National requirements and local environmental challenges.

These initiatives include, but are not limited to, the following implemented initiatives:

- Water conservation;
- Pitch Fertilization;
- Energy efficiency including “intelligent” LED Lighting systems;
- Waste management and cleaning.

The Operations and Events Department has developed an Event Environmental Sustainability Guide, aligned with ISO 20121. This Guide will be issued to all event organizers hosting events at the stadium to ensure compliance.

1.11 AUDIT OUTCOME

The Board and Management of CTS (RF) are proud to confirm that the Entity has achieved an unqualified audit report with no findings, i.e. clean audit, for its third consecutive year of operating as a Municipal Entity. The Entity will continue to strive towards ensuring that it consistently achieves unqualified audit reports in the future.

1.12 OUR CORE OBJECTIVE & GUIDING PRINCIPLES

DHL Stadium will focus on ensuring that the following core objectives and values of the organization are consistently applied.

VISION

To achieve global recognition as a major event hosting facility and become the premium venue of choice.

MISSION

As a leading international, multi-purpose events facility our objectives toward attaining our vision are:

- client service excellence through focused strategic purpose;
- team synergies;
- customer centricity;
- innovative approaches and
- environmental sustainability.

Our Mission Statement can be further refined as follows:
"*CTS (RF) will continue to strive to achieve financial sustainability through the maximum possible leveraging of all commercial opportunities at the DHL Stadium*".

The Entity will deliver on its plan in a manner that is consistent with international environmental best practices. Furthermore, it will continue to contribute to the socio-economic well-being of the City by positively impacting the local economy (Inc. job creation, promotion of entrepreneurial endeavour & increased event-based tourism) through the hosting of major events as well as creating a safe and spectator-friendly environment where members of our Cape Town & Western Cape communities and international and national visitors can share in the DHL Stadium experience.

CORE VALUES

The following core values will continue to underpin the business of CTS (RF) as it transitions into a fully commercialized, major stadium business entity:

- Professionalism
- Integrity
- Customer centricity
- Respect
- Efficiency
- Versatility

BUSINESS ETHICS

The Entity is committed to developing and upholding an ethical business culture.
As stated in the Executive Summary, CTS (RF) has adopted the King IV principles and will continue to conduct its business in an open, fair, responsible and transparent manner, with accountability attributed to relevant Board, management and staff members.

GUIDING PRINCIPLES

In addition to the stated core business objectives and values, the Entity has adopted and will continue to comply with the following guiding principles drawn from the City's current 2017-2022 IDP. These guiding principles act, amongst others, as drivers for the implementation of its Business Plan:

- Good Governance
- Operational sustainability
- Forward-looking & globally competitive
- Customer centricity
- Resilience
- Transversal approach (improved integration, coordination and strategic alignment of departmental services)
- Economic inclusion
- Resource efficiency & security
- Environmental sustainability
- A safe & secure environment.

The CTS (RF) Board has approved the internally developed Code of Ethics Policy. It serves as the guiding light for the ethical operational practices, which permeate the organization.

1.13 STRATEGIC ALIGNMENT TO THE **CITY'S** INTEGRATED DEVELOPMENT PLAN (IDP)

CTS (RF) will continue to conduct its business in accordance with the priorities (objectives) and foundations of the City's current 2022 - 2027 IDP.

The business planning of all CTS (RF) Departments are aligned with the following City of Cape Town Strategic Focus Areas:

OBJECTIVE 16: A CAPABLE AND COLLABORATIVE CITY GOVERNMENT

16.1 Operational sustainability programme
16.2 Modernised and adaptive government

PRIORITY/FOUNDATION: PUBLIC SPACE ENVIRONMENT AND AMENITIES

Objective 11: Quality and safe, parks and recreations facilities supported by community partnership
11.1 Quality social facilities programme

PRIORITY/FOUNDATION: ECONOMIC GROWTH

Objective 1. Increase jobs and investment within the Cape Town economy
1.3 Economic development and growth

CAPE TOWN STADIUM

2 WHO WE ARE

2 WHO WE ARE

CTS (RF), the Municipal Entity, commenced business operations on 01 February 2018. The Entity has successfully completed its third full financial cycle and has been operating within the mandate as captured in the SDA between the Entity and the City.

2.1 SHAREHOLDING

The City is currently the sole owner (100% shareholder) of the company CTS (RF), Reg. NO: 2017/488432) which houses the Municipal Entity. Notwithstanding its sole ownership of the entity, the City has elected to appoint a Board comprising of non-executive directors with a combination of appropriate experience and professional skills. These non-executive directors were drawn by the City from the ranks of the Cape Town private sector. CTS (RF) has been mandated by its 100% shareholder, inter alia, with the full commercialization of DHL Stadium.

2.2 BOARD OF DIRECTORS

As stated above, the Entity retains an experienced Board of non-executive Directors who perform an oversight function over the governance and business affairs of CTS (RF) as contemplated by the Companies Act, 2008 (Act No. 71 of 2008); the Memorandum of incorporation (“MOI”) of the Entity, the City contractual mandate set out in the SDA and the principles enshrined in King IV.

The strategic focus of the Board remains the maximization of its commercial potential and the alignment with and promotion of the core drivers of the City’s current Integrated Development Plan that will ensure the Entity’s drive towards financial sustainability.

2.3 COMMITTEE AND SUBCOMMITTEES

The following CTS (RF) Board sub-committees have been established and have continued to perform their respective functions in terms of the relevant Board approved Terms of Reference, Board directives, applicable law and the principles enshrined in King IV:

Audit & Risk Committee

- Ms. Viola Manuel (Chairman)
- Mr. Johan Dique
- Mr. Prittish Dala (Independent)
- Mr. Tom Blok (Independent)
- Ms. Lindiwe Ndaba (External)

HR, Social & Ethics Subcommittee

- Mr. Samkelo Blom (Chairman)
- Ms. Limia Essop
- Mr. Peter-John Veldhuizen
- Ms. Viola Manuel

Events, Marketing & Communication Subcommittee

- Mr. Martin van Staden (Chairman)
- Ms. Viola Manuel
- Ms. Limia Essop

Commercial Subcommittee

- Mr. Johan Dique (Chairman)
- Mr. Peter-John Veldhuizen
- Ms. Viola Manuel
- Mr. Martin van Staden

The tenure of the Board of Directors was renewed on 1 November 2020 for an additional three years. The Entity is entering a critical phase in its business with commercial initiatives and income streams being activated. The current Board of Directors were intimately involved in these processes and extending their tenure will ensure business continuity as well as the retaining of knowledge and experience gained during the last three years.

2.4 KEY STAKEHOLDERS

The business of DHL Stadium continues to enjoy the support of and conducts its business with an ever-expanding range of stakeholders and stakeholder groups. These include:

Governance • The City of Cape Town • The Western Cape Government • CTS (RF) Board Members	DHL Stadium Staff • Full-time staff • Fixed term contract staff • Casual event staff
Clients/Customers • Spectators/event attendees • International Sports & Entertainment Rights Holders • Local Sports & Entertainment Rights Holders • International & domestic sports & recreational controlling bodies • Professional Sports Franchises (e.g. WPR, CT City, Kaizer Chiefs FC • International & local music concert promoters & managers • International & local event organizers/managers • International & local production companies • International & local sponsors • International & local corporates • International & local advertising companies • International & local members of the motion picture (film) industry • Cultural organizations • Religious groups • Political organizations • National and International Conference (PCO's) Organizers • Anchor Tenant	Media • International & local print media • International & local broadcast media (TV & Radio) • Industry and mainstream online media • Social media platforms • Regional news media • Regional radio stations General Public • Ratepayers organizations • Cape Town community • Western Cape Community • National and International visitors Business Partners/Associates • 3rd party professional service providers • 3rd party vendors/suppliers Sponsorship/partners • Naming rights partner

CAPE TOWN STADIUM

3 GOVERNANCE

3 GOVERNANCE

3.1 KING IV

As an organization, CTS (RF), its Board of Directors and management have adopted and will continue to conduct its business operations within the ethical, moral & compliance principles as set out in King IV. The Entity's Board, its members and management will continue to place a strong focus on the upholding of high standards of corporate ethics, fiscal management and corruption-free practices.

3.2 POLICY MAKING

The CTS (RF) Board will continue to actively, with the assistance of management, develop and approve corporate business policies for the Entity, which are aligned with the principles enshrined in King IV.

Three new policies were developed and approved by the Board during the current 2020/21 financial year:

- Risk Acceptance/ Risk Tolerance Level Policy
- Petty Cash Policy
- Environmental and Events Sustainability Policy

The following existing policies were reviewed and amended where appropriate and approved by the Board:

- Directors and Audit Committee Members' Remuneration Policy;
- Supply Chain Management ("SCM") Policy.

Furthermore, the annual review of the following existing policies was concluded with no amendments:

- Code of Ethics Policy;
- Health & Safety Policy & Standard Operating Procedures;
- Entertainment Policy;
- Hospitality Suite Policy;
- Business Travel & Subsistence Policy;
- Gift Policy;
- Cost Containment Policy;
- Virement Policy;
- Reboot Policy;
- Suite Policy.

In addition to the above, the Entities management developed and the Board approved the Terms of References for the various Committees and sub-committees referred to above. The management team is continuously assessing the content of all its policies and ensures implementation by all departments.

CAPE TOWN STADIUM

4 CTS (RF) – PURPOSE & SERVICE MANDATE

4 CTS (RF) – PURPOSE & SERVICE MANDATE

4.1 KEY ASPECTS OF REQUIRED SERVICE DELIVERY

As previously reported, a final SDA was signed between the City and CTS (RF) on 15 November 2018. CTS (RF) continues to comply with its contractual obligations set out therein.

4.2 SERVICE DELIVERY AGREEMENT BETWEEN THE CITY AND THE CTS (RF)

The salient provisions of the SDA between the City and CTS (RF), are captured in the following table:

SE TABLE 1 – CTS (RF) ME SDA OVERVIEW

Period of agreement	The period of agreement is 50 years from commencement date. The City may, at its sole discretion, extend the Service Provider's (ME's) appointment for a further period of 49 years.
Funding	The City will provide the grant allocation to cover the Entities operational expenditure in terms of an approved budget and provide support services. The stadium will be responsible for all maintenance, which will be based on the City's maintenance standards. The City will be liable for all capital expenditure, including additional hospitality suites.
Staffing	The City will second staff members to the Entity with the concurrence of the staff members concerned. Staff currently employed at CTS (RF) will remain as City employees, will be paid by the City and will receive their standard benefits including bonuses and leave pay. The ME may appoint additional staff.
Services to be Provided	• General facility maintenance & event support operations • Events and entertainment services management • Commercialization, marketing and hospitality management • Finance, legal and administration management
Ownership and Control	The City of Cape Town is 100% shareholder.
Oversight Processes	The Finance Directorate (Treasury Department) of the City monitors the SDA and related performance and compliance of the municipal entity.
City's Obligations	The City must provide dedicated and prioritized support with regards to accounting, financial management and budgeting per MFMA, including utilization of the SAP (Systems, Applications and Products) System as used by the City and Supply Chain Management support, legal, company secretary, brand management and communication. In addition, the City must provide dedicated and prioritized services regarding human resource management support, as well as internal audit and risk management support including oversight over the service provider's audit committee.

The following operational deliverables in terms of the SDA continue to be executed in terms of the provisions of the SDA between the City and CTS (RF):

4.2.1 GENERAL FACILITY OPERATIONS

Asset management and maintenance: ICT services and infrastructure support (including ticketing infrastructure, advertising, audio-visual), safety and security, capital projects, refurbishment and investment projects infrastructure.

4.2.2 EVENTS AND ENTERTAINMENT SERVICES MANAGEMENT

Bowl and non-bowl event scheduling; planning and execution; development and hosting of signature events; managing of events industry and service provider requirement; events leveraging and bidding processes, etc..

4.2.3 COMMERCIALISATION, MARKETING AND HOSPITALITY MANAGEMENT

Advertising; merchandising; supplier and pouring rights; ticketing; hospitality; sponsorships; tourism; marketing of bowl and non-bowl facilities; property development and management; commercial legal services.

4.2.4 INTERNAL COMPANY SERVICES MANAGEMENT

Establishment and management of structures, systems and processes relating to legal, governance, compliance, HR, administration, and such additional services as the City may require from time to time.

CAPE TOWN STADIUM

5 EXECUTION OF CTS (RF) SERVICE DELIVERY MANDATE

5 EXECUTION OF CTS (RF) SERVICE DELIVERY MANDATE

5.1 COMMERCIAL

The Commercial Department was established in February 2020. This follows the Board approval of the Commercial Strategy, which involves the outsourcing of certain functions. A number of initiatives have been implemented to commercialize the stadium. Seven tenders were drafted and awarded to implement the Commercial Strategy.

These included:

- Concessionaires for Food, non-alcoholic and alcoholic beverages;
- Hospitality and Conferencing services;
- Product and Pouring Rights suppliers
- Liquor Distribution Agent

Aside from these appointments, an agency was also appointed for the sale of advertising inventory at the stadium. The appointment of these aforementioned service providers (12 in total) forms the basis on which the DHL Stadium will be commercialised over the next few years.

The Naming Rights Partner has been secured, seeing the stadium officially change its name to that of DHL Stadium.

IDENTIFICATION OF FULL SPREAD OF COMMERCIAL OPPORTUNITIES CURRENTLY AVAILABLE AT DHL STADIUM

• Naming Rights Partnership • Stadium bowl quadrant/stand sponsorships • Hospitality, catering & banqueting services • Liquor warehousing & liquor distribution • General food & beverage concessions • Activation of Commercial Parking opportunity • Leasing of office & retail space inventory • Event-related equipment and asset rentals	• Pitch level & first-tier electronic (LED) advertising • Pouring rights sponsorships • Value in Kind & preferred product suppliers • Event day acquisition & hosting • DHL Stadium ticketing & hospitality sales • Commercialization of commercial & retail office space inventory • Conferencing & banqueting services • Film & advertising shoot rentals & support services

The above-mentioned will allow for implementing the full commercial overlay for events at the DHL Stadium.

5.2 OPERATIONS & EVENTS

The Operations and Events Department are the custodians of all stadium operational matters specific to infrastructure, facilities, ICT, Events and Safety and Security Management.
The Department supports the service delivery mandate through the implementation of board-approved strategies namely:

- The Integrated Events Strategy
- The Environmental and Event Sustainability Strategy and Policy Directive
- The Facilities Maintenance Strategy
- Health and Safety Policy

Aside from these strategies, the Department will ensure an integrated approach towards the realisation and implementation of these strategies through

- Joint planning across all departments enhances operational efficiency and effectiveness.
- Introduction of Project Management principles and processes;
- The articulation, development and application of tracking and monitoring tools to ensure accurate reporting.
- The development of operational plans and guidelines associated with event operations.
- The introduction of operational policy

5.3 MARKETING, BRAND AND EVENT ACQUISITION

The Marketing Department will continue the implementation of the following developed, board-approved strategies, plans and activities:

- Social Media Strategy;
- Brand Management Strategy;
- Marketing Strategy; and
- The leveraging of the DHL Stadium website and that of its third-party partners

The department will continue to work with the anchor tenants to ensure that communication and marketing plans align for the promotion of events at the DHL Stadium.

A continued effort from this department will also be placed on supporting the acquisition of events, promotion of events and the stadium's commercial efforts.

5.4 INTERNAL COMPANY SERVICES

The Internal Company Service Department will continue to provide support to all departments.
The focus for the year will be the coordination of training opportunities for staff, tailoring contractual agreements to ensure alignment with the commercial initiatives, and all other HR Related aspects.
This function will continue to facilitate the performance management processes and corporate reporting to ensure both technical compliance as well as compliance with legislative timelines.

In addition, this department manages and monitors performance of the appointed Company Secretariat to ensure compliance as per their tender specfications and specific committee requirements.

5.5 FINANCE

The Finance Department will continue providing support to all the operational departments. The key focus for the year was the procurement, development and implementation of the new finance system. The new finance system will be utilized to record, reconcile and report on all the new commercial revenue streams.

The Finance Department also supported the operational team with successfully developing the Entities own contract management system, which is now being fully implemented. The department provides day-to-day operational support to all the other departments, which include all the necessary financial support at a transactional level. There is also a requirement for the finance department to provide various financial reports on a monthly and quarterly basis to both management and the board. Compliance financial reporting in terms of National Treasury Financial Reports and the MFMA are key deliverables for the department and are strictly adhered to at all times.

The department prepares its budgets and adjustment budgets for CTS (RF) according to the MFMA budget cycle. The department furthermore regularly prepares financial projections, which are utilized to monitor both income and expenditure. The department regularly assesses and monitors the financial risks that have been identified and where new risks are identified these would be added to the risk register.

CAPE TOWN STADIUM

6 MACRO ENVIRONMENTAL ANALYSIS

6 MACRO ENVIRONMENTAL ANALYSIS

A review and update of the current high-level macro-environmental (PESTEL) operating environment analysis, outside of the control of CTS (RF), originally undertaken in terms of the previous 2020/21 business-planning period was re-visited and updated for the current DHL Stadium financial year. Amendments to the PESTEL analysis in respect of the impacts of the current and potential operating environment of DHL Stadium, the core business of the Entity, on its business operations have been executed in terms of the original analysis.

Reference: www.business-to-you.com/scanning-the-environment-pestel-analysis/

The high-level findings of the updated PESTEL analysis were as follows:

6.1 POLITICAL

- South Africa's global reputation in light of state capture, corruption and political instability
- Continued implementation of restrictions through the Disaster Management Act 57 of 2002 by the National Government and the impact on business

6.2 ECONOMIC

- Covid19 restrictions and the impact on the global events industry including the ability/inability for artists to tour South Africa
- Weakened global and South African economy due to Covid19
- High unemployment in South Africa and reduced spending power/disposable income in the face of higher inflation
- South Africa's sovereign credit rating "junk" status and the negative impact on investment
- Instability of ESKOM and the continued implementation of "load shedding" in South Africa

6.3 SOCIAL

- "Active Citizenship" with society being more vocal and outspoken, expressing their views on points of interest
- Behavioural changes brought about by Covid19 and social distancing
- Flexible work practices lead to a greater number of people working from home/remotely
- High crime rates in South Africa influence the safety of the general public
- World-wide vaccination drive and the efficacy of stemming Covid19

6.4 TECHNOLOGICAL

- A digital connection has become the norm - a way of life around the world
- Social media and integrated online solutions have become the norm driving digital solutions for consumer engagement
- Increase in cyber threats and the need to protect data

6.5 ENVIRONMENTAL

- Climate change awareness continues to grow globally
- An increase in environmentally conscious practice, in turn, changes consumer behaviour
- Increase in legislation and corporate responsibility towards the environment

6.6 LEGAL

- Implementation of the Protection of Personal Information Act (POPIA)
- Insurance framework and the changing landscape due to POPIA and Covid19
- Strongly regulated legislative framework of National Government, Local Government and SASREA
- Covid 19 regulatory legislation

CAPE TOWN STADIUM

7 SWOT ANALYSIS

7 SWOT ANALYSIS

The SWOT analysis of the current CTS (RF) Business Plan and the environment of DHL Stadium have been re-assessed and has been updated as follows:

Strengths

- World-class, multi-purpose facility;
- Accessibility & location;
- Excellent track record in hosting a variety of events successfully;
- Strong relationships with Event Organisers, both locally and internationally;
- Long term agreements with anchor tenants;
- Strong corporate governance and Board of Directors;
- Competent staff;
- SASREA knowledge and the application thereof;
- Industry respected Commercial and Technical Service Providers;
- Support of the City of Cape Town
- Well run City and Province with stable government structures ;
- Centralised location in a popular and safe suburb and surrounds;
- Good access to public transport and extensive parking facilities;
- Well maintained infrastructure and pleasant spectator environment/amenities;
- Proactive and competent Board and Senior Management structures;
- Ability to implement bio secure bubble

Weaknesses

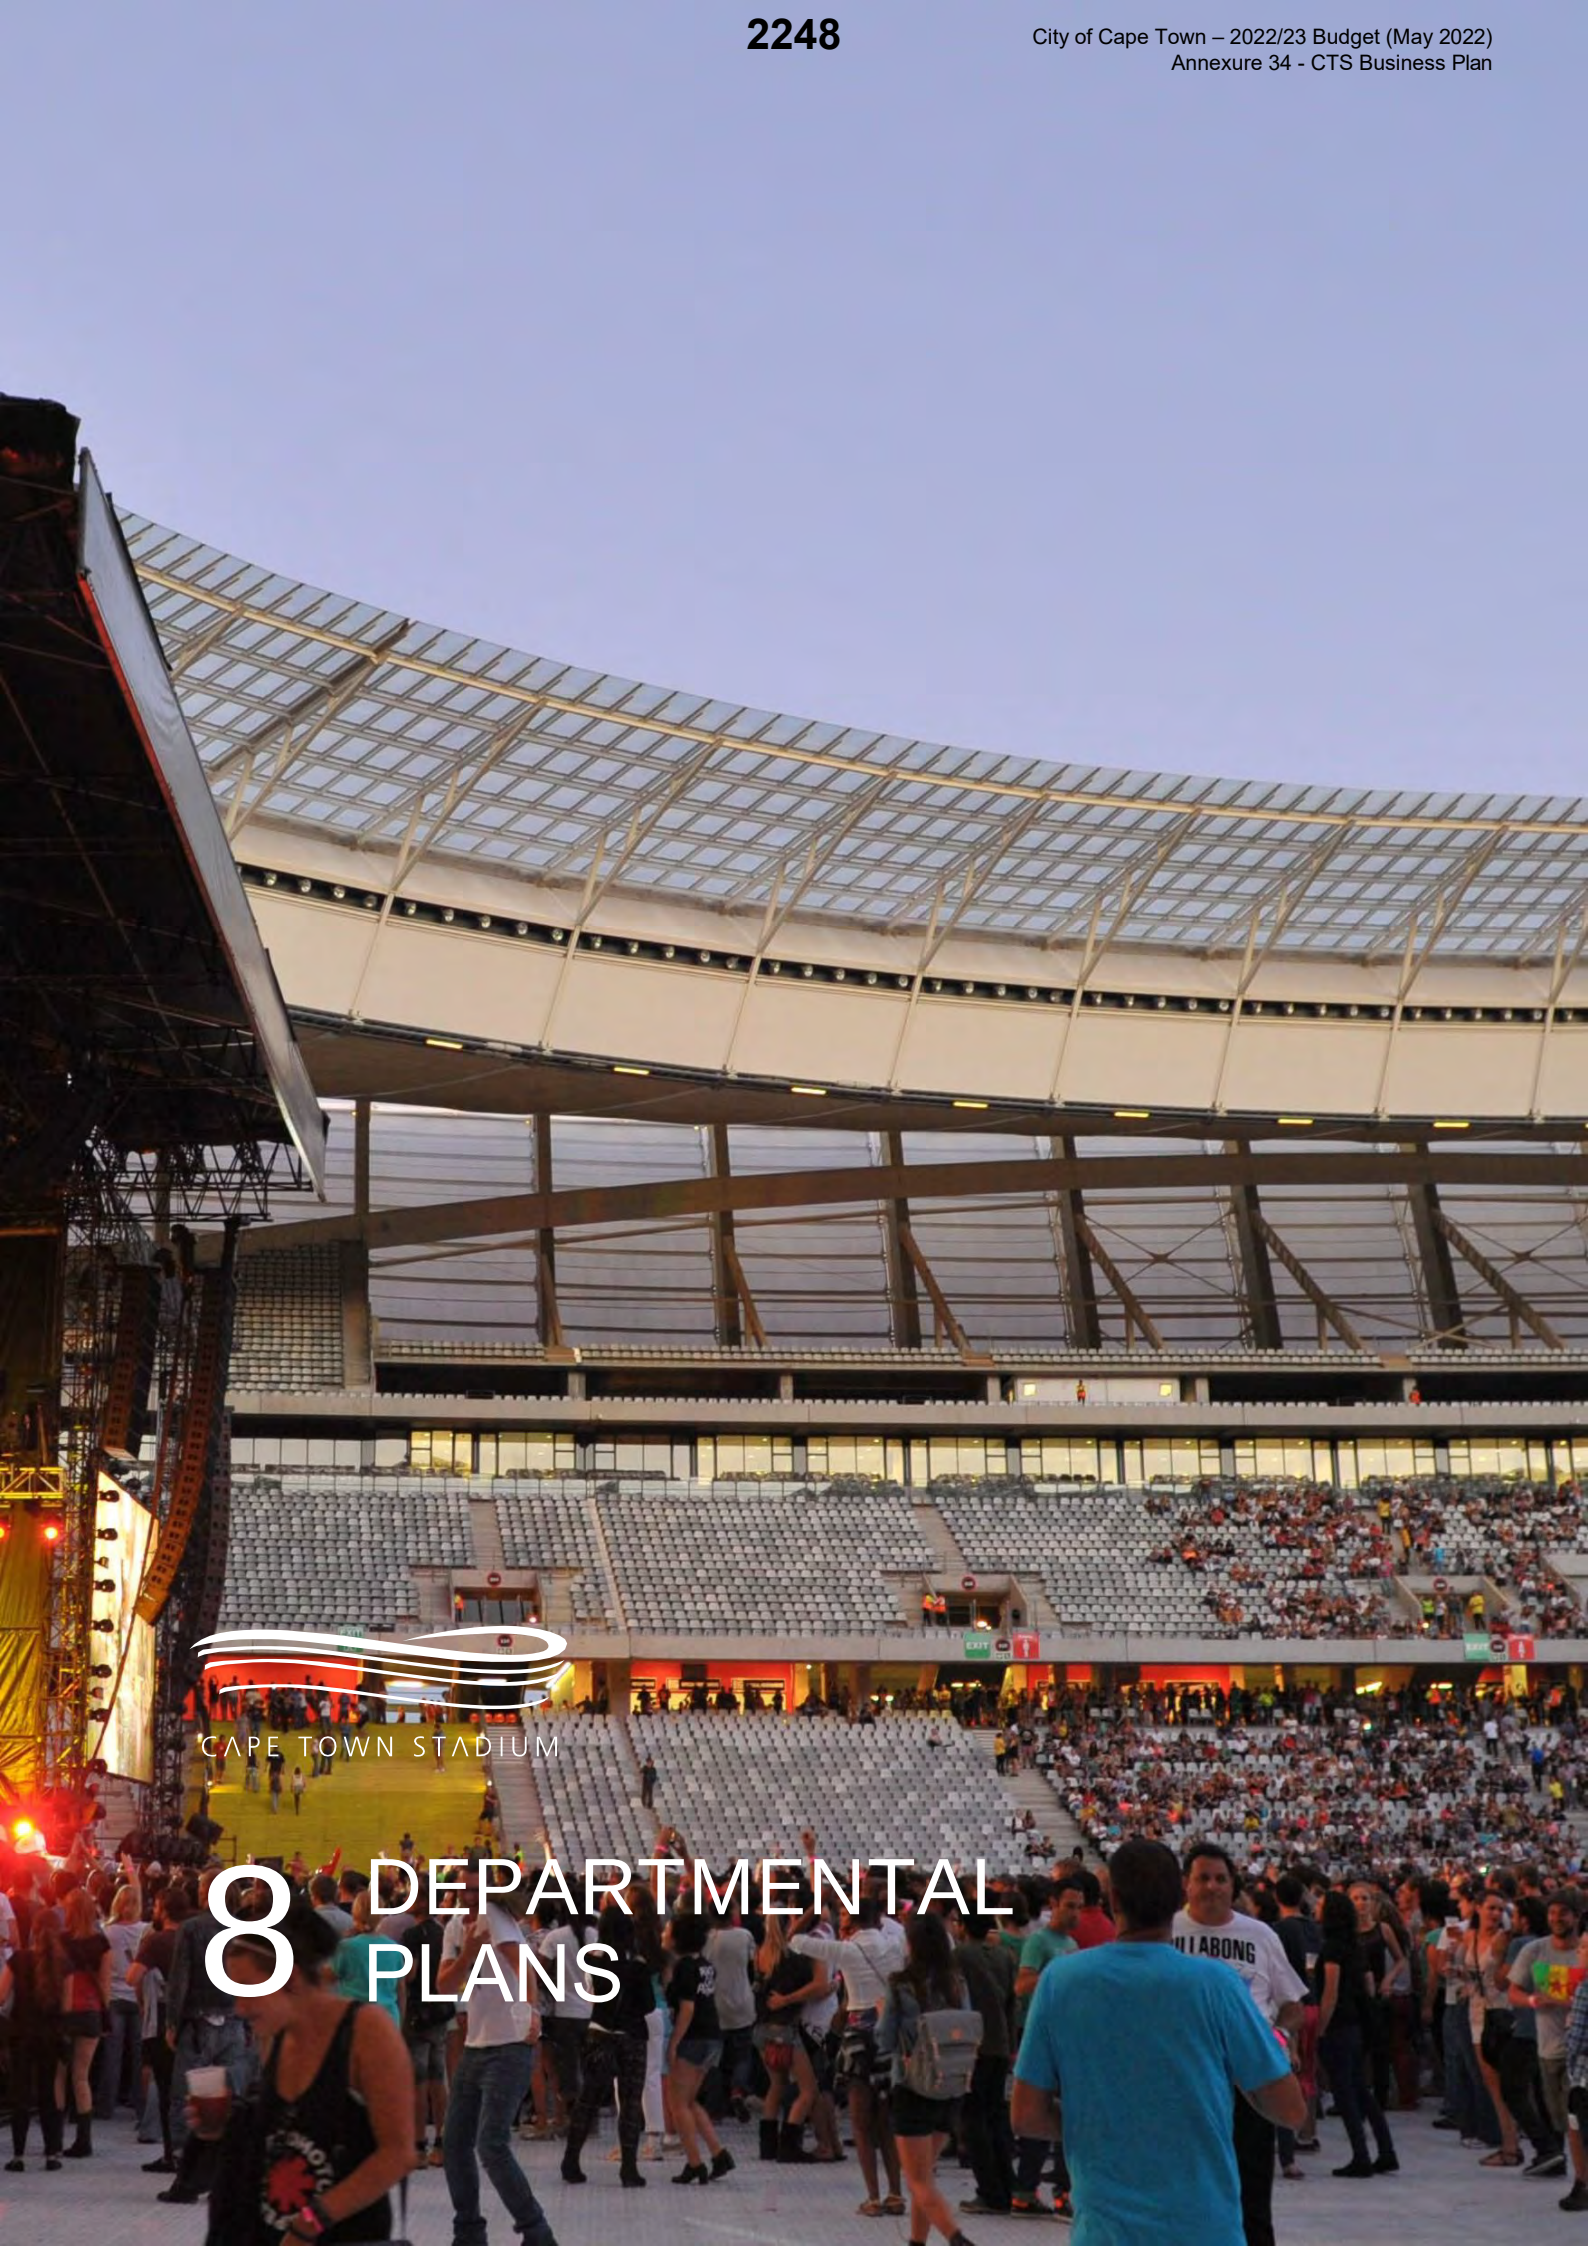
- Budget constraints brought on by a loss of revenue due to Covid19;
- Inability to respond to the imminent need brought on by Covid19 to re-engineer business process, technology and infrastructure due to budget constraints;
- Dependence on ESKOM and the cost of utility services;
- Increase the number of urban street dwellers due to Covid19;
- Safety and hygiene conditions in areas immediately surrounding the precinct outside of DHL Stadium control;
- An ageing asset that requires constant capital investment to remain, world-class,
- Ability to respond rapidly to technological advances due to prohibitive costs;
- Limited pool of new, potential Event Organisers/Tournament Organisers that can fill the Bowl;
- Challenges to get PSL spectators back into Stadia

Opportunities

- Implementation of commercial event overlay and securing revenues for CTS (RF);
- Implementation and promotion of environmental plans and actions;
- Greater collaboration with the City re their objectives of acquiring major events and being a “World Class City”;
- Respond to the changing events environment by offering more services to Event Organisers and Promoters;
- Position and the brand with Naming Rights and Anchor Tenant Partners as one that is vibrant and successful;
- Realising other commercial opportunities beyond event-related initiatives;
- Drive commercial agenda to become financially sustainable and a fully independent Municipal Entity;
- Secure commercial partners that assist in long term technology requirements
- Creation of new events;
- A resurgence of events and spectator engagement;
- Events acquisition strategy in line with target markets identified and maximisation of all available commercial spaces;
- Implementation of Integrated management approach to unlock identified opportunities;
- Synergy with the City of Cape Town - joint strategic initiatives to attract future major domestic and international events to the stadium;
- Potential long-term relationships with sports codes and event promoters.

Threats

- Continued implementation of National Legislation preventing the hosting of events with spectators
- Inability to travel to or lack of desire for international artists to tour to Cape Town/South Africa
- Increased risk of outdated technology
- Cyber security and the ability to protect data
- General Public perception of their safety at mass gatherings
- Collapse of Event Organiser supply chain due to broader industry collapse
- Increased risk of social activism at events
- Forecasting inaccurately over the next 3 years due to uncertainties
- On-going poor local economic climate;
- Bidding and hosting strategies of other SA Cities and the competitive environment this creates;



8 DEPARTMENTAL PLANS

8 DEPARTMENTAL PLANS

8.1 MARKETING, BRAND AND EVENTS ACQUISITIONS

8.1.1 DEPARTMENTAL MANDATE

This department will continue in its efforts to implement its mandate as follows:

- Be the driving force behind all marketing and brand activations, which align with the objectives of the Entity;
- The acquisition of profitable events;
- Collaborate with DHL and WP Rugby to ensure joint marketing and communication plans are effectively executed;
- Contribute to support the Entities commercialisation initiatives.

8.1.2 OVERVIEW

The Integrated Brand Management, Niche Marketing, PR, and Communications Strategy was originally developed and approved by the CTS (RF) Board for implementation during the 2019-2022 business-planning period. However, the department has made the necessary amendments to the strategy, which will allow it to remain in place for the upcoming financial year despite the challenges faced due to the ongoing Covid-19 pandemic.

The department has taken the impact of Covid-19 into consideration in order to plan for the upcoming financial year. The following strategic areas will be a focus in the upcoming year:

- Alignment of brand, vision and objectives as the ME becomes financially independent of the City;
- Redesign marketing collateral so it is representative of the future position of the stadium with regards to anchor tenancy, naming rights and commercial objectives;
- Support the effort of event acquisition through targeted marketing initiatives both internationally and locally;
- To grow the audience within our circle of influence including key stakeholders and Event Organizers;
- Continue to utilize owned media communication platforms to actively promote DHL Stadium and our objectives effectively.

These communication platforms will, inter alia, continue to be utilized as follows:

- To build, grow and retain an interactive virtual audience on Instagram
- To increase the unique user visits per month to the stadium website
- Communicate effectively on latest developments, offerings and news to all stakeholders of DHL Stadium
- Continuously generate a positive public sentiment on all communication platforms through,inter alia, prompt and efficient community management, escalations processes, and effective resolutions process
- To support inter-department objectives which align and support the Entity’s key objective of becoming a financially sustainable entity

The roll-out of DHL Stadium's Integrated Brand, Niche Marketing, PR and Communications strategy has remained focused on establishing DHL Stadium as a leading world-class event hosting facility and becoming the premier major international and domestic sporting and recreational venue of choice of domestic and international major event Organisers.

8.1.3 GOVERNANCE

The Integrated Brand Management, Niche Marketing, PR, and Communications Strategy that is in place for the current financial year will serve as an overarching strategy for the following:

- Public Relations and Media Strategy
- Social Media Strategy
- Brand Management Strategy

The above-mentioned mentioned strategies have been approved by the CTS (RF) Board and are currently being rolled out by the department. These strategies will be further implemented during the upcoming 2022/23 financial year.

8.1.4 HIGHLIGHTS

We will continue to build upon the highlights of the Marketing, Brand, and Events Acquisition Department of the Entity achieved to date:

- The development and implementation of an interactive social media strategy with the aim of creating and retaining an engaging virtual audience;
- The implementation of a quarterly newsletter, which acts as a communication platform between DHL Stadium and that of its stakeholders;
- The upgrading of the DHL Stadium website and the ongoing administration thereof. This remains the single point of entry into the business of DHL Stadium for all event booking requirements;
- Active and continued promotion of the DHL Stadium unique selling points, latest developments and offerings across multiple platforms;
- Development and effective delivery of the brand's new corporate identity across internal departments and external stakeholders

8.1.5 IMPLEMENTATION PLAN FOR 2022/23

Implementation of the DHL Stadium Integrated Brand Management, Niche Marketing, PR and Communications Strategy along with the specific strategies mentioned above will continue, as set out below:

- Increasing brand awareness of the DHL Stadium across various online platforms both owned and supported by third-party partners. These platforms will be utilized to extensively market and showcase the DHL Stadium as a multi-purpose eventing space for the local and international market;
- Create a strong and inclusive corporate brand identity, which is easily supported and recognised by the public;
- Establish the DHL Stadium as a leading multi-faceted event space and to be known as an asset to our city;

- Influencing public perception to instill confidence that the DHL Stadium is well on its way to becoming a financially sustainable entity. This will be done by leveraging off premium anchor tenants to DHL Stadium as well as effective marketing and promotion of upcoming bowl and non-bowl events taking place at DHL Stadium;
- Effectively promote and communicate all-new offerings including hospitality experiences at the DHL Stadium;
- Grow the DHL Stadium social media accounts with the aim of establishing and maintaining a brand loyal fan base;
- Grow the DHL Stadium's presence in the media with the support of a third-party PR service provider;
- Support the operational aspirations of the Municipal Entity (and the interdependent Events and Commercialisation strategies) of guiding the Stadium toward being a profitable asset;
- Support the delivery of the naming rights and create value through marketing initiatives;
- Collaborate with anchor tenant and other Event Organisers in marketing and promotional initiatives.

8.2 COMMERCIALISATION

8.2.1 DEPARTMENTAL MANDATE

The Commercial Department is responsible for the development and implementation of the commercial strategy to maximise commercial revenues while taking into account the broader objectives of DHL Stadium.

8.2.2 OVERVIEW

At the core of the commercialisation of DHL Stadium is the acquisition, hosting and retention of events in line with the identified target markets. The nature and frequency of events will dictate the success of the commercialisation of DHL Stadium.

While COVID19 and the restrictions of hosting events severely limited DHL Stadium from implementing the commercial strategy, best use was made of the opportunities that presented themselves, securing broadcast fixtures and events that were permissible during the Disaster Management Act 58 (2002) legislation.

The Commercial Department utilised the time to ensure the awarding of the required tenders to implement the commercial overlay was concluded and that the basis for the commercial strategy was implemented to capitalise on the return of events and spectators to stadiums.

8.2.3 GOVERNANCE

The Commercial Department reports quarterly to the Commercial Sub-Committee of the Board of Directors and meets all reporting requirements. In line with this, the Commercial Strategy was re-drafted to align to the Integrated Events Strategy and the Events Acquisition Strategy - both strategies drafted after the Commercial Strategy was implemented. This ensures alignment between objectives that are linked to the Commercial Strategy to ensure the most efficient and effective implementation of strategic focus.

The Commercial Department completed the specifications for and awarded six income-based tenders - in line with legislation and supply chain management policy. The seventh tender for the sale of advertising and other inventory is a rate based tender with commission payable on all deals concluded by the service provider.

The Department is also in the process of drafting Standard Operating Procedures for all service providers, a process that will be completed by the end of the financial year and implemented henceforth.

8.2.4 HIGHLIGHTS

- COMMERCIAL EVENT OVERLAY:
  Six tenders were successfully awarded to appoint 11 service providers who will deliver services to spectators and hospitality guests at the stadium in the future.
- NAMING RIGHTS:
  A 4-year agreement was signed between CTS (RF) and DHL, effective from 1 July 2021, whereby DHL has secured the Naming Rights to the now DHL Stadium. This includes a set of rights that will offer DHL the opportunity to display its brand in various areas of the stadium, as well as secure a suite and activation rights at the stadium.

- SALE OF ADVERTISING INVENTORY:
  An agent, Treble Entertainment, has been secured to sell the advertising inventory of the stadium. The commercial value of the inventory has been independently verified and the Naming Rights Partners inventory ring-fenced. This inventory will be taken to market in the next year.

- SECURING ANCHOR TENANT:
  Following the signing of the binding Heads of Agreement between the City and Western Province Rugby in November 2019, we anticipate that the anchor tenant agreement which is an amplification of this Heads of Agreement will be concluded before the end of the 2022 financial year. WP Rugby has begun playing matches at the stadium and a working relationship has been established between the stadium and WP Rugby.

8.2.5 IMPLEMENTATION PLAN FOR 2022/23

With the successful appointment of our commercial service providers, we are now well-positioned to implement the commercial event overlay. This implementation will see, in addition to rental and technical revenues, commercial revenues being generated from events hosted at DHL Stadium.

- Hospitality Provider: Circa Entertainment
- Liquor Distribution: Circa Entertainment
- Concessionaire (public bars): Treble Entertainment, Circa Entertainment
- Pouring Rights: South African Breweries
- Product Suppliers: Dairy Maid Ice Cream, Costa Coffee, Twizza Cooldrinks, J&M Famous Biltong, Red Bull Energy Drinks.

This now allows us to rent the stadium with the commercial overlay in place - offering far more support to Event Organisers in the services we can render to them.

These awarded contracts terminate in June 2023. The exercise of tendering all portfolios again will commence in July 2022, giving a year to complete specifications, evaluate and award tenders. Learnings will be taken from the initial specifications to ensure that the new round of tender specifications is relevant to the business.

NAMING RIGHTS

The naming rights contract with DHL has been successfully concluded. This agreement will see the stadium being known as DHL Stadium for the next 4 years. The focus over the next year will move to ensure all rights are delivered in line with the contractual obligations and that value is maximised for DHL, particularly with regards to broadcast exposure.

A strong working relationship has developed between the Entity staff and DHL and we intend to build on this relationship to develop a strong partnership that offers value to both.
With the termination of this contract being June 2025, all processes for the evaluation of rights delivery will be implemented in the 2022/23 financial year to accurately evaluate the value proposition in the 2023/24 financial year, well in advance of the end of this contract.

SALE OF ADVERTISING INVENTORY

The advertising inventory has been valued independently by Nielsen Sport, a reputable, independent agency that evaluates sporting rights globally. Over the next year, these rights will be taken to market and sold by our appointed agency, to maximise the exposure value for those who purchase advertising rights. This process will see the stadium change from a “clean” stadium with no visible branding to one that has a variety of brands advertising in DHL Stadium, as seen in most world-class stadia.

ANCHOR TENANTS

While WP Rugby has already commenced playing matches at DHL Stadium, due to COVID19 regulations preventing spectators at events, we have yet to host spectators at WP Rugby events. The commercial overlay has been developed to service this objective and as we move forward, we will implement various commercial initiatives together with WP Rugby to unlock value. These will include WP Rugby sale of suites, the sale of the Business Lounge Memberships, hospitality services, liquor distribution and the sale of food and beverage to the general public.

While securing WP Rugby as an anchor tenant is an important milestone, DHL Stadium will also look to securing secondary anchor tenants through building sustainable relationships with football, concert organisers and other Event Organisers who can provide regular events to our calendar.

STRATEGY FOR RETAIL AND OTHER SPACES

Areas have been identified within DHL Stadium that has been earmarked for retail or office space. Ideally, these spaces should be developed as “complementary” to the broader use of the stadium - that of hosting events. It also needs to take into account the requirements of the anchor tenant with regards to office space, training facilities and parking. For these reasons, it has been important to focus on finalising the event strategy, including the securing of anchor tenants, before finalising the plan for other spaces.
During the next financial year, various options will be considered and a plan will be drafted for the best use of available space including parking, retail and offices. This strategy will be developed into a long-term plan that will see these spaces being commercialised over the next 5 years in a manner that will ensure the use of the space over the long term will be aligned to the core business of the stadium and revenues maximised. This plan will also take into account joint opportunities with our anchor tenant for stadium tours, museum and a shop area.

8.3 OPERATIONS AND EVENTS

8.3.1 MANDATE

The Operations and Events Department is responsible for the management, preservation and optimum utilisation of the stadium, assets and infrastructure as well as the integration, planning and delivery of the event operations in a sustainable manner. The Department fulfils this mandate through the implementation of specific strategies, standard operating procedures and plans for each of these functions. It furthermore ensures the delivery of integrated safe events as the DHL Stadium through the implementation of a management plan.

8.3.2 OVERVIEW

At the core of the operations and events management of DHL Stadium, is the hosting, securing, and retention of events in line with the identified target markets supporting the vision and mission to full commercialisation of the DHL Stadium. The department plays a key role in the retention and procurement of events.

The impact of the COVID 19 pandemic and the restrictions imposed on the events industry has been prohibitive in the DHL Stadium's drive for hosting and delivering a wide range of events. The Stadium is committed to its event recovery strategy and has seen a positive response in the attraction, planning, hosting and delivery of broadcasted, virtual and hybrid events as permitted by the Disaster Management Act 58 of 2002.

The Operations Department utilised this time to ensure the project completion of the additional hospitality suites, the drafting and approval of the Environmental and Events Sustainability Strategy, the development of a venue architectural overlay plan, complimenting the stadiums commercial overlay to ensure maximum capitalisation and to ensure the safe return of events as well as spectators amidst the ongoing COVID 19 pandemic and Government vaccination campaigns.

8.3.3 GOVERNANCE

The Operations and Events Department reports quarterly to the various stadium sub-committees and the CTS (RF) Board of Directors and meets all reporting requirements. The Integrated Events Strategy, aligned to the Events Acquisition Strategy and the Commercial Strategy and has been approved and implemented. The recent approval of the Environmental and Event Sustainability Strategy will enable the Stadium to advance current environmental and event sustainability practices.

8.3.4 HIGHLIGHTS

EVENTS

The DHL Stadium has maintained its position as a multi-functional facility and has hosted 105 multi-category events, during the 2020/21 financial year, which have been broken down as follows:

- 37 bowl events;
- 52 non-bowl events;
- 16 film shoots

The events hosted included but were not limited to broadcasted, virtual and hybrid events. The stadium successfully hosted a range of football and rugby fixtures as well as the prestigious Castle Lager British and Irish Lions Series 2021.

The stadium will be the official host venue to the Rugby World Cup Sevens 2022, the World Rugby HSBC Cape Town Sevens Series 2022 as well as iconic international concerts. Subjoined a table indicating the total number of projected events for the 2022/2023 financial year.

YEAR	BOWL				NON-BOWL		TOTAL
	International Sporting Events	Rugby Fixtures	Football (Soccer) Fixtures	International Concerts and Other	Film/Still Shoots	Conferences/ Trade Shows	
2022/23	3	15	15	2	20	60	**115**

INTEGRATED EVENTS STRATEGY

The Integrated Events Strategy ("IES") approved in December 2020, has been successfully implemented by the Entity management tea and has ensured a process of consultation, inter-departmental engagement and the review of existing organisational strategies to ensure alignment of strategic principles, deliverables, departmental tactics and measurements as prescribed. This is reported monthly to the Chief Executive officer.

An Integrated Event Tracker implementation tool has been successfully developed to monitor and evaluate the progress made to date. The quarterly report is presented to the various sub-committees and the Board of Directors.

CASTLE LAGER BRITISH AND IRISH LIONS SERIES 2021

The stadium has successfully hosted the 2021 Castle Lager British and Irish Lions Series. Six international rugby matches were broadcasted from DHL Stadium.

SANLAM CAPE TOWN MARATHON

DHL Stadium was the official venue to the Sanlam Cape Town Marathon Expo and Race Number Collection Centre. The event was delivered with stringent COVID 19 protocols. The stadium management is currently in negotiation with the event owner to secure the hosting of this event for a further three years.

CAPE TOWN CYCLE TOUR

DHL Stadium was the official venue for the 2021 Cape Town Cycle Tour Race Number Collection Centre. The stadium is currently engaging the event owner to secure the hosting of this event for a further three years.

ADDITIONAL HOSPITALITY SUITES AND OCCUPANCY CERTIFICATE

DHL Stadium has completed its R 245 million-capital investment project. The stadium now boasts 236 hospitality suites with upgrades to its business lounge offering valuable spacing inventory for rental. In addition, the stadium has secured its new occupancy certificate and may now host an event with a 62 000 capacity these include event staff and support services.

CAPE TOWN CITY FOOTBALL CLUB

CTS (RF) Management has concluded negotiating commercial terms with Cape Town City Football Club, which will become an official secondary anchor tenant to DHL Stadium in 2022.

NEW LIQUOR LICENSE

CTS (RF) has successfully obtained a new liquor license inclusive of all new additional suites and event areas of DHL Stadium. This paves the way for further capitalization of the commercial strategy.

SASREA COMPLIANCE

CTS (RF) has applied for and has again received a Stadium Safety and High-Risk Grading Certificate as contemplated in Section 8 of the Safety at Sports & Recreational Events Act, 2010 for DHL Stadium. The DHL Stadium is the only sport & recreational facility in the Western Cape Province categorised to host high-risk events.

8.3.5 IMPLEMENTATION PLAN FOR 2022/23

SELECTION OF EVENTS: TO SUPPORT FINANCIAL GROWTH

The Stadium's Operations and Events Department has developed various Event Overlays having considered the return of spectators to events amidst the ongoing COVID 19 pandemic as well as the stadium commercial overlay.

The Event Overlay Plans enables the stadium to ensure optimal event planning, event framework development and execution.

All event overlay plans compliment the commercial event overlay and provide for an integrated planning approach.

In addition, the Event Owner/Organiser is provided with a selection of event footprint options that will streamline decision making and organising an event.

IMPLEMENTATION OF THE ENVIRONMENTAL AND EVENT SUSTAINABILITY STRATEGY

The CTS (RF) Board of Directors has approved the Environmental and Event Sustainability Strategy and Policy directive. During the 2022/2023 financial year, all cross-functional departments would be required to implement various departmental objectives to realise the strategic intent and desired goals of this strategy and policy.

The desired outcomes include:

- The promotion of energy efficiency
- The use of renewable energy sources (green energy solar, wind and water)
- Utilisation of natural ventilation where possible
- Ensuring the switching off of all technical equipment is not required
- The utilisation of local service providers reduces transportation requirements,
- The continued enhancement of its existing recycle and waste segregation approach
- The utilisation of environmentally friendly products where applicable
- Providing assistance to Event Organisers to ensure environmental, economic and social sustainability.

FACILITY MAINTENANCE STRATEGY AND IMPLEMENTATION

The Facility Maintenance Strategy of DHL Stadium ensures the following key strategic objectives are realised:

- Financial sustainability,
- Operational efficiency,
- Infrastructural integrity and;
- Longevity as well as contribution to the overall precinct brand.

The stadium has successfully developed a detailed maintenance programme that compliments the implementation of this strategy. The above-mentioned strategy and the delivery thereof is approved by the DHL Stadium Board.

The strategy ensures stringent fiscal adherence and incorporated environmental sustainability as a key focus area. Strategic maintenance planning principles, health and safety adherence and engineering best practices form the backbone of this maintenance strategy.

The preventative maintenance plan provides a base to get the most efficient use of resources and tools required to maintain the standards set. As the building and plant grow older, a condition and risk evaluation based maintenance approach is incorporated to ensure the optimal use of the available budget.

In order to improve the quality of the service offering for all stakeholders; continuous review, implementation and execution of processes are undertaken.

PITCH REHABILITATION

With the securing of our anchor and secondary tenants, it is anticipated that DHL Stadium will host a multitude of different events, including rugby, concerts, football and others. This will reinforce the DHL Stadium as a multi-purpose venue. This, together with it being a preferred international concert destination venue will see the stadium put forward a full calendar of activity in future years.

While the pitch has stood up to the increased traffic to date, there is no doubt that the nature of the stadium and the increased use of the pitch will bring into question whether the pitch which is currently 100% grass, will be able to accommodate and recover sufficiently between events. Currently, the pitch requires significant recovery periods because of the growth of natural grass.

Since the building of the stadium in 2009, pitch technology has changed significantly and in particular for multi-purpose stadiums. Most world-class multi-purpose stadia have a combination of natural and artificial grass, which has a faster recovery time thus creating more flexibility and opportunity with regards to the hosting of events.

After the full season of rugby and the hosting of soccer and concerts, we will evaluate the pitch performance and put forward motivation to change the pitch to an alternate and cost-efficient surface if required.

MONITORING & EVALUATION

The Operations and Events Department has successfully introduced a project management system monitoring deliverables across the Department. In addition, the relevant management and teams produce regular quarterly reports, which are loaded onto a Departmental share point.

The Chief Operating Officer continues to prepare quarterly oversight reports for submission to the Chief Executive Officer and the Board of Directors.

In addition to the above, the implementation of the Integrated Events Strategy has led to the establishment of an Integrated Events Management team consisting of all functional departments. This team ensure joint operational planning, synergy and effectiveness/ Oversight.

The Operations and Events Department continues to monitor the following in addition to both the project management and project team establishment:

- Presentation and percentage compliance to the maintenance programme
- Percentage compliance with the Occupational Health & Safety Act and Regulations (Act 85 of 1993) as well as SASREA;
- Number of spectators
- Number of events

8.4 INTERNAL COMPANY SERVICES DEPARTMENT

8.4.1 DEPARTMENTAL MANDATE

The mandate of the Company Services Department is to coordinate and manage Internal Corporate Services (organization-wide support services for Human Resources, Administration, Legal and Company Secretariat) and to ensure the provision of efficient and effective services to the organization.

8.4.2 OVERVIEW

To support the Entity's revised SDA based mandate, a new DHL Stadium organizational structure was developed. The macro design was fully implemented in 2020.

An assessment of training needs for each staff member was concluded with a specific focus on equipping new employees with adequate skills to deliver on the commercial mandate of the Entity.

The department supports the Entity inter alia by being responsible to monitor all policies and advise on review deadlines, reporting on performance compliance in terms of quarterly reports, reporting to the HR Social and Ethics Subcommittee, coordinating and monitoring all legal opinions and requests, as well as the tracking of all legal agreements.

8.4.2.1 HR OBJECTIVES

The Internal Company Services Department will ensure an environment that will optimize the potential of its HR Capital. It will achieve this through focused skills development & training and will contribute through identified interventions to ensure a highly motivated staff contingent.

The Internal Company Services Department will ensure the smooth functioning of all Entity's Departments by providing all required HR and admin related support functions.

The department is providing management with all relevant reports and intelligence that supports focused decision-making.

8.4.2.2 ADMINISTRATION AND COMPANY SECRETARIAT FUNCTION

This department provides support to the CTS (RF) subcommittees through collating and finalizing all information related to performance management quarterly reports, performance indicator measurement sheets ("PIMS"), Compliance Management System ("CMS") reports on events exceeding 20 000 attendance, SDBIP submission and legal requests.

Internal Company services are also responsible for managing and overseeing the outsourced appointed Company Secretary and its contracted functions.

8.4.3 GOVERNANCE

Internal Company Services are responsible for quarterly submissions to the HR, Social and Ethics Committee as well as the submission of Quarterly Performance Indicators to the City with relevant evidence of performance achieved.

This department also ensures timeous reviewing and or updating of the Entity's policies.

By providing oversight over the functions of the Company Secretariat, it ensures that the Entity complies with relevant legislation in terms of the Companies Act and other associated legislation.

8.4.4 HIGHLIGHTS

During the current 2020/21, business-planning period the Entities Internal Company Services Department achieved and delivered the following:

- 100% completion of CTS (RF) staff declaration of interests;
- Refining the Records Management and stock control system to comply with prescribed policy and regulations;
- Developed a Succession Plan for implementation in the 2020/21 financial year;
- Alignment of all the Entities Key Indicators to the Corporate Objectives as per recommendation from Internal Audit;
- Establishing a Legal Request and Legal Opinions Register to monitor and track progress on all legal issues relating to the business of DHL Stadium;
- Ensured compliance with all Covid19 related instructions and documentation.

8.4.5 IMPLEMENTATION PLAN FOR 2022/23

- Identify and ensure adequate training opportunities for staff through focused skills development & training to ensure staff are optimally motivated and skilled to deliver on their respective functions
- Ensure compliance and timeous delivery of report submissions and their relevant corporate deadlines
- Maintain the Entity's records according to accepted record keeping principles
- Manage the process of student employment which contributes to the Entity's social responsibility as an employer
- Ongoing HR and Administrative related support
- Coordinate and ensure timeous compliance and guidance to all staff in terms of submission of performance management templates, declarations of interest and bursary applications
- Provide the CEO with all relevant administrative and HR related reports on a monthly and quarterly basis indicating areas of risk

8.5 FINANCE

8.5.1 DEPARTMENTAL MANDATE:

The Finance department is a support department to all the other departments with its focus being financial reporting, ensuring compliance within the finance areas as well supporting the accounting officer with MFMA compliance. The key target for the department is to achieve a clean audit.

- Furthermore, the department's mandate is to provide:
  - a daily finance support function to the Entity and to give substance to its financial strategy;
  - support to the operational team by providing a service by ensuring that all revenues are accounted for and timeously collected from clients;
  - support to the commercial team with the implementation of the new commercial model;
  - financial reporting to management, CTS (RF) Board and Board committees/sub-committees and the City of Cape Town are accurate;
  - management and verification of fixed assets at DHL Stadium on behalf of the City of Cape Town;
  - the implementation and developing and improvement on systems, processes and internal controls for all new operational areas to ensure good governance;
  - ensure that the Entity achieves a clean audit.

8.5.2 OVERVIEW

During the past financial year, COVID 19 has had a significant impact on the operations of DHL Stadium resulting in the Entity not being able to conduct its normal business operations. The Entity has managed to host over 80 events for the past year; however, due to COVID 19 restrictions no spectators had attended these events.

The Entity has successfully managed to appoint all the necessary service providers during the 2021 financial year that will be instrumental to the delivery of the new commercial model. The implementation of the new commercial model can only be rolled out with the return of spectators at events. It is assumed that government would phase in the lifting of COVID-19 lockdown restrictions as infections decrease whereby gatherings are permitted and spectators will be allowed in attendance at events. The Entity has budgeted to host 115 events for 2022/23 with a projected revenue of R85m to be earned from these events.

8.5.3 GOVERNANCE

The Finance Department has developed guidelines and a framework that is aligned to the standard operating procedures with regard to the commercial overlay. These guidelines will assist the user departments with following the finance processes to ensure that adequate internal controls are in place with all the new commercial revenue streams.

The Entity has existing policies in place e.g. the Supply Chain Management Policy and others, which ensures that there are adequate internal control and governance in this area.

The Entity has also implemented its processes around contract management and document storage for both supply chain management and contract management.

The Entity would be able to operate at the normal business levels seen pre-pandemic before the end of the next financial year.

Furthermore, the following policies either have been updated or are new policies that have been developed:

- Supply Chain Management Policy
- Petty Cash Policy
- Credit Control and Debt Collection Policy

8.5.4 HIGHLIGHTS

- Obtained a 'clean' audit for the 2020/21 financial year;
- Achieved 100% asset verification for the 2020/21 financial year;
- During the year, the department successfully implemented its new financial system, which will be utilized for tracking the new commercial revenue streams.

8.5.5 IMPLEMENTATION PLAN FOR 2022/23

The year ahead will see a full rollout of the commercial overlay and the focus for the finance department will be supporting the operational teams with the rollout of all these new revenue streams.

Another key strategic focus of the finance team would be to strive to continue achieving "clean" unqualified annual audit reports for DHL Stadium.

The below are specific strategic focus areas for the department:

- Developing Financial Strategies which is aligned to the business strategy;
- Compiling and managing the Entity's budget;
- Monitoring of budgets and maintaining budgets and identifying risk areas;

- Policies development and processes to assist with internal control;
- Ensure financial compliance with the MFMA;
- Facilitate the external audit with the Auditor-General and internal audit process with the internal auditors.

The new finance system had been procured during the 2021 financial year where is being customized to the needs of the Entity. This system will assist the Entity with being able to keep detailed records on the new various commercial revenue streams. The system will be used to record, reconcile and report on these revenue streams and provide the necessary reports in terms of what is required as per the standard operating procedures.

The development and monitoring of new systems, processes, controls and financial models in relation to the commercial overlay will be a focus area.

Additional control measures will also have to be developed and implemented to ensure compliance and to ensure that all new commercial revenue streams are classified, recorded and reported on accurately

During the 2022/23 financial year, the Department plans to undertake quarterly reviews and reconciliations of all financial records to ensure an improved control environment. These controls will facilitate an improved external audit readiness at financial year-end.

9 CTS (RF) BUDGET & FINANCIAL PROJECTIONS

9 CTS (RF) BUDGET & FINANCIAL PROJECTIONS

The long-term vision of the Entity is to be financially sustainable through the commercialisation of CTS (RF) and to be able to generate sufficient income to cover its expenditure. The main contributor to increased revenue will be as a result of a resident anchor tenant, secondary anchor tenants as well as a focused drive to increase the number of spectators at events.

The Entity is focusing on the following targeted operational areas:

- Activation of all potential new income streams;
- Focusing its marketing initiatives towards increasing the number and attendance of events at CTS (RF) (including, but not limited to, bowl, non-bowl, conferencing & banqueting, film shoots and product launch events);
- Optimizing utilization of budget and realizing savings of expenditure where possible and appropriate.

9.1 CTS (RF) BUDGET & FINANCIAL PROJECTIONS

The CTS (RF) has completed its third year of trade during the 2020/21 year as a ME and the historical financial information has been used in the preparation of the budgets.

The following principles currently and will underpin the budgeting and business planning process:

- The previously identified internal stadium commercial revenue opportunities;
- The new additional revenue streams occasioned by the establishment of the more commercially flexible governance and management vehicle to operate the stadium;
- The phased implementation of the historically identified and new commercial revenue opportunities;
- Historical expenditure and revenue trends drawn from the City's SAP accounting system;
- A focus on cost-saving initiatives within the internal operating environment;
- The business need for modest capital expenditure
  (any required major CAPEX need will be funded by the City);
- The impact of inflation;
- City guidelines.

9.2 BUDGET PROJECTIONS

The budget has taken into account the impact of COVID 19. Budgeted expenditure of R125 million against budgeted revenues and other income of R92 million has been forecasted for CTS (RF) for the 2022/23 financial year.

A copy of the 2020/21 – 22/23 budget has been attached hereto marked ANNEXURE" C"

CAPE TOWN STADIUM SCORECARD DEFINITIONS 2022 (2021/22 Year Review)			
No.	INDICATOR	IDP Objective	INDICATOR DEFINITION
CTS - 01	Percentage achievement of own projected revenue		This indicator will measure the achievement of the annual projected revenue as per the latest approved budget.
CTS - 02	Opinion of the Auditor General		The indicator measures good governance and accounting practices and will be evaluated and considered by the Auditor-General in determining his opinion. An unqualified audit opinion is where the auditor, having completed the audit, has no reservation as to the fairness of presentation of financial statements and their conformity with general recognised accounting practice. This is referred to as a 'clean audit'.Alternatively, the auditor would issue a qualified audit opinion either in whole or in part over the financial statements if these have not been prepared in accordance with general recognised accounting practice, or the auditor could not audit one or more areas of the financial statements. Future audit opinions will cover the audit of predetermined objectives.
CTS - 03	Percentage compliance with approved Repairs and Maintenance program		The indicator measures the approved repairs and maintenance programme as per the service delivery agreement between Cape Town Stadium (RF) SOC and the City of Cape Town Repairs and Maintenance refers to all facilities and equipment at DHL Stadium. Repairs and maintenance is further defined as preventive maintenance, corrective maintenance, reactive maintenance, emergency maintenance as well as repairs of damages after events. All repairs and maintenance is done from the operating budget. The indicator measures whether the output was achieved as per the plan.
CTS - 04	Percentage Compliance with Occupational Health and Safety Acts and Regulations(Act 85 pf 1993		This indicator measures compliance against the Occupational Health and Safety Regulations on event and non-event days as well as contractors at DHL Stadium.

CTS - 05	Number of spectator attendance at the Cape Town Stadium		Spectators at attending events at DHL Stadium can be classified as persons attending Bowl Events, Non-Bowl Events and Film & Still Shoots. The indicator measures the total number of spectators attending events hosted at DHL Stadium.
CTS - 06	Number of events hosted		Events at the DHL Stadium can be classified as Bowl Events, Non-Bowl Events and Film & Still Shoots. The indicator measures the total number of events hosted at the DHL Stadium.
CTS - 07	Percentage budget spent on implementation of WSP (NKPI)		The WSP outlines the planned education, training and development interventions for the organisation. Its purpose is to formally plan and allocate budget for appropriate training interventions that will address the needs arising out of local government's skills sector plan, the IDP, the individual departmental staffing strategies, individual employees' personal development plans and the employment equity plan. Proxy measure for NKPI.
CTS - 08	Percentage of people from employment equity target groups employed in the three highest levels of management in compliance with the City's approved Employment equity plan (EE) (NKPI)		The indicator measures the actual number of days absent due to sick, unpaid/unauthorised leaves in the department or directorate expressed as a percentage over the number of working days in relation to the number of staff employed. Sick, unpaid/unauthorised leave will include 4 categories namely normal sick leave, unpaid unauthorised leave, leave in lieu of sick leave and unpaid in lieu of sick leave.

FINANCIAL PROJECTIONS

The 2022/23 budget was prepared on the basis that government will phase in the lifting of the COVID-19 restrictions. The 2022/23 budget has taken into account that spectators will be allowed in attendance of events from July 2022.In the event that national government continues to impose restrictions on gatherings and the hosting of events, the 2022/23 budget will be adjusted in the annual adjustment budget process in December 2022. The 2022/23 FY will also be the first full year where the commercial overlay will be implemented.

REVENUE PROJECTIONS

1. Rental of facilities and equipment

Rental of fixed assets in the 2022/23 FY have been budgeted at R69.9million which relates to income to be realised from the new commercialisation model, as well income to be received from WPR as an anchor tenant.

2. Transfers and subsidies (Grant)

The grant was budgeted at R33million to cover the shortfall in expenditure for 2022/23 FY.

3. Other Revenue

Other revenue comprises of income generated through naming rights and rebates from events.

4. Services in kind

The services in kind budget of R7million includes the use of the office furniture (R3million) and the rental of the stadium (R4million).

EXPENDITURE

5. Employee Related Costs

The employee related cost budget of R2.8 million relates to the salary cost of the entity's two (2) employees. The budget also takes into account the 4.90% annual cost of living adjustment increase for all employees.

6. Remuneration of Board Members

The budget was prepared on the basis that the composition of the board of directors will remain at 6 board members.

7. Inventory Consumed

Inventory consumed comprise of fuel, printing and stationary and other material related costs which have been budgeted to increase by 5%.
An estimate amount has thus been included in the 2022/23 budget and adjusted with an inflation related increase going forward.

8. Contracted Services

Contracted services increase with 32% as a result of more events planned to take place during the 2022/23 financial year, the event services cost will reciprocate the increased income. The budget also takes into account the 4.90% cost of living adjustment increase for seconded employees.
Contracted services consist out of: Consultants and professional services, repairs and maintenance, outsourced services and staff costs. The budgeted amount for the outer years remains stable with inflationary increases.

9. Other Expenditure

Other expenditure increases with 14% due to the reallocation of commission costs for naming rights as well as the increase in the advertising and utilities budget. A budget of R7million has been included as part of services in kind for the 2022/23 financial year.

ANNEXURE 35

CAPE TOWN STADIUM (CTS) (MUNICIPAL ENTITY) - TARIFF POLICY & TARIFFS

2022/23 BUDGET (MAY 2022)

CAPE TOWN STADIUM MUNICIPAL ENTITY TARIFF POLICY

1. PREAMBLE

The City has established the Cape Town Stadium SOC as a municipal entity to manage and operate the Cape Town Stadium and the surrounding precinct.

As the Stadium is to be run on commercial principles and the board proposes the fees and charges in respect of its commercial activities which is submitted to Council for approval.

Similarly, there are non-commercial/ community based activities that will be conducted and that these need to fall within the tariff structure determined by Council.

2. FEES AND CHARGES FOR COMMERCIAL ACTIVITIES

The Cape Town Stadium SOC's board proposes fees and charges in respect of individual events and other events and activities that are of a commercial nature which is submitted Council for approval.

3. TARIFFS FOR NON COMMERCIAL AND COMMUNITY /CHARITY EVENTS

The Cape Town Stadium SOC must charge the tariffs relating to Non Commercial and Community /Charity activities set out in the Sundry Tariffs, as provided for in the Schedule of Tariffs of the City.

THE CHIEF EXECUTIVE OFFICERS DELEGATIONS APPLICABLE AND INDICATED UNDER THE "GENERAL REMARKS" COLUMN IN EACH CATEGORY OF TARIFFS SUBMITTED ARE:

EVENTS:

(i) To negotiate and conclude contracts with global sport, artistic, music or other global/national and local icons/organizations/clubs/associations/bodies with their South African or International agents

(ii) To negotiate and conclude vending and commercial opportunities with key products, services, food, beverages and merchandise as may be presented from time to time, based on an agreed flat rate fee to be determined, or such percentage of sales turnover as may be agreed.

(iii) To negotiate and conclude all agreements and business contracts related to the holding of events in the Cape Town Stadium, subject to the statutory provisions pertaining to Supply Chain Management processes.

(iv) To negotiate and conclude strategic events and other opportunities with members of the event and marketing community opportunities as may be presented from time to time, based on an agreed allocation of funding to be determined or such value in kind as may be agreed in consultation with the board.

(v) Approve a maximum of 40% discount on Venue Rental for all City Owned partnered events.

10.5 Communication by municipal entities to National Treasury 21

Introduction

The purpose of the annual budget circular is to guide municipalities with their compilation of the 2022/23 Medium Term Revenue and Expenditure Framework (MTREF). This circular is linked to the Municipal Budget and Reporting Regulations (MBRR) and the municipal Standard Chart of Accounts *(m*SCOA), and strives to support municipalities' budget preparation processes so that the minimum requirements are achieved.

Among the objectives of this budget circular is to demonstrate how municipalities should undertake annual budget preparation in accordance with the budget and financial reform agenda by focussing on key "game changers". These game-changers include ensuring that municipal budgets are funded, revenue management is optimised, assets are managed efficiently, supply chain management processes are adhered to, *m*SCOA is implemented correctly and that audit findings are addressed.

Municipalities are reminded to refer to the annual budget circulars of the previous years for guidance in areas of the budget preparation that is not covered in this circular.

1. The South African economy and inflation targets

The National Treasury projects real economic growth of 5.1 per cent in 2021, following an expected contraction of 6.4 per cent in 2020. Real GDP growth is expected to moderate to 1.8 per cent in 2022,1.6 per cent in 2023 and 1.7 per cent in 2024.

South Africa experienced its largest recorded decline in economic output in 2020 due to the strict COVID-19 lockdown. Real GDP contracted by 7.2 per cent in 2020 compared to 0.1 per cent increase in 2019. It is expected to increase by 6.2 per cent in 2021/22 and moderate by an average increase of 1.7 per cent over the 2022/23 MTEF.

Manufacturing production grew by 17 per cent in the first six months of 2021 compared with the same period in 2020. Production has not recovered to pre-pandemic levels, although the Absa Purchasing Managers' Index remains above the neutral 50-point mark. Electricity disruptions, raw material shortages and rising input costs will continue to limit output in the short to medium term.

The main risks to the economic outlook are slowdown in economic growth. The evolution of COVID-19 and slow progress in vaccine rollout reinforces uncertainty and poses risks to economic recovery.

Slow implementation of structural reforms continues to weigh on business confidence and private investment. Electricity supply constraints, which could worsen over the short term, are a drag on economic growth. In contrast, progress on energy reforms poses upside risks to fixed investment and the overall economic outlook.

A further deterioration in the public finances due to various spending pressures and the materialisation of contingent liabilities could trigger further credit rating downgrades. Pressures on the government wage bill ceiling, including the implementation of the non-pensionable salary increases undermine fiscal consolidation measures.

The fiscal framework does not include any additional support to state-owned companies, but the poor financial condition and operational performance of several of these companies remains a large contingent risk. A number of entities may request further bailouts.

Government is strictly enforcing minimum criteria before guaranteeing the debt of state-owned companies, as outlined in the 2021 Budget, which has led to a decline in guarantee requests. Nonetheless, the broader context of financial distress, weak governance and unsustainable operations in many of these companies remains unaddressed.

Since the 2008 global financial crisis, economic growth has trended downwards, resulting in persistent shortfalls in tax revenue that have not been matched by adjustments to spending growth. This in turn has led to wider budget deficits, higher borrowing and a rapid increase in the ratio of debt to GDP. The reason that the debt servicing costs are growing at a pace that is faster than the rate of GDP growth, and this ratio will continue to increase until government runs a sufficiently large primary budget surplus.

To maximise the value of spending, government needs to contain costs, more especially consumption related spending, exercise prudent and compliant financial management, and eradicate wasteful treatment of public funds and resources. Compensation of employees remains a major cost pressure. It remains critical for municipalities to adhere to compensation ceilings, manage headcounts proactively and conduct staff audit to ensure the staff complement is aligned to the approved organogram. This will assist government is to improve its fiscal position.

Medium-term priorities include: reindustrialising through implementation of the master plans; growing exports through the African Continental Free Trade Area; implementing the Tourism Sector Recovery Plan; supporting township and rural economies; and promoting localisation, inclusive economic growth and job creation.

In 2021/22, gross tax revenue is expected to be R120.3 billion higher than projected in the 2021 Budget, with corresponding improvements of R69.8 billion and R59.5 billion expected in 2022/23 and 2023/24 respectively. This is still well below pre-pandemic revenue estimates, but it provides space for government to deal with immediate fiscal pressures while continuing to stabilise the public finances.

Headline inflation is expected to remain between 3 to 6 per cent target range over the 2022/23 MTEF.

In summary, the tax revenue in 2021/22 was higher than projections and this was mainly due to commodity price rally. However, these are projected to be short term, and as such long-term spending commitments should not be made based on short term revenue benefits. There are measures in place to reduce expenditure to narrow the budget deficit.

The following macro-economic forecasts must be considered when preparing the 2022/23 MTREF municipal budgets.

Table 1: Macroeconomic performance and projections, 2020 - 2025

Fiscal year	2020/21	2021/22	2022/23	2023/24	2024/25
	Actual	Estimate		Forecast	
CPI Inflation	2.9%	4.9%	4.0%	4.4%	4.5%

Source: Medium Term Budget Policy Statement 2021.

Note: the fiscal year referred to is the national fiscal year (April to March) which is more closely aligned to the municipal fiscal year (July to June) than the calendar year inflation.

2. Key focus areas for the 2022/23 budget process

2.1 Local government conditional grants allocations

Over the 2022 MTEF period, transfers to municipalities will grow below inflation. Over the next three years, local government resources increase by 4.1 per cent.

Transfers to local government will be increased by R17.8 billion, including R9.3 billion from the local government equitable share, R1.5 billion from the general fuel levy and R6.9 billion in direct conditional grants over the 2022 MTEF period. The local government equitable share formula has been updated to account for projected household growth, inflation and estimated increases in bulk water and electricity costs over the 2022 MTEF period.

The annual Division of Revenue Bill will be published in February 2022 after the Minister of Finance's budget speech. The Bill will specify grant allocations and municipalities must reconcile their budgets to the numbers published herein.

Municipalities are advised to use the indicative numbers presented in the 2021 Division of Revenue Act to compile their 2022/23 MTREF. In terms of the outer year allocations (2023/24 financial year), it is proposed that municipalities conservatively limit funding allocations to the indicative numbers as presented in the 2021 Division of Revenue Act for 2021/22. The DoRA is available at:
http://www.treasury.gov.za/documents/national%20budget/2021/default.aspx

Division of Revenue Amendment Bill, 2021: changes to local government allocations

Budget Facility for Infrastructure Funding – R81 million is added to the direct regional bulk infrastructure grant for George Local Municipality for the implementation of the potable water security and remedial works project. Due to delays in the implementation of projects approved through Budget Facility for Infrastructure (BFI), the projects sponsors have requested funding to be reduced to align with the planned project rollout.

R1.3 billion is reduced from the public transport network grant for City of Cape Town to align to its revised implementation plan of myCiti phase 2A.

Neighbourhood Development Partnership Grant – R841 million is added to the direct neighbourhood development partnership grant for local government to create 32 663 jobs through precinct management, community safety, place-making, greening, integrated waste management and digitalisation, with special focus on poor and marginalised areas and economic nodes.

Roll-over of indirect regional bulk infrastructure grant – R582 million is rolled over in the indirect regional bulk infrastructure grant to fund the operational payments for the Vaal River pollution remediation project in Emfuleni Local Municipality. This change is shown in Schedule 6, Part B of this Bill.

Reprioritisation in the neighbourhood development partnership grant – In the neighbourhood development partnership grant, R90 million is shifted from the direct component to the indirect component of the grant, to fund project preparation, planning and implementation for municipalities facing implementation challenges. The affected municipalities are City of Johannesburg, Mogale City, Kwa-Dukuza, West Rand, Sol Plaatje, Ray Nkonyeni and City of Cape Town. These changes are shown in Schedule 5, Part B and Schedule 6, Part B of this Bill.

Changes to gazetted frameworks and allocations

Neighbourhood development partnership grant – The grant framework for the neighbourhood development partnership grant is amended to remove reference to Built

Environment Performance Plans and include the conditions attached to the approval of funds from the Presidential Youth Employment Initiative. The conditions require cities to expand the existing Expanded Public Works Programme projects and enter into new partnerships with the private sector and civil society.

Regional bulk infrastructure grant – The grant framework for the regional bulk infrastructure grant is amended to include the conditions attached to the approval of funding from the BFI for the implementation of the potable water security and remedial works project in George Local Municipality. The conditions require that the municipality submit a business plan, a cost-benefit analysis report and enter into a co-financing agreement with the Department of Water and Sanitation and the Department of Cooperative Governance.

Integrated urban development grant – The grant framework for the integrated urban development grant is amended to include a provision for purchasing special vehicles for waste management. This correction is needed to ensure alignment with conditions in the municipal infrastructure grant as municipalities can move between the two grants.

Municipal infrastructure grant – The grant framework for the municipal infrastructure grant is amended to correct for the omission of the baseline allocation of R14.8 billion in 2019/20 in the past performance section of the framework. The amount was erroneously not captured. This correction is needed to show the audited past financial performance of the grant.

3. IDP Consultation Process Post 2021 Local Government Elections

Municipalities are advised to refer to the guidance (refer to the email sent by CoGTA to all municipalities on 20 October 2021) provided through the joint National Treasury/ Department of Cooperative Governance/ South African Local Government Association (NT/DCoG/SALGA) Joint Circular No.1 on the transitional measures in relation to the IDP consultation process. This circular indicates that the previous municipal councils had an obligation to ensure that the legislative stipulations were complied with. Therefore, they were expected to continue the process of the development of the IDP starting with the development and adoption of the process plans as provided for in section 28 of the Municipal Systems Act. Municipalities should then implement the adopted budget process plan and conduct the public engagements as per dates they have indicated in the process plan.

4. Municipalities unable to pass the annual budget after 1 July

The provincial executive council must urgently request the Mayor to submit a report outlining detailed reasons and or circumstances that led to failure to approve the annual budget by the 1 July.

The provincial executive council must intervene in terms of section 139(4) of the Constitution and take appropriate steps by issuing a directive to the municipal council to approve a budget and any revenue raising measures necessary to give effect to the budget within a reasonable period.

Section 26(4) and (5) of the MFMA provides for how the expenses can be met pending the approval of a budget through a directive. Provincial Treasuries should establish clear internal processes for reviewing and recommending the approval of withdrawals by their MEC (templates can be obtained from National Treasury).

The provincial executive council must upon issuing of a directive to the Municipal Council conduct an assessment of the budget tabled by the Mayor against the norms and standards, approved budget process plan, and the outcome of public participation processes.

In the event the Municipal Council fails to approve a budget due to walk out or individual misconduct by a majority of councillors, the Speaker must immediately investigate the conduct of those identified councillors in terms of the Code of Conduct for councillors as provided for in the Municipal Systems Act, 2000.

If in terms of the assessment by the provincial executive council of the tabled budget, it is found that there are no justifiable grounds for not approving the budget, the former must submit/ present the outcome of the assessment to the Municipal Council with a directive to consider the assessment and adopt the budget. If the assessment of the provincial executive council of the tabled budget finds that it does not adhere to the required norms and standards, the directive from the provincial executive council should instruct the council to first amend the budget to remedy this before adopting the budget.

The provincial executive council must, if necessary give the municipal council a further 14 days to approve a tabled budget that complies with norms and standards and incorporates the outcome of public participation, failing which the provincial executive council must consider dissolution of municipal council, approval of a temporary budget and appointment of an administrator as a last resort.

5. Municipal Standard Chart of Accounts (*m*SCOA)

5.1 Release of Version 6.6 of the Chart

On an annual basis, the *m*SCOA chart is reviewed to address implementation challenges and correct chart related errors. Towards this end, Version 6.6 is released with this circular.

Version 6.6 of the chart will be effective from 2022/23 and must be used to compile the 2022/23 MTREF and is available on the link below:
http://mfma.treasury.gov.za/RegulationsandGazettes/MunicipalRegulationsOnAStandardChartOfAccountsFinal/Pages/default.aspx

The Project Summary Document (PSD) on the National Treasury webpage will be aligned to the chart changes in version 6.6 where applicable. The PSD is also available on the above link.

*m*SCOA chart changes are issued annually in December. For the National Treasury to consider a new chart change, the issue must be logged with all relevant background and details on the Frequently Asked Questions (FAQ) database. The FAQ database can also be accessed on the above link.

The matter will then be further investigated by the FAQ committee of the National Treasury. If it is found that a chart change is required in the next chart version, then the matter will be elevated to the *m*SCOA Technical Committee and if in agreement, it will be recommended for approval to the *m*SCOA Steering Committee. Requests for chart changes in the next version of the chart must be logged for consideration by 31 August of each year.

5.2 Credibility of *m*SCOA data strings

The credibility of the *m*SCOA data strings remains a concern although we have observed a marked improvement in some areas. At the core of the problem is:

- The incorrect use of the *m*SCOA chart and segments, balance sheet budgeting, movement accounting and basic municipal accounting practices by municipalities;
- Some municipalities are not budgeting, transacting and reporting directly in/ from their core financial systems; have not purchased all the modules of the core financial system or have not upgraded to the Enterprise Resource Planning (ERP) (*m*SCOA enabling) version of their financial systems;
- A number of municipalities are still transacting on their legacy systems that are not *m*SCOA enabling or they are using Ms Excel spreadsheets that are not incorporated in the functionality of their financial systems, while they are paying for maintenance and support for the *m*SCOA enabling system that was procured. This constitute fruitless and wasteful expenditure; and
- Municipalities are not locking their adopted budgets and their financial systems at month-end to ensure prudent financial management. To enforce municipalities to lock their budgets and close their financial system at month-end in 2022/23, the Local Government Database and Reporting System will lock all submission periods within the reporting period at the end of each quarter. The published period will NOT be opened again to ensure consistency between publications. System vendors were also requested to build this functionality into their municipal financial systems.

Municipalities should refer to the guidance provided in the *m*SCOA circulars issued by the National Treasury to classify their transactions correctly.

The credibility and accuracy of the data strings must be verified by municipalities before submission as the data strings submitted will be used as the single source for all analysis and publications in the 2022/23 municipal financial year.

5.3 Regulation of Minimum Business Processes and System Specifications

One of the key objectives of the *m*SCOA reform is to ensure that municipalities are planning, budgeting, transacting and reporting directly on and from integrated ERP systems to have one version of the truth in terms of the reported financial performance. The manual correction of data strings by municipal officials or system vendors are not allowed in terms of the *m*SCOA Regulations.

All municipalities and municipal entities had to comply with the *m*SCOA Regulations by 1 July 2017. MFMA Circular No. 80 (Annexure B) provided guidance on the minimum business processes and system specifications for all categories of municipalities (A, B and C). A number of Regulations and best practices as per the MFMA Circulars have been introduced since the issuing of MFMA Circular No. 80 in 2016.

The National Treasury will expand and regulate the business processes and system specifications in 2022/23 to these new developments. If your municipality has not yet achieved the minimum required level of *m*SCOA implementation, then a detailed action plan (road map) must be developed to indicate how the municipality will fast track the implementation of *m*SCOA. The action plan should include the following focus areas, as applicable to the municipality:

- **System landscape** – does the municipality has access to updated ICT hardware, software and licences that is sufficient to run the chosen financial management systems solution;
- **Governance and institutional arrangements** – is there a functional *m*SCOA steering committee or equivalent structure consisting of representatives from all business units, that meet regularly to monitor and report on *m*SCOA related issues to Management Committee (MANCO), Executive Committee (EXCO) and Council. Furthermore, did the

municipality appoint a suitably qualified System Administrator and the required IT securities are in place;

- **System functionality** – is the functionality of the system complying with the minimum business processes and system specifications articulated in MFMA Circular No 80; is the municipality utilising the core financial system solution and its modules optimally; and are 3rd party sub-systems seamlessly integrating with the *m*SCOA enabling financial system; and
- **Proficiency of municipal officials to use the financial system** – are the relevant municipal officials sufficiently capacitated on all system modules and functionalities to use the financial systems solution; are relevant officials in the organisation familiar with the *m*SCOA chart, balance sheet budgeting and movement accounting; and have change management taken place to ensure that *m*SCOA is institutionalised as an organisational reform and not only a financial reform.

It should be emphasised that the onus to ensure compliance with the *m*SCOA Regulations and minimum system specifications as per MFMA Circular No. 80 and its Annexure B rests with the municipality and not the system vendor. Municipalities should ensure that they budget sufficiently to become and remain *m*SCOA compliant.

The progress against the action plan must be monitored by the municipality's *m*SCOA Project Steering Committee and should also be reported at the 2021/22 Mid-year Budget and Performance engagements and the Budget and Benchmark engagements with the National and the respective provincial treasury. Copies of the action plan and progress reports should also be shared with the National and the respective provincial treasury.

5.4 Extension of RT25-2016 Service Level Agreements (SLA) for Financial Systems

The National Treasury has received numerous queries about the extension of the SLA for the transversal contract for the procurement of municipal systems of financials management and internal control (RT25-2016).

The RT25-2016 contract has expired in May 2019. Therefore, the RT25-2016 cannot be utilised to procure financial systems and Service Level Agreements (SLAs) entered into through the transversal contract cannot be extended when they expire. Municipalities that procured systems through the RT25-2016 transversal tender must approach the market to procure a new service provider for system support and maintenance. Due to the high financial investment in procuring financial systems, it is not cost effective to change financial systems every 3 to 5 years. Also, the expiry of the SLA does not necessitate the procurement of a new financial system - unless the system that is being used is not complying with the required business processes and system specifications.

Furthermore, the Municipal SCM Regulations does not prohibit the use of long-term contracts as long as the needs analysis and market analysis are done to justify the continuous need for the service. Municipalities may utilise Section 33 of the MFMA, taking into account the municipality's specific circumstances, provided that the decision is legally sound and there is evidence to support the municipality's decision.

Where a municipality has entered into a SLA for the provision of system support and maintenance through an open procurement process, the SLA may be extended in terms of Section 116(3) of the MFMA.

Notwithstanding the above, since the ICT environment changes very quickly the municipal needs must be re-evaluated to ensure that the IT systems in place are still 1) compatible with the needs and systems of the municipality, 2) aligned to modern technology and new legislative requirements and 3) cost effective prior to concluding long-term maintenance and support agreements in the event that there are other financial management solutions or

systems that may be better or even more cost effective as opposed to the current ones that may be outdated.

5.5 *m*SCOA Monthly Trial Balance

Municipalities are required to submit the following documents to GoMuni Upload portal on a monthly basis in PDF format:

1. C Schedule
2. Primary Bank Statement
3. Bank Reconciliation
4. Quality certificate
5. Monthly budget statement (Section 71 Report)
6. Trial balance

To date, the trial balances were submitted in various formats with varying levels of detail – some of them unreadable, making it difficult to identify the submission of the trial balances. From 1 July 2022, the trial balance must include the following minimum information:

- *m*SCOA item description
- Balance brought forward (i.e. opening balance)
- Movement Debit
- Movement Credit
- Balanced closing balance at the end of the document

The name of the municipality, municipal code and relevant period (year and month) must be clearly identified in the submission. Municipalities should ensure that the monthly data string aligns to the trail balance submitted to the GoMuni Upload portal.

5.6 Budgeting for the COVID-19 pandemic

In terms of *m*SCOA Circular No. 9 municipalities are reminded to record and ring fence all funding and expenditure pertaining to the COVID-19 pandemic when budgeting and transacting.

It is evident from the *m*SCOA data strings that were submitted by municipalities in terms of the monthly Section 71 reporting that not all municipalities are budgeting and reporting on COVID-19 related allocations and expenditure as per the guidance provided. Therefore, the National Treasury is not able to draw complete COVID-19 reports from the *m*SCOA data strings inclusive of the data for all municipalities as yet and the weekly manual reporting is still required.

Once the National Treasury is able to draw COVID-19 reports from the *m*SCOA data strings for the majority of municipalities and the Covid-19 restrictions is lifted as per the Disaster Management Act, 2002 (Act 57 of 2002) and its regulations, the weekly manual reporting will be stopped.

5.7 Costing Segment

The purpose of the costing segment in *m*SCOA is to provide for the recording of the full cost for the four core municipal functions, namely: electricity, water, waste water and waste management as a minimum requirement. These four services are the most significant revenue generating functions within municipalities and essential for setting cost reflective tariffs.

The costing segment does not impact on the financial statements and will be recorded as a 'below the line cost' and are recorded in the management accounts to make decisions in

formulating tariffs and cost control. Municipalities must refer to the PSD for the detailed application of the costing segment.

5.8 Classification of the Skills Development Levy

Employers must pay 1 per cent of their employees pay to the skills development levy. This is a contribution of 1 per cent of the total amount paid in respect of salaries to employees, which includes overtime payments, leave pay, bonuses etc. Therefore, this does not constitute employee related cost because it is not a compensation to employees, nor social contributions. Skills Development levy must be classified as operational costs as indicated in the *m*SCOA Project Summary Document (PSD).

5.9 Revised Municipal Property Rates Act Categories

Reference is made to paragraph 4.3 of MFMA Circular No. 107. Municipalities are reminded that section 8 of the Municipal Property Rates Act on the determination of categories of **rateable** properties has been revised through the Local Government Municipal Property Rates Amendment Act, 2014 ("the Amendment Act").

Municipalities were required to implement the new property categorisation framework by not later than 1 July 2021. The *m*SCOA chart Version 6.6 makes provision for the new and the old framework. However, the old framework will be retired in the next version of the chart and municipalities are advised to implement the new property categorisation framework as legislated. Therefore, municipalities cannot use both frameworks to avoid duplication and overstatement of revenue from property rates.

6. The revenue budget

Similar to the rest of government, municipalities face a difficult fiscal environment. The weak economic growth has put pressure on consumers' ability to pay for services, while transfers from national government are growing more slowly than in the past. Some municipalities have managed these challenges well, but others have fallen into financial distress and face liquidity problems. These include municipalities that are unable to meet their payment obligations to Eskom, Water Boards and other creditors. There is a need for municipalities to focus on collecting revenues owed to them and eliminate wasteful and non-core spending.

Municipalities must ensure that they render basic services, maintain their assets and clean environment. Furthermore, there must be continuous communication with the community and other stakeholders to improve the municipality's reputation. This will assist in attracting investment in the local economy which may result in reduced unemployment. Some municipalities are experiencing serious liquidity challenges. Therefore, the new leadership is advised to:

- Decisively address unfunded budgets by reducing non-priority spending and improving revenue management processes to enable collection; and
- Address service delivery failures by ensuring adequate maintenance, upgrading and renewal of existing assets to enable reliable service delivery.

It should be noted that it is easier for consumers to pay for services if they are reliable and when the environment is well maintained.

National Treasury encourages municipalities to maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other customers while ensuring the financial sustainability of the municipality. The Consumer Price Index (CPI) inflation is forecasted to be within the lower limit of the 3 to 6 per cent target band; therefore,

municipalities are required to ***justify all increases in excess of the*** **projected inflation target for 2022/23** in their budget narratives and pay careful attention to tariff increases across all consumer groups. In addition, municipalities should include a detail of their revenue growth assumptions for the different service charges in the budget narrative.

6.1 Maximising the revenue generation of the municipal revenue base

Reference is made to MFMA Circulars No. 93, paragraph 3.1 and No. 98, paragraph 4.1. The emphasis is on municipalities to comply with Section 18 of the MFMA and ensure that they fund their 2022/23 MTREF budgets from realistically anticipated revenues to be collected. Municipalities are cautioned against assuming collection rates that are unrealistic and unattainable as this is a fundamental reason for municipalities not attaining their desired collection rates.

It is essential that municipalities reconcile their most recent valuation roll data to that of the billing system to ensure that revenue anticipated from property rates are accurate. Municipalities should undertake this exercise annually as a routine practice during the budget process. The list of exceptions derived from this reconciliation will indicate where the municipality may be compromising its revenue generation in respect of property rates. A further test would be to reconcile this information with the Deeds Office registry. In accordance with the MFMA Circular No. 93, municipalities are once more requested to submit their annual reconciliation of the valuation roll to the billing system to the National Treasury by no later than **04 February 2022**.

The above information must be uploaded by the municipality's approved registered user(s) using the GoMuni Upload Portal at: https://lguploadportal.treasury.gov.za/. If the municipality experience any challenge uploading the information a request for an alternative arrangement may be emailed to linda.kruger@treasury.gov.za.

6.2 Setting cost-reflective tariffs

Reference is made to MFMA Circular No. 98, paragraph 4.2. The setting of cost-reflective tariffs is a requirement of Section 74(2) of the Municipal Systems Act which is meant to ensure that municipalities set tariffs that enable them to recover the full cost of rendering the service. This forms the basis of compiling a credible budget. A credible budget is one that ensures the funding of all approved items and is anchored in sound, timely and reliable information on expenditure and service delivery (Financial and Fiscal Commission (FFC), 2011). Credible budgets are critical for local government to fulfil its mandate and ensure financial sustainability.

A credible expenditure budget reflects the costs necessary to provide a service efficiently and effectively, namely:

- A budget adequate to deliver a service of the necessary quality on a sustainable basis; and
- A budget that delivers services at the lowest possible cost.

Municipalities are encouraged to utilise the tariff setting tool referenced in MFMA Circular No. 98, item 4.2. This tool will assist in setting tariffs that are cost-reflective and would enable a municipality to recover costs to fulfil its mandate. The National Treasury Municipal Costing Guide is available on the link below on the National Treasury website.

http://mfma.treasury.gov.za/Guidelines/Documents/Forms/AllItems.aspx?RootFolder=%2fGuidelines%2fDocuments%2fMunicipal%20Costing%20Guide&FolderCTID=0x0120004720FD2D0551AE409361D6CB3E122A08

It is also imperative that every municipality is utilising the *m*SCOA cost segment correctly.

6.3 Bulk Account Payments and Concessions

During 2018/19, intense work was undertaken to resolve systemic and structural issues pertaining to the electricity function in municipalities. Core to this work was addressing the escalating Eskom debt that threatened the sustainability of Eskom as well as that of municipalities.

During the process, Eskom agreed to provide relieve in certain areas. Municipalities are reminded of the following concessions that remain in place:

- The interest rate charged on overdue municipal bulk accounts were reduced from prime plus 5 per cent to prime plus 2.5 per cent;
- Payment terms were extended from 15 days to 30 days for municipal bulk accounts; and
- Eskom allocation of municipality payments to capital first and then to interest.

These concessions align to the MFMA and are meant to curb municipal growing debt levels by allowing a more conducive payment regime than what was previously employed. In addition, municipalities are urged to budget for and ring-fence their payment of bulk services. Bulk current account payments must be honoured religiously to avoid stringent application of the bulk suppliers' credit control policy.

Municipalities are also advised to enforce a culture of payment for services through their normal credit control processes. In this regard it should be noted that municipalities are only compensated for free basic services based on an indigent user component calculation through the equitable share. As such, a municipality's allocation of free basic services to all of the municipality's consumers is not funded in the equitable share. Every municipality, during the budget process, must consider the affordability to the municipality when allocating free basic services above the national norm and to consumers other than indigent consumers. **If a municipality has any arrears on any of its bulk supplier's accounts, it must limit its provision of free basic services to registered indigent consumers only**.

In this regard municipalities are reminded to take note of the Constitutional Court decision in **Mazibuko and Others vs City of Johannesburg and Others (CCT 39/09) [2009] ZACC 28; 2010 (3) BCLR 239 (CC); 2010 (4) SA 1 (CC) (8 October 2009)**. The Constitutional Court confirmed that a municipality has the right to disconnect the water service in the event of non-payment. In the case of registered indigent users, water may not be disconnected but can and should be restricted to the national policy limit of 6 kilolitres of water monthly.

6.4 Timeous allocations and clearing of the control accounts

Municipalities are encouraged to clear the control accounts on a monthly basis and to allocate trade and other receivable payments in these suspense accounts to the relevant debtor accounts regularly before the monthly submissions as required by the MFMA. Implementing and enforcing the credit control policy of the municipality whilst payments are not cleared in the control account is negligent and irresponsible. Municipalities are warned against this bad practice, and this must be avoided at all costs.

6.5 Smart Prepaid Meters Solution

The Inter-Ministerial Task Team (IMTT) of the 5th administration appointed a panel to investigate the electricity function to better understand what is causing the non-payment to Eskom. Cabinet subsequently endorsed the panel's recommendation that a smart prepaid solution for all municipalities must be explored. Municipalities are advised that the National Treasury, through the Office of the Chief Procurement Officer (OCPO), will soon facilitate a

transversal contract to standardise prepaid smart meter solutions for electricity that align to minimum and critical technical specifications for local government.

If your municipality or entity is currently in the process of procuring any smart meter solution or is planning to, you are cautioned:

- Against proceeding prior to the OCPO having issued and awarded the transversal prepaid smart meter Terms of Reference (ToR); and
- That, with immediate effect, you must obtain the National Treasury's input prior to proceeding with any current procurement or proposed procurement for any smart meter solution or similar system solution. This is to prevent unnecessary and wasteful expenditure on such solutions. Any request for National Treasury's input on the current or planned procurement of any smart meter solution or similar system solution or component thereof, must be directed to the National Treasury for the attention of the Local Government Budget Analysis Unit (Mr. Sadesh Ramjathan) Sadesh.Ramjathan@treasury.gov.za.

Your assistance in proactively ensuring that the municipality and/ or its entities are not adversely affected by these processes will be appreciated.

6.6 Completeness and credibility of revenue related information in the Budget

The Municipal Budget and Reporting Regulations (MBRR) regulates the minimum level of information required from municipalities when compiling, implementing, monitoring, and evaluating the municipality's financial management situation. Failure to include the minimum required information hampers the municipal council, the public and stakeholders' ability to make informed decisions and engage on the matter. It also limits research, studies, and benchmarking undertaken for local, provincial, and national purposes.

The National Treasury would like to take this opportunity to caution municipalities that the MBRR prescribe the minimum level of information municipalities must include as part of their legal reporting obligations.

Going forward the Treasuries will place increased attention and focus on the adequacy of municipalities' submissions. The National Treasury regards this non-compliance to include the minimum level of information as serious and if persistent will consider applying the available legal sanctions, including recourse in terms of section 216(2) of the Constitution. In this context, National Treasury will particularly focus on the completeness of asset management related information as well as the statistical information required in the A, B and C schedules during the 2022/23 MTREF.

6.7 Eskom Bulk Tariff increases

The National Energy Regulator of South Africa (NERSA) is responsible for price determination of the bulk costs for electricity. Bulk electricity costs are consistently much higher than inflation, having gone as high as 17.8 per cent in the 2021/22 municipal financial year. Eskom's need for increased funding means that over the period ahead they are applying for much higher tariff increases. In their Multi-Year Price Determination (MYPD 5) application Eskom requested approval for municipal bulk tariff increases of 20.5 per cent in 2022/23, 15 per cent in 2023/24 and 10 per cent in 2024/25. NERSA rejected this revenue application at the end of September 2021 and in October 2021 ESKOM filed an application in the High Court to review NERSA's decision. The matter is still in court with a decision anticipated to be made shortly. If Eskom succeeds, the court will compel NERSA to process the rejected application for tariffs for the year starting 1 April 2022 in terms of the existing MYPD methodology. NERSA will then be expected to immediately publish Eskom's application for public comment.

6.8 Long Term Financial Strategies

National Treasury is supporting municipalities to develop and implement long-term financial models and strategies. This reform seeks to develop more sustainable, and integrated infrastructure development programmes over the longer term, informed by strategic plans, and financed in the most effective and efficient manner.

Although some municipalities have long-term financial models (LTFM), they are not always integrated with municipal plans, or based on actual cash flow analysis and investment programmes, or able to consider alternative financial scenarios and outcomes in relation to the ability to borrow and the structuring of market transactions.

Municipalities need to develop LTFM that support decisions on investment selection and assesses the financial impact of policy choices, by forecasting future financial performance and the impact of infrastructure projects on borrowing capacity. The LTFM needs to inform the municipality's long-term financial strategy, which must articulate a sustainable, efficient and effective borrowing strategy and practices for the municipality and provide a clear statement of intent for lenders and other stakeholders.

National Treasury has initiated this reform in the metropolitan municipalities and some of the Intermediate City municipalities and will continue with this reform in the next financial year. Based on the piloting of this reform, guidance will be provided to all municipalities to develop and implement LTFM's and strategies.

7. Funding choices and management issues

Municipalities are under pressure to generate revenue as a result of the economic landscape, the COVID-19 pandemic, weak tariff setting and increases in key cost drivers to provide basic municipal services. The ability of customers to pay for services is declining and this means that less revenue will be collected. Therefore, municipalities must consider the following when compiling their 2022/23 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulations read with MFMA Circular No. 82;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households;
- Not taking on unfunded mandates;
- Strictly control the use of costly water tankers and fix the water infrastructure to enable the sustainable provision of water;
- Prioritise the filling of critical vacant posts, especially linked to the delivery of basic services; and
- Curbing the consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

Accounting officers are reminded of their responsibility in terms of section 62(1)(a) of the MFMA to use the resources of the municipality effectively, efficiently and economically. Failure to do this will result in the accounting officer committing an act of financial misconduct which will trigger the application of chapter 15 of the MFMA, read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.

7.1 Employee related costs

The Salary and Wage Collective Agreement for the period 01 July 2021 to 30 June 2024 dated 15 September 2021 through the agreement that was approved by the Bargaining Committee of the Central Council in terms of Clause 17.3 of the Constitution should be used when budgeting for employee related costs for the 2022/23 MTREF. In terms of the agreement, all employees covered by this agreement shall receive with effect from 01 July 2022 and 01 July 2023 an increase based on the projected average CPI percentages for 2022 and 2023. The forecasts of the Reserve Bank, in terms of the January 2022 and January 2023, shall be used to determine the projected average CPI. Municipalities are encouraged to perform an annual head count and payroll verification process by undertaking a once-a-year manual salary disbursement, in order to root out ghost employees.

7.2 Remuneration of Councillors

Municipalities are advised to budget for the actual costs approved in accordance with the Government Gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published annually between December and January by the Department of Cooperative Governance. It is anticipated that this salary determination will also take into account the fiscal constraints. Municipalities should also consider guidance provided above on salary increases for municipal officials during this process. Any overpayment to councilors contrary to the upper limits as published by the Minister of Cooperative Governance and Traditional Affairs will be irregular expenditure in terms of Section 167 of the MFMA and must be recovered from the councilor(s) concerned.

8. TRANSFERS TO MUNICIPALITIES

8.1 Criteria for the release of the Equitable Share

Section 216(2) of the Constitution of South Africa requires that the National Treasury must enforce compliance with the measures established to ensure both transparency and expenditure control in each sphere of government and may stop the transfer of funds to an organ of state if that organ of state commits a serious or persistent material breach of those measures.

The criteria for the release of the Equitable Share Instalments for the 2022/23 municipal financial year are as follows:

- The 2022/23 adopted budget must be funded and adopted by Council as per the legal framework, as required in terms of section 18 of the MFMA and consistent with the Budget Council and Budget Forum resolutions;
    a. The adopted budget must include budget allocations for bulk suppliers current account payments;
    b. Should the adopted budget still be unfunded, then a funding plan will be required to show how the municipality intends moving progressively out of this position into a funded state, if this plan has been adopted in the past, then a progress report must be submitted on the framework previously shared to guide municipalities which is aligned to the rescue phase of the new approach to Municipal Financial Recovery Service (MFRS);
    c. Those municipalities that adopted an unfunded budget must work with their respective Provincial Treasuries to rectify this position in the lead up to the main adjustments budget process in February 2023; and
    d. A council resolution showing commitment to address the unfunded position must be submitted by these municipalities to the National Treasury by 01 July 2022.

- Credible *m*SCOA data strings and source documents for the 2022/23 MTREF and 2021/22 audits must be generated directly from the core municipal financial system and successfully uploaded to the Local Government GoMuni Portal. Source documents must be submitted in PDF and no excel based spreadsheet/ templates will be accepted;
- The report submitted by bulk suppliers in terms of section 41 of the MFMA must indicate that the current account has been paid timeously in terms of section 65(2)(e) of the MFMA. In addition, where the municipality has a repayment plan with Eskom and/ or the water boards, proof that the current accounts have been paid and a copy of the agreed upon payment plan (or evidence of negotiations underway with creditors) must be submitted to the National and provincial treasuries;
- Municipalities must provide evidence that SARS, pension and other staff benefits deducted from municipal officials have been paid over the appropriate Funds and/ or institutions;
- The information requested in MFMA Circulars No. 93, 98 and 107 on the reconciliation of the valuation roll have been submitted to the National Treasury as per the required timeframes;
- The Competency Regulations reporting requirements have been complied with;
- Provide a copy of the Unauthorised, Irregular, Fruitless and Wasteful (UIF&W) expenditure register, the latest copy of the Municipal Public Accounts Committee (MPAC) recommendations, Council Resolution on UIFW as well as council approved UIFW Reduction Strategy, proof of establishment of the Disciplinary Committee Board (or evidence of progress towards their establishment) and updated audit action plan (where the audit has been completed);
- Those municipalities that received an adverse or disclaimed opinions for the 2020/21 financial year will not receive their funding allocation unless there is a council resolution committing to address these opinions with an implementable plan. The resolution must be signed by each member of the Council and submitted to National Treasury by 1 October 2022;
- The Municipal Financial Recovery Service progress reporting framework for financial recovery plans must be complied with by municipalities under intervention in terms of S139 of the Constitution;
- Additionally, those municipalities that have outstanding audits for both the 2019/20 and 2020/21 financial years as well as municipalities with outstanding 2020/21 audit opinions that also received an adverse or disclaimer opinion in 2019/20, will also not receive their allocation; and
- Any other outstanding documents as per the legal framework have been submitted including the AFS submission (municipality only and consolidated AFS).

Failure to comply with the above criteria will result in National Treasury invoking section 38 of the MFMA which empowers National Treasury to withhold a municipality's equitable share if the municipality commits a serious or persistent breach of the measures established in terms of Section 216(2) of the Constitution which includes reporting obligations set out in the MFMA and National Treasury requests for information in terms of Section 74 of the MFMA.

9. The Municipal Budget and Reporting Regulations

9.1 Schedule A - version to be used for the 2022/23 MTREF

National Treasury has released Version 6.6 of the Schedule A1 (the Excel Formats) which is aligned to Version 6.6 of the *m*SCOA classification framework and must be used when compiling the 2022/23 MTREF budget.

All municipalities must prepare their 2022/23 MTREF budgets in their financial systems and produce the Schedule A1 directly from their financial system.

Municipalities must start early enough to capture their tabled budget (and later the adopted budget) in the budget module in the financial system and must ensure that they produce their Schedule A1 directly out of the budget module. **Manual capturing on A1 schedule version 6.6 is not allowed** in terms of the *m*SCOA Regulations.

National Treasury has protected the A1 schedule version 6.6 in order to ensure that the Schedule A1 generated directly from the financial system and not populated manually.

The budget, adjustments budget and Section 71 monthly reporting Schedules that have been regulated in terms of the MBRR have also been aligned to the *m*SCOA chart version 6.6. The revised MBRR Schedules for the 2022/23 MTREF and its linkages to the financial and non-financial data string are available on the link below:

http://mfma.treasury.gov.za/RegulationsandGazettes/Municipal%20Budget%20and%20Reporting%20Regulations/Pages/default.aspx

9.2 Assistance with the compilation of budgets

If municipalities require advice with the compilation of their respective budgets, specifically the budget documents or Schedule A1, they should direct their enquiries to their respective provincial treasuries or to the following National Treasury officials:

Province	Responsible NT officials	Tel. No.	Email
Eastern Cape	Matjatji Mashoeshoe	012-315 5553	Matjatji.Mashoeshoe@treasury.gov.za
	Abigail Maila	012-395 6737	Abigail.Maila@Treasury.gov.za
Buffalo City	Mandla Gilimani	012-315 5807	Mandla.Gilimani@treasury.gov.za
Free State	Sifiso Mabaso	012-315 5952	Sifiso.mabaso@treasury.gov.za
	Cethekile Moshane	012-315 5079	Cethekile.moshane@treasury.gov.za

National and provincial treasuries will analyse the credibility of the data string submissions.

9.3 Assessing the 2022/23 MTREF budget

National and provincial treasuries will assess the 2022/23 MTREF budgets to determine if it is complete, funded and complies with the *m*SCOA requirements. The *m*SCOA data strings for the tabled (TABB) and adopted (ORGB) budgets will be used for this assessment.

The **assessment period** of all municipal budget will therefore be from **01 April to 30 June 2022 for both the tabled and adopted budgets**. In this period, the National and provincial treasuries will evaluate all municipal budgets for completeness and for being fully funded. Any adjustment that need to be made must be done before the start of the municipal financial year on 1 July.

Importantly, in order to generate an adopted budget (ORGB) data string, the budget must be locked on the financial system by the 10th working day of July each year. Therefore, once the ORGB data string has been generated, errors in the ORGB can only be corrected via an adjustments budget in February of each year. In terms of the design principles of *m*SCOA, municipalities are not allowed to open the budget on the system for corrections after it has been locked. This means that the tabled budget data string (TABB) should in fact be verified and errors in the TABB should be corrected in the ORGB **before the adopted budget is locked on the financial system and the ORGB data string is generated**.

Amending an unfunded, incomplete and erroneous budget through an adjusted budget is also not encouraged as the National Treasury only considers an adjusted budget in the third and fourth quarter of the financial year for analysis and publication purposes. This will result in overspending and unauthorised expenditure not been monitored in the first six months of the financial year.

The National Treasury would like to emphasise that ***where municipalities have adopted an unfunded budget without a* credible funding plan*, they will be required to correct the funding plan and ensure that it is credible. The credible funding plan must be immediately adopted by the Municipal Council, and the changes to the budget must be effected in the mid-year adjustments budget to ensure compliance with Section 18 of the MFMA***.

Municipalities with municipal entities are once again reminded to prepare consolidated budgets and in-year monitoring reports for both the parent municipality and its entity or entities. The following must be compiled:

- An annual budget, adjustments budget and monthly financial reports for the parent municipality in the relevant formats;
- An annual budget, adjustments budget and monthly financial reports for the entity in the relevant formats; and
- A consolidated annual budget, adjustments budget and monthly financial reports for the parent municipality and all its municipal entities in the relevant formats.

The budget and data strings that the municipality submits to National Treasury must be a consolidated budget for the municipality (including entities). The budget of each entity must be submitted on the D Schedule in pdf format.

In the past it was noted that municipalities have challenges to align the audited outcomes on the financial system to A1 Schedule. Municipalities must ensure that the audited figures and

adjusted budget figures captured on the A1 Schedule aligns to the annual financial statements and Schedule B respectively.

10. Submitting budget documentation and A1 schedules for 2022/23 MTREF

To facilitate oversight of compliance with the Municipal Budget and Reporting Regulations, accounting officers are reminded that:

- Section 22(b)(i) of the MFMA requires that, ***immediately*** after an annual budget is tabled in a municipal council, it must be submitted to the National Treasury and the relevant provincial treasury in electronic formats. If the annual budget is tabled to council on **31 March 2022**, the final date of submission of the electronic budget documents and corresponding *m*SCOA data strings is **Friday, 01 April 2022**; and
- Section 24(3) of the MFMA, read together with regulation 20(1) of the MBRR, requires that the approved annual budget must be submitted to both National Treasury and the relevant provincial treasury within ten working days after the council has approved the annual budget. However, given that municipalities are generating the annual budgets directly from the financial system as required by the *m*SCOA Regulations and that the budgets must be verified before it is locked on the financial system and transacted against, municipalities must submit the approved budget to the National Treasury and the relevant provincial treasury in electronic formats ***immediately*** after approval by the municipal council. Therefore, if the annual budget is tabled to council **on 31 May 2022**, the final date of submission of the electronic budget documents and corresponding *m*SCOA data strings is **Wednesday, 01 June 2022.**

Since the 2020/21 MTREF, municipalities are no longer required to submit hard copies of all required documents including budget related, Annual Financial Statements and Annual Reports to National Treasury via post or courier services. Electronic copies must be submitted in pdf format to the GoMuni Upload portal.

10.1 Expected submissions for 2022/23 MTREF

The following information should be submitted for the 2022/23 MTREF:

- The budget documentation as set out in the MBRR. The budget document must include the main A1 Schedule Tables (A1 - A10);
- The non-financial supporting tables (A10, SA9, SA11, SA12, SA13, SA22, SA23, SA24 etc. and any other information not contained in the financial data string) in the A1 schedule must be submitted in the prescribed *m*SCOA data string in the format published with Version 6.6 of the A1 schedule;
- The draft and final service delivery and budget implementation plan (SDBIP) in electronic PDF format;
- The draft and final IDP;
- The council resolution for the tabled and adopted budgets;
- Signed Quality Certificate as prescribed in the MBRR for the tabled and adopted budgets;
- D Schedules specific for the entities; and
- A budget locking certificate immediately at the start of the new municipal financial year on 1 July.

10.2 Go Muni Upload Portal

The National Treasury is in the process of finalising the development work on the GoMuni Upload portal. Municipalities, provincial treasuries, system vendors and sector departments should ensure that the names and contact details of the data uploaders or users of the data, as reflected on the LG Database, for their respective institutions are correct and updated as and when changes occur.

10.3 Portals for the submission of information

Municipalities must ensure that the documents are submitted to the correct portals/ mailboxes. These portals/ mailboxes are:

https://lguploadportal.treasury.gov.za (GoMuni Upload Portal) – All documents required in terms of legislation, including:

- *m*SCOA Data Strings by approved registered users;
- Budget-related and in-year documents and schedules (A, B and C) by approved registered users; and
- Reconciliation of the valuation roll to the financial system (as per MFMA Circular No. 93).

Budget related documents and schedules must be uploaded by approved registered users using the GoMuni Upload Portal at: https://lguploadportal.treasury.gov.za/. The GoMuni Upload Portal does not have the same size restrictions encountered with lgdocuments@treasury.gov.za, but requires all documents to:

- Be in PDF format only; and
- Each PDF file must NOT contain multiple document e.g. council resolution and quality certificate within the budget document. Each document type must be identified clearly and uploaded separately.

Municipalities may ***only*** send electronic versions of the above documents to lgdocuments@treasury.gov.za when experiencing problems with the GoMuni Upload Portal.

lgdataqueries@treasury.gov.za – Database related and submission queries and the grant rollover templates.

lgdocuments@treasury.gov.za – Any additional information required by National Treasury that is not listed under the GoMuni Upload portal such as the manual COVID-19 reports.

Please do not submit the same document to ALL the platforms listed above as it means that our Database Team must register the same documents three times which slows down the process. ***Any document/ queries that are submitted to the incorrect portal/ mailbox will be deleted and not processed***.

10.4 Publication of budgets on municipal websites

In terms of section 75 of the MFMA, all municipalities are required to publish their tabled budgets, adopted budgets, annual reports (containing audited annual financial statements) and other relevant information on the municipality's website. This will aid in promoting public accountability and good governance.

All relevant documents mentioned in this circular are available on the National Treasury website, http://mfma.treasury.gov.za/Pages/Default.aspx. Municipalities are encouraged to visit it regularly as documents are regularly added / updated on the website.

10.5 Communication by municipal entities to National Treasury

Municipal entities should not request meetings directly from National Treasury. National Treasury will only engage the entities through the parent municipalities. This includes all communications apart from the legislative reporting requirements.

10.5 Communication by municipal entities to National Treasury 23

Introduction

This budget circular is a follow-up to MFMA Circular No. 112 that was issued on 06 December 2021. It aims to provide further guidance to municipalities with the preparation of their 2022/23 Medium Term Revenue and Expenditure Framework (MTREF) budgets and should be read together with the budget circulars that have been issued previously.

The grant allocations as per the 2022 Budget Review and the 2022 Division of Revenue Bill are also key focus areas in this circular. Municipalities are reminded to refer to the annual budget circulars of the previous years for guidance in areas of the budget preparation that is not covered in this circular.

1. The South African economy and inflation targets

The world economy is expected to grow by 4.4 per cent this year. This is lower than the 4.9 per cent that was anticipated when tabling the medium-term budget policy statement (MTBPS). The Omicron variant of the coronavirus caused many countries to impose restrictions to manage its spread. In addition, continued imbalances in global value chains have limited the pace of the world's economic recovery.

The South African economy has not been shielded from these global developments. National Treasury has revised South Africa's economic growth estimate for 2021 to 4.8 per cent, from 5.1 per cent at the time of the MTBPS.

This revision reflects a combination of the impact of changes in the global environment, along with South Africa's own unique challenges. Commodity prices, which have supported South Africa's economic recovery, slowed in the second half of 2021.

Also, violent unrest in July, and restrictions imposed to manage the third wave of COVID-19 further eroded the gains South Africa made in the first half of the year.

Industrial action in the manufacturing sector, and the re-emergence of loadshedding, also slowed the pace of the recovery.

Real Gross Domestic Product (GDP) growth of 2.1 per cent is projected for 2022. Over the next three years, GDP growth is expected to average 1.8 per cent.

Headline inflation is expected to remain between 3 to 6 per cent target range over the 2022/23 MTEF.

In summary, the tax revenue in 2021/22 was higher than projections and this was mainly due to commodity price rally. However, these are projected to be short term, and as such long-term spending commitments should not be made based on short term revenue benefits. There are measures in place to reduce expenditure to narrow the budget deficit.

The following macro-economic forecasts must be considered when preparing the 2022/23 MTREF municipal budgets.

Table 1: Macroeconomic performance and projections, 2020 - 2025

Fiscal year	2020/21	2021/22	2022/23	2023/24	2024/25
	Actual	Estimate	Forecast		
CPI Inflation	2.9%	4.5%	4.8%	4.4%	4.5%

Source: Budget Review 2022.

Note: the fiscal year referred to is the national fiscal year (April to March) which is more closely aligned to the municipal fiscal year (July to June) than the calendar year inflation.

2. Key focus areas for the 2022/23 budget process

2.1 Local government conditional grants allocations

Over the 2022 MTEF period, direct transfers to municipalities will grow above inflation, at an annual average rate of 7.9 per cent. Direct conditional grants grow at an annual average rate of 5.3 per cent over the MTEF, while the Local Government Equitable Share (LGES) grows faster, at an annual average rate of 10.3 per cent over the same period.

The higher than inflation growth of allocations to local government is due to additional allocations over the medium term as follows:

- The local government equitable share formula has been updated to account for projected household growth, inflation and estimated increases in bulk water and electricity costs over the 2022 MTEF period. R28.9 billion is added to the LGES over the MTEF to increase coverage of the provision of free basic services; and
- An amount of R1.7 billion over the MTEF is added to the Neighbourhood Development Partnership Grant to fund the continuation of the upscaling of city-led public employment programmes, as part of the Presidential Youth Employment Intervention; and an amount of R347 million over the first two years of the MTEF period is allocated to fund the introduction of the Municipal Disaster Recovery Grant. More detail is provided below.

The Division of Revenue Bill was published on 23 February 2022, following the tabling of the Budget in Parliament. The Bill specifies all local government transfers and municipalities must reconcile their budgets to the numbers published herein.

In terms of the outer year allocations (2023/24 and 2024/25), it is proposed that municipalities conservatively limit funding allocations to the indicative numbers as presented in the 2022 Division of Revenue Act. The DoRB is available at:
http://www.treasury.gov.za/documents/national%20budget/2022/dor.aspx

2.2 Division of Revenue Bill, 2022: changes to local government allocations

Budget Facility for Infrastructure (BFI) Funding – There are reductions of R754 million in 2022/23 and R105 million in 2023/24; and an increase of R621 million in 2024/25 in the *Public Transport Network Grant* to align to the revised implementation plan and cash flow projections for the City of Cape Town's MyCiTi public transport network.

Neighbourhood Development Partnership Grant – R1.7 billion is added to the direct component of the *Neighbourhood Development Partnership Grant* for the eight metropolitan municipalities to fund the continuation of the upscaling of city-led public employment programmes that contribute to informal settlement upgrading, public space and asset maintenance, development and management, greening and cleaning, food security, innovative service delivery, local knowledge and information sharing and management, community safety, environmental services and management and community tourism. This is part of the Presidential Youth Employment Intervention and is a continuation of government's response to job losses due to COVID-19, introduced as part of the stimulus package to respond to the impact of the COVID-19 pandemic during 2020.

Regional Bulk Infrastructure Grant – R1 billion is added to the *Regional Bulk Infrastructure Grant,* funded from the BFI, to fund the continuation of the implementation of the Potable Water Security and Remedial Works project in George Local Municipality.

Integrated National Electrification Programme (Eskom) Grant – R50 million is reprioritised from the *Integrated National Electrification Programme (Eskom) Grant* to finance the operational requirements of the Independent Power Producer Office in 2022/23.

Energy Efficiency and Demand Side Management Grant – R8 million in 2022/23 and 2023/24, respectively is reprioritised from the *Energy Efficiency and Demand-Side Management Grant* to finance the operational requirements within the vote of the Department of Mineral Resources and Energy.

R10 million is shifted from the sport component of the ***Municipal Infrastructure Grant*** **(MIG)** to the ***Integrated Urban Development Grant*** **(IUDG)** in 2022/23, to fund a sport project in Polokwane Local Municipality.

The ***Municipal Disaster Recovery Grant*** is introduced to fund infrastructure recovery in municipalities in KwaZulu-Natal. This grant is allocated R347 million between 2022/23 and 2024/25.

2.3 Changes to gazetted frameworks and allocations

Infrastructure Skills Development Grant (ISDG) – The grant framework for the infrastructure skills development grant is amended to include a condition that municipalities must have a capacitated Project Management Units with qualified people to act as supervisors in terms of the relevant statutory council requirements.

Municipal Infrastructure Grant (MIG) – Over the 2022 MTEF, the Department of Cooperative Governance (DCoG) will introduce an indirect component to the MIG. This is to improve efficiency in grant expenditure to develop more and better-quality infrastructure. The conversion will be done in-year. The criteria as determined by DCoG includes indicators related to expenditure and reliability of infrastructure.

Municipal Systems Improvement Grant – Over the MTEF, a portion of the grant will be utilised to continue to support institutionalisation of the district development model.

Municipal Disaster Relief Grant – The name of the *Municipal Disaster Relief Grant* is changed to the *Municipal Disaster Response Grant*. The objective of the grant remains the same and the change aligns to existing National Disaster Management Centre (NDMC) processes in responding to disasters that have occurred.

Local Government Financial Management (FMG) Grant – Over the 2022 MTEF, the grant framework for the FMG will make provision for the preparation of asset registers.

3. IDP Consultation Process Post 2021 Local Government Elections

Municipalities are advised to refer to the guidance (refer to the email sent by the Department of Cooperative Governance and Traditional Affairs (CoGTA) to all municipalities on 20 October 2021) provided through the joint South African Local Government Association (SALGA)/ Department of Cooperative Governance (DCoG) and National Treasury (NT) Joint Circular No.1 on the transitional measures in relation to the integrated development plan (IDP) consultation process. This circular indicates that the previous municipal councils had an obligation to ensure that the legislative stipulations were complied with. Therefore, they were expected to continue the process of the development of the IDP starting with the development and adoption of the process plans as provided for in section 28 of the Municipal Systems Act,

2000. Municipalities should then implement the adopted budget process plan and conduct the public engagements as per dates they have indicated in the process plan.

4. Municipalities unable to pass the annual budget after 1 July

The provincial executive council must urgently request the Mayor to submit a report outlining detailed reasons and or circumstances that led to failure to approve the annual budget by the 1 July.

The provincial executive council must intervene in terms of section 139(4) of the Constitution and take appropriate steps by issuing a directive to the municipal council to approve a budget and any revenue raising measures necessary to give effect to the budget within a reasonable period.

Section 26(4) and (5) of the MFMA provides for how the expenses can be met pending the approval of a budget through a directive. Provincial Treasuries should establish clear internal processes for reviewing and recommending the approval of withdrawals by their MEC for Finance (templates can be obtained from National Treasury).

The provincial executive council must upon issuing of a directive to the Municipal Council conduct an assessment of the budget tabled by the Mayor against the norms and standards, approved budget process plan, and the outcome of public participation processes.

In the event the Municipal Council fails to approve a budget due to walk out or individual misconduct by a majority of councillors, the Speaker must immediately investigate the conduct of those identified councillors in terms of the Code of Conduct for councillors as provided for in the Municipal Systems Act, 2000.

If in terms of the assessment by the provincial executive council of the tabled budget, it is found that there are no justifiable grounds for not approving the budget, the former must submit/ present the outcome of the assessment to the Municipal Council with a directive to consider the assessment and adopt the budget. If the assessment of the provincial executive council of the tabled budget finds that it does not adhere to the required norms and standards, the directive from the provincial executive council should instruct the council to first amend the budget to remedy this before adopting the budget.

The provincial executive council must, if necessary give the municipal council a further 14 days to approve a tabled budget that complies with norms and standards and incorporates the outcome of public participation, failing which the provincial executive council must consider dissolution of municipal council, approval of a temporary budget and appointment of an administrator as a last resort.

5. Municipal Standard Chart of Accounts (*m*SCOA)

5.1 Release of Version 6.6.1 of the Chart

Version 6.6.1 of the chart will be released through a patch to accommodate the following changes/conditions published in the 2022 Division of Revenue (DoR) Bill:

- The capital leg of the Local Government Financial Management (FMG) grant that was retired in chart version 6.2 of the chart. As per the conditions published in the 2022 DoR Bill, the grant may be used, inter alia, for the acquisition, upgrade and maintenance of financial management systems to produce multi-year budgets, in-year reports, service

delivery and budget implementation plans, annual financial statements, annual reports and automated financial management practices including the *m*SCOA;

- Allocation-in-kind for the MIG grant to make provision for the indirect grant portion of the grant; and
- The name change from Municipal Disaster relief grant to Municipal Disaster Response Grant. Municipalities should take note of this change when they report on COVID-19 in terms of *m*SCOA Circular No. 9.

Version 6.6.1 of the chart will be effective from 01 July 2022 and must be used to compile the 2022/23 MTREF. The patch is available on the link below:
http://mfma.treasury.gov.za/RegulationsandGazettes/MunicipalRegulationsOnAStandardChartOfAccountsFinal/Pages/default.aspx

5.2 Funding Depreciation

From the analysis of the *m*SCOA data strings it is evident that a number of municipalities are allocating non-funding as the funding source in the fund segment for depreciation charges. Depreciation charges must be funded from operational funds such as service charges for electricity if assets are utilised for electricity purposes, service charges water for water management purposes, waste and wastewater management in the same manner and property rates for services like roads that is primarily funded from property rates.

When deprecation is funded, it will assist the municipalities to accumulate sufficient surpluses that must be transferred to cash backed reserves. Depreciation is the method to provide for the replacement of the assets. If depreciation remains a journal without the funds being ring-fenced, municipalities will not be in a financial position to fund future infrastructure assets.

5.3 Application of Costing

The mapping for Table A2 on Financial Performance of the regulated Schedule A was updated to include the costing segment. The costing segment in *m*SCOA provides for the recording of the full cost for the four core municipal functions, namely: electricity, water, wastewater and waste management. It also allows for the charge out of costs between functions and projects. Costing: recoveries was previously recorded as 'revenue: default' in the item segment. However, as the charge out of cost does not present revenue, municipalities must use 'expenditure: default' in the item segment to record the debit and credit of all costing transactions where the charges increase cost and the recoveries decrease the cost per function or project.

Municipalities are also reminded that one of the validation rules that are applied when *m*SCOA data strings are submitted is that costing transactions for charges and recoveries must balance to zero.

5.4 Change in calculation of consumer deposits

The addition of consumer deposits as a funding source in version 6.6 of the *m*SCOA chart impacts on the population of Tables SA30 and A7 in the Schedule A. The calculation will be changed in the 6.6 chart version to the following:

CASH FLOWS FROM FINANCING ACTIVITIES	
Increase in consumer deposits	Consumer deposits FD001001001014 linked to IA001 Deposits
(Decrease) in consumer deposits	Consumer deposit IL001002 :Withdrawals

All payments received in respect of consumer deposits will be picked up utilising the consumer deposit fund source linked to the bank: deposits posting level. The payment of consumer

deposits will be picked up from item liability: consumer deposits: withdrawals posting levels, which represent the outflow of cash.

5.5 NERSA reporting

Municipalities are reminded to complete the D-Forms that the National Energy Regulator of South Africa (NERSA) requires. The National Treasury is currently looking into ways of how the *m*SCOA data strings can be used to populate the NERSA reports and will provide guidance in this regard during 2022.

5.6 Restructuring of the Long-Term Component of Trade Payables

In an effort to assist municipalities to get to a funded budget position, the National Treasury have requested municipalities to negotiate with their major trade creditors like Eskom, Water Boards and the Department of Water Affairs to restructure their outstanding trade creditors. Where the debt owed by a municipality was restructured, in terms of a debt repayment agreement, and the repayment period exceeds a period of 12 months, the debt will remain under *current liabilities trade payables* as per the version 6.6 of the *m*SCOA chart.

The restructuring of debt in the Statement of Financial Position to include the non-current portion through the reclassification of the debt to a *non-current liability of trade payables* under non-current liabilities has a major impact on the working capital requirement disclosure in the funding compliance assessment on Table A8 of the Schedule A and on the entire funding methodology of the National Treasury. The restructuring of debt also affects a number of liquidity measurement ratios such as the Current Ratio, Liquidity Ratio and Creditors to Cash Ratio.

Detailed analysis and careful consideration of the appropriate accounting treatment to ensure that future adjustments to the chart will not compromise the funding methodology of the National Treasury is required. Therefore, any changes required to the *m*SCOA Chart to accommodate the restructuring of the long-term component of trade payables will only be considered for inclusion in version 6.7 of the chart.

The restructuring of the non-current portion should not only impact on the Statement of Financial Position as it requires that municipalities include additional cost in the operation budget for the repayment of the non-current liability, including any finance charges that may be payable as per the repayment agreement. The restructuring of the trade payables without the inclusion of the interest and redemption payments of the non-current liability on the cash flow statement will significantly misstate the funding position of the municipality.

The Budget Funding Assessment Tool used by the National and provincial treasuries to assess the funding position of municipal budgets has been enhanced to include a *Restructuring of Trade Payables Module* to assess the full impact of the restructuring on both the Statement of Financial Position and the impact of interest charges and repayment of the non-current liability on the cash flow position of the municipality. Municipalities that have restructured their trade payables should:

- Indicate this to the respective National and provincial treasuries when submitting their tabled and adopted 2022/23 MTREF budget; and
- Submit the approved agreement with the supplier to the respective National and provincial treasuries with their budget documentation.

The necessary restructuring will then be taken into account in the funding assessment by the respective National and provincial treasuries prior to determining the funding position of the municipality.

5.7 *m*SCOA eLearning

A web-based eLearning course on *m*SCOA will available on the National School of Government (NSG) website from April 2022. This is a self-paced course aimed at all government and municipal officials, especially new employees and interns to on-board them on *m*SCOA.

The course is structured as follows:

Module 1 – The fundamentals of mSCOA (for financial and non-financial officials)
- An overview of the Local Government Budget and Financial Management Reform Agenda and *m*SCOA Legislative Framework;
- *m*SCOA implementation oversight (including the role of internal audit, risk management and councilors); and
- Understanding the *m*SCOA segments.

Module 2 – System and reporting requirements (for financial and non-financial officials)
- An overview of the reporting requirements in a *m*SCOA environment;
- Key business processes that underpins *m*SCOA;
- Minimum system specifications required to comply with the *m*SCOA Regulations;
- Submission of documents and data strings to the National Treasury (i.e. registration process and upload process); and
- Period Control and how to transact and report in period 13, 14 and 15.

Module 3 – Budgeting and transacting on the mSCOA chart (for financial officials)
An understanding of accounting principles and GRAP is required to complete this module.

Municipalities are reminded to budget for the course in their 2022/23 MTREF. For further information, contact the NSG on their website link: https://www.thensg.gov.za.

6. The revenue budget

Similar to the rest of government, municipalities face a difficult fiscal environment. The weak economic growth has put pressure on consumers' ability to pay for services, while transfers from national government are growing more slowly than in the past. Some municipalities have managed these challenges well, but others have fallen into financial distress and face liquidity problems. These include municipalities that are unable to meet their payment obligations to Eskom, Water Boards and other creditors. There is a need for municipalities to focus on collecting revenues owed to them and eliminate wasteful and non-core spending.

Municipalities must ensure that they render basic services, maintain their assets and clean environment. Furthermore, there must be continuous communication with the community and other stakeholders to improve the municipality's reputation. This will assist in attracting investment in the local economy which may result in reduced unemployment. Some municipalities are experiencing serious liquidity challenges. Therefore, the new leadership is advised to:

- Decisively address unfunded budgets by reducing non-priority spending and improving revenue management processes to enable collection; and
- Address service delivery failures by ensuring adequate maintenance, upgrading and renewal of existing assets to enable reliable service delivery.

It should be noted that it is easier for consumers to pay for services if they are reliable and when the environment is well maintained.

National Treasury encourages municipalities to maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other customers while ensuring the financial sustainability of the municipality. The Consumer Price Index (CPI) inflation is forecasted to be within the lower limit of the 3 to 6 per cent target band; therefore, municipalities are required to ***justify all increases in excess of the*** **projected inflation target for 2022/23** in their budget narratives and pay careful attention to tariff increases across all consumer groups. In addition, municipalities should include a detail of their revenue growth assumptions for the different service charges in the budget narrative.

6.1 Maximising the revenue generation of the municipal revenue base

Reference is made to MFMA Circulars No. 93, paragraph 3.1 and No. 98, paragraph 4.1. The emphasis is on municipalities to comply with Section 18 of the MFMA and ensure that they fund their 2022/23 MTREF budgets from realistically anticipated revenues to be collected. Municipalities are cautioned against assuming collection rates that are unrealistic and unattainable as this is a fundamental reason for municipalities not attaining their desired collection rates.

It is essential that municipalities reconcile their most recent valuation roll data to that of the billing system to ensure that revenue anticipated from property rates are accurate. Municipalities should undertake this exercise as a routine practice during the budget process so that supplementary adjustments to the valuation roll are kept up to date. The list of exceptions derived from this reconciliation will indicate where the municipality may be compromising its revenue generation in respect of property rates. A further test would be to reconcile this information with the Deeds Office registry. In accordance with the MFMA Circular No. 93, municipalities are once more requested to submit their reconciliation of the valuation roll to the billing system to the National Treasury on a quarterly basis.

The above information must be uploaded by the municipality's approved registered user(s) using the GoMuni Upload Portal at: https://lguploadportal.treasury.gov.za/. If the municipality experience any challenge uploading the information a request for an alternative arrangement may be emailed to linda.kruger@treasury.gov.za.

6.2 Setting cost-reflective tariffs

Reference is made to MFMA Circular No. 98, paragraph 4.2. The setting of cost-reflective tariffs is a requirement of Section 74(2) of the Municipal Systems Act, 2000 which is meant to ensure that municipalities set tariffs that enable them to recover the full cost of rendering the service. This forms the basis of compiling a credible budget. A credible budget is one that ensures the funding of all approved items and is anchored in sound, timely and reliable information on expenditure and service delivery (Financial and Fiscal Commission (FFC), 2011). Credible budgets are critical for local government to fulfil its mandate and ensure financial sustainability.

A credible expenditure budget reflects the costs necessary to provide a service efficiently and effectively, namely:

- A budget adequate to deliver a service of the necessary quality on a sustainable basis; and
- A budget that delivers services at the lowest possible cost.

Municipalities are encouraged to utilise the tariff setting tool referenced in MFMA Circular No. 98, item 4.2. This tool will assist in setting tariffs that are cost-reflective and would enable a municipality to recover costs to fulfil its mandate. The National Treasury Municipal Costing Guide is available on the link below on the National Treasury website.

http://mfma.treasury.gov.za/Guidelines/Documents/Forms/AllItems.aspx?RootFolder=%2fGuidelines%2fDocuments%2fMunicipal%20Costing%20Guide&FolderCTID=0x0120004720FD2D0551AE409361D6CB3E122A08

It is also imperative that every municipality is utilising the *m*SCOA cost segment correctly.

6.3 Bulk Account Payments and Concessions

During 2018/19, intense work was undertaken to resolve systemic and structural issues pertaining to the electricity function in municipalities. Core to this work was addressing the escalating Eskom debt that threatened the sustainability of Eskom as well as that of municipalities.

During the process, Eskom agreed to provide relieve in certain areas. Municipalities are reminded of the following concessions that remain in place:

- The interest rate charged on overdue municipal bulk accounts were reduced from prime plus 5 per cent to prime plus 2.5 per cent;
- Payment terms were extended from 15 days to 30 days for municipal bulk accounts; and
- Eskom allocation of municipality payments to capital first and then to interest.

These concessions align to the MFMA and are meant to curb municipal growing debt levels by allowing a more conducive payment regime than what was previously employed. In addition, municipalities are urged to budget for and ring-fence their payment of bulk services. Bulk current account payments must be honoured religiously to avoid stringent application of the bulk suppliers' credit control policy.

Municipalities are also advised to enforce a culture of payment for services through their normal credit control processes. In this regard it should be noted that municipalities are only compensated for free basic services based on an indigent user component calculation through the equitable share. As such, a municipality's allocation of free basic services to all of the municipality's consumers is not funded in the equitable share. Every municipality, during the budget process, must consider the affordability to the municipality when allocating free basic services above the national norm and to consumers other than indigent consumers. **If a municipality has any arrears on any of its bulk supplier's accounts, it must limit its provision of free basic services to registered indigent consumers only**.

In this regard municipalities are reminded to take note of the Constitutional Court decision in **Mazibuko and Others vs City of Johannesburg and Others (CCT 39/09) [2009] ZACC 28; 2010 (3) BCLR 239 (CC); 2010 (4) SA 1 (CC) (8 October 2009)**. The Constitutional Court confirmed that a municipality has the right to disconnect the water service in the event of non-payment. In the case of registered indigent users, water may not be disconnected but can and should be restricted to the national policy limit of 6 kilolitres of water monthly.

6.4 Timeous allocations and clearing of the control accounts

Municipalities are encouraged to clear the control accounts on a monthly basis and to allocate trade and other receivable payments in these suspense accounts to the relevant debtor accounts regularly before the monthly submissions as required by the MFMA. Implementing and enforcing the credit control policy of the municipality whilst payments are not cleared in the control account is negligent and irresponsible. Municipalities are warned against this bad practice, and this must be avoided at all costs.

6.5 Smart Prepaid Meters Solution

The Inter-Ministerial Task Team (IMTT) of the 5th administration appointed a panel to investigate the electricity function to better understand what is causing the non-payment to Eskom. Cabinet subsequently endorsed the panel's recommendation that a smart prepaid solution for all municipalities must be explored. Municipalities are advised that the National Treasury, through the Office of the Chief Procurement Officer (OCPO), will soon facilitate a transversal contract to standardise prepaid smart meter solutions for electricity that align to minimum and critical technical specifications for local government.

If your municipality or entity is currently in the process of procuring any smart meter solution or is planning to, you are cautioned:

- Against proceeding prior to the OCPO having issued and awarded the transversal prepaid smart meter Terms of Reference (ToR); and
- That, with immediate effect, you must obtain the National Treasury's input prior to proceeding with any current procurement or proposed procurement for any smart meter solution or similar system solution. This is to prevent unnecessary and wasteful expenditure on such solutions. Any request for National Treasury's input on the current or planned procurement of any smart meter solution or similar system solution or component thereof, must be directed to the National Treasury for the attention of the Local Government Budget Analysis Unit (Mr. Sadesh Ramjathan) Sadesh.Ramjathan@treasury.gov.za.

Your assistance in proactively ensuring that the municipality and/ or its entities are not adversely affected by these processes will be appreciated.

6.6 Critical Notice Affecting STS Meters

Municipalities are alerted that there is a pending business risk to the prepayment metering industry that requires urgency of action. The token identifiers (TID) used to identify each credit token will run out of available numbers in November 2024, at which point all STS meters will stop accepting credit tokens. The remedy is to visit each meter and enter a special set of key change tokens in order to reset the meter memory. Municipalities are advised that the National Treasury, through the Office of the Chief Procurement Officer (OCPO), will soon facilitate a transversal contract for the provision of auditing, re-calibration and re-configuration services for standard transfer specification compliant prepayment meters that align to minimum and critical technical specifications for local government.

If your municipality or entity is currently in the process of procuring for a solution or is planning to, you are cautioned:

- Against proceeding prior to the OCPO having issued and awarded the transversal contract for the provision of auditing, re-calibration and re-configuration services for standard transfer specification compliant prepayment meters Terms of Reference (ToR); and
- That, with immediate effect, you must obtain the National Treasury's input prior to proceeding with any current procurement or proposed procurement for this purpose or any related solution or similar. This is to prevent unnecessary and wasteful expenditure on such solutions. Any request for National Treasury's input on the current or planned procurement of any related solution or similar or component thereof, must be directed to the National Treasury for the attention of the Local Government Budget Analysis Unit (Mr. Sadesh Ramjathan) Sadesh.Ramjathan@treasury.gov.za.

In this regard, municipalities will have two options to choose from:

- Firstly, to pursue the route of auditing, re-calibrating and re-configuring services for standard transfer specification compliant prepayment meters; and
- Secondly, to replace the old meter with a new smart prepaid meter.

For both options, the municipality will have to budget accordingly as no additional funding will be available through the national fiscus.

Your assistance in proactively ensuring that the municipality and/ or its entities are not adversely affected by these processes will be appreciated.

6.7 Completeness and credibility of revenue related information in the Budget

The Municipal Budget and Reporting Regulations (MBRR) regulates the minimum level of information required from municipalities when compiling, implementing, monitoring, and evaluating the municipality's financial management situation. Failure to include the minimum required information hampers the municipal council, the public and stakeholders' ability to make informed decisions and engage on the matter. It also limits research, studies, and benchmarking undertaken for local, provincial, and national purposes.

The National Treasury would like to take this opportunity to caution municipalities that the MBRR prescribe the minimum level of information municipalities must include as part of their legal reporting obligations.

Going forward the Treasuries will place increased attention and focus on the adequacy of municipalities' submissions. The National Treasury regards this non-compliance to include the minimum level of information as serious and if persistent will consider applying the available legal sanctions, including recourse in terms of section 216(2) of the Constitution. In this context, National Treasury will particularly focus on the completeness of asset management related information as well as the statistical information required in the A, B and C schedules during the 2022/23 MTREF.

6.8 Eskom Bulk Tariff increases

The National Energy Regulator of South Africa (NERSA) is responsible for price determination of the bulk costs for electricity. Bulk electricity costs are consistently much higher than inflation, having gone as high as 17.8 per cent in the 2021/22 municipal financial year. Eskom's need for increased funding means that over the period ahead they are applying for much higher tariff increases. In their Multi-Year Price Determination (MYPD 5) application Eskom requested approval for municipal bulk tariff increases of 20.5 per cent in 2022/23, 15 per cent in 2023/24 and 10 per cent in 2024/25. NERSA rejected this revenue application at the end of September 2021 and in October 2021 ESKOM filed an application in the High Court to review NERSA's decision. Following the deliberations, NERSA has approved a 9.6 per cent tariff increase for Eskom starting from April 2022 and this figure accounts for a 3.49 per cent increase in 2022/23.

6.9 Long Term Financial Strategies

National Treasury is supporting municipalities to develop and implement long-term financial models and strategies. This reform seeks to develop more sustainable, and integrated infrastructure development programmes over the longer term, informed by strategic plans, and financed in the most effective and efficient manner.

Although some municipalities have long-term financial models (LTFM), they are not always integrated with municipal plans, or based on actual cash flow analysis and investment programmes, or able to consider alternative financial scenarios and outcomes in relation to the ability to borrow and the structuring of market transactions.

Municipalities need to develop LTFM that support decisions on investment selection and assesses the financial impact of policy choices, by forecasting future financial performance and the impact of infrastructure projects on borrowing capacity. The LTFM needs to inform the municipality's long-term financial strategy, which must articulate a sustainable, efficient

and effective borrowing strategy and practices for the municipality and provide a clear statement of intent for lenders and other stakeholders.

National Treasury has initiated this reform in the metropolitan municipalities and some of the Intermediate City municipalities and will continue with this reform in the next financial year. Based on the piloting of this reform, guidance will be provided to all municipalities to develop and implement LTFM's and strategies.

6.10 Water management

Reference is made to the 2011, Chapter 8 of the Local Government Budget and Expenditure Review (LGBER) which emphasizes the importance of water management.

It has been observed recently in various platforms where municipalities engage with treasuries and the sector deportments that there is no uniformity in reporting water and electricity losses. These are material items and need to be disclosed in planning, budgeting, reporting and in the annual report and Annual Financial Statements in uniform ways in order to track performance. In order to ensure consistency of reporting, the following information must be provided:

Accounting for water sold, non-revenue water and water losses:

- System input volume (kl)
- Water Billings (sum of accounts issued) – volume in kl and rand value
- Free basic water allowance (not included in billings) - volume in kl and rand value
- Physical water losses (estimated): volume in kl and rand value
- Water revenue collected (Rand value)

Accounting for electricity sold and electricity losses:

- Electricity purchased and generated (Electricity input) (kWh)
- Electricity Billings (sum of accounts issued) (KWh and Rand value)
- Free basic electricity allowance (not included in billings) (KWh and Rand value)
- Technical losses (estimated) (KWh and Rand value)
- Electricity revenue collected (Rand value)

In addition, the norms articulated in MFMA Circular No. 71 should also be taken into consideration.

6.11 Unauthorised, Irregular, Fruitless and Wasteful Expenditure (UIFW)

Cabinet adopted the Medium-Term Strategic Framework (MTSF) for 2019-2024 wherein it amongst others, committed that government will reduce irregular expenditure by 75 per cent and fruitless and wasteful expenditure by 100 per cent by 2024. It is important to note that these targets are applicable to each sphere of government. To this end, the Minister of Finance approved the UIFW Reduction Strategy for municipalities which was issued through MFMA Circular No. 111 in November 2021. The latter strategy advocated for municipalities to develop UIFW reduction plans that is approved by the municipal council, with the aim being for municipalities to utilize their 2018/19 UIFW figures as contained in their audited annual financial statements for that financial year as a baseline to develop the reduction plans. Whilst progress has been slow in terms of municipalities developing and submitting these plans to the National Treasury, some municipalities has made strides in this regard.

National Treasury would like again to encourage municipalities to develop the UIFW reduction plans and have it approved by the municipal councils through a council resolution for submission to the National Treasury to the MFMA helpdesk at mfma@treasury.gov.za for the attention of Mr. Wayne McComans on wayne.mccomans@treasury.gov.za. Municipalities are also advised to report progress against these UIFW reduction plans as part of their monthly

section 71 reporting to enable the necessary monitoring and oversight by the National Treasury on the implementation of these plans.

Going forward the Treasuries will place increased attention and focus on the processing of UIFW by municipalities as required by section 32(2) of the MFMA read with MFMA Circular No. 68. The National Treasury regards this consistent non-compliance for failure to adequately process and investigate UIFW as serious and if persistent will consider applying the available legal sanctions, including recourse in terms of section 216(2) of the Constitution.

7. Funding choices and management issues

Municipalities are under pressure to generate revenue as a result of the economic landscape, the COVID-19 pandemic, weak tariff setting and increases in key cost drivers to provide basic municipal services. The ability of customers to pay for services is declining and this means that less revenue will be collected. Therefore, municipalities must consider the following when compiling their 2022/23 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulations read with MFMA Circular No. 82;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households;
- Not taking on unfunded mandates;
- Strictly control the use of costly water tankers and fix the water infrastructure to enable the sustainable provision of water;
- Prioritise the filling of critical vacant posts, especially linked to the delivery of basic services; and
- Curbing the consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

Accounting officers are reminded of their responsibility in terms of section 62(1)(a) of the MFMA to use the resources of the municipality effectively, efficiently and economically. Failure to do this will result in the accounting officer committing an act of financial misconduct which will trigger the application of chapter 15 of the MFMA, read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.

7.1 Employee related costs

The Salary and Wage Collective Agreement for the period 01 July 2021 to 30 June 2024 dated 15 September 2021 through the agreement that was approved by the Bargaining Committee of the Central Council in terms of Clause 17.3 of the Constitution should be used when budgeting for employee related costs for the 2022/23 MTREF. In terms of the agreement, all employees covered by this agreement shall receive with effect from 01 July 2022 and 01 July 2023 an increase based on the projected average CPI percentages for 2022 and 2023. The forecasts of the Reserve Bank, in terms of the January 2022 and January 2023, shall be used to determine the projected average CPI. Municipalities are encouraged to perform an annual head count and payroll verification process by undertaking a once-a-year manual salary disbursement, in order to root out ghost employees.

7.2 Remuneration of Councillors

Municipalities are advised to budget for the actual costs approved in accordance with the Government Gazette on the Remuneration of Public Office Bearers Act: Determination of

Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published annually between December and January by the Department of Cooperative Governance. It is anticipated that this salary determination will also take into account the fiscal constraints. Municipalities should also consider guidance provided above on salary increases for municipal officials during this process. Any overpayment to councilors contrary to the upper limits as published by the Minister of Cooperative Governance and Traditional Affairs will be irregular expenditure in terms of Section 167 of the MFMA and must be recovered from the councilor(s) concerned.

7.3 Equitable Share allocation

As highlighted in Minister Enoch Godongwana's 2022 Budget Speech, municipalities must be mindful that the Equitable Share is meant to fund basic municipal services to the indigent. Municipalities must ensure that monies are used for the purpose they were allocated for.

8. Transfers to Municipalities

The circular reiterates the requirements of the rollover and unspent conditional grants process in line with conditions outlined in the annual Division of Revenue Act. Municipalities are required to request for a rollover approval against any unspent conditional grants that were allocated through the annual Division of Revenue Act, therefore this section provides guidance to municipalities with regard to the preparation for the 2021/22 unspent conditional grants and roll-over process and should be referenced against previous annual budget circulars.

8.1 Criteria for the rollover of conditional grant funds

In terms of Section 21 of the Division of Revenue Act, 2021 (Act No.9 of 2021) (DoRA) read in conjunction with the Division of Revenue Amendment Act, 2021 (Act No. 17 of 2021) (DoRAA), the Act requires that any conditional allocation or a portion thereof that is not spent at the end of the 2021/22 financial year reverts to the National Revenue Fund (NRF), unless the rollover of the allocation is approved in terms of subsection (2). Furthermore, the receiving officer, provincial treasury and transferring national officer is required to prove to National Treasury that the unspent allocation is committed to identifiable projects, in which case the funds may be rolled over.

When requesting a rollover in terms of section 21(2) of the 2021 DoRA, municipalities must include the following information with their submission to National Treasury:

- A formal letter, signed by the accounting officer addressed to the National Treasury requesting the rollover of unspent conditional grants in terms of section 21(2) of the 2021 DoRA;
- A list of all the projects that are linked to the unspent conditional grants and a breakdown of how much was allocated and spent per project;
- The following evidence indicating that work on each of the projects has commenced, as applicable to the specific rollover(s):

    a) Proof that a contractor or service provider was appointed for delivery of the project before 31 March 2022; or
    b) Proof of project tender and tender submissions published and finalised before 31 March 2022 with the appointment of contractor or service provider for delivery of the service before 30 June 2022 in cases where additional funding was allocated during the course of the final year of the project. Further, municipalities must note the letters issued by National Treasury dated 25 February and 03 March 2022 respectively regarding the Preferential Procurement Regulation, 2017;
    c) Incorporation of the Appropriation Statement; and

d) Evidence that all projects linked to an allocation will be fully utilised by 30 June 2022 (attach cash flow projection for the applicable grant).

- A progress report (also in percentages) on the status of each project's implementation that includes an attached legible implementation plan);
- The value of the committed project funding, and the conditional allocation from the funding source;
- Reasons why the grants were not fully spent during the year of original allocation per the DoRA;
- Rollover of rollovers will not be considered therefore municipalities must not include previous year's unspent conditional grants as rollover request;
- An indication of the time-period within which the funds are to be spent if the roll-over is approved; and
- Proof that the Municipal Manager and Chief Financial Officer are permanently appointed.

No rollover requests will be considered for municipalities with vacant or acting Chief Financial Officers and Municipal Managers for a period exceeding 6 months from the date of vacancy, this also includes acting appointments as a result of suspensions of either MM or CFO that are more than 12 months.

If any of the above information is not provided or the application is received by National Treasury (Intergovernmental Relations Division) after 31 August 2022, the application will not be considered.

In addition, National Treasury will also consider the following information when assessing rollover applications; and reserves the right to decline an application should there be non-performance by the municipality in any of these areas:

- Compliance with the in-year reporting requirements in terms of sections 71 and 72 of the MFMA and section 12 of the 2021 DoRA, including the municipal manager and Chief Financial Officer signing-off on the information sent to National Treasury;
- Submission of the pre-audited Annual Financial Statements to National Treasury by 31 August 2022;
- Accurate disclosure of grant performance in the 2021/22 pre-audited Annual Financial Statements, (i.e. correct disclosure of grant receipts and spending in the notes to the AFS);
- Despite the fact that local government is required to comply to different norms and standards prescribed by different legislations, municipalities are expected to fully comply with the provisions of DoRA that relates to rollover processes and disclose conditional grant performance in the 2021/22 pre-audited Annual Financial Statements in order to verify grant expenditure; and
- Cash available in the bank (net position including short-term investments) as at 30 June 2022 is equivalent to the amount that is unspent as at the end of the financial year. If the amount that is requested for roll-over is not entirely cash backed, such a roll-over will not be approved. National Treasury will also not approve portions of rollover requests.

It should be noted that under no circumstances will the National Treasury consider requests to roll-over:

- The entire 2021/22 allocation to the municipality, in cases whereby the rollover request is more than 50 per cent of the total allocation, National Treasury will approve the rollover amount up to 50 per cent of the 2021/22 allocation;
- Rollover request of the same grant for the third consecutive time;

- Funding for projects constituted through Regulation 32 of the Municipal Supply Chain Management Regulations (Gazette No.27636). Projects linked to additional funding and disasters are exempted; and
- A portion of an allocation where the proof of commitment for the rollover application is linked to invoices that were issued before or on 31 May 2022.

8.2 Unspent conditional grant funds for 2021/22

The 2021/22 unspent conditional process will be managed in accordance with section 21 of DoRA, in order to ensure that the unspent conditional grants against the 2021/22 financial year return to the National Revenue Fund (NRF). In addition to the previous MFMA Circulars, the following practical arrangements will apply:

Step 1: Municipalities must submit their 30 June 2022 conditional grant expenditure reports according to section 71 of the MFMA reflecting all accrued expenditure on conditional grants and further ensure that expenditure reported to both National Treasury and national transferring officers reconcile;

Step 2: When preparing the Annual Financial Statements, a municipality must determine the portion of each national conditional grant allocation that remained unspent as at 30 June 2022. These amounts MUST exclude all interest earned on conditional grants, retentions and VAT related to conditional grant spending that has been reclaimed from SARS, which must be disclosed separately; and

Step 3: If the receiving officer wants to motivate in terms of section 21(2) of the 2021 DoRA that the unspent funds are committed to identifiable projects, the rollover application pack must be submitted to National Treasury by no later than 31 August 2022.

National Treasury will not consider any rollover requests that are incomplete or received after this deadline.

Step 4: National Treasury will confirm in writing whether or not the municipality may retain any of the unspent funds as a rollover based on criteria outlined above by 21 October 2022;

Step 5: National Treasury will communicate the unspent conditional grants amount by 08 November 2022. A municipality must return the remaining unspent conditional grant funds that are not subject to a specific repayment arrangement to the National Revenue Fund (NRF) by 18 November 2021; and

Step 6: Any unspent conditional grant funds that should have, but has not been repaid to the National Revenue Fund (NRF) by 18 November 2021, and for which a municipality has not requested a repayment arrangement, these funds will be offset against the municipality's 07 December 2022 equitable share allocation.

Annexure to MFMA Circular No. 86 addresses all the issues pertaining to Appropriation Statement and reporting on approved roll-overs.

8.3 Importance of section 16 of the Division of Revenue Act

The circular again reiterates the importance of compliance to section 16 of DoRA in relation to the allocation or transfer of funds by municipalities to other organs of state in order to implement projects on behalf of the municipalities.

Section 16 (3) of DoRA states that a receiving officer may not allocate any portion of a schedule 5 allocation to any other organ of state for the performance of a function, unless the receiving officer and the organ of the state agree on the obligation of both parties and a payment schedule, the receiving officer has notified the transferring officer, the relevant provincial treasury and National Treasury of the agreed payment schedule and:

- The allocation
  - i) Is approved in the budget for the receiving provincial department or municipality; or
  - ii) If not already approved;
    - aa) the receiving officer notifies the National Treasury that the purpose of the allocation is not to artificially inflate the expenditure estimates of the relevant municipality and indicates the reasons for the allocation; and
    - bb) the National Treasury approves the allocation; or
- The allocation is for the payment for goods or services procured in accordance with the procurement prescripts applicable to the relevant province or municipality and, if it is an advance payment, paragraph (a) (ii) applies with the necessary changes.

Further, section 16 (4) states that the receiving officer must submit a copy of the agreement envisaged in subsection (3) to the transferring officer and the National Treasury before payment is made.

This section requires municipalities to comply with section 16 (3) before any DoRA allocated funds that are allocated or transferred to any organ of state and the municipality should first seek approval from National Treasury. The allocation includes transfers made to any organ of state in order to perform a function using conditional grants allocated through the DoRA.

Note that National Treasury considers the following when assessing the request from the municipality for approval:

- If the municipality is benefitting and utilising from the five per cent from capital grants that may be utilized for Project Management Unit (PMU). In terms of the capital grant framework (i.e. MIG and the Integrated Urban Development Grant (IUDG) and three per cent for the Urban Settlements Development Grant (USDG) municipalities are allowed to utilise a certain per cent of the grant for PMU or capacity support in order to implement capital projects. Therefore, if municipalities are benefiting from this initiative the PMU should be capacitated enough to implement capital project;
- Municipalities that are benefiting from the added technical support from Municipal Infrastructure Support Agent (MISA) will not be granted approval because MISA would assist with providing support and develop technical capacity towards sustained accelerated municipal capacity and service delivery. This implies that the municipality would be capacitated and be in a better position to implement capital projects; and
- If the request does not comply to the grant conditions, framework and if the transfer artificially inflates the expenditure estimates.

The following information must be submitted to National Treasury before approval is granted to municipalities to transfer funds to other organs of the state:

- In consultation with the relevant transferring officer municipalities must submit their request to National Treasury for approval;
- Provide the time frames regarding the duration of this arrangement between the municipality and the organ of the state;
- Provide the Service Level Agreement (SLA) between the municipality and the organ of state in consultation with the relevant transferring officer;
- Provide the agreed payment schedule reflecting the disbursement of the funds;
- Must provide the reasons why such a decision has been taken by the municipality;
- If amongst the reasons for the request is related to capacity challenges the municipality must therefore prove beyond reasonable doubt that there are capacity challenges and the reasons thereof; and
- Upon approval the municipality must submit the approved budget that includes the allocation.

Note that once the allocation or transfer has been approved the payment for goods or services must be procured in accordance with or in compliance to the procurement prescripts applicable to the relevant municipality. If there is an agreement for an advancement, subsection (a) (ii) will apply in order to determine if the payment does not artificially inflate the expenditure estimates. Further, before funds are transferred, the transferring national officer and National Treasury must agree on the payment schedule.

Therefore, if any expenditure incurred which emanates from such an arrangement while there was non-compliance with section 16, grant conditions and framework, such expenditure will not be recognised by both National Treasury and relevant transferring officer and will be classified as unauthorised expenditure.

9. The Municipal Budget and Reporting Regulations

9.1 Schedule A - version to be used for the 2022/23 MTREF

National Treasury has released Version 6.6.1 of the Schedule A1 (the Excel Specimen) which is aligned to Version 6.6.1 of the *m*SCOA classification framework and must be used when compiling the 2022/23 MTREF budget.

All municipalities **must** prepare their 2022/23 MTREF budgets in their financial systems and produce the Schedule A1 directly from their financial system.

Municipalities must start early enough to capture their tabled budget (and later the adopted budget) in the budget module in the financial system and must ensure that they produce their Schedule A1 directly out of the budget module. **Manual capturing on A1 schedule version 6.6.1 is not allowed** in terms of the *m*SCOA Regulations.

National Treasury has protected the A1 schedule version 6.6 in order to ensure that the Schedule A1 generated directly from the financial system and not populated manually.

The budget, adjustments budget and Section 71 monthly reporting Schedules that have been regulated in terms of the MBRR have also been aligned to the *m*SCOA chart version 6.6.1. The revised MBRR Schedules for the 2022/23 MTREF and its linkages to the financial and non-financial data string are available on the link below:

http://mfma.treasury.gov.za/RegulationsandGazettes/Municipal%20Budget%20and%20Reporting%20Regulations/Pages/default.aspx

9.2 Assistance with the compilation of budgets

If municipalities require advice with the compilation of their respective budgets, specifically the budget documents or Schedule A1, they should direct their enquiries to their respective provincial treasuries or to the following National Treasury officials:

Province	Responsible NT officials	Tel. No.	Email
Eastern Cape	Matjatji Mashoeshoe	012-315 5553	Matjatji.Mashoeshoe@treasury.gov.za
	Abigail Maila	012-395 6737	Abigail.Maila@Treasury.gov.za
Buffalo City	Mandla Gilimani	012-315 5807	Mandla.Gilimani@treasury.gov.za

National and provincial treasuries will analyse the credibility of the data string submissions.

9.3 Assessing the 2022/23 MTREF budget

National and provincial treasuries will assess the 2022/23 MTREF budgets to determine if it is complete, funded and complies with the *m*SCOA requirements. The *m*SCOA data strings for the tabled (TABB) and adopted (ORGB) budgets will be used for this assessment.

The **assessment period** of all municipal budget will therefore be from **01 April to 30 June 2022 for both the tabled and adopted budgets**. In this period, the National and provincial treasuries will evaluate all municipal budgets for completeness and for being fully funded. Any adjustment that need to be made must be done before the start of the municipal financial year on 1 July.

Importantly, in order to generate an adopted budget (ORGB) data string, the budget must be locked on the financial system by the 10th working day of July each year. Therefore, once the ORGB data string has been generated, errors in the ORGB can only be corrected via an adjustments budget in February of each year. In terms of the design principles of *m*SCOA, municipalities are not allowed to open the budget on the system for corrections after it has been locked. This means that the tabled budget data string (TABB) should in fact be verified and errors in the TABB should be corrected in the ORGB **before the adopted budget is locked on the financial system and the ORGB data string is generated**.

Amending an unfunded, incomplete and erroneous budget through an adjusted budget is also not encouraged as the National Treasury only considers an adjusted budget in the third and fourth quarter of the financial year for analysis and publication purposes. This will result in overspending and unauthorised expenditure not been monitored in the first six months of the financial year.

The National Treasury would like to emphasise that ***where municipalities have adopted an unfunded budget without a* credible funding plan*, they will be required to correct the funding plan and ensure that it is credible. The credible funding plan must be***

***immediately adopted by the Municipal Council, and the changes to the budget must be effected in the main adjustments budget to ensure compliance with Section 18 of the MFMA**.*

Municipalities with municipal entities are once again reminded to prepare consolidated budgets and in-year monitoring reports for both the parent municipality and its entity or entities. The following must be compiled:

- An annual budget, adjustments budget and monthly financial reports for the parent municipality in the relevant formats;
- An annual budget, adjustments budget and monthly financial reports for the entity in the relevant formats; and
- A consolidated annual budget, adjustments budget and monthly financial reports for the parent municipality and all its municipal entities in the relevant formats.

The budget and data strings that the municipality submits to National Treasury must be a consolidated budget for the municipality (including entities). The budget of each entity must be submitted on the D Schedule in pdf format.

In the past it was noted that municipalities have challenges to align the audited outcomes on the financial system to A1 Schedule. Municipalities must ensure that the audited figures and adjusted budget figures captured on the A1 Schedule aligns to the annual financial statements and Schedule B respectively.

10. Submitting budget documentation and A1 schedules for 2022/23 MTREF

To facilitate oversight of compliance with the Municipal Budget and Reporting Regulations, accounting officers are reminded that:

- Section 22(b)(i) of the MFMA requires that, ***immediately*** after an annual budget is tabled in a municipal council, it must be submitted to the National Treasury and the relevant provincial treasury in electronic formats. If the annual budget is tabled to council on **31 March 2022**, the final date of submission of the electronic budget documents and corresponding *m*SCOA data strings is **Friday, 01 April 2022**; and
- Section 24(3) of the MFMA, read together with regulation 20(1) of the MBRR, requires that the approved annual budget must be submitted to both National Treasury and the relevant provincial treasury within ten working days after the council has approved the annual budget. However, given that municipalities are generating the annual budgets directly from the financial system as required by the *m*SCOA Regulations and that the budgets must be verified before it is locked on the financial system and transacted against, municipalities must submit the approved budget to the National Treasury and the relevant provincial treasury in electronic formats ***immediately*** after approval by the municipal council. Therefore, if the annual budget is tabled to council **on 31 May 2022**, the final date of submission of the electronic budget documents and corresponding *m*SCOA data strings is **Wednesday, 01 June 2022.**

Since the 2020/21 MTREF, municipalities are no longer required to submit hard copies of all required documents including budget related, Annual Financial Statements and Annual Reports to National Treasury via post or courier services. Electronic copies must be submitted in pdf format to the GoMuni Upload portal.

10.1 Expected submissions for 2022/23 MTREF

The following information should be submitted for the 2022/23 MTREF:

- The budget documentation as set out in the MBRR. The budget document must include the main A1 Schedule Tables (A1 - A10);
- The non-financial supporting tables (A10, SA9, SA11, SA12, SA13, SA22, SA23, SA24 etc. and any other information not contained in the financial data string) in the A1 schedule must be submitted in the prescribed *m*SCOA data string in the format published with Version 6.6 of the A1 schedule;
- The draft and final service delivery and budget implementation plan (SDBIP) in electronic PDF format;
- The draft and final IDP;
- The council resolution for the tabled and adopted budgets;
- Signed Quality Certificate as prescribed in the MBRR for the tabled and adopted budgets;
- D Schedules specific for the entities; and
- A budget locking certificate immediately at the start of the new municipal financial year on 1 July.

10.2 GoMuni Upload Portal

The development work on the GoMuni Upload portal has been concluded and municipalities must submit all documents required for the 2022/23 MTREF in terms of legislation, as per the guidance provided in MFMA Circular No 112 dated 06 December 2021, via the GoMuni Upload Portal. The upload portal can be accessed on https://lguploadportal.treasury.gov.za from 01 April 2022.

All municipal officials that currently have access to the LG Upload portal will be granted access to the GoMuni Upload portal. New users will have to complete and submit a *Request for Access* to lgdataqueries@treasury.gov.za. The request form will be available on the GoMuni login page under new registrations.

10.3 Additional validation rules applicable to data string submissions

To ensure that credible data strings are submitted to the GoMuni Upload portal, additional validation rules will be introduced in the 2022/23 MTREF. The credibility and accuracy of the data strings must be verified by municipalities before submission on the GoMuni Upload. The additional validation rules will be implemented on the stage 1 validation. In other words, a data strings that fails the validation will be rejected. The additional rules are as follows:

1. A balanced data string must be submitted. This means that the data strings that is submitted must always be in balance. All the transactions should be included for Revenue, Expenditure, Gains and Losses, Assets, Liabilities and Net Assets;
2. All secondary cost data strings may only be linked to Item: Expenditure: Default. All costing transactions must be linked to Item: Expenditure default as it refers to the reallocation of cost from one function to another or one operational project to another operational project. Where cost is capitalised the costing segment is not used;
3. Inventory for water must be linked to the Function: Water Management. Bulk purchases of Water must only be recorded against the Water management function; and
4. Opening balances must be linked to Project default and Fund: non funding. All opening balances that are not linked to Project default and Non funding will not be valid.

The new validation rules will come into effect from 01 July 2022.

10.4 Publication of municipal documents

Going forward, the following municipal documents will be published on the GoMuni/ Go Public portal:

- Integrated Development Plans;
- Budget Documentation;
- Service Delivery and Budget Implementation Plans;
- Annual Financial Statements;
- Annual Reports; and
- Audit Reports.

Municipal documents submitted to the National Treasury prior to 2022 will be available on the MFMA webpage and can be accesses via the MFMP Share Point Documents option on GoMuni/ Go Public.

GoMuni/ Go Public can be accessed on the following link: https:/lg.treasury.gov.za

10.5 Communication by municipal entities to National Treasury

Municipal entities should not request meetings directly from National Treasury. National Treasury will only engage the entities through the parent municipalities. This includes all communications apart from the legislative reporting requirements.

MUNICIPAL BUDGET CIRCULAR FOR THE 2022/23 MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK

1. PURPOSE

The purpose of this circular is to:

- provide the economic and fiscal context that should be considered by municipalities when compiling the 2022/23 Medium Term Revenue and Expenditure Framework (MTREF);
- outline the legislative requirements guiding the tabling of the 2022/23 MTREF Budgets and accompanied budget documentation; and
- remind municipalities of additional upcoming reporting responsibilities.

2. STRATEGIC CONTEXT

Economic and Fiscal Environment

The 2022 Strategic Integrated Municipal Engagement/ Local Government Medium Term Expenditure (SIME/ LG MTEC) process will take place amidst national and provincial economic recovery following sharp economic contractions in 2020. Based on historical data since1960, South Africa experienced its steepest decline in economic output with a contraction of 16 per cent from the first to the second quarter of 2020, which was largely due to the strict COVID-19 lockdown. This resulted in an estimated 6.4 per cent contraction in the national GDP for 2020. National Treasury (NT)[1] expects a real economic growth rate of 5.1 per cent in the country for 2021 as the economy rebounds.

National real GDP growth is projected at 1.8 per cent in 2022, 1.6 per cent in 2023 and 1.7 per cent in 2024. The Western Cape economy has outperformed that of South Africa as a whole but has not substantially diverged from the national trajectory. The Provincial economy contracted by 5.5 per cent in 2020 and recovered with an estimated growth of 5.3 per cent in 2021 and a forecast of 1.4 per cent growth in 2022. The rebound is clouded by the COVID-19 pandemic, the discovery of new variants which compromise travel to and from South Africa and slow progress in the national vaccine rollout which reinforces uncertainty and poses risks to economic recovery.

[1] National GDP growth rates are projected by the National Treasury within MFMA Circular No. 112

Other risks to the economic environment include but are not limited to the slow implementation of structural reforms which continues to have a negative impact on business confidence and private investment; supply chain and electricity supply constraints, which could worsen over the short term; deceleration in global demand and declines in commodity prices which could have a negative impact on local industry.

The fiscal environment faces the risk of a further deterioration in public finances which could trigger credit rating downgrades. Cost of Employment pressures, the implementation of the non-pensionable salary increases for Public Servants of salary levels 1 to 12 and the Social Relief Distress Grant (including a potential introduction of a basic income grant) further compromise fiscal consolidation measures. While the fiscal framework does not currently include any additional support to state-owned enterprises, the poor financial condition and operational performance of several of these entities remain a large contingent risk. Ageing infrastructure and outdated technology, vandalism, continued population growth and increasing demand for services require resources that are not met with sufficient increases in revenue. From a governance perspective, an unprecedented number of municipalities have hung councils, which poses risks to municipal operations and service delivery. Significant job losses during this period of economic decline impacts on the affordability of municipal services and therefore municipalities' ability to collect revenue and increases demand for free basic services. Social unrest and challenges such as poverty, crime, low levels of skills, and substance abuse also require intervention.

Since the 2008 global financial crisis, economic growth has trended downwards, resulting in persistent shortfalls in tax revenue that have not been matched by appropriate cost containment measures to reduce expenditure. This in turn has led to wider budget deficits, higher borrowing and a rapid increase in the ratio of debt to GDP. The debt servicing costs are growing at a pace that is faster than the rate of GDP growth, and this ratio will continue to increase until government runs a sufficiently large primary budget surplus. The current prime lending rate is 7.25 per cent. There appears to be consensus in the private sector that there will be quarterly increases in interest rates during 2022 as the Monetary Policy Committee of the South African Reserve Bank is determined to contain inflation and maintain price stability. This will reduce the disposable income of households as interest on loans will increase. It also impacts adversely on municipalities' ability to service debt and take up new loans to fund infrastructure programmes. Headline inflation is currently at a five-year high but is expected to remain between the 3 to 6 per cent target range over the 2022/23 MTEF; at 4.0 per cent for 2022/23, 4.4 per cent for 2023/24 and 4.5 per cent for 2024/25.[2]

Considering the fiscal constraints, maximising the value of spending is crucial. Government needs to contain costs, especially consumption related spending, exercise prudent and compliant financial management, and eliminate the waste of public funds and resources. Compensation of employees remains a major cost pressure. It remains critical for municipalities to adhere to compensation ceilings, manage headcounts proactively and conduct staff audits to ensure the staff complement is aligned to the approved organogram. It will also be critical for municipalities to build risk management into the budget process, i.e., mitigating, identifying and protecting the institution against potential risks. These will assist government to improve its fiscal position.

2 MFMA Circular 112

To combat the socio-economic challenges highlighted above, the Western Cape Recovery Plan themes of Jobs, Safety and Wellbeing remain at the centre of the response to address the impact of COVID-19 and lay the foundation for faster long-run economic growth and poverty reduction in the Province. It is underpinned by the Vision Inspired Priorities within the Provincial Strategic Plan 2019 - 2024. Local Government also has a vital role to play in this regard. Consideration should be given as to how value can be unlocked from good governance. The real challenge is to get beyond stability and for WCG to partner with municipalities to leverage our governance advantage to drive the recovery and growth.

Municipalities should make conscious efforts to maximize service delivery given these social, socio-demographic, economic and fiscal challenges. Municipalities are advised to consult the 2021 Socio-economic profiles[3] and Municipal Economic Review and Outlook (MERO)[4] for municipal specific socio-economic information. The MERO, which was tabled by the Minister of Finance and Economic Opportunities on 6 December 2021, will be distributed to various business forums across the Province and rolled out via the District Coordination Forums. These source documents as well as the above-mentioned macro-economic forecasts should be considered when preparing the 2022/23 MTREF budgets and plans.

3. NATIONAL TREASURY AND PROVINCIAL TREASURY GUIDELINES

3.1 Context

- Municipalities are advised to consult the latest Budget Circular, MFMA Circular 112 released on 6 December 2021.
- Municipalities MUST include the National and Provincial Treasury Budget Circulars as part of the source documents consulted in the preparation of the 2022/23 MTREF Budget documents and table it as part of the budget documentation in the Municipal Council.

3.2 Legislative Requirements: Tabling of the 2022/23 Budgets

- As per section 16(1) of the Local Government: Municipal Finance Management Act (Act No. 56 of 2003) (MFMA), the council of a municipality must approve an annual budget before the start of the financial year. In order for a municipality to comply with section 16(1), the mayor must table the annual budget at a council meeting at least 90 days (end of March 2022) before the start of the budget year as required by section 16(2) of the MFMA.
- Should it be foreseen that a municipality will not be able to comply with section 16(2), the mayor must, as per section 27(1) of the MFMA, inform the MEC for Finance in the province, in writing, of such impending non-compliance.
- Section 27(2) of the MFMA allows the MEC of Finance, on application by the mayor, and if good cause is shown, to extend any time limit or deadline pertaining to the tabling of the budget, provided that such extension does not compromise compliance with section 16(1). Municipalities must however make every effort to ensure that their budgets are tabled by 31 March 2022. This timeline is required to enable effective participation in the budget process by all stakeholders, including Council and the public; and for provincial departments to fulfil their oversight role. Provincial Treasury (PT) will therefore not recommend that an extension be granted unless exceptional circumstances exist.

[3] https://www.westerncape.gov.za/provincial-treasury/socio-economic-profiles-2021
[4] https://www.westerncape.gov.za/provincial-treasury/investor-economic

- In the event of non-compliance (that the budget was not timeously tabled by the end of March 2022), the mayor must, according to section 27(3) of the MFMA, inform the municipal council, the MEC for Finance and the National Treasury, in writing, of such non-compliance and any remedial or corrective measures the municipality intends to implement to avoid a recurrence. This requirement is dependent on, and subject to, any extension provided by the MEC in terms of section 27(2).

- Notification of impending and/or actual non-compliance with a time provision relating to the annual budget must be done in terms of Chapter 4 of the Municipal Budget and Reporting Recommendations (MBRR) and be in the format outlined in Schedule G of the MFMA.

- Failure to comply with section 16(2) of the MFMA, will compromise a municipality's ability to approve the budget before the start of the financial year as required by section 16(1) of the MFMA. Should a municipality not approve its budget by the start of the new municipal financial year (i.e. 1 July 2022), the Provincial Executive must intervene in terms of section 136(3) of the MFMA and section 139(4) of the Constitution. The Provincial Executive will accordingly take corrective measures which include, but are not limited to, placing a temporary hold on the Municipality's bank account, appointing an administrator, approving a temporary budget, or even dissolving council. Further guidance on this will be provided in a subsequent circular.

3.3 Development and Adoption of IDPs

The date of the 2021 Local Government elections presented a challenge for incoming councils to adopt new Integrated Development Plans (IDPs) by May 2022 within the legislated timeframes. The results from a survey conducted by the Department of Local Government indicates that many newly elected municipal councils plan to adopt the IDP of their predecessor in terms of section 25(3) of the Local Government: Municipal System Act, Act No. 32 of 2000 (MSA) and to only adopt a new IDP in their second year of office to facilitate thorough interrogation and extensive consultation for the finalisation of the new five-year strategy. Some municipalities are however planning to adopt new term of office IDPs in May 2022 despite the tight timelines.

For further guidance municipalities are referred to the joint National Treasury/Department of Cooperative Governance/South African Local Government Association (NT/DCoG/SALGA) Joint Circular No.1 (20 October 2021) on the transitional measures in relation to the IDP process and to, if any further guidance or assistance is required in this regard, contact the IDP Directorate of the Department of Local Government.

3.4 Ensuring Municipal Sustainability through a funded budget

In the current economic and fiscal environment, municipalities may face financial strain for several reasons including rising demand for basic and free basic services, revenue collected being hampered due to reductions in household income, and below inflation increases in transfers from national government.

As per section 18 of the MFMA, municipalities should nevertheless ensure that their budgets are funded from realistically anticipated revenue to be collected, cash backed accumulated funds from the previous year as well as borrowed funds to be utilised for capital projects.

To ensure financial sustainability each Municipality must consider the following when compiling their 2022/23 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulations read together with MFMA Circular No. 97 (31 July 2019);
- Ensuring value for money through the procurement process and promoting sustainable public procurement;
- The affordability of providing free basic services to all households;
- Any changes to functional assignments between spheres and/or intergovernmental funding arrangements for these services must be assessed for their long-term impact on municipal financial sustainability.
- Strictly control the use of costly water tankers and fix the water infrastructure to enable the sustainable provision of water;
- Curbing the consumption of water and electricity by indigent households to ensure that they do not exceed their allocation without paying for additional consumption;
- Prioritising the filling of critical vacant posts, especially those linked to the delivery of basic services. Municipalities should also carefully consider whether non-critical vacancies need to be filled, or whether savings can be achieved by freezing some of these posts; and
- Ensuring that the budget is aligned to the municipality's Municipal Spatial Development Framework (MSDF), informed by its Capital Expenditure Framework, where this is in place, and is responsive to the municipality's identified risks.

The following sections contain additional guidelines regarding revenue and expenditure to ensure credible and sustainable budgeting.

3.4.1 Revenue

a) Municipalities are advised to use the indicative numbers presented in the 2021 Division of Revenue Act (DoRA) to compile their 2022/23 MTREF. In terms of the outer year allocations (2023/24 and 2024/25 financial years), it is proposed that municipalities conservatively limit funding allocations for conditional grants to the indicative numbers as presented in the 2021 DoRA for 2023/24. The DoRA is available at:

http://www.treasury.gov.za/documents/national%20budget/2021/default.aspx

The 2021 national Medium Term Budget Policy Statement (MTBPS) gave an estimation of growth in equitable share and conditional grants for local government over the 2022/23 MTREF. While these numbers may still change when the Budget is tabled in February, the indication is that following growth in the equitable share of only 0.6 per cent (in nominal terms) in 2023/24, the equitable share will increase by 4.5 per cent in 2024/25. Although municipalities can use this growth rate to estimate their equitable share allocation for 2024/25, cognisance should be taken that NT has taken the approach to gradually decrease the number of indigent households subsidised as part of the equitable share.

Table 1: Local Government Intergovernmental Transfers for the 2022 MTREF

R billion & per cent	2021/22	2022/23	2023/24	2024/25	2022/23	2023/24	2024/25
	Revised	Medium-term estimates			Growth rates		
Local government	137,6	146,3	148,9	155,4	6,4%	1,8%	4,3%
Equitable share	78,0	83,1	83,6	87,3	6,5%	0,6%	4,5%
General fuel levy sharing with metropolitan municipalities	14,6	15,3	15,4	16,1	4,9%	0,6%	4,5%
Conditional grants	45,0	47,9	49,9	51,9	6,5%	4,2%	4,0%
Main budget expenditure	1 893,1	1 897,9	1 936,7	2 039,1	0,3%	2,0%	5,3%
Percentage shares							
National departments	50,6%	48,7%	48,3%	48,2%			
Provinces	40,9%	42,0%	42,0%	42,1%			
Local government	8,5%	9,3%	9,7%	9,7%			

Source: 2021 National MTBPS

Municipalities are advised to consult section 2.1 of MFMA Budget Circular 112 for detail regarding the changes to local government allocations. All allocations must be updated once the national Minister of Finance tables the 2022 DoRA.

b) Municipalities should comply with Section 74(2) of the MSA by setting cost-reflective tariffs. This ensures that municipalities set tariffs that enable the recovery of the full cost of providing the service. Municipalities should pay careful attention to tariff increases across all consumer groups. Municipalities are further encouraged to utilise the tariff setting tool referenced in MFMA Circular 98, item 4.2. The NT Municipal Costing Guide is available on the link below:

http://mfma.treasury.gov.za/Guidelines/Documents/Forms/AllItems.aspx?RootFolder=%2fGuidelines%2fDocuments%2fMunicipal%20Costing%20Guide&FolderCTID=0x0120004720FD2D0551AE409361D6CB3E122A08

Municipalities should also maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other customers while ensuring the financial sustainability of the municipality. The inflation rates have been provided in section 2 above. Municipalities must justify any increases in excess of the projected inflation rate for 2022/23 and include details of their revenue growth assumptions for the different service charges within the 2022/23 budget narrative.

c) It is essential that municipalities reconcile their most recent valuation roll data to that of the billing system to ensure that anticipated revenue from property rates are accurate. The recent valuation roll data can be reconciled with the billing system and with the Deeds Office Registry as a further test. In accordance with the MFMA Circular No. 93 (7 December 2018), municipalities are once more requested to submit their annual reconciliation of the valuation roll to the billing system to NT by no later than 4 February 2022. The above information must be uploaded by the municipality's approved registered user(s) using the GoMuni Upload Portal at: https://lguploadportal.treasury.gov.za/.

d) Based on the Constitutional Court decision in Mazibuko and Others vs City of Johannesburg and Others (CCT 39/09) [2009] ZACC 28; 2010 (3) BCLR 239 (CC); 2010 (4) SA 1 (CC) (8 October 2009), a municipality has the right to disconnect the water service in the event of non-payment, or in the case of indigent households, restrict usage to only the national policy limit of 6 kilolitres of water per month.

e) On 3 December 2021, the Gauteng High Court ruled that the National Energy Regulator of South Africa (NERSA) should process Eskom's application for Electricity Retail Tariffs and Structure Adjustment (ERTSA). Eskom has requested an average increase of 20.5 per cent in 2022/23, 15 per cent in 2023/24 and 10 per cent in 2024/25. The High Court set for the National Energy Regulator to make their decision on the ERTSA by 25 February 2022. The Municipal Benchmark tariff will only be finalised once the decision on the ERTSA is made, as this is the municipal bulk tariff input. NERSA's upcoming *Municipal Tariff Guidelines Increases, Benchmarks and Proposed Timelines for Municipal Tariff Approval Process for the 2022/23 financial year* publication should be consulted before the approval of the final budgets.

f) The MBRR regulates the minimum level of information required from municipalities when compiling, implementing, monitoring, and evaluating the municipality's financial management situation. Failure to include the minimum required information hampers the municipal council, the public and stakeholders' ability to make informed decisions and engage on the matter. Going forward the National and Provincial Treasury will place increased attention and focus on the completeness of municipalities' submissions. National Treasury regards the exclusion of the minimum level of information as serious non-compliance and if persistent will consider applying the available legal sanctions, including recourse in terms of section 216(2) of the Constitution. NT will particularly focus on the adequacy of asset management related information as well as the statistical information required in the A, B and C schedules during the 2022/23 MTREF.

g) Section 216(2) of the Constitution requires that NT enforce compliance with the measures established to ensure both transparency and expenditure control in each sphere of government and may stop the transfer of funds to an organ of state if that organ of state commits a serious or persistent material breach of those measures. The criteria for the release of the Equitable Share instalments for the 2022/23 municipal financial year are outlined in section 8.1 of MFMA Budget Circular 112. Western Cape municipalities are encouraged to maintain their current high level of compliance.

3.4.2 Expenditure

a) Accounting Officers are reminded of their responsibility in terms of section 62(1)(a) of the MFMA to use the resources of the municipality effectively, efficiently, and economically. Failure to do so will result in the accounting officer committing an act of financial misconduct which will trigger the application of chapter 15 of the MFMA, read together with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.

b) Municipalities are encouraged to budget and ringfence their payment for bulk services and honour their current account payments (inclusive of Eskom) consistently to avoid stringent application of the bulk suppliers' credit control policy. Note that Eskom's payment terms have been extended to 30 days and the interest on overdue accounts is set at 2.5 per cent plus prime interest rate. Furthermore, municipal payments are allocated to capital first and then to interest.

c) Every municipality, during the budget process, must consider the affordability to the municipality when allocating free basic services above the national norm and to consumers other than indigent consumers. If a municipality has any arrears on any of its bulk supplier's accounts, it must limit its provision of free basic services to registered indigent consumers only.

d) Municipalities are encouraged to clear the control accounts monthly and to allocate trade and other receivable payments in these suspense accounts to the relevant debtor accounts regularly before the monthly submissions as required by the MFMA.

e) To address non-payment to Eskom, National Cabinet endorsed the recommendation that a smart prepaid solution for all municipalities be explored. NT, through the Office of the Chief Procurement Officer (OCPO), will soon facilitate a MFMA Circular No. 112 transversal contract to standardise prepaid smart meter solutions for electricity that align to minimum and critical technical specifications for local government. If a municipality or entity is currently in the process of procuring any smart meter solution or is planning to, it is cautioned against proceeding prior to the OCPO having issued and awarded the transversal prepaid smart meter Terms of Reference (ToR). With immediate effect, the municipality must obtain NT's input prior to proceeding with any current procurement or proposed procurement for any smart meter solution or similar system solution. This is to prevent unnecessary and wasteful expenditure on such solutions. Contact Mr Sadesh Ramjathan (Sadesh.Ramjathan@treasury.gov.za) for NT inputs on procurement of similar solutions.

f) Municipalities need to develop a Long-term Financial Model (LTFM) that support decisions on investment selection and assesses the financial impact of policy choices, by forecasting future financial performance and the impact of infrastructure projects on borrowing capacity. The LTFM needs to inform a municipality's long-term financial strategy, which must articulate a sustainable, efficient, and effective borrowing strategy and practices for the municipality and provide a clear statement of intent for lenders and other stakeholders. National Treasury will provide guidance to all municipalities on developing and implementing LTFM's and strategies, based on the pilot projects in this regard. The LTFM must be integrated with the MSDF's Capital Expenditure Framework, where this is in place.

g) Municipalities are advised to develop a Capital Expenditure Framework, linked to its Long-Term Financial Plan (LTFP) and LTFM, that sets out a 10-year capital expenditure portfolio of projects that are prioritised, sequenced, and within the affordability envelop defined by the LTFM and LTFP. This will guide capital expenditure over the short, medium, and long term, and assist a municipality in allocating its capital budget to capital projects that align to the municipal vision and strategies.

h) The Salary and Wage Collective Agreement for the period 1 July 2021 to 30 June 2024, as approved by the Bargaining Committee of the Central Council in terms of Clause 17.3 of the Constitution, should be used when budgeting for employee related costs for the 2022/23 MTREF. In terms of the agreement, all employees covered by the agreement shall receive with effect from 1 July 2022 and 1 July 2023 an increase based on the projected average CPI percentages for 2022 and 2023. Municipalities are encouraged to perform an annual head count and payroll verification process by undertaking a once-a-year manual salary disbursement, to root out ghost employees.

i) Municipalities are advised to budget for the actual costs approved in accordance with the *Government Gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of Different Members of Municipal Councils* published annually between December and January by DCoG. Municipalities should also consider guidance provided above on salary increases for municipal officials during this process. Any overpayment to councillors contrary to the upper limits as published by the Minister of Cooperative Governance and Traditional Affairs will be irregular expenditure in terms of section 167 of the MFMA and must be recovered from the councillor(s) concerned.

3.4.3 Implementation of Municipal Cost Containment Regulations

Provincial Treasury has a legal responsibility to advocate for fiscal discipline and financial prudency, the need for which cannot be over-stated in the current fiscal and socio-economic environment. The implementation of Municipal Cost Containment Regulations is crucial in this regard.

An effective cost containment program requires the active oversight of management, as well as a budgeting process that yields reasonable expenditure targets. A downside of cost containment is that management focuses too much on the cost side of the business, rather than pursuing new revenue opportunities. A delicate balancing act must be maintained between operational efficiency and the long-term sustainability of an institution.

Most non-metro municipalities are not budgeting on a quarterly basis as per Annexure D of MFMA Circular 97 which results in under reporting and compromise oversight efforts by Council, National Treasury and the relevant provincial treasury, to curb non-essential spending. Observations as per 2021 Quarter 1 reporting outcomes, are that non-metro municipalities allocated 46.8 per cent of the budget towards *Other related Expenditure Items* in terms of the Municipal Cost Containment Regulations. This requires a microscopic view to prevent unnecessary budgeting and spending by some municipalities as a result of the possible vagueness of this section in the Regulations.

Municipalities are encouraged to pay attention to the quarterly reporting requirements since the maturity in the 3rd year of the Municipal Cost Containment Regulations should be at a level where budget cuts and expenditure ceilings on certain items on the item, *Other related Expenditure Items* can be identified.

3.4.4 Addressing Unfunded Budgets

a) All tabled municipal budgets will be assessed by PT to determine whether they are funded. This assessment uses a Tool prescribed by NT. An assessment of the funding status will be provided to each municipality in their SIME assessment. Further information will be provided to any municipality found to have an unfunded budget on the factors that led to this status as well as advice on how to correct this.

b) Municipalities are reminded that they should make changes to ensure that they adopt a funded budget for all three years of the 2022/23 MTREF period. If a municipality fails to adopt a funded budget, a credible Budget Funding Plan must be developed. This plan must be tabled and adopted by Council and be submitted to National and Provincial Treasury with its tabled and adopted budget in terms of section 24 (3) of the MFMA. PT is available to review and provide guidance on the credibility of draft Budget Funding Plans.

c) Where municipalities have adopted an unfunded budget without a credible Budget Funding Plan, they will be required to correct the funding plan and ensure that it is credible. The credible funding plan must be immediately adopted by the municipal council, and the changes to the budget must be effected in the mid-year adjustments budget to ensure compliance with section 18 of the MFMA.

3.5 Municipal Standard Chart of Accounts

3.5.1 Release of Version 6.6 of the chart

Version 6.6 was released with MFMA Circular No. 112 and must be used to compile the 2022/23 MTREF budget. As per the mSCOA regulations, each municipality is expected to submit the prescribed supporting data strings containing the required data directly from the financial system using the LG Upload Portal.

The Budget, Adjustments Budget and Section 71 Monthly Reporting Schedules that have been regulated in terms of the MBRR have also been aligned to the mSCOA Chart Version 6.6. The revised MBRR Schedules for the 2022/23 MTREF, and its linkages to the financial and non-financial data strings are available on the link below:

http://mfma.treasury.gov.za/RegulationsandGazettes/Municipal%20Budget%20and%20Reporting%20Regulations/Pages/default.aspx

Requests for chart changes in the next version of the mSCOA Chart Version 6.6 should be logged on the Frequently Asked Questions (FAQ) database by 31 August 2022. Requests will be considered by the FAQ Committee, mSCOA Technical Committee and the mSCOA Steering Committee for the review of the Chart to be released by December 2022.

3.5.2 Budgeting and Reporting through MSCOA

a) The credibility of mSCOA data strings remains a concern, although improvements have been observed in some areas. The areas of concern include:

- The incorrect use of the mSCOA Chart and Segments, balance sheet budgeting, movement accounting and basic municipal accounting practices.
- Some municipalities are either not budgeting, transacting, and reporting directly from their core financial system; have not purchased all the modules of their core financial system; or have not upgraded to the Enterprise Resource Planning (mSCOA enabling) Version of their Financial System.
- Municipalities are not locking their adopted Budgets and their Financial Systems at month-end to ensure prudent financial management. The Local Government Database and Reporting System will therefore lock all submission periods within the reporting period at the end of each quarter to enforce municipalities to lock their Budgets and close their Financial System at month-end in 2022/23.

Municipalities should refer to the guidance provided in the mSCOA circulars issued by NT to classify their transactions correctly.

b) Municipalities are required to submit the C-schedule, primary bank statement, bank reconciliation, quality certificate, monthly budget statement and trial balance to the GoMuni Upload portal monthly in PDF format.

c) The trial balances should from 1 July 2022 include the following minimum information: the mSCOA item description; balance brought forward; movement debit; movement credit; and balanced closing balance at the end of the document. Furthermore, the name of the municipality, municipal code and relevant period (year and month) must be clearly identified in the submission. Municipalities should ensure that the monthly data string aligns to the trial balance submitted to the GoMuni Upload portal.

d) Municipalities are reminded to record and ring fence all funding and expenditure pertaining to the COVID-19 pandemic when budgeting and transacting in terms of mSCOA Circular No. 9 (9 June 2020). Once NT can draw COVID-19 reports from the mSCOA data strings for the majority of municipalities and the COVID-19 restrictions is lifted as per the Disaster Management Act, 2002 (Act 57 of 2002) and its regulations, the weekly manual reporting will no longer be required.

e) The purpose of the costing segment in mSCOA is to provide for the recording of the full cost for the four core municipal functions as a minimum requirement. The costing segment does not impact on the financial statements and will be recorded as a 'below the line cost' and are recorded in the management accounts to make decisions in formulating tariffs and cost control. Municipalities must refer to the mSCOA Project Summary Document (PSD) for the detailed application of the costing segment.

f) Municipalities are not populating the GPS Coordinates in the IDP/Planning and Budgeting stage for their projects. PRTA, PROR, PRAD Data Strings must be populated including GPS Coordinates. GPS coordinates enhances the identification of location of tangible assets, aids in maintenance and replacement of assets, enhances revenue collection and assists with the location of assets during the audit process. Municipalities must ensure that all projects and infrastructure assets have GPS coordinates. PT will analyse the PRTA, PROR and PRAD data strings for completeness in this regard.

g) Employers must pay 1 per cent of their employees pay to the skills development levy. This is a contribution of 1 per cent of the total amount paid in respect of salaries to employees, which includes overtime payments, leave pay, bonuses, etc. Therefore, this does not constitute employee related cost because it is not a compensation to employees, nor social contributions. Municipalities must ensure that the Skills Development Levy is correctly classified as operational costs as indicated in the PSD.

h) With reference to MFMA Circular 107 (4 December 2020) municipalities were required to implement the new property categorisation framework by not later than 1 July 2021. The mSCOA Chart Version 6.6 makes provision for the new and old framework. However, the old framework will be retired in the next version of the chart and municipalities are advised to implement the new property categorisation framework as legislated. To avoid duplication and overstatement of revenue from property rates municipalities should not use both frameworks.

i) National and Provincial Treasury will assess the 2022/23 MTREF budgets to determine if it is complete, funded and complies with mSCOA requirements. The mSCOA data strings for the tabled (TABB) and adopted (ORGB) budgets will be used for this assessment. To generate an adopted budget (ORGB) data string, the budget must be locked on the financial system by 15 July 2022. Therefore, once the ORGB data string has been generated, errors in the ORGB can only be corrected via the adjustments budget in February 2023. The TABB should be verified and errors in the TABB should be corrected in the ORGB before the adopted budget is locked on the financial system and the ORGB data string is generated.

3.5.3 Municipal Financial Systems

a) National Treasury will not be extending the RT25-2016 Service Level Agreements (SLA) for Financial Systems which expired in May 2019. Financial systems procured through this SLA therefore cannot be extended. Municipalities should instead approach the open market to procure a service provider for system support and maintenance. The Municipality may consider the use of long-term contracts in terms of section 33 of the MFMA. Where a municipality has entered an SLA for the provision of system support and maintenance through an open procurement process, the SLA may be extended in terms of section 116(3) of the MFMA.

b) Due to the high financial investment in procuring financial systems, it is not cost effective to change financial systems every 3 to 5 years. Municipalities need not procure a new financial system unless the system being used does not comply with the required business processes and system specifications. As such, the municipal needs must be re-evaluated to ensure that the IT systems in place are still i) compatible with the needs and systems of the municipality, ii) aligned

to modern technology and new legislative requirements and iii) cost effective prior to concluding long-term maintenance and support agreements in the event that there are other financial management solutions or systems that may be better or even more cost effective as opposed to the current ones that may be outdated.

3.5.4 Non-compliance with mSCOA Requirements

a) One of the key objectives of the mSCOA reform is to ensure that municipalities are planning, budgeting, transacting and reporting directly on and from integrated ERP systems to have one version of the truth in terms of the reported financial performance. All municipalities and municipal entities had to comply with the mSCOA Regulations by 1 July 2017. Several Regulations and best practices as per the MFMA Circulars have been introduced since the issuing of MFMA Circular No. 80 in 2016. These will be expanded on in 2022/23.

b) If a municipality has not yet achieved the minimum required level of mSCOA implementation, then a detailed action plan (road map) must be developed to indicate how the municipality will fast track the implementation of mSCOA. The action plan should include the system landscape, governance and institutional arrangements, system functionality and the proficiency of municipal officials to use the financial system (see section 5.3 of MFMA Circular 112 for further detail on what should be included in the action plan).

c) The progress against the action plan must be monitored by the municipality's mSCOA Project Steering Committee and should also be reported on at the 2021/22 Mid-year Budget and Performance engagements, the Budget and Benchmark engagements with the National and Provincial Treasury, as well as the SIME engagements. Copies of the action plan and progress reports should also be shared with the National and Provincial Treasury.

4. UPCOMING MFMA REPORTING REQUIREMENTS

4.1 Mid-year Report

a) As per section 72(1) of the MFMA, the Accounting Officer must by 25 January 2022 assess the municipality's financial and non-financial performance for the first half of 2021/22 and submit a report of such an assessment to the mayor as well as National and Provincial Treasury.

b) The Accounting Officer must furthermore make the report public by close of business on 31 January 2022. In turn, the mayor must also in terms of section 54(1)(f) of the MFMA submit the report to the municipal council by 31 January 2022.

c) Electronic versions (PDF and where applicable, Excel) of the report can be e-mailed to MFMA.MFMA@westerncape.gov.za copying in Dian.Cronje@westerncape.gov.za.

4.2 Annual Report

a) In terms of section 127(2) of the MFMA, the mayor is required to table the (draft) annual report in council within seven (7) months after the end of the financial year, i.e., 31 January 2022. Municipalities are encouraged to prepare and submit the annual report in the template as outlined in MFMA Circular No. 63 (26 September 2012).

b) In terms of section 127(5)(b), the annual report must immediately after being tabled in council, be submitted to the Auditor-General, the relevant PT and provincial department responsible for local government in the province. The tabled report can be e-mailed to MFMA.MFMA@westerncape.gov.za.

c) Section 129(1) of the MFMA prescribes that the council of a municipality must consider the Annual Report (as tabled) and by no later than two months from the date on which the Annual Report was tabled, adopt an oversight report containing the council's comments on the annual report.

d) In terms of section 132(2) of the MFMA, the approved annual report and the oversight report must be submitted to the Provincial Legislature within seven (7) days after the adoption hereof.

e) Section 129(2) of the MFMA states that minutes of the council meetings and oversight committee meetings at which the annual report is discussed should be submitted to the AG, PT and the provincial department responsible for local government in the province.

f) In terms of section 121(3)k of the MFMA, which indicates that the annual report of a municipality should include *any other information as may be prescribed*, the municipalities' attention is drawn to Section 13G of the Broad-based Black Economic Empowerment (B-BBEE) Act which requires the municipality to report on their compliance with B-BBEE in their AFS and annual reports. Municipalities were alerted to this requirement in section 4 of Treasury Circular Mun No. 29/2019 (1 November 2019). Compliance in this regard has been lacking. Municipalities are therefore reminded to provide the required information in the completion of the 2020/21 Annual Reports and AFS. The B-BBEE Commission's Explanatory Notice No.2 of 2021 (hereto attached as Annexure A) contains guidelines for completing the information required in terms of section 13G(1) of the B-BBEE Act.

5. KEY DATES OF THE 2022/23 INTEGRATED PLANNING AND BUDGETING PROCESS

Municipalities are urged to consult MFMA Circular 112 for information regarding the budget process and submissions. Provincial Treasury will issue a follow-up circular in which the budgeting process and submission, as well as the tabled budget, IDP and related documentation assessments and SIME engagements will be outlined.

The following key dates should be considered by the Municipality in the 2022/23 IDP and budgeting process.

Dates	Budget Process
25 January 2022	Mid-year Budget and Performance Assessment
31 January 2022	Tabling of Annual Report
28 February 2022	Municipal Main Adjustments Budget
23 February 2022	National Budget Day
8 March 2022	Provincial Budget Day
Latest 31 March 2022	Tabling of Annual Municipal Budget Adoption of Annual and Oversight Reports
Provisionally 25 April – 20 May 2022	SIME Engagements
31 May 2022	Adoption of Annual Municipal Budget

If municipalities require advice with the compilation of their respective budgets, specifically the budget documents or Schedule A1, they should direct their enquiries to the following WC PT officials:

Directorate	Official	Tel. No.	Email
MFMA Co-Ordination	Elton Johannes	021 483 4229	Elton.Johannes@westerncape.gov.za
Public Finance	Kim-Kay Neethling	021 483 9186	Kim-Kay.Neethling@westerncape.gov.za
	Isaac Tsie	021 483 6241	Isaac.Tsie@westerncape.gov.za
Budget Office	Malcolm Booysen	021 483 3386	Malcolm.Booysen@westerncape.gov.za
	Kim Engel	021 483 8459	Kim.Engel@westerncape.gov.za

ANNEXURE B

HIGH LEVEL SUMMARY OF CHANGES BETWEEN THE TABLED- AND PROPOSED 2022/23 BUDGET

HIGH LEVEL SUMMARY OF CHANGES BETWEEN THE TABLED- AND PROPOSED 2022/23 BUDGET

Amendments to the tabled budget catered for requirements only known subsequent to tabling of the 2022/23 budget, administrative transfers of budgetary provisions and updated grant funding allocations. The amendments to the 2022/23 tabled budget are listed below.

A. 2022/23 OPERATING BUDGET

- **Additional allocations incorporated into the tabled budget for adoption**

Directorate	Amount	Reason for amendments
Expenditure Adjustments		
Finance	300 000	Funds required for the budget- and tariff advert to accommodate the expected costs based on updated information and recent trends. To be funded within Rates.
Finance	9 766 853	Funds required for renewal premiums of existing insurance cover for the City's General Insurance Fund. Premium increases are mainly due to the increase in declared asset values to be insured, as well as a major increase in South African Special Risk Insurance Association (SASRIA) premiums. The increase will be funded within the Insurance Fund.
Corporate Services	18 000 000	Funds required for Centralisation of Fleet Tenders and Contract Management to address backlogs, improve turn-around times, quality- and vendor management and to maximise in-house capacity within workshops. To be funded within Rates.
Safety & Security	1 000 000	Funds required for the procurement of neighbourhood watch equipment. To be funded within Rates.
Urban Waste Management	10 000 000	Funds required for Area Cleaning on the N2. To be funded within Rates.
Office of the City Manager	6 610 120	Additional allocation to increase Municipal Court capacity in order to reduce current backlogs. To be funded from the projected additional traffic fine revenue that will be generated.
Revenue Adjustments		
Safety and Security	9 500 000	Increase on Fines Revenue linked to additional Municipal Court capacity.

- **Update on Provincial grants and donations (as per Provincial Gazette Extraordinary 8566 Dated 14 March 2022) and Other grants and donations**

Description	Amount	Comment
Provincial Grants		
Provide resources to serve in the City of Cape Town Law Enforcement Service (LES)	(2 000 000)	Decrease within Safety & Security directorate.
Resourcing Funding for Establishment and Support of a K9 Unit	(1 783 000)	Decrease within Safety & Security directorate.
Primary Health	(9 375 000)	Decrease within Community Services & Health directorate.
Integrated Nutrition	(180 000)	Decrease within Community Services & Health directorate.
HIV and Aids	6 675 000	Increase within Community Services & Health directorate.
Human Settlement Development Grant	(6 370 000)	Decrease within Human Settlements directorate.
Municipal Accreditation and Capacity Building Grant	2 500 000	Increase within Finance directorate.
Title Deeds Restoration Grant	11 129 000	Increase within Human Settlements directorate.
Transport Systems - Rail Safety	(20 000 000)	Decrease within Urban Mobility directorate.
Provide resources for the Tourism Safety Law Enforcement Unit project	(6 000 000)	Decrease within Safety & Security directorate.
Provincial Library Services: Conditional grant	4 180 000	Increase within Community Services & Health directorate.
Library Services: Transfer funding to enable City of Cape Town to procure periodicals and newspapers	(91 000)	Decrease within Community Services & Health directorate.
Community Development workers (CDW) operational support grant	33 000	Increase within Corporate Services directorate.
Other Grants and Donations		
Private Funding	7 745 324	Increase within Safety & Security directorate for the deployment of part time law enforcement- and traffic officers at schools and within City Improvement districts.
Private Funding	(3 000 000)	A decrease within the Water & Sanitation directorate relating to the KFW technical assistance grant.

- **Shifting of Public Transport Network Grant funding amounting to R27.26 million from the capital budget to the operating budget for Public Transport Interchange projects within the Urban Mobility directorate.**

B. 2022/23 CAPITAL BUDGET

Amendments included re-prioritisation of projects in certain directorates, i.e. Community Services, Corporate Services, Energy, Future Planning & Resilience, Human Settlements, Urban Mobility, and Water & Sanitation, to align with latest implementation plans.

Amendments also included sub council supported resolutions resulting in the re-allocation of budgetary provision to implementing line functions post confirmation of project support by newly elected Ward Councillors. A few projects/items required movement from the capital budget to the operating budget due to the nature of expenditure.

A few additional allocations were also incorporated into the 2022/23 budget, namely:

- R1 million for laptops, tools and equipment, and furniture to capacitate additional staff in the Fleet Management section to deliver on the centralisation of fleet contracts and tenders as well as the upgrading of fleet workshops.
- R1.3 million for CCTV cameras, IT equipment and office equipment where this expenditure would permit the archiving of records, which currently sit in holding cells and in an entire extra court in Cape Town. This investment will allow the functioning/utilisation of the second court, which would generate additional revenue, as an additional court could accommodate a second court roll.
- R7 million to purchase additional radios, vehicles, firearms, computers and EPIC devices in the Law Enforcement department to meet the requirements of the Facilities Protection Officers (FPO)/Escorts projects.
- R8.1 million for Hanover Park Ablutions Upgrade, Bonteheuwel Ablutions Upgrade, Kuyasa MPC Alterations & additions, Kuyasa MPC Parking area fencing as well as Khayelitsha MVR Office roof refurbishment, which are facilities in need of rehabilitation/upgrades.

The table below reflects the high-level changes per major funding source between the March tabled budget and the May proposed budget.

Major Funding Sources R'000	Tabled Budget 2022/23	Proposed Budget 2022/23	Diff between March and May 2022/23	Tabled Budget 2023/24	Proposed Budget 2023/24	Diff between March and May 2023/24	Tabled Budget 2024/25	Proposed Budget 2024/25	Diff between March and May 2024/25
Capital Grants and Dontations (CGD)	2 301 591	2 271 867	(29 724)	2 657 630	2 643 500	(14 131)	3 567 068	3 551 397	(15 671)
